

92 YEARS OLD, KIDNEYS HEALTHY.

MRS. REBECCA SMITH OF WESTFIELD, N. J., WHO IS 92 YEARS OLD, WAS CURED OF KIDNEY AND BLADDER DISEASE AND IS KEPT PERFECTLY HEALTHY BY WARNER'S SAFE CURE. A TRIAL BOTTLE OF THIS GREAT CURE SENT ABSOLUTELY FREE TO ANY READER OF THE SAN FRANCISCO CALL.

Doctors Say: "Almost Every One Has Kidney and Bladder Troubles Before Fifty Years of Age."

On November 18, 1891, Mrs. Smith says: "I was 92 years old my last birthday. My husband was a veteran of the Civil War. I have a daughter and eight grandchildren living. Some years ago I had a great deal of sickness, and for a long time did not know that it was caused by the diseased condition of my kidneys and liver. As soon as my doctor found I had kidney troubles he prescribed Warner's Safe Cure. I had experimented with other remedies which did me no good whatever, but as soon as I took a few doses of Warner's Safe Cure I felt better, and a few bottles completely cured me and made me feel like a woman thirty years young. My kidneys, liver and bladder are in just as healthy condition since I have used Warner's Safe Cure as they were fifty years ago. It is a greater medicine than it is claimed to be. Notwithstanding I am 92 years old, I possess a good head of hair, my sight and hearing are good and since I have used Warner's Safe Cure I have enjoyed the very best of health. I cannot speak too highly of this great medicine. No doubt it has saved the lives of thousands of people who would have gone to early graves had they neglected their kidneys and bladder and not taken Warner's Safe Cure. It is truly a Godsend to any one who is troubled with diseases of the kidneys, liver or blood.

Kidney disease neglected quickly spreads and causes serious complications such as Bright's disease, gravel, uric acid poison, rheumatism, rheumatic gout, dropsy, indigestion and liver trouble. Every one should make a test and if the slightest trace of kidney disease is found to exist no time should be lost in sending for a trial bottle of Warner's Safe Cure which is guaranteed to cure any diseases of the kidneys, liver, bladder or blood.

THOUSANDS OF MEN AND WOMEN HAVE KIDNEY DISEASE AND DO NOT KNOW IT UNTIL IT IS TOO LATE.

TEST YOUR KIDNEYS. Put some morning urine in a glass or bottle; let it stand for twenty-four hours. If there is a reddish brick-dust sediment, or if particles or germs float in it, your kidneys are diseased. This is the supreme moment when you should begin to take Warner's Safe Cure to treat all these abnormal conditions, for they are the unmistakable symptoms of kidney disease. If, after you have made this test, you have any doubt in your mind as to the development of the disease in your system, send a sample of your urine, and our doctors will analyze it and send you a report with advice, free.

Warner's Safe Cure

is purely vegetable and contains no harmful drugs; it does not constipate; it is now put up in two regular sizes and is sold by druggists direct, at 50 CENTS AND \$1.00 A BOTTLE.

Refuse substitutes. There is none "just as good" as Warner's. Insist on the genuine Warner's Safe Cure, which always cures. Substitutes contain harmful drugs which injure the system.

TRIAL BOTTLE FREE.

To convince every sufferer from diseases of the kidneys, liver, bladder and blood that Warner's Safe Cure will cure them, a trial bottle will be sent absolutely free to any one who will write Warner's Safe Cure Co., Rochester, N. Y., and mention having seen this liberal offer in The Call. The genuineness of this offer is fully guaranteed by the publisher. Our doctor will send medical booklet, containing symptoms and treatment of each disease and many convincing testimonials, free, to any one who will write.

FRENCH COMMISSIONER SUFFERS SEVERE INJURY

Member of Rochambeau Party Slips on a Rug and Fractures a Leg.

BOSTON, May 31.—A mishap befell a member of the Rochambeau mission here today, when Major Berthelot, the aide-de-camp to General Brugere, sustained a fracture of the left leg.

The accident happened at the navy yard at Charlestown, where Major Berthelot, with Vice Admiral Fournier and staff, went to inspect the buildings, equipment and ships. While passing from the hall of the commandant's house into the reception-room Major Berthelot tripped over a rug on the polished hardwood floor and fell. He was unable to rise and had to be assisted to a cot. Doctors hastily summoned found that one of the bones of the left leg had been fractured. As soon as possible the injured officer was taken to the French hospital at the navy yard, where the ship's surgeon tended him.

The accident caused some confusion and brought the visit to the navy yard to an abrupt end. Admiral Fournier and staff had previously been received with full honors by Admiral Johnson.

HISSES SOUND IN THE SENATE

Carmack's Criticism of Mayor Patten of Evans-ton Arouses Soldiers Wrath.

Spooner of Wisconsin Speaks Eloquently of Island War.

WASHINGTON, May 31.—Hissing in the Senate is so unusual that when it occurred in the course of the Philippine debate today it created a sensation.

Spooner of Wisconsin was speaking, and referred incidentally to the story that a thousand Filipino bandits had been driven by American troops in trenches which they were compelled to dig. Lodge of Massachusetts said the story had been denied by the father of the soldier who had started it, and that the War Department had called to General Chaffee to ascertain the facts.

Carmack of Tennessee interrupted to say that no doubt the soldier would deny the story as all soldiers in the Philippines had been instructed to do. His remark was greeted with hisses from the gallery, the demonstration of disapprobation calling out a sharp rapping of the gavel from the chair.

Spooner occupied nearly five hours of today's session in concluding his speech begun Thursday. His eloquence and earnestness attracted the attention of all Senators and of hundreds of occupants of the crowded galleries. He maintained that the United States could not leave the Philippines "like a coward" and abandon people who had come under our protection, thus surrendering them to tyranny and chaos.

He did not believe in the admission of the Philippines into the Union, but in the conduct of the islands nothing savoring of imperialism had been suggested except for party purposes.

In the course of his speech, Spooner became involved in a spirited colloquy with Hoar of Massachusetts, during which Hoar read a statute of the State of Massachusetts, which offered a reward of \$100 for the scalps of male Indians over the age of 12 years.

Spooner himself did not attempt to justify it, simply citing it as an instance of cruelty in the fighting of savage nations.

Pettus of Alabama discussed some of the legal phases of the Philippines question and McClain of Mississippi, but the Democrats in the Senate had not slandered the army as had been charged.

RUNAWAY AUTOMOBILE CAUSES DEATH AND INJURY

One Man Killed and Others Severely Hurt by Disaster at Speed Tests.

NEW YORK, May 31.—An automobile going at high speed became unmanageable during a speed trial on Staten Island today and plunged through a crowd of spectators. One man was killed, and four men and two women were seriously injured.

The occupants of the vehicle jumped and escaped with a few slight bruises. W. C. Baker, president of the Baker Motor and Vehicle Company of Cleveland, and his assistant, Edward Deizer, who were driving the machine, were placed under arrest and held in \$5000 bail, each charged with homicide.

The killed and injured are: Andrew Featherston, skull fractured and internal injuries; died instantly. Captain Thomas Taylor of the quarantine steamer Governor Flower, right thigh fractured and left leg broken; Mrs. Louise Johnson, leg fractured; John F. Brick, scalp wound; Mrs. Ellen Hay, cut about face and head; Patrick Kenney, thigh fractured; John Bogart, leg fractured.

The speed trials were under the auspices of the Automobile Club of America, over a mile course. Baker's big egg-shaped car of seven horsepower was the only entry of its class. When nearly the finish line had no chance to get away. There were screams and a wild rush, in which men and women were knocked down and trampled upon, but before they had taken five steps the machine struck them. Mr. Featherston was directly in front of the path of the automobile. It struck him with terrific force and he was thrown twenty feet in the air. Brick and Bogart were also struck by the machine. The others were injured by being trampled upon.

The race up to the time of the accident were very successful. Two records were broken. C. H. Metz making a mile in his motor bicycle in 1:30.25, against 1:32; the former record of 1:47.15, lowered by the world's mile record for steam automobiles from 1:35 to 1:32.

Re-establishment of business in Fort de France is restoring confidence and the work of relief is being actively carried out by a perfected organization.

A Judge's Recovery.

"PE-RU-NA IS ONE OF THE BEST TONICS I EVER TOOK."

JUDGE FRANCIS DEAN SYRICK.

"I AM NO LONGER SUBJECT TO COLDS," SAYS JUDGE SYRICK.

Judge Francis Dean Syrick of Richmond, Va., is a prominent attorney of Washington, D. C. In a recent letter written from 1341 L Street, Wash., D. C., he says:

"I have for some time been troubled with a malarial condition of the system, thus making me susceptible to cold and rheumatic conditions. A friend recommended Peruna to me some time ago and I commenced taking it and after a few days I felt the beneficial effects of the medicine. I am going to continue taking it, for I can say without hesitancy that it is one of the best tonics that I ever took."—FRANCIS DEAN SYRICK.

THE SECRET.

How Doctors Protect Themselves From Contagious Diseases.

Doctors rarely catch contagious diseases. Almost everybody knows this, but few know how they escape. Many believe that the doctor has some charm or anti-septic which protects him. Dr. Hartman lately made the truth of this matter public by all that might realize its benefit. Contagious diseases are conveyed by minute organisms known as disease germs. These germs find their entrance into the system through the mucous membrane. If the mucous membrane is healthy they cannot get into the system. If the mucous membrane is affected by catarrh the germs find easy access. Catarrhal secretions furnish exactly the material upon which they thrive and multiply. To get rid of the catarrh and thus preserve the mucous membrane healthy is the only way to be safe from contagious diseases. This explains why it is that some people catch diseases easier than others.

LEAPS FROM A BRIDGE TO ESCAPE THE ENGINE

Railroad Track Inspector Saves His Life, but Receives Serious Injuries.

WILLOWS, May 31.—Henry Moore, track inspector of the Southern Pacific Company, had a sensational escape from death this morning while crossing the trestle over Stony Creek, near Oriand. Moore runs over this division every day on a gasoline velocipede. As he was crossing the bridge which is twenty-five feet from the bed of the creek, he saw an engine approaching at high speed from the opposite direction. Realizing that he could not reach the end of the trestle before the engine was upon it, he stopped. Turned his machine directly toward the locomotive in his own direction.
