

HERE'S A Memory Test FOR A PRIZE.

before it began. They did not even know that there was to be a reward of merit. They were told to report at the Lincoln School and await developments—nothing more.

The Chief was unavoidably detained by the Grand Jury and arrived half an hour late. He was ushered in with the brief introduction, "This gentleman will say a few words to you." Without any prelude he made the brief speech which was taken down verbatim and which will be found below. Then he left immediately.

After he was gone the children were given the fifteen questions, also reproduced on this page, and asked to answer them. The result is surprising.

Children are said to be even closer observers of personal peculiarities than grown-up people, and as Chief Wittman is a man of most notable appearance, he was a good subject to test their receptive faculties. The impression he made on some of the pupils is astounding.

The test is truly interesting as showing the value of school training.

As a reward the five children who gave the best answers will be taken to the Lick Observatory on Mount Hamilton by The Sunday Call, because such a trip presents exceptionally fine educational advantages, besides affording a pleasant outing. As a supplementary reward a prize of \$15 will be given to the boy or girl who writes the best description of the trip.

HERE is the second, and last, installment in a memory test for a prize. It is not only unique; it is exceptionally important and interesting to parents and children alike.

On Wednesday afternoon, March 12, a representative of The Sunday Call arranged, through Superintendent of Schools Webster, to have forty pupils—eight each from the Lincoln, Clement, Hamilton, Horace Mann and Mission Grammar Schools respectively—assembled in one of the classrooms of the Lincoln School to listen to a short talk by Chief of Police Wittman, and to reproduce the same as a memory test, together with a minute description of the speaker as an observation test.

The children—the brightest and cleverest in their classes—were equally divided as to sex, four boys and four girls from each school, but the object of the meeting was kept a profound secret from them. Not one of them knew what they were to do, whom they were to meet, or what they would say. It was to be a memory test pure and simple, with absolutely nothing to put them on their guard.

EXACTLY WHAT HE SAID.

I AM glad to be with you this afternoon, but first let me apologize. I am sorry to have kept you waiting so long. We were to have been here sooner, but circumstances over which neither Miss Fraser nor myself had any control prevented us from being here on time.

I am glad to look into your bright, earnest faces. You look interested. I like to notice people and I like to have people take notice of me. My business is one that requires me to notice closely people and their peculiarities—their habits, and in fact everything that comes within my observation. I have to pay close attention to details and store them up in my mind and be able to recall them at any moment.

This faculty is necessary to every one in whatever line of work he may be. The receptive faculty is a good one for boys and girls to cultivate, and like others it can be mastered only by application.

Success in life in every line depends on application to the matter in hand, and this faculty is a very essential one in all lines. These young men here may be the Pierpont Morgans of the future and these young ladies the wives of millionaires. Large duties will devolve on them. You may have to entertain large companies and you must remember the names and faces of your guests. This brings in the faculty of observation and memory. In fact, in all walks of life the leaders are those that have risen through strict attention to details, which is a great factor of success.

When you get home at night try to remember what transpired during the day—each little event—and the people you have come in contact with. Cultivate the habit of remembering dates and faces.

I hope to see you again some time and talk to you individually on different subjects. You are looking at me and I am looking at you, and I hope we will know each other next time we meet. When you see me on the street come up to me and say, "Come up and say, 'How do you do?' Don't you remember me?" See if I say, "Yes, I met you at the Lincoln School Wednesday, March 12." That will put me to the test. See if I practice what I preach. If I don't remember you, then you'll have the laugh on me. Good-day.

14—American.
15—He said that if we should ever see him on the street we should go up and speak to him, ask him if he remembers us and see if he says "Yes, at the Lincoln School on March 12, 1902," and if he does not remember we will have the laugh on him. He also said when he first came in "That he was sorry to have kept us waiting, but he could not get here early on account of his business." He said "that he was glad to see such pleasant looking on the young ladies' and the young gentlemen's faces; that he hoped as we were growing up we would pay particular attention to things that were going on around us. Pay particular attention to people, that you might be able to answer questions if any were put to you, and he hoped that some day the young ladies would be millionaires, or at least the wives of millionaires, and the young gentlemen would be another 'Armour,' or, in other words, millionaires." And he sincerely hoped that we would meet again.

FRANCES ZAGREWSKI,
1—I don't know his name.
2—I think he is about 35 or 40 years of age.
3—I think he is 6 or 7 feet high and weighs about 150 pounds.
4—I think his eyes are gray.
5—The color of his hair is light brown.
6—He has only a mustache.
7—I think he has no scars on face or hands.
8—His face is long, and his forehead is not very high.
9—I have noticed no peculiarity of dressing.
10—He wears a ring and a watch.
11—I think his hands are kind of large.
12—I think he walks like any other gentleman.
13—Any peculiarity of the man that would be noticeable if you have a good description of his features.
14—I think he is an American.
15—He said to me that if we ever met him to say "How do you do?" and ask him if he knows me and ever saw me at the Lincoln School on Wednesday, on April 12, 1902, and if he said he did not remember we could laugh at him. He also said that he would notice our face and remember us if we could.
