Bay Cities Company Offers to Submit Second Proposal Under a Long-Term Contract

Real Reason for Segregation Is That the Men and Women Can Make Better Progress

For many years the San Francisco papers have published practically a separate edition for Alameda County, but the moment that a citizen of this county went to another part of the State he knew nothing of what was occurring here until he returned.

Accident Occurs at a Siding That Is Used to Prevent Delay to Traffic on Main Line

ALAMEDA, 1435 Park Street, Telephone Eagle 502.

Oakland Office San Francisco Call, 1118 Broadway, Jan. 19.

Berkeley, Office San Francisco Call, 2148 Center Street, Jan. 19.

As the first to recognize this county, The Call deserves and should receive the support and patronage of this exchange, and I, for one, hope that it will receive it.

POINT RICHMOND, Jan. 19.—A broken flange on a car wheel caused the wrecking last night at Hughson station, Stanislaus County, of an extra Santa Fe freight train.

OAKLAND, 1118 Broadway, Jan. 19.

Complete elimination of the Contra Costa Water Company from the politics of Oakland and the opportunity to acquire municipal control of a water supply without the immediate expenditure of \$6,000,000 or thereabouts, are the elements that have in large measure controlled the special Council committee in its recommendation to accept the company's offer to lease, under option to purchase, its plant to the city.

There is nothing revolutionary about it," she said. "It is simply a common-sense way of settling a question that has vexed Professor Gayley for a long time. Neither men nor women can get the best out of the classroom where one sex overwhelms the other in numbers. No man wants a roomful of women staring at him when he is reciting; neither does a woman enjoy the reverse condition. It is the only solution of the question and should not be construed as a blow at co-education."

Under the head "Good for The Call," the Oakland Tribune in its issue of Monday, the 18th inst., also commends The Call for its policy in publishing all the news of Alameda County for the benefit of all the people. The Tribune says:

No one was injured in the wreck, the accident occurring in such a way as not to endanger the engine men or the train crew.

George Dow Rendered Unconscious While Working on Pole Among Wires and Hangs There

Though it has been pointed out that this move is not final in the effort to gain a municipal water supply to the city the Council has taken the first step toward adopting the report. It has authorized President Dornin to appoint a special committee of three which shall select the city's expert representative on a board of arbitration which will find a valuation of the water company's plant as a basis of operations.

Max Thelen, president of the Associated Students, said the same thing, only in a little different way. He thinks it is hard enough anyway for an engineering student to get culture, without being hampered by the gaze of a crowd of co-ed.

"The Call has adopted the policy of running the news of Oakland, Alameda and Contra Costa County in all editions. This is an agreeable change from the prevailing method of handling news from the eastern shore of the bay in the other San Francisco newspaper offices, and one that will be appreciated by The Call's readers everywhere, particularly by subscribers in Alameda and Contra Costa counties. It is another proof of The Call's up-to-date methods in gathering and presenting the news.

A wrecking outfit was sent out to clear the track. Fortunately the accident occurred at a siding and there was no obstruction to main line traffic, passenger and freight trains using the siding to pass around the wrecked freight train.

Oakland Office San Francisco Call, 1118 Broadway, Jan. 19.

The Bay Cities Water Company has sent word to Mayor O'Connell that it desires to submit a second proposition to supply Oakland with water. In its proposition the company proposes to fix a definite rate by the million gallons on a long-term contract basis. The figure has not been announced.

The members of the committee that so successfully arranged for the presentation of the football show have all been decorated with medals. N. N. Eddy, chairman of the committee, received a gold medal, while Philip Carey, Robert Ross and Raymond M. Carey were given medals of oxidized silver.

"It has long been the practice of the San Francisco papers to treat news from Oakland, Alameda, Berkeley and the contiguous territory as having no general value as news and as of no interest to any save in this immediate locality. Residents in other parts of the State could search the columns of the San Francisco dailies in vain for any record of the events transpiring in this vicinity. For general news purposes the counties of Alameda and Contra Costa, containing some 170,000 inhabitants, were not on the map. Trifling occurrences in Oregon villages and fourth-rate towns in the interior of California were printed in the regular grist of dispatches, while accounts of important events in Oakland and adjacent cities were buried in the 'suburban page,' which is omitted from the regular editions circulated in San Francisco and elsewhere. As a result of this discrimination Oakland, Alameda and Berkeley are kept in the background by the papers which exclusively purvey the morning news in this section.

A wedding of interest to many of the young people of this city took place recently at the home of H. J. Edwards, 1296 Eighth street, when Lucia L. Benjamin and Robert Allen, Jr. were united by the Rev. E. R. Dille, pastor of the First Methodist Church.

Oakland Office San Francisco Call, 1118 Broadway, Jan. 19.

Mayor O'Connell called attention to the second proposition of the Bay Cities Water Company, which will be laid before the City Council. The company will submit a new statement provided the Council will make a long-term contract.

The reception and dance to be given by the 50 men and women will take place in Hearst Hall on January 29. Tickets will be on distribution at the co-operative store on Thursday.

"This discrimination is as short sighted as it is unjust and invidious. It is gratifying to note that The Call is wide awake and broad enough to break away from a practice wholly without justification from the standpoint of either fairness or enlightened newspaper policy. The general readers of that paper can now learn what is going on in the cities of Oakland, Alameda and Berkeley and the numerous towns and villages in their tributary territory. When The Call is sent East or abroad it will contain daily evidence of the fact that there is a city named Oakland in California inhabited by nearly 100,000 people. The Tribune presents its compliments to The Call, and trusts that its enterprising example will not be lost on its contemporaries."

Oakland Office San Francisco Call, 1118 Broadway, Jan. 19.

As Mayor of the city and the head of the executive arm of the government it would be entirely out of place for me to express an opinion one way or another about the report. I have not been consulted about it and do not think it is my province at this time to say anything about the report. In due time, however, the matter will reach me in an official way.

The members of the committee that so successfully arranged for the presentation of the football show have all been decorated with medals. N. N. Eddy, chairman of the committee, received a gold medal, while Philip Carey, Robert Ross and Raymond M. Carey were given medals of oxidized silver.
