TRACY AND MERRILL ESCAPE THE POSSES ON THEIR TRAIL.
Brother of Murdered Guard Will Alone Try to Run Them Down.

PORTLAND, Or., June 13.—The hunt for Tracy and Merrill, the escaped convicts, has been abandoned by Sheriff's Durbin and Cook and the State troops have been sent home. Governor Geer has doubled the reward for the capture of the fugitives, dead or alive, making it now \$3000, which may lead some one to take up the chase again. Both Sheriffs will hold themselves in readiness to proceed in the direction of any authentic report of the whereabouts of the two outlaws, but until such information comes, it is believed, it will be just as well to wait at home and allow the fagged out men and dogs to take the rest which has been denied them in the past five days.

Charles Ferrell of Reno, Nev., a brother of Guard Frank Ferrell, who was murdered by Tracy and Merrill, has arrived here and declares that he will alone take up the trail of the fugitives and endeavor to run them down.

When the convicts are now no one knows. They may be walking calmly along some mountain road in Blackamas County, headed for the mountains, or they may be working their way toward Portland. They have five pounds of bacon, sufficient to enable them to travel several days without disclosing their whereabouts by applying for food at ranches, and they are undoubtedly rested by this time from the strain of the first flight ahead of the bounds.

The officers believe it is more than likely that they will come eventually to Portland. At all events, they are further than ever away from capture and the only hope the Sheriff has of finding them is in reports that come in from along their route when they become hungry and seek food at a farmhouse. Through the densely matted bushes that fill every bottom and swale and in the fir forests a little further up the range they could move for days without attracting notice.

Sheriff Durbin and his forces hit the trail of the convicts early this morning in the bottom below Graves. The dogs proceeded rapidly for a time and then lost the scent, which was cold. Once more E. M. Carson, who has charge of them, pushed through the brush and urged the hounds on, once more they found the trail, but the convicts had evidently backtracked and presently the dogs, completely baffled, gave it up, and that was the last trace of the convicts.

SALEM, Ore., June 13.—Governor Geer and Superintendent Lee of the penitentiary tonight offered a reward of \$3000 for the capture and return, dead or alive, of Tracy and Merrill, the escaped convicts. This is double the amount offered heretofore.

Decree in Brown Divorce Suit.
 SAN JOSE, June 13.—The decree in the suit of Maud L. Brown for divorce from Milton V. Brown has been filed. It shows a separation was granted on statutory grounds, the co-respondent being a Los Angeles woman. The plaintiff was awarded alimony, counsel fees and a right to recover her husband's name. Evidence showed that the relations between the couple had been of the most amicable nature until the cause of suit occurred, which was his wife's refusal to file the complaint was filed. There had not been any desertion of the plaintiff on the part of the defendant.

To-Day's News Letter.
 This week, in accordance with its annual custom, the San Francisco News Letter has issued an outing number, with a colored cover, and fully illustrated. It is a perfect guide to rest-seekers. None of the regular departments have been neglected, and altogether it is a number of unusual merit. Parts of the State where one may enjoy a few weeks' respite from work and worry are given in a complete guide for the prospective rest-hunter. In addition to this the News Letter has its regular departments, each one of which is of interest to the reader. Evelyn Madison has written for this issue an extremely bright and entertaining summary of the news of the week, which is full of humor and satire, and has a touch of tragedy. "The Incarnation of the Summer Girl," by W. O. McGehehan, is appropriate to the occasion. "The Telephone as a Means of Warfare" is a delightful burlesque. Then there are the department devoted to literature, drama, finance and insurance all handled by specialists. The society department is complete, and the Looker On tells the great stories on the visiting and local Shriners. The Town Crier does not forget to show his temper, and altogether it is a number of extra merit.

Can File Notice of Dismissal.
 The Supreme Court yesterday issued a writ of mandate compelling the County Clerk to allow Ida W. Hopkins to file notice of her dismissal of a suit for divorce. The lower court ordered Mrs. Hopkins to pay the costs of the suit. Her husband and directed the County Clerk not to permit her to file a notice of dismissal until this should be done. The Supreme Court holds that this order was illegal.

News in Army Circles.
 Two troops of the Third Cavalry, Major Otto Hein in command, led yesterday for several months' duty in the Sequoia, General Grant and Yosemite National parks. Twenty-eight unclaimed bodies of soldiers who died in the Philippines were buried at the Presidio yesterday. Company I, Ninth Infantry, will leave for Madison Barracks, New York, next Tuesday.

NEW ADVERTISEMENTS.
WHAT CAUSES DANDRUFF.
 Greatest European Authority on Skin Diseases Says It's a Germ.
 The old idea that dandruff is scales of skin thrown off through a feverish condition of the scalp is exploded. Professor Unna, Hamburg, Germany, European authority on skin diseases, says dandruff is a germ disease. The germ burrows under the scalp, throwing up little scales of cuticle and sapping the vitality of the hair at the root. The only hair preparation that kills dandruff germs is Newbro's Hairdressing. Destroy the cause, you remove the effect. Not only cures dandruff, but stops falling hair and hair dressing.

BRAVE FIREMEN RESCUE A DROWNING SCHOOLBOY
 Four Members of Engine-House 32 Jump Into a Reservoir and Save Little Ray Hawley's Life at Risk of Their Own

LITTLE BOY WHO WAS RESCUED FROM A WATERY GRAVE BY FOUR BRAVE FIREMEN, THREE OF WHOM COULD NOT SWIM, AND ONE OF THE RESCUERS.

RAY HAWLEY, aged 9 years, who lives with his parents at 440 Chenery street, owes his life to the bravery of four firemen, members of the local department. He fell into the Spring Valley Water Company's reservoir, which is located at West Avenue and Holly Park, and would have drowned had not Captain Eugene O'Connor, Lieutenant George Styles, Engineer W. S. Casaboit and Hoseman Thomas Connors plunged into the cold waters and saved him. The rescue was a thrilling one. The four men, whose duty it is to save property and lives at fires, plunged into the water with as much nerve as they would display at the biggest conflagration.

Lieutenant Styles was the only swimmer in the quartet, but this did not stop the others from plunging into the reservoir, which is 25 feet deep by actual measurement. The deed the four performed yesterday is equally as notable as those performed by heroes who have been awarded the Scamell Medal. They took their lives in their hands, their only thought was to save a life, and having done so they were rewarded with a badge of honor.

Little Ray and his smaller brother, Jerrold, were watching the seizers that flow over the aerator on the Holly Park reservoir. They were curious to know what made the water flow incessantly over the sides of the artificial waterfall. Ray, who is an intelligent lad, spoke to the latter volunteer in the vicinity and the latter volunteered to conduct the youngsters to the spot so that they could see for themselves. According to the boy the unknown man brought them as far as the fence and pointed a way by which they could enter the grounds and play. Once inside the water company's property the little Ray and his brother soon came to the lake and played

along its banks. Strange to relate, the watchman was not in sight, and their fun was not mugged. Ray suggested that they take off their shoes and stockings and cool their feet. With shoes and stockings in hand they moved from bank to bank, having a jolly time. At last they came to a landing and Ray, who had been invited to swim, jumped into the water and watched for fishes. Ray lost his balance and fell in. His younger brother began to scream and cry for his brother. Fortunately some one in the neighborhood saw the lad in the water and ran to engine house No. 22 and notified the firemen. Without a moment's hesitation the four brave men vaulted the high fence and rushed through the grounds. They saw the lad struggling in the water and renewed their pace. When they came close to where he fell in they could only see his fingers wriggling in the water.

FIREMEN TO THE RESCUE.
 Captain O'Connor learned during the run that Styles was the only swimmer in the party.

"Lieutenant," he yelled, "jump in there and save the boy."

Accustomed to obey, Styles jumped in with all his clothes on. He dove and brought the lad to the surface. Captain O'Connor, Engineer Casaboit and Hoseman Connors saw their comrade and watched for fishes. Ray lost his balance and fell in. His younger brother began to scream and cry for his brother. Fortunately some one in the neighborhood saw the lad in the water and ran to engine house No. 22 and notified the firemen. Without a moment's hesitation the four brave men vaulted the high fence and rushed through the grounds. They saw the lad struggling in the water and renewed their pace. When they came close to where he fell in they could only see his fingers wriggling in the water.

Plan Big Celebration.
 At a meeting of the Labor Council held last night, extensive plans were laid for the celebration of Labor day. The council, after much discussion, decided to raise the boycott on the Techau Tavern and also the restaurant owned by Ruediger & Loesch.

Grants Leave to Compromise.
 Judge Trout yesterday granted permission to the executors of the estate of Calvin Fargo to effect a compromise with Miss Jennie Duit. Miss Duit accepts \$8000 and withdraws her claim upon the estate of the deceased liquor man. She claimed to be his widow.

GRAM'S SUPERIOR ATLAS.
 A car-load of Call Superior Atlases has arrived and they are now ready for distribution. All subscribers to the atlas are entitled to a copy of this great book at the present rate of \$1.50. Out of town subscribers desiring a copy of this splendid premium will be supplied on receipt of \$1.50. All mail orders will be shipped by express at subscriber's expense.

Union Newsboys Meet.
 The inaugurators of the Newsboys' Union met at the Turk Street Temple last evening when they enrolled many new members. Rob Wall, known to his comrades as "the king of the newsboys," occupied the chair. He was supported by "Bovary Red," king of the Seattle newsboys, who had come to the city purposely to assist in the organization and with that end in view brought with him a set of rules that guide the destiny of the union in Seattle. Wall also had the assistance of "Arty" Zellinsky, the secretary, and John Murphy and Pete Enright, sergeants-at-arms. It was announced that there are already 350 members in the union and there is every prospect that in a few days the treasury will contain \$50. "Bill" Murray, the boy who had to undergo the amputation of his leg, was given a badge of honor and was admitted a member of the union free of dues for the next year.

Shriners. Get this week's Wasp; parade pictures; San Francisco Illustrations; 20 pages; Splendid souvenir. All news stands, 25c.

Election of League Officers.
 At the election of officers of the League of the Cross of the antiochians of San Francisco, which took place last Wednesday night at 108 Grove street, the following were elected: President of the board of directors, Dr. Richard Dowdall; vice president, Dr. Cunningham; secretary, Dr. Christie; secretary, James Hayes; colonel of the First Regiment, League of the Cross Cadets, Colonel James E. Power.

BRINGS VEGETABLES TO DUST OF DUST.
 Steamer Princess May Carries Klondike Cargo.
 Officers Report That Much Gold Is Being Smuggled Down the Yukon.

VANCOUVER, B. C., June 13.—What may practically be termed the first gold to arrive from the Klondike this season was brought here to-day on the steamer Princess May. Approximately \$150,000 in dust came on the vessel. About \$70,000 came down on the City of Seattle. Accurate news of the clean-up is difficult to obtain, as claim owners keep the results very quiet.

It is the opinion of the Canadian customs officers at Caribou that much gold dust is surreptitiously being run down the Yukon to St. Michael. Such gold, of course, does not pay the royalty now in force and therefore will never be classed with the output of the Yukon district.

When the Dawson passengers of the Princess May left the Klondike metropolis five cases of smallpox had broken out among the passengers of the steamer White Horse and it seemed likely that there would be a somewhat lengthy detention of the vessel and her passengers and crew. Those on board the White Horse when she was quarantined and the rest of the passengers were detained at Dog Island, below Dawson.

The low water in the Yukon is still giving the river steamers a great deal of trouble. At times the water rises under the influence of the warm sun, but a fall in temperature sends it down again.

Contractor Porter, who had charge of the repairing of the cable connecting Juneau with Skagway, performed his work successfully and on June 9 the first messages between the two points were transmitted.

SATISFACTORY REPORT ON FLORAL EXHIBITION.
 Receipts at Show Cover All Expenses and Leave Balance to the Good.

The California State Floral Society met yesterday at 232 Sutter street. Those present were:

Mrs. John R. Martin (chairman), Mrs. Emma Hodgkins, Mrs. H. D. Trichon, Mrs. A. R. Gannon, Mrs. M. M. McDevitt, Mrs. Faustine Sperry, Mrs. J. Leach, Mrs. J. Knell, Mrs. J. Brannin, Mrs. M. McDevitt, Mrs. C. Pestor, Mrs. E. Friedlein, Mrs. H. Littlejohn and Mrs. E. H. Kittridge.

Mrs. John R. Martin read the report of the society's show last month, explaining the satisfactory results, and complimented all who had labored for the success of the floral exhibition.

It was shown that the receipts taken at the box office, including a donation of \$50 from the Cox Seed Company, amounted to \$865.50. Bills were paid up to June amounting to \$757.85, leaving a balance of \$107.65.

The society expressed its deep obligations to the Harbor commission, Mrs. Martin's office and other accommodations during the exhibition, and tendered thanks to the Southern Pacific Railroad and press of San Francisco for their support.

On the motion of Mrs. Martin Dr. Harry Tevis was elected a life member of the society. Dr. Tevis having expressed his intention to send a life member fee of \$50. The following were enrolled members: M. Joaquin Leuth, Mrs. E. G. Crane, Joseph Thompson, J. Eichler and Peter Thelsen.

A vote of thanks was tendered Mrs. Martin for her untiring efforts toward the success of the flower show.

Poggi Is Convicted.
 John Poggi was tried before a jury in Judge Lawlor's court yesterday on a charge of an assault with intent to commit a robbery. The jury brought in a verdict of an assault with intent to commit grand larceny and the Judge ordered him to appear for sentence June 21. Poggi is another man who escaped struck Walter Bergholtz on the head with a piece of lead pipe in Hardy place on the night of February 22 and was searching his pockets when Policeman George Douglas appeared on the scene. They ran away, but Poggi was caught.

Iroquois Club to Take Trip.
 The members of the Iroquois Club met last evening to hear the report of Charles Holcomb, who has been doing organization work in the southern part of the State. Holcomb reported that the Iroquois Club had invited the members to a barbecue and installation, which takes place July 4. The club decided to attend the festivities. The Southern Pacific Railroad, it was announced, will place a special car at the disposal of the members and charge but one fare for the round trip.
