STENOGRAPHER EDWARDS DISAPPEARS MYSTERIOUSLY

Employe of the Board of Public Works Has Not Been Seen Since March 17.

Judge Graham rendered judgment in favor of the defendants yesterday in a suit on a promissory note brought by R. A. Edwards against John T. Davis and H. P. Williams. The plaintiff failed to appear. The note, which was for \$300, was held originally by H. Lorraine, who assigned it to Edwards, who was a stenographer in the employ of the Board of Public Works under the name of R. F. Ellison. His failure to appear yesterday to prosecute the suit led to the investigation, which developed the fact that Edwards or Ellison had not been seen since March 17. Secretary J. Leo Park said he received a note from Edwards or Ellison, as he was known in the office, stating that he would leave for the East in a few days to visit his brother, whom he said was very ill. That was the last heard of the stenographer.

GALVIN SENTENCED TO TEN YEARS IN PRISON

He Was Convicted of Grand Larceny for Robbing Mrs. Ellen J. Foote.

Thomas Galvin, the bartender who was tried for robbery and convicted of grand larceny by a jury in Judge Cook's court appeared for sentence yesterday. The Judge sentenced him to the extreme penalty, ten years in San Quentin, remarking that the jury by its verdict had extended to him all the leniency possible. Anita Clark, who pleaded guilty to robbery with a knife, was sentenced to six months in the county jail. Galvin and the Clark woman robbed Mrs. Ellen J. Foote in her rooms at the Elvium, 66 Geary street, on December 29 of 1900 and during the struggle with her Mrs. Foote's jaws were broken. At his trial Galvin testified and was later indicted by the Grand Jury for perjury. He has to stand his trial yet on that charge.

BOARD OF PUBLIC WORKS

Refuses to Open Streets in the Bay View District. Says Fences Serve as Protection to the Traveling Public.

The Board of Public Works sent a caustic reply yesterday to the Grand Jury, which had previously requested that the evils existing in the University Mound and Bay View districts be remedied by opening Thirty-fourth and Thirty-fifth avenues, between K and Railroad, and the streets bounding the block in which the South End School is located. The communication says:

In reply this board begs to inform your honorable body that it will at the earliest practicable date have a survey made of the block in which the South End School is located and of the streets surrounding the said block, from which survey it will be enabled to fix the official lines of the said streets. When these lines are definitely determined this board intelligently and effectively proceeds to cause the said streets to be opened to the official widths thereof and thereby preclude the probability of future controversy as to the extent of encroachments thereon.

As to the opening of Thirty-fourth and Thirty-fifth avenues, between K street and Railroad avenue, this board deems that the removal of the existing fences will be at the present time inadvisable, since they serve as barriers to protect the traveling public from the dangerous and unimproved thoroughfares of K street and said avenues as well as to protect the property of the owners of the same. It is the policy of this board, as the result of an investigation by its committee on the subject, to make a recommendation in the premises, regards it essential to the protection of vehicular travel to have erected and maintained fences on the westerly side of said K street, where it intersects said avenues, until such time as said streets and avenues are suitably improved. Instead of the removal of the fences, the board recommends that substantial foot bridges with proper guard rails be constructed over the said chasm in K street by property owners.

Whether your honorable body is familiar with the principles governing the cases here in question as well as with the position of the municipality in relation to the matter is a compromise one does not, for that reason, entitle it to any other than an impartial and disinterested opinion. It is the duty of the board to determine that which existing conditions lend support to, since it is the duty of the board to perform its official duties regardless of any proposition involving a limitation to the exercise of its powers, and here be any legal obligation on the part of the municipality to remove fences which are now maintained in portions of the said chasm in K street, notwithstanding the unimproved and naturally rugged surfaces of such streets, which render such a removal a source of obligation is declared by a court of competent jurisdiction, then this board will willingly obey the mandate and cause the removal of such fences.
