

DETECTIVES SEEKING THE DYNAMITERS

Extra Guards Are Placed on Duty at Fort Stevens.

Incendiaries Are Believed to Be Enlisted Men at the Post.

Criminals Cut the Fire Hose to Pieces Before Setting Fire to the Torpedo Store House.

Special Dispatch to the Call.

ASTORIA, Or., July 22.—It is now believed that the men who attempted to blow up the Fort Stevens military post last Saturday night by setting fire to the torpedo storehouse are enlisted soldiers. An attempt is being made to trace the origin of the note signed "The Twelve Dynamiters" in which it was declared that the attempt to destroy the barracks, housing several hundred regulars, and the other buildings on the reservation would not be relinquished. That their plans for the destruction of the new fort were well laid is evident, for since the fire of Friday night it has been determined that the fire-fighting apparatus had been tampered with and other obstacles placed in the way of the troops to prevent them from extinguishing the flames. The building in which the fire apparatus was kept had been entered and the hose cut to pieces. It was so badly damaged as to be rendered absolutely useless and had the fire in the barracks gained headway, the water system at the fort is a very poor one and this, too, would have worked a great hardship on the fire assumed large proportions.

CULPRITS WITHIN THE FORT.
The opinion is expressed by many persons that the incendiaries are located within the fortifications. The regulations would make it well nigh impossible for intruders to make their way into the ground, as guards are constantly on duty and the barracks are so well guarded that it has been in the service a great many years, said today.

It is thought that Cardinal Vincenzo Vanutelli, Bishop of Palestrina and Archbishop of the Libria Basilica, will be appointed prefect of the congregation of the propoganda in succession to Cardinal Ledochowski. The Pope on learning of Cardinal Ledochowski's death was greatly distressed, and exclaimed: "A valiant fighter for the church and religion has gone. His memory be blessed."

The Pontiff then knelt and prayed for the repose of the Cardinal's soul.

To-night the candidates for the post made vacant by the death of Cardinal Ledochowski are in number to the number of hours which have elapsed since the Cardinal's decease. In addition to Cardinal Vanutelli, Cardinal Francis Satolli, formerly Apostolic Delegate to the United States, is prominently mentioned as a candidate for the prefecture of the congregation of the propoganda. He is reputed to be a special protegee of the Pontiff, whose power of appointing is absolute. It is pointed out that Cardinal Satolli's thorough knowledge of American affairs peculiarly fits him for the prefecture, the most important country with which the propoganda has to deal.

Cardinal Ledochowski's death, Cardinals San Stefano and Parocchi are the only surviving cardinals created by Pope Pius IX.

EXTRA GUARDS ON DUTY.
The conduct of some of the soldiers tends to strengthen the theory thus advanced. "Rookies" were seen in trouble here and some months ago the soldiers of the rougher class behaved in an absurd manner. It was reported that his was their favorite pastime and the police had trouble with them almost nightly.

Two or three extra men who are known for their devotion to duty have been stationed as guards and an immediate recurrence of the incendiary attempts is hardly probable, notwithstanding the threat of the alleged "dynamiters" to destroy the post. Detectives have been ordered to look into the case and it is believed the guilty persons will be brought to justice. If they are apprehended they will be charged with treason, the penalty for which is death.

An estate valued at more than \$15,000, left by relatives of Mann's mother, is now in litigation and a settlement will come some time ago when the attorney for the heirs decamped with the papers. He could not be located and proceedings have been dropped. Mann says the case will soon be settled, and in that event he will probably fall heir to several millions.

DISTINGUISHED ADVISER OF THE POPE IS DEAD

Cardinal Ledochowski, Prefect of the Congregation of the Propaganda, Passes to Rest.

**NOTED CATHOLIC PRELATE
WHO DIED YESTERDAY OF
PARALYSIS.**

ROME, July 22.—Cardinal Ledochowski, prefect of the congregation of the propoganda of the Roman Catholic church, died this morning after a long illness. Cardinal Ledochowski was out driving as usual yesterday afternoon. When his valet entered his room at 9 o'clock this morning the Cardinal had a sudden paralytic stroke and succumbed to it.

It is thought that Cardinal Vincenzo Vanutelli, Bishop of Palestrina and Archbishop of the Libria Basilica, will be appointed prefect of the congregation of the propoganda in succession to Cardinal Ledochowski. The Pope on learning of Cardinal Ledochowski's death was greatly distressed, and exclaimed: "A valiant fighter for the church and religion has gone. His memory be blessed."

ST. PAUL, July 22.—Archbishop Ireland, in an interview today reviewing the progress of the negotiations conducted between Judge Foster and the Vatican, took to task certain Catholic organizations that have assumed to question the fairness of the administration toward their co-religionists. The Archbishop said:

"Yes, the news from Rome is quite satisfactory, and I am sure, quite correct. Private advice and counsel from the most reliable source confirm in all respects the newspaper dispatches. The Sovereign Pontiff and other Roman authorities are delighted with Governor Taft, personally and with the negotiations in course of progress between him and the Vatican. Reports sent out by the correspondents of certain London papers to the effect that the negotiations were satisfactory, and that the signing of the commission of Cardinals appointed to treat with Governor Taft were absolutely unfounded."

As stated in this morning's Rome dispatches, the Pontiff assured Governor Taft that he was most satisfied and happy at the results so far obtained, and that he was content the negotiations begun in Rome would be the starting point for a satisfactory solution of the question under discussion. This statement states in the most exact manner the situation as the Vatican views, and as it really is.

The Vatican and Governor Taft came easily and quickly to a substantial agreement. The method for the adoption of practical methods are to be adopted to put the agreement into execution. With a little time certain matters seem to offer great difficulties will be made, by quiet, skillful touches of pontifical diplomacy, to work themselves out without friction or excitement, and so when the final conclusions are to be reached, things will have been ripe and will turn out all right. This is the Vatican method of proceeding in its wise and prudent method. Mr. Taft understands the matter and leaves no room for satisfied and hopeful. There can be no doubt that the active co-operation of the Vatican is now being given to the American Government in its task of pacification in the Philippines, and that in the results to come the administration at Washington will have ample reason to felicitate itself for having seen Governor Taft to Rome."

POPE LEO AND TAFT.
And now it is to be hoped there will be, among certain classes of Catholics in America, a cessation of movements and declarations such as we have had recent occasion to hear of regarding religious matters in the Philippines. The Pope teaches those Catholics to trust the American Government, and the American people have heretofore unwillingly to do, in his conversation with Governor Taft he expressed the highest esteem for the American people and their church matters, and remarked that he had more than once pointed toward the United States as setting an example well worth following. His words ought to signify something to those who profess to take him as their leader and guide.

At any rate, the direction of Catholic affairs is his business, not that of irresponsible church societies or newspapers, and it is the duty of Catholics that any one matter is in his hands they ought promptly to step aside and allow him to have his own way. The position of religion in the Philippines is now formally and officially his own, and it should be considered as such by every one who has the main who still believe that they have a bet-ter right to the Philippines than the American Government. It is not for us to insist on telling him how to handle it; but such as those are few, and at least it will be clear that the hold no brief whatever from the Catholic body at large.

The session, such as it was, in certain Catholic quarters did not honor to those who participated in it. It was a failure, and it spoke and acted without due knowledge, and certainly without proper regard for the Government of their country. They should have been absolutely certain that justice had been done, they should have sought a remedy by an appeal to the Government, and not by raising in public irritating clamors. It is not for us to insist on telling him how to handle it; but such as those are few, and at least it will be clear that the hold no brief whatever from the Catholic body at large.

SCHOOLS IN PHILIPPINES.
And as to schools in the Philippines, why not when the presence of non-Catholic teachers is talked of, state that out of a total of 100,000 are Filipino Catholics. Why not state that Father McKinnon is a member of the school board of Manila? And why not state that the majority of non-Catholic teachers, allow the false impression to go abroad that many of these were ministers and that they were in any place of organized congregations, may they be Catholics, Protestants, or members of other churches, that they are ministers of organized congregations, and that they are not Catholic priests?

Some of the action I am reproving only comes from the few—American Catholics as a body trust the Holy See, and hold their souls in peace.

MINNEAPOLIS, Minn., July 22.—H. S. Kennedy, secretary of the National Federation of Millers, to-night announced that the milling interests of the country are in league to procure the defeat of Speaker Henderson in his race for reelection to Congress.

The announcement was made prior to Kennedy's departure for Des Moines, Iowa, whose constituency is now completed. The announcement means to encompass Speaker Henderson's political downfall will be discussed. The resentment of the millers against Speaker Henderson's action in holding up the London dock clause amendment to the harbor bill, designed to do away with what American exporters regard as unjust discrimination against United States flour in the unloading charges at London.

Government Bars Timber-Hauling.
WASHINGTON, July 22.—The Interior Department has issued notice that the Government roads in the Sequoia and General Grant National parks in California, whose construction now is completed for a stretch of about five miles, are built solely for the comfort, convenience and recreation of the public traveling in the park and are not a part of any system of county highways. Heavy hauling for commercial or other purposes is prohibited. This will interest large timber interests, which have contemplated using the Government roads for hauling large amounts of timber.
