

AMONG THE LIFE OF THE PEOPLE

"Jim" McKinney Visits His Old Haunts in Porterville.

Regales a Saloon Gathering With Boastful Tales of Escapades.

Spends Night at Scene of His Crime and Departs Unmolested With Supply of Provisions.

Special Dispatch to The Call.

VISALIA, Sept. 5.—James McKinney, the notorious outlaw who killed one man and wounded four others in Porterville, is imitating Evans and Sontag and visits his home in this city whenever he so desires. A citizen of Porterville who was in Visalia to-day and is well known to local residents, asserted positively that McKinney was in the Porterville country. He knew McKinney from childhood and had had every opportunity to learn his character. He says McKinney is a frequent visitor to Porterville and that the officers of that city know it.

McKinney was in Porterville not longer ago than Thursday night, August 28, and had sent word of his coming and a chicken dinner was awaiting him at the home of a female friend. He visited a booth in the rear of a saloon where he had worked and there entertained a number of his admirers by telling his experiences since a reward was placed on his head.

The gentleman who informs The Call regarding the foregoing is a man whose veracity and integrity cannot be questioned. He chanced to be in the saloon when McKinney came there, and when the outlaw saw him he was invited to take part in the conversation, McKinney referring to their former friendship.

PLANS FUTURE CRIMES. McKinney remained in Porterville until morning and took a good supply of food with him when he left for the hills. The officers appeared to know nothing of his being gone and McKinney went his way unmolested.

During his conversation in the saloon he said how he suffered in the thickets in his leg after the Porterville fight. He said that his leg was giving him much trouble and that he visited after dark the "Dark" hole, where he hangs twice a week and sometimes oftener. He expressed no fear of the officers, and with the aid of his admirers he was able to stand off six or seven men.

McKinney said that while lying in a man's hands in the hills, he saw officers pass along the road, but knew that they would not dare to enter the brush for fear of running into an ambush. He had heard that Sheriff Carter had said he would not run his men blindly into the thickets and the outlaw took the officer at his word. McKinney said he had not been near Randsburg and that he took pleasure in reading the newspaper accounts of his supposed whereabouts. He said he had been at Glenville, but said he retraced his course to the Porterville country where the Enterprise was at Lemon Cove with a view to getting in a interview with the editor. McKinney said he had been in the speaking distance of the newspaper man and felt tempted to hail him. Lummy went away believing McKinney was there.

PLANS FUTURE CRIMES. At his "friendship reunion" in Porterville, McKinney swore he would kill Night Watchman Willis if the latter ever attempted to cross his path and he declared further that he would return some time and give Porterville some more news.

McKinney is being shielded by numerous friends, which accounts for his remaining in the hills. He has a narrow escape from death in his engagement on the morning of July 27. The scalp over his right eye was open and he was nearly killed when he was shot through his coat and his waistcoat was cut open. He is traveling with a horse and boasts that he would not have traveled if he had not been getting a fresh horse if the occasion demanded it.

Vainly Strives for Death. SANTA ROSA, Sept. 5.—Frank Blackman attempted suicide yesterday afternoon at Cloverdale by three different methods. He did not succeed in any of his designs, but his head shows the evidence of contact with a large iron rock of the mill in which he was confined. Blackman has been in Cloverdale since January and has consumed large quantities of alcohol and is now a man of low mentality and during the past week his mind became affected. Blackman ran into Cameron's blacksmith shop, grabbed a file and with the sharp edge attempted to pierce his heart. The blacksmith overpowered him and he was placed in jail. Here he attempted to be cut by a razor against a padlock. Later, when the attendants were absent, he made a few moments, he tore his shirt in strips and was in the act of hanging himself when he was discovered. Two days ago Blackman stabbed himself in the left breast with an ice pick.

THE REVOLUTION

People of Venezuela Now in Desperate Circumstances.

Factions Continue Inglorious War and Families Are Starving.

Special Dispatch to The Call.

CALL BUREAU, 1406 G STREET, N. W. WASHINGTON, Sept. 5.—Destitution lies in the wake of the civil war now raging between President Castro and the revolutionists in Venezuela. The people of Venezuela are, owing to the analysis of business, in a more impoverished condition than they have been for years. The Rev. E. S. Pond, head of the Presbyterian Mission in Caracas, has issued, through Minister Bowen and the State Department, an appeal to the generosity of the people of the United States. The State Department will receive contributions, which will be forwarded to Minister Bowen and turned over to Mr. Pond, who, with his wife, has met with great success in missionary work during years past in Venezuela. They will not provide the destitute with funds, but will cook and distribute food wherever it is needed.

Minister Bowen has forwarded to the State Department Pond's letter to him. It says: "After a residence of five years in this city, I am compelled to say with all emphasis that never in any country, in war or peace, have I witnessed such a widespread and hopeless poverty of the present. This is largely due to the utter paralysis of capital, enterprise, credit and domestic industry. The present civil conflict began four years ago. Certainly the rural districts are in a state of destitution. They are being invaded by the result of frequent requisitions for provisions and supplies made by the troops of both the Government and the revolutionists. The starving are ready invading the cities in the hope of obtaining something to do or at least something to eat.

At least half of the families of this city can get only one full meal a day. Hundreds cannot even obtain that and the price of every article is very high and rising still, owing to the war panics and prolonged hostilities. These now show no indications of a speedy end. As is well known, after the military operations in the field, months must elapse in order to resume the habits of peace.

"This district is a vast one, and among the political leaders and may seem unjustifiable, but the leaders do not suffer hunger and all its ills. Innocent non-combatants are being killed, and those whom we would relieve. To save a man from starvation only fifteen cents a day is needed, but there are thousands who must feed a hundred or more men, women and children at the legation.

BERLIN, Sept. 5.—A correspondent of the London Times, the revolutionary leader, August 28, at his headquarters at Zeraza. President Castro is still inactive, near Cucumare. General Domingo Monagas, commander of the principal army of General Matos, the leader of the revolution, arrived September 1 at La Pasqua.

TACOMA, Sept. 5.—The American bark John Ena, which arrived at Kobe from New York in August, had a tragic voyage. Just outside of Sandy Hook, with a smooth sea, one of his men fell from a spar and the vessel's mast was broken. Early in June a hurricane was encountered. The vessel's masts were broken and the vessel was splintered. A young man having but slight knowledge of navigation and who had been but one year at sea was made chief officer. The following week he was knocked down by a big sea. His arm was broken and he was unable to take the balance of the voyage. Between Manila and Kobe three typhoons were encountered, the barometer dropping to nearly twenty-eight. With the exception of two smashed boats, the vessel arrived in perfect condition.

BRITISH LABOR PRAISES USE OF OIL FUEL

War Is Denounced by Trades Union Congress in London.

LONDON, Sept. 5.—The Trades Union Congress to-day rejected a resolution introduced by the General Union of Weavers to the effect that "the time had now arrived when in the economic interests of women the franchise should be extended to them on the same plane as it was or may be to men."

A naturalization resolution, presented by the Manchester Jewish Tailors' Union, was adopted. It asks for a reduction of the naturalization fee so that it may be within the reach of every workman who is a member of a union and has been for a period of five years.

The speakers contended that the time had arrived when, if the state did not control the trusts, the latter would control the state, and that the only permanent solution of the difficulty rested in national ownership and control of these monopolies.

At the instance of the Navvies and General Laborers' Union the following resolution was passed: "That this congress of British trade unionists places on record its unqualified disapproval of the war against the Orange Free State and the Transvaal republic, believing that the question of extending the franchise and the protection of industry was not the real cause of the dispute, but a gold ploy to cover an unscrupulous conspiracy to grab territory and replace well paid white labor with unpaid, partially enslaved blacks and Asiatics."

COERCES OBEDIENCE FOR PRESIDENT

American Commander's Action Made Known by Report.

Haytian Admiral Not Inclined to Question a Sharp Demand.

Special Dispatch to The Call.

CALL BUREAU, 1406 G STREET, N. W. WASHINGTON, Sept. 5.—Commander Henry McCrea's vigorous handling of the perplexing situation in Hayti, due to the attempt of the revolutionary Admiral Killik to blockade the entire coast with a single gunboat of the insurgent government, is evident in a report just made public by the State Department. In the minds of the officials in Washington Commander McCrea, who with the gunboat Machias, met with marked success in protecting foreign interests during the revolution on the isthmus, has again proved himself an adept at preventing these belligerent outbursts from injuring foreign commerce.

In Hayti he has represented and protected with a firm hand almost all commerce except that of Hayti itself. He states that after sending notice to the revolutionary Admiral Killik that he was charged with the protection of British, French, German, and Spanish, Russian and Cuban interests as well as those of the United States, that bombardment would be permitted only on due notice, and that interference with commerce by interruption of telegraph cables or stoppage of steamers would not be permitted. He was informed by Admiral Killik that a new government with General Firmin as President had been formed at Gonayves and that a blockade of Cape Haytien had been declared. Following that Commander McCrea received Consuls aboard the Machias. They made formal protest against the blockade.

On August 11, an American schooner having made Cape Haytien, Commander McCrea considered the blockade ineffective. He sent a letter to the Admiral Killik, who was informed by the Admiral that he would not be permitted to visit or search any American or other foreign vessel attempting entrance to the harbor of Cape Haytien. Inclosed is a protest signed by all the Consuls at Cape Haytien, which is as follows: "I came to ascertain your whereabouts, and, if possible, deliver to you the decision of my Government regarding your proposal to blockade Cape Haytien. It is considered not effective even as a de facto blockade, and I am here to tell you that the United States denies your right to visit or search any American or other foreign vessel attempting entrance to the harbor of Cape Haytien.
