

QUIET SABBATH PASSED BY BEAR HUNTING PARTY.

INSURGENT NEWSPAPER MEN MAKE ANOTHER FUTILE ASSAULT ON THE CAMP.

SMEDES, Miss., Nov. 16.—Sunday was a quiet day at the President's camp on Little Sunflower. There was no hunt, but the President and several members of the party spent a couple of hours in the morning traveling over the forest trails on their horses. Dinner was the chief event of the day. The menu included roast bear paws and possum and sweet potatoes. Dinner was served in camp style on a rough pine table set up in the open air. Tin plates and tin cups were used. There were not enough knives and forks to go around, and the colored cook announced, to the amusement of everybody, that the party was more than on account of the scarcity of the articles he had distributed them only to the "colonel" (as the President is invariably called in camp) and the "foreign gentleman."

The President is enjoying his outing very much. He has not had three days of such complete freedom and rest since he entered the White House. The insurgent newspaper men returned to the assault to-day. Having been picked on the land side by Mangum's rickets, they resolved to-day to try to effect an entrance to the camp by the water route. A boat was chartered at Vicksburg, according to the report in circulation here, and it was reported to have left that place at 3 o'clock this morning. The route of the expedition is to be up the Mississippi to the mouth of the Yazoo, thence up the latter river to the Big Sunflower. The distance, owing to bends in the river, is more than forty miles. If the party started it did not reach its destination. The river men say there is now a sandbar at the mouth of the Yazoo which would stop any craft drawing over twelve inches.

The Chicago party which is hunting with Bob Bobo's pack of hounds twenty miles north of here is reported to have had better luck than the President's party, according to a message received here to-day. The party during the last week bagged eleven deer and four bears. Hoke Collier's dander is up, and he vows that "the colonel" will not go home empty handed. His dogs had a good rest to-day and will be in fine condition to resume the chase to-morrow. The weather to-night, however, is not favorable. It has turned colder and rain is falling.

A report circulated among the colored people that the President was coming to Smedes to-day attracted about 1000 negroes to the station. They waited here until dark before they would be convinced that the report was incorrect.

HEAVY RAIN FALLS ON SONOMA COUNTY Waters Flood the Streets of Santa Rosa and the Creek Rises Rapidly.

SANTA ROSA, Nov. 16.—Sonoma County received another drenching to-day. Rain began to fall at an early hour in the morning, and a constant precipitation was had during the entire day and into the night. Indications are that the storm will be prolonged. The storm was at its height shortly after noon, when the waters flooded the streets. The gutters proved insufficient to carry off the waters. A high wind, which was prevailing most of the day, broke one of the main wires of the California Central Gas and Electric Company's line on Fourth street and blew over a number of shade trees. No serious damage was done. Santa Rosa Creek rose rapidly, as the rain to-day fell on soil which was generously soaked with water, and it ran off in rivulets to the creek and streams in the vicinity. By night the water was high up on the banks of the streams. The rainfall this season amounts to over eleven inches, as compared with a record slightly in excess of three inches at the same date last season.

SPORTSMEN KILLED HIM, BUT DOG CAME BACK People of Marysville Amazed Over the Resurrection of a Dilapidated Canine.

MARYSVILLE, Nov. 15.—The people here are puzzled to-day over the return to life of an old hunting dog which was shot and buried two weeks ago. The animal was old and infirm, and Ernest Barthe and Henry Burner, two well-known sportsmen, took him a fortnight ago to the sand waste across the Yuba and there, as they thought, put him out of misery and then buried him. To their astonishment, the dog walked in upon them last night, much worse for wear, but alive. No one has yet been able to solve the mystery. Hundreds of persons gazed upon the dog to-day to make sure of the truth of the story, for his death and burial were matters of common knowledge.

Yuba County Teachers To Meet. MARYSVILLE, Nov. 15.—The Yuba County Teachers' Institute will meet here to-morrow morning and continue in session for three days. Among the prominent educators engaged to deliver addresses are Professor T. H. Kirk of Santa Barbara, Professor A. E. Coffey of Palo Alto, Mrs. L. V. Sweeney of Berkeley and State Superintendent Kirk. The Sutter County Institute has been indefinitely postponed, but will probably be held in the latter part of December. On Thursday the teachers will go to Redding to attend the convention of Northern California instructors.

Schooner Sights New Number. PORT TOWNSEND, Wash., Nov. 15.—The schooner Transit, which arrived Saturday night from Hilo, reports passing through a large quantity of new lumber, evidently part of a vessel's deck load, thirty miles west-southwest of Cape Flattery November 14. The Transit reports having experienced very heavy weather on the passage from the Hawaiian Islands.

Prince Eduard Dies in London. LONDON, Nov. 15.—Prince Eduard of Saxe-Weimer died here to-day of congestion of the kidneys. Prince Eduard was born October 12, 1822, and was the son of the late Duke Bernhard of Saxe-Weimer. He was a major general in the British army and was married November 27, 1851, to Lady Augusta, Catherine, a daughter of the fifth Duke of Richmond.

Manning Ordered to San Diego. SAN DIEGO, Nov. 15.—Word comes from Washington that the revenue cutter Manning, which is now at Seattle, will come here as soon as she has finished her repairs and will remain during the entire winter.

Surgical Operation Proves Fatal. CLEVELAND, Nov. 16.—J. H. Outwater, one of the most prominent citizens of Cleveland, died in New York City yesterday as the result of a surgical operation.

GENERAL BRECKINRIDGE WARMLY PRAISES AMERICAN SOLDIERS

Inspector General's Annual Report Deals With Conditions in the Philippines—Cholera Cases Increase in Manila and There Is Fear That the Scourge Will Again Gain a Foothold

OFFICER WHO IS INSPECTING AND ONE WHO HAS REPORTED ON PHILIPPINE CONDITIONS.

MANILA, Nov. 16.—The number of cholera cases is increasing in this city and the spread of the disease is causing some alarm. There are on an average thirty cases daily. The Funston reserve hospital, the casual camp at Santa Mesa and Bilibid prison are now included among the places infected. Should the water supply become infected a general epidemic is considered inevitable. The reports from the provinces show a decrease in the number of cases. A conference of the bishops, priests and leaders of the Philippine Roman Catholic church will be held in Manila next week. They propose to address a memorial to Mr. Guidi, the apostolic delegate in the Philippines, setting forth their sympathy with the movement, though still adhering to the Roman Catholic church, will have been brought against the army, which charges have not been substantiated. The conditions of war in the Philippines have been unusual, perhaps, and from reasons arising from the conduct of the Americans themselves, who, as the authorities agree, are sometimes extremely cruel and treacherous in the conduct of the American army toward them the exercise of unexampled patience is claimed and the humanity of the troops engaged is no parallel in the history of dealing with Asiatics.

With what novel duties in both civil and military administration and in the character and environment of the war on the opposite side they have our soldiers been brought in contact! The world has felt the current of those distant affairs and our nation may not be fully conscious of the awakening who among us on the day of the battle of Manila Bay was familiar with the names of men who had faithfully devoted long lives to our service, not without some dangers by land and sea—and now the character of the nation has been weighed in the balance according to their words and deeds. Merritt, with youthful fame in the Shenandoah and great plains, appears in his maturity on this last scene; Otis, of honest judgment, far-reaching insight and a comports for work, bearing his honorable wounds with all modesty; Bates, the gentleman and soldier, the right hand of his chief in diplomacy or emergency; Wheaton, the thunderbolt and embodiment of military order; MacArthur, judicious, courageous, masterful and broadminded; Hughes, acute and resolute amid an attempted Moscow and in the rugged places of Sardinia and the middle islands; Funston, who won his fame amid the hardships of the farthest front; Young, forever in the lead and seeking the vital of the enemy; Smith, tireless and aggressive; Bell, courteous and recklessly audacious, the prince of advance guards; Lewiston, "droll and loyal" who bapitised that land with his blood and wrought famously and kindly on both hemispheres, doing easily and without undue sacrifice whatever was most needed or most difficult; Chaffee, whose sterling worth had been displayed in the old and new worlds wherever American arms have brought her principles and won success either in the whirl of repelling deadly tyranny from the Antilles or in bringing safety to the beleaguered nations from the bloody mancher of the forbidden city; Davis, whose omnivorous industry and knowledge have wrought memorable monuments in the form of city government and great memorial structures as well as in his profession; Grant, who carried from Porto Rico to the Far East a name Americans regard as the epitome of unrepentant and admirable service, and who has shown unwearied work and fairness in every scene, and Baldwin, the last to win a star for wounding the enemy in fierce fight, in a career filled with such bearing as brought two medals of honor for soldierly courage to him alone. When the rewards of service go to men like him the heart of the army is elated.

BUT A FEW OF THE MANY. These are not half the names nor are all of them as well known to their fellow-countrymen as they deserve. But these are among those whom I met, or the results of whose work I witnessed during the past year. Famous regiments which were formed amidst those scenes will cherish the occasion in their regimental traditions. And young men who have taken the oath to serve the country will show faithfully how she was wont to be served when the old regiments first went down to the sea in great ships. The army of the past has again proved the mettle of which it is made and the naval and civil officers have as always, loyal and true and steadfast to the end. The officers of the inspection corps in the Philippines substantially agree that extreme and frequent cruelty has not been habitually practiced and that all well founded complaints of excesses have led to trial and punishment of the offenders.

"Yes, their friendship was cemented in town." "I see. Liquid cement."—Harvard Lampoon.

Discussing the American troops and the Philippines, General Breckinridge says: "There has been a good deal of discussion in the public press and elsewhere concerning the treatment of the native Filipinos by the American troops and some rather serious charges have been brought against the army, which charges have not been substantiated. The conditions of war in the Philippines have been unusual, perhaps, and from reasons arising from the conduct of the Americans themselves, who, as the authorities agree, are sometimes extremely cruel and treacherous in the conduct of the American army toward them the exercise of unexampled patience is claimed and the humanity of the troops engaged is no parallel in the history of dealing with Asiatics."

With what novel duties in both civil and military administration and in the character and environment of the war on the opposite side they have our soldiers been brought in contact! The world has felt the current of those distant affairs and our nation may not be fully conscious of the awakening who among us on the day of the battle of Manila Bay was familiar with the names of men who had faithfully devoted long lives to our service, not without some dangers by land and sea—and now the character of the nation has been weighed in the balance according to their words and deeds.

SOCIALISTS ASK FOR RECOGNITION

Want Member on Executive Board of Labor Federation.

Prepare to Make a Fight Before the New Orleans Convention.

NEW ORLEANS, Nov. 16.—There is a strong probability that the executive council of the American Federation of Labor will be enlarged from nine to eleven members at the present convention and that one of the additional members will be a representative of the Socialist wing of the labor unions. The Socialists assert that they control nearly one-third of the votes cast in the convention and feel fairly confident of getting one man on the board. There is a strong element opposed to the increase in number. The Socialists say they do not expect to win without a fight, but they do say they will have won that much when the fight is over.

Only two cities have so far been mentioned as the place for the next convention, Buffalo and Milwaukee. The latter place claims the better right, as it has been a candidate three times and on each occasion has withdrawn in favor of the place in which the convention was held. However, no energetic work has been done by the advocates of either city. W. E. Kennedy, general organizer of the International Brotherhood of Electrical Workers, has prepared a resolution which he expects will raise something of a breeze on the floor of the convention. It is to the effect that the present local government of the District of Columbia is antique and obsolete and that the residents of the District should be allowed to vote. The resolution is certain of opposition, as it is the avowed policy of the federation to refrain from political matters. The visiting delegates were handsomely entertained to-day by the local laboring men, who arranged several social affairs for them during the afternoon and secured one of the theaters for them to-night.

CONTRIVERSY BEGINS OVER A WOMAN'S BRAINS

Cornell Wants the Gray Matter of Mrs. Stanton and Daughter Is Opposed.

ITHACA, N. Y., Nov. 16.—A controversy is now going on between relatives of Mrs. Elizabeth Cady Stanton, the late woman suffragist leader, and the Department of Neurology of Cornell University over the question of whether Professor Eustace G. Wilder, head of that department at Cornell, will be able to obtain the brains of Mrs. Stanton to place on the shelves in his department along with those of other noted people, as well as criminals whose brains Dr. Wilder has already secured.

PREPARING FOR TRIAL OF THE OTHER BOODLERS

Circuit Attorney Folk of Missouri Relentless in His Pursuit of Bribers.

ST. LOUIS, Nov. 16.—Circuit Attorney Folk, who has returned from Columbia, Mo., where he prosecuted the case against Ed Butler, who was convicted of attempted bribery, is preparing for the trial of other alleged boodlers next week.

Plan New National Bureau

DENVER, Nov. 16.—Through the instrumentality of the Colorado Humane Society Colorado's representatives in Congress will introduce at the next session a bill creating a national bureau of child and animal protection. The idea is to establish a national body to do work throughout the country similar to that now accomplished by State organizations. The bill prepared by the Colorado society creates a board of three to be appointed by the President, to meet in Washington. A secretary is provided for with a salary of \$1500 and an office in Washington.

Millions in Bonds Are Sold

DENVER, Nov. 16.—The time limit for the purchase of bonds of the new Denver, Northwestern and Pacific Railroad Company expired at midnight last night and it was announced to-day that the entire issue of \$20,000,000 had been disposed of.

KITCHEN REQUISITES

seek an interview with Mr. Guidi before reaffirming their allegiance to Rome or joining the dissenter. It is believed that Mr. Guidi will deal with the church situation before entering upon negotiations with Civil Governor Taft regarding the Friar lands.

MAY ASK LOUBET TO ATTEND FAIR

Exposition Commission Has the Idea Under Consideration.

Believes That France Would Appreciate Honor Shown Her Chief.

PARIS, Nov. 16.—Deputy de Leonlele has been interviewed with regard to his statement at the banquet of the Industrial, Commercial and Economic Society Friday that he had received information that the St. Louis Exposition Commission had decided to invite President Loubet to visit America. He says the matter was not intended to be made public. It was a mere after-dinner remark, to which he did not attach much importance, which was made to the exposition officials two years ago. He was surprised, he says, when he received information from St. Louis that the idea might materialize, and that a proposal to extend a formal invitation to President Loubet to visit the exposition was being seriously considered.

"I attributed this action," M. de Leonlele continued, "to a warm and profound liking on the part of Americans for France, especially since the Rochambeau fetes. The journey of Prince Henry of Prussia to the United States has also made many American friends of France think that if the German Emperor thought proper to send his brother to the launching of a yacht, President Loubet might not be indifferent to the Louisiana purchase. "There are few events in the history of France more glorious than the cession of Louisiana by Napoleon Bonaparte when he was First Consul. The St. Louis Exposition Commission doubtless believes that the best way of showing America's gratitude to France would be to invite the President of the third French republic to the centenary celebration of the act of the first republic. The journey would be quite constitutional, for precedents exist in the visits to Russia of the late President Faure and of President Loubet himself. It has been said that King Edward may go to the St. Louis exposition, and it is probable that the King of the Belgians will also pay the exposition a visit. If President Loubet goes he would certainly make a more triumphant trip than did Prince Henry of Prussia."

GOVERNOR YATES IMPROVING

SPRINGFIELD, Ill., Nov. 16.—Physicians attending Governor Yates said to-night that they believed a turn for the better had developed. For five hours this morning Yates' temperature remained stationary at 99.5 degrees, only one above normal. This is the lowest mark since the beginning of the Governor's illness twenty-three days ago.

STEAMERS LEAVE SAN FRANCISCO

Steamers leave San Francisco as follows: For Ketchikan, Juneau, Skagway, etc., Alaska—11 a. m., Nov. 2, 7, 12, 17, 22, 27, Dec. 2, 7, 12, 17, 22, 27. Advertisement for Doan's Kidney Pills. Text includes: 'DOAN'S KIDNEY PILLS. A GREAT TRUTH. How It Has Spread From Home to Home in San Francisco. In every part of the country, in the homes of the wealthy, in the humble abode of the man of toil, his name is well known fact—Doan's Kidney Pills have brought more comfort to backache sufferers and cured more sick kidneys than any medicine of modern times. John Lewis, tailor rear of 721 Bush Street says: "An attack of malaria, as in the majority of instances, was followed by inactivity of the kidneys and a lame-ness and soreness across the small of my back. Nothing but the treatment of Doan's Kidney Pills relieved me. I have received from the twinges which shot through the small of my back as excruciating. With the passing of time the pain increased, until I was compelled to stop work. Nothing but Doan's Kidney Pills had to be done, or my case might become serious, and I commenced taking standard remedies guaranteed to cure kidney complaint in any of its various forms. The results obtained from the medicines being the moment I stopped their use, and ever since the outbreak for something to bring relief I at last tried Doan's Kidney Pills. I knew after a dose or two they were acting directly upon the kidneys and a continuation of the treatment completely stopped the last attack. I have told a great many of my friends and acquaintances about the benefit I have received from the use of Doan's Kidney Pills." For sale by all dealers. Price 50 cents. Foster, Millburn, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.
