MARRIED 65 YEARS

Mr. and Mrs. Adam Livingood of Elverson, Pa., who have been married 65 years, say Duffy's Pure Malt Whiskey has prolonged their happy union many years beyond their golden wedding.

MR. ADAM LIVINGOOD, 81 years old.

Mr. Livingood is 81 years old and his wife is 84. They are both hale and hearty and feel vigorous as a couple 65 years of age.

Reading, Pa., Feb. 15, 1902. DUFFY MALT WHISKEY CO., Rochester, N. Y.

Gentlemen: I take great pleasure in writing to you, telling the benefit I am deriving from the use of Duffy's Pure Malt Whiskey. I have been taking it in small quantities every morning and evening for a number of years. I am 81 years old and in excellent health, good appetite, and am doing all my own farm work. I know your whiskey is giving me renewed strength and prolonging my life. I feel as well to-day as ten years ago, and I feel as if I will pass the century mark without a tremor. It is recommended to me, and has proven a blessing. My wife is 84 years old and never fails to take a dose of this whiskey on retiring. She is also in perfect health.

ADAM LIVINGOOD, Elverson, Chester County, Pa.

MRS. ADAM LIVINGOOD, 84 years old.

DUFFY'S PURE MALT WHISKEY IS THE TRUE ELIXIR OF LIFE.

It has prolonged many thousand lives as it has Mr. and Mrs. Livingood, and there is no other medicine in the world which will keep the system in normal condition, prevent the decay of the tissues, strengthen the heart action and enrich the blood like Duffy's Pure Malt Whiskey. It is an absolutely pure stimulant and tonic, free from fusel oil and other dangerous ingredients so common in most whiskeys. It cures grip, consumption, bronchitis, catarrh, asthma, malaria and all low fevers, dyspepsia; it invigorates the brain, makes the old young, keeps the young strong. Do not fill your body full of drugs and medicines which poison the system.

It is absolutely pure and contains no fusel oil. It is prescribed by over 7000 doctors and used exclusively in over 2000 hospitals. It is the only reliable and absolutely pure stimulant and tonic. It has valuable medical booklet containing symptoms and treatment of diseases and convincing testimonials sent free to any reader of the San Francisco Call who will write. Duffy Malt Whiskey Company of Rochester, N. Y.

saved the lives of millions of people the past fifty years who have used it as their only medicine.

Cautions.—When you ask for Duffy's Pure Malt Whiskey be sure you get the genuine. Unscrupulous dealers, mindful of the excellence of this preparation, will try to sell you cheap imitations and so-called Malt Whiskey substitutes, which are put on the market for profit only and which, far from relieving the sick, are positively harmful. Demand "Duffy's" and be sure you get the genuine. It is the only absolutely pure malt whiskey which contains medicinal, health-giving qualities. Look for the trademark "The Old Chemist," on the label. It is the only whiskey recognized by the Government as a medicine. This is a guarantee. The genuine is sold by all reliable druggists and grocers, or direct, \$1.00 a bottle.

EDISON'S GREAT INVENTION

A Thorough and Effective Disease and Germ Destroyer.

A Blessing to the Afflicted and to All Mankind.

NEW YORK, Dec. 2.—The announcement a few weeks ago that Thomas A. Edison Jr. had discovered a new curative force which he embodied in his latest invention, the Magneto-Electric Vitalizer, started the whole world. Hundreds of people have written from all quarters of the globe for a detailed description of the invention. No single invention of the past two hundred years has done so much for suffering humanity as the Edison Jr. Magneto-Electric Vitalizer. No other invention has received such absolute proof of its extraordinary properties in curing consumption, rheumatism, restoring shattered constitutions and in giving back new life and energy to the prematurely aged. The one absorbing question of the hour is: What is the Magneto-Electric Vitalizer? What does it absolutely accomplish? Hundreds of instances can be cited in which the wearing of the Magneto-Electric Vitalizer has resulted in incalculable benefit to the wearer in even the short period of one week. Medical men in New York and in all of the large Eastern cities have examined the new discovery and pronounced it one of the greatest boons of the age—the ounce of cure for which the patient world has been waiting in the universal hospital. Edison Jr. is not alone in believing that it is possible to perfect the human race. It is in electricity that the means must be sought and found. He has used the same talents in reducing this epoch-making invention to a practical working basis as were used in harnessing and driving the lightning and collateral forces that play such an important role on the stage of modern progress and activity. The Magneto-Electric Vitalizer is being placed on the market by Mr. Edison's own company, the Thomas A. Edison Jr. Chemical Company, 4 Stone street, New York.

is no longer a dream—it is a delightful reality. An immense fortune was spent in experiments of all sorts along the lines of old theories and new ones until at last the dream of the centuries was realized in the production of

basis as were used in harnessing and driving the lightning and collateral forces that play such an important role on the stage of modern progress and activity. The Magneto-Electric Vitalizer is being placed on the market by Mr. Edison's own company, the Thomas A. Edison Jr. Chemical Company, 4 Stone street, New York. Mr. Edison was seen in his laboratory yesterday. He said: "I am personally superintending the distribution of the Vitalizer, as well as attending to the correspondence relating to it, because I wish everybody to have an equal opportunity to secure its curative aid. I want to help all sick people to be well and strong, but I mean to see that the same attention is given to the case of the farmhand, afflicted with rheumatism, who writes me from Nebraska, that is paid to the rich man residing in one of the palaces on the Hudson, who is suffering from nervous prostration. I am playing no favorites; any one with a two-cent postage stamp can write to the Thomas A. Edison Jr. Chemical Company and obtain my booklet, which will tell him clearly what the Vitalizer is and what it will do for him."

WITHDRAWAL OF DALZELL

Cannon's Election to the Speakership Is Practically Assured. WASHINGTON, Dec. 2.—Representative Dalzell of Pennsylvania has withdrawn from the contest for the Speakership of the next House in favor of Representative Cannon of Illinois, who has been endorsed for that office by the Pennsylvania delegation in the House. This practically assures Cannon's unanimous election for Speaker in the Republican caucus. Dalzell's announcement and the subsequent action of the delegates took place at a dinner given by Senator Penrose to-night at the new Willard Hotel, at which were present Senator Quay and the members and members-elect from Pennsylvania in the House.

Representative Sibley acted as chairman of the informal meeting which followed the dinner and Representative Olmsted offered a resolution endorsing Mr. Dalzell's candidacy. Complimentary remarks to Dalzell were made by Senator Quay, Representative Bingham and others, after which the motion was carried unanimously. Dalzell expressed his appreciation of the honor the delegation had conferred upon him and then announced his withdrawal in favor of Mr. Cannon.

BANDITS FIGHT WITH PARSONS

Robbers of a Montana Bank Succeed in Escaping.

Horsemen Hasten After Three Money-Laden Fugitives.

BILLINGS, Mont., Dec. 2.—The bank at Bridger in Carbon County was held up by three masked men to-day and Cashier Trumbo was relieved of \$2000. Immediately after the robbery the men left on horseback for the Crow Reservation. A pursuing party has been organized and the men will be lynched if caught. The scene of the robbery is in the vicinity of the famous Hole-in-the-wall canyon, for years the hiding place of thieves and desperadoes.

The robbery occurred at noon. Cashier Trumbo was at work inside the rail when he was aware of two men entering the bank. He looked up to see two robbers pointing directly at his head. A third man, also armed, stood at the door, evidently to prevent interference. "Hold up your hands!" said one of the two masked robbers. Trumbo complied. At this instant Mail Carrier Frank Williams appeared at a side door and was instantly covered by two guns. Williams and Trumbo were ordered to the wall, both with their hands high up, while one man covered them with his guns, the other man running behind the counter and grabbing all the money in sight. The three robbers stepped out of the door, mounted their horses and drove the spurs into the animals. The alarm was quickly given. Every horse in sight was pressed into service and pursuit begun. A mile and a half out of town the posse began shooting from the saddle. The robbers wheeled in their seats, returned the fire and held their pursuers off until they reached the timber. They have not been seen since. It is believed the men will make for the famous Hole-in-the-wall canyon.

The bank robbed is the Stock Growers' Bank of Carbon County and is the only one in the place. Bridger is a coal mining town, situated at the southern terminus of a branch railway, which leaves the Northern Pacific at Altrett, in Yellowstone County.

MESSAGE VERY MILD

London Editors Disappointed by the President's Tranquilizing Statements.

LONDON, Dec. 2.—Some of the London newspapers regard President Roosevelt's message as a disappointment inasmuch as according to their views, "he adopts a cautious and conservative policy rather than a revolutionary one in dealing with the trust question and the tariff." On the whole, however, while carefully examining the message in detail, there is not a strong disposition on the part of the press to strongly criticize it. The general impression is that President Roosevelt has been influenced by the warning echoes of the last elections and that he seeks to attract rather than attempt to compel the support of Congress. A leading paper says: "The message is more remarkable for the lofty idealism of its language than for any boldness in its specific recommendations." The President's enunciation of the foreign policy of the United States and his advocacy of a strong navy meet with warm appreciation, and the message generally is welcomed as a tranquilizing one by proving that no organic change of policy is intended.

PENROSE AWAITS A CHANCE

Immigration Bill Will Be Called Up at Earliest Opportunity.

WASHINGTON, Dec. 2.—Senator Penrose, chairman of the Senate Committee on Immigration, said to-day that if there should be a favorable opening he would make an attempt to-morrow to call up the immigration bill which passed the House in the last session and was favorably reported by the committee, and if not he would make the effort later in the session. "I hope to see it become a law during the present session, although I expect that much opposition will be encountered, just as was the case in the consideration of the Chinese bill." The present effort on the part of the opponents of the bill will be directed toward postponing consideration until after the statehood bill shall be taken up on the 10th inst. They then count on that measure to keep the immigration bill in the background until the appropriation bills force themselves to the front.

APPEAL OF TERRITORIES

Senate Committee Will Consider the Statehood Admission Bill.

WASHINGTON, Dec. 2.—The Senate Committee on Territories to-morrow will take up the bill for the admission of the Territories of Oklahoma, New Mexico and Arizona as States, preparatory to the report to be made to the Senate later in the day in accordance with the unanimous agreement arrived at last session. The Republican members of the committee, with the exception of Senator Quay, were in conference during the greater part of the day, analyzing and classifying the testimony taken by the sub-committee which visited the Territories during the month of November. While no authoritative statement has been made, Republican Senators generally understand that, with the exception of Quay, the Republican committee members favor the amendment of the bill so as to provide for the elimination of New Mexico and Arizona and for the admission of Oklahoma alone.

MORE POWER FOR COURTS

Bartholdt Plans to Have Election Law Violators Punished.

WASHINGTON, Dec. 2.—It is the purpose of Representative Richard Bartholdt of Missouri to urge the present Congress to pass a measure providing for the prosecution in the Federal courts of offenders against election law. To-day Bartholdt had an interview with President Roosevelt on the subject, and as he left the executive office he said: "Objection was raised at the last session of Congress to a general law conferring jurisdiction in all election fraud cases on Federal courts, but my proposition has been modified so that the jurisdiction of Federal courts will extend over only such cases as may involve fraud in the election of a President or of members of Congress. I informed the President that it was my intention to introduce a measure conferring such power on Federal courts."

STOCKTON, Dec. 2.—Charles Livingston to-day pleaded guilty to the charge of forgery and was sentenced to four years in San Quentin. George Bird pleaded guilty to the theft of a bicycle and was given one year in prison.

LIFE-SAVING STATION AT POINT ARENA IS READY FOR ITS CREW

Modern Buildings, Wharf and Boats Are Accepted by the Government and Succor Awaits Seamen Whose Ships Meet Disaster

SCENES AT THE POINT ARENA LIFE-SAVING STATION, WHICH HAS JUST BEEN COMPLETED AND ACCEPTED BY AN AGENT OF THE FEDERAL GOVERNMENT.

POINT ARENA, Dec. 2.—The Point Arena Life-Saving Station was accepted by the Government through Inspector Lathan on November 24. The station consists of a residence for the keeper and crew, two bathhouses and a wharf. The crew will be of eight men. The residence is a two-story building with a basement. The foundation is of concrete, and every shingle put on the building was first oiled. The inside walls are plastered. The construction of the station was commenced in April, it taking eight months to finish the contract, which was obtained by an Eastern man named Richie. An inspector was continually on the grounds and examined all of the work done. The keeper will occupy three rooms on the first floor, which contains also an office, kitchen and dining-room. The crew will have two rooms on the second floor, four men sleeping in each room. Mr. Smith, the keeper, will arrive with his family at once and take up his residence at the station. He will bring all necessary furnishings and lifeboats with him. The residence and one bathhouse are built on a hill about 300 yards from the ocean and the other bathhouse is built at the land end of the wharf, which is slanting and extends fifty feet into the water. The station will not be supplied with a crew until early spring. Many bad wrecks have occurred at this point and many lives have been lost, but henceforth when a wreck occurs a boat will be immediately manned and put off in an endeavor to save those in peril. The station is built at what is known as Arena Cove, this being the best place to launch a boat, the bay affording shelter against the high seas which continually sweep the coast. The cost of building the station was \$3000, the site being obtained for \$500.

DANGER OF FAMINE ENDED IN PHILIPPINES

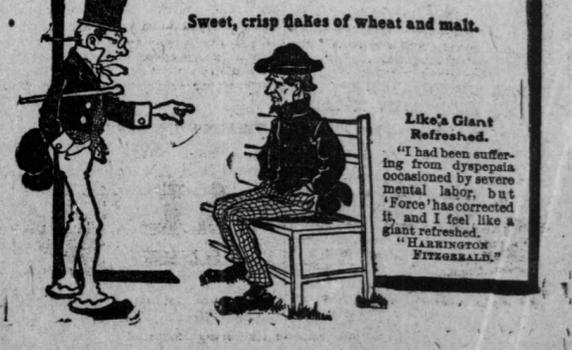

MANILA, Dec. 2.—The price of rice has been broken and the native operators have insured the supply of this food-stuff at reasonable rates. The Philippine Commission, when a rice famine was threatened at the beginning of November, appropriated \$1,000,000 Mexican and quickly purchased more than 20,000 tons of rice in India and on the Asiatic coast to be sold to the sufferers at a cash price which it was thought would cover just the cost. The plans of the commission were concealed in order to prevent possible combinations on the part of operators with a view to raising prices. The Government may lose money on its purchase, but it is satisfied in having provided for the sale of rice to the people at a low figure.

KITCHEN REQUISITES

ADVERTISEMENTS.

All Stuffed Up That's the condition of many sufferers from catarrh, especially in the morning. Great difficulty is experienced in clearing the head and throat. No wonder catarrh causes headache, impairs the taste, smell and hearing, pollutes the breath, deranges the stomach and affects the appetite. To cure catarrh, treatment must be constitutional—alterative and tonic. "I was afflicted with catarrh. I took medicines of different kinds, giving each a fair trial, but gradually grew worse until I could hardly hear, taste or smell. I then concluded to try Hood's Sarsaparilla, and after taking five bottles I was cured and have not had any return of the disease since." Eugene Forbes, Lebanon, Kan.
