

MAKES FAST TRIP
Lord Templeton Comes From Hakodate in Twenty-Five Days.

This Record Beaten Only Once and That by British Ship Swanhilda.

The Danish bark Lord Templeton, which arrived yesterday from Hakodate, has established two contradictory speed records since she left New York last year with a cargo of case oil for Hakodate. Her outward voyage was fraught with misfortune and was one of the slowest recorded in the Orient; and then to show what she could do she came from Hakodate to San Francisco in steamship time, making the voyage in twenty-five days.

The British ship Swanhilda in 1892 came from Hakodate in twenty-three days. This is the record trip, but the performance of the Lord Templeton has only been equaled by one other vessel, the Clan Buchanan, which in 1893 crossed in twenty-five days.

For a week at a time the Lord Templeton maintained a ten-knot gait. She developed at times a speed of more than 12 knots, and made 11 knots during the greater part of her last day at sea. She came flying in through the heads. The wind was strong, but she was not hindered by it. She failed to get near enough even to speak her, so that Captain Morse not only saved the expense of a towboat but managed to avoid the payment of any pilot fees.

She brought 1300 tons of sulphur. The Lord Templeton left New York July 5, 1902, and five hours after sailing lost her foretopgallant mast and had all her sails blown away. Lightning cut off the mizzenmast and the performance of the truck. The spar came down like a comet and struck the deck within a few feet of a group of sailors, several of whom sustained bruises in scrambling clear of the flying timber.

She was within fifteen miles of Hakodate on December 23, but was unable to sail in. She changed her course and traveled more than 3000 miles, trying to reach Shanghai, which port she entered January 26 with her cargo in bad condition and her rudderhead gone.

OLD FIDELITY
Gather on the Beautiful Grounds at El Campo.

Chowder, Clambake and Barbecue Relished by the Merymakers.

More than 2000 people attended the first outing and excursion given by the Progress Club, composed of the membership of Apollo, Pacific and Fidelity lodges and the relief committee of the Independent Order of Odd Fellows, for the friendship fund of the last named organization. It was a pleasant family outing that was marked for enjoyment and the orderly manner in which it was conducted. Those who did not bring lunch were furnished by the club with clam omelette, baked clams and barbecued beef. The events of the day, however, were the sports in the afternoon, conducted under the direction of the committee on games. The winners of the first and second prizes were:

Race for boys under 11—L. Hutcheson and James Casey. Girls under 12—Winifred Chamberlain and Nora Jacobson.

Girls, 12 to 15—Marilla Wilson and Helen Pickett. Boys, 12 to 15—Phil Kragen and Charles Petney. Sack race—Ruben Mayo and Martin Mullen.

CLEVER AMATEURS WILL SING
"PATIENCE" IN AID OF CHARITY
Gilbert and Sullivan's Charming Operetta Is to Be Given by St. Patrick's Choral Society for Benefit of the New Parochial Building Fund

THE ST. PATRICK'S CHORAL SOCIETY IS MAKING ELABORATE PREPARATIONS FOR THE PRODUCTION OF GILBERT AND SULLIVAN'S COMIC OPERETTA, "PATIENCE," AT THE NATIVE SON'S HALL ON MONDAY AND TUESDAY EVENINGS, MAY 25 AND 26.

The St. Patrick's Choral Society is making elaborate preparations for the production of Gilbert and Sullivan's comic operetta, "Patience," at the Native Son's Hall on Monday and Tuesday evenings, May 25 and 26. The proceeds of the entertainment will be devoted to paying off the debt on the new parochial residence.

The beautiful opera is one of the most delightful of the works of those eminent composers, and is also very popular. Its music is always fresh and taking, while the situations are laughable to the extreme, and the dialogue bright and breezy. The members of the society have already won laurels, from the work done in their previous productions, their efforts having always been marked with study and careful attention to detail.

Rehearsals have been going on for some time, and a fine and finished performance is looked for by the members and parishioners of St. Patrick's, and the many outside friends of the society itself.

Miss Margaret Anthony, who possesses a voice of much promise, will play the role of Lady Saphir.

Pacific Coast Union Enjoys a Day at Fairfax Park. The Pacific Coast Marine Firemen's Union held its regular annual excursion and picnic at Fairfax Park, near San Rafael, yesterday.

This season's outing was one of the most successful of any yet held. There were nearly 2000 people present and from before noon until late in the afternoon the programme of events occupied the attention of the vast crowd. In the morning dancing was the chief pastime. Luncheon was served under the trees from 12 to 2 o'clock.

Later afternoon those athletically inclined were interested by various running races and other outdoor contests, while at the dancing pavilion, during an intermission, contests in jig dancing, cakewalking and other fancy exhibitions were hugely enjoyed as well as warmly contested. Valuable prizes were donated to winners of all contests, and as a result each event had many entries.

CORBETT TELLS
NE STORIES
Ex-Champion Heavy-weight Makes a Hit With His Yarns.

Plays of Merit Billed at All the Local Play Houses.

James J. Corbett, the clever boxer, bids fair to earn as high a reputation as a monologist as he has won by dint of his fists. The man who again aspires to his heavy-weight championship began his second week at the Orpheum yesterday, and his new crop of stories took even better than his last week's vintage. His story on his Uncle Mike is extremely funny. Jim helps it out materially by acting it, and laughs just as loudly as his audience at the climax. He tells of the "farmers" he has met in his career, and his dialect is excellent.

Fisher and Carroll are hold-overs. Last week they did not have a chance to shine, but this week they are in the full glare of the calcium. As comedians they are excellent. Their work is very amusing and gains many a hearty laugh. Martin and Max Millan are very funny conjurers. Martin uses some clever tricks and Millan exposes them in a manner that creates great merriment.

Adeline Brecher has a sweet contralto voice, but it is not strong enough for the big house. She sang a number of songs and was well received. The Whitney brothers antee music out of all manner of novel things and take well. Julie Ring sings her pleasing ditty "When the Winter Time Comes Round," and the song is becoming popular. The brothers Freydo are also well received. They do some very difficult work. The American biograph closes the show.

The special engagement of White Whittlesey, which begins at the Alcazar tonight with "Hearse," will be devoted to the artistic production of high-class plays, in which the augmented stock company will assist. The matinee days during the Whittlesey season will be Thursday and Saturday, the Sunday afternoon performances being discontinued until the autumn.

The California Theater is closed this week that preparations may be made for the opening of the musical comedy season with Augustin Daly's New York Company.

Mary Mannerling will commence the second week of her engagement in "The Stubbornness of Geraldine" at the Columbia Theater to-night.

Walter Perkins will appear in "Jerome," the popular comedy, at the Grand Opera-house, beginning to-night.

"Wang" will continue during this week at the Tivoli. The play is drawing large houses.

The Central Theater offers "Romany Rye" as an attraction for the week beginning to-night.

"Fiddle Dee Dee" still holds the boards at Fischer's Theater and will commence its fifth week to-night.

An entire change in the vaudeville programme of the Chutes is planned for the coming week. A feature of the bill will be many pictures taken of President Roosevelt during the parade in his honor in this city.

The sale of seats for the concert to be given by Antonia Dolores (Trebelle) at the Alhambra Theater on Wednesday and Sunday evenings and Saturday afternoon will open at Sherman, Clay & Co.'s this morning.

Bishop Morland of Sacramento is at the Occidental.

Charles Holland, a merchant of Sonora, is at the Grand.

John L. Hudner, a merchant of Hollister, is at the Lick.

Fred Grotefend, a mining man of Redding, is at the Grand.

L. A. Spitzer, Assessor of Santa Clara County, is at the Grand.

MAYOR SAYS
TO TWO NAMES
Mayor Will Select Civil Service Commissioner To-Day.

Charles A. Son or G. B. Benham Likely to Receive the Appointment.

Mayor Schmitz stated yesterday that the list of prospective appointees to succeed J. R. T. Mershon as Civil Service Commissioner had been sifted down to two or three names and out of these he would make his selection this afternoon. The Mayor declined to divulge the names of the men who are being considered, but it is understood that the picking lies between Charles A. Son, an attorney for the Anglo-California Bank, and G. B. Benham, president of the San Francisco Labor Council, both of whom have been mentioned in the Call as probable appointees.

No less than twenty-five candidates for the place have been under consideration by the Mayor since it became known that Mershon had resigned as a result of the exposure made of the scandal in which the ex-Civil Service Commissioner was involved. The day after Mershon resigned ten applications for the position were received by the Mayor and this number kept increasing when it became known that Mayor Schmitz had ordered the former Judge Slack and Supervisors Comte and Loughery, all of whom refused the offer.

Applications for the commissionership came by mail, by messenger and were filed by the applicants in person, and the Mayor has been put to some straits to make a selection. Now that he has narrowed the list down to two or three applicants he will probably find no difficulty in making his choice, which will no doubt cause disappointment to the ones failing to receive the appointment.

The Mayor feels very favorably disposed to Son, in whom he reposes implicit confidence and in whom he has a warm personal regard. Should his Honor give the commission to Benham it will be because he desires to recognize the Union Labor party in the appointment. This would all along that he would like a man in the place who would relieve the civil service system of the odium which had been placed upon it by Mershon and rehabilitate it upon a creditable and honest basis.

To Lake Tahoe. A special excursion train carrying dining car and day coaches will run to Lake Tahoe by daylight May 29, returning May 31. A whole Saturday at the Lake. Round trip tickets, \$8.50. Fire on City of Panama. Fire did some damage to the deck of the steamship City of Panama yesterday morning, but was discovered and extinguished in time to save any serious loss. A cigarette thrown among the bananas stored on deck is thought to have caused the blaze. The leaf coverings of the banana bunches placed up quite closely for a while, and the fire was not discovered before the fire was extinguished. An alarm was given, but the services of the department were not required.

Soquel's Fast Trip. The schooner Soquel, which arrived a few days ago at Port Townsend from Callao, did some unusually fast sailing and made the trip in record time. She was off this port twenty-seven days after leaving Callao and eight days later was at anchor in Puget Sound.

Centennial on Drydock. The steamship Centennial was placed yesterday afternoon on Hunters Point drydock, where it will be repaired and painted. She will leave for the north next Saturday.

W. H. Kruger Sailed. The steamship W. H. Kruger sailed yesterday for Unalaska with supplies for the Northern Commercial Company's stations.
