System of the California Mountain Company to be Completed Without Delay

## ERA OF DEVELOPMENT

Thousands of Acres of Agricultural Land Will be Brought Under Irrigation

SAN DIEGO, June 9.—Announcement was made here this afternoon that the work of completing the water system of the California Mountain Water Company, of which John D. Spreckels of San Francisco is president, will be begun immediately. This system already consists of two large reservoirs, the lower Otay and the upper Otay dams, which impound many billions of gallons of water, and the work remaining to be done consists of constructing the Barrett dam at Morena, the building of the conduit to carry the water from there to the lower Otay dam and the laying of the pipe line from Bonita to this city. The cost of the work now to be undertaken will be more than \$2,000,000.

The watershed tributary to the Barrett reservoir has the greatest rainfall of any section south of San Francisco, and with the system completed there will be ample water supply for a city several times the size of San Diego. The average rainfall in that section is about forty inches a year. Thousands of acres of agricultural land will be brought under irrigation and the towns of National City, Chula Vista and Otay will be supplied. The announcement that this completion work is to go forward at once and as rapidly as possible is regarded as one of the greatest events in the development of San Diego.

# CRIPPLE CREEK EMPLOYERS OF LABOR PLEDGE THEMSELVES TO BAR ALL UNION MEN

General Bell Compels Famous Portland Mine to Close.

Claims That It is Aiding the Strikers by Employing Union Miners.

VICTOR, Colo., June 9.—In a bloodless assault made by 150 militiamen and deputies, led by Adjutant General Sherman M. Bell, on the Portland mine to-day, the mine was indefinitely closed, to be reopened later on terms which will prevent any workmen obtaining employment without presenting satisfactory working cards from the Mine Owners' Association. General Bell says the mine was closed because of "military necessity," as the men working in it were contributing to the support of the strikers.

The general and his force marched up to the mine, took possession, read the proclamation concerning the present disposition of the mine and then left with the employes of the company in charge of the plant. Following the closing of the Portland it was announced that the mines will begin to reopen to-morrow, the non-union mines first, and then the union mines, according to agreement made by their employes.

## APPEAL TO FEDERAL COURTS.

Portland Company Will Give Legal Battle to the Military.

DENVER, Colo., June 9.—The closing of the Portland mine at Victor by order of Adjutant General Sherman M. Bell will be probably the means of reaching the Federal courts with a case to test the power of Governor Peabody to vest in the military absolute power in the district declared to be under martial law.

The Portland Gold Mining Company, a foreign corporation, incorporated under the laws of Iowa, it is claimed by eminent lawyers that any act affecting it may be reviewed by the United States courts.

James F. Burns, president of the Portland Company, is in Denver and is closeted with his attorneys, who, it is said, are preparing papers which will be filed in the United States Circuit Court, asking for a restraining order to prevent further interference upon the part of the State military authorities with the operation of the Portland mine.

At the ex parte hearing Mrs. Phipps was not represented by her attorney, who received no notification of the steps then taken. Mrs. Phipps is expected to arrive in Denver to-morrow.

Annihilation of Labor Organizations in the Disturbed Mining District of Colorado Will Be Attempted by Citizens' Alliance.

CRIPPLE CREEK, Colo., June 9.—"Death to unionism in the Cripple Creek District," is the new slogan of the Citizens' Alliance, which has sent a decree broadcast that every person connected with any union here must either sever his or her connection with such organization or leave the district. No person who works for a living will be exempt and the absolute annihilation of unionism in this county will be attempted.

Two committees, composed of members of the citizens' Alliance, started out with identical terms of agreement to secure signatories. With two exceptions all business houses visited signed through authoritative representatives. The agreement reads: "We, the undersigned merchants of the Cripple Creek District and employers of help, hereby agree not to employ help of any kind that is in any way connected with the trades assembly or the American Federation of Labor, or the Western Federation of Miners, or kindred organizations."

# MEN FROM UTAH FREE TO CHOOSE

Mormon State Sends Six Un-instructed Delegates to the Convention at St. Louis

SALT LAKE CITY, Utah, June 7.—The six delegates from Utah to the National Democratic Convention will go uninstructed. Four of the six, it is understood, are against Hearst, with a leaning toward Parker as first choice. Two delegates probably will support Hearst.

For some time before the Democratic State Convention, which met to-day, it seemed almost certain that a bitter factional fight would be waged over the question of instructions or no instructions to the national delegates with regard to the polygamy question. One faction, led by Brigham H. Roberts, was outspoken in its demands that the delegates should be explicitly instructed to fight any anti-polygamy plank in the national platform. Another faction strongly favored the adoption of a plank in the State platform similar to that adopted by the Idaho Democratic convention, demanding that the Federal Government take into its own hands the suppression of polygamy.

# BISHOP LOSES WAY IN ALASKA

Misses Trail and for Three Days He and His Companion Subsist on Rabbits

TACOMA, June 9.—Rev. Peter Rowe, Episcopal Bishop of Alaska, became lost in March on an Alaska trail and for three days was forced to live on wild rabbits. The story of his experience reached here to-day from Fair-bank, Alaska.

Bishop Rowe was en route from Tanana district to Valdez, along the sea coast. He started out with Mail Carrier Karsten and one companion. The snow was deep, making the trip hard on both dogs and drivers. They were the first to go over the new mail route which runs down Golconda Valley to Copper River. They got off the trail one day and thereby missed Mail Carrier Foyne, whom they expected to meet with provisions. When they got back on the trail Foyne had passed. This necessitated three days' diet on such rabbits as they could kill. At the end of three days they reached a mining camp and obtained food. Mail Carrier Karsten says Bishop Rowe proved himself a prince of travelers, never once complaining.

The woman said that her husband, Michael Whelan, and herself were tenants of Patrick Foley at 725 Natoma street until last Wednesday night, when they signified their intention of moving away on the following day. Foley demanded the keys of the house. The old couple declined to give these up until new quarters could be secured. This refusal led to a row between Foley and Whelan. Wife, Mrs. Whelan went to the assistance of her husband. Then Foley turned on her and sank his teeth into her arm, lacerating the flesh and drawing blood. In retaliation, Whelan seized a hammer and smote Foley on the head. This ended the fight.

Ninty-Seven Miners Are Condemned to Prompt Deportation.

Will Be Shipped Out of Victor on a Special Train To-Day.

VICTOR, Colo., June 9.—The commission appointed by General Bell to inquire into the records of the miners under arrest reported to him to-day a list of ninety-seven union miners with the recommendation that they be deported. General Bell accepted the report and announced that the men would be sent out of Teller County as soon as a special train could be arranged for.

It was intended early in the day to begin the deportations at once, but the raid on the Portland mine and smaller affairs kept the military busy, and General Bell at 7 o'clock this evening said there would be no deportations to-night. It is said, however, that they will begin to-morrow and continue until all of the men whom the mine owners consider objectionable are out of the district.

# HEARST'S PACT WITH GORMAN

Washington Has a Rumor That the Marylander Is to Get Editor's Delegates

Special Dispatch to The Call.

CALL BUREAU, HOTEL BARTON, WASHINGTON, June 9.—The most interesting gossip in political circles to-day was a story that at the proper moment William R. Hearst will swing his delegates to Senator Gorman; that Guffey will switch Pennsylvania; that Tammany will start a revolt of cheering for Gorman and that New Jersey will fall into line with Maryland and West Virginia. One of Senator Gorman's close friends is quoted as saying: "I cannot verify the report, but it does not seem improbable. The late Senator Hearst was a devoted friend and admirer of Senator Gorman and the young man himself has frequently sought the advice of Senator Gorman in his political movements."

Hearst is building for the future. The theory is that by allying himself with Tammany against Judge Parker he is not only seeking revenge, but is making friends with Tammany, with Gorman and with Guffey for the future.

The combination, if effected, would give Senator Gorman about 250 votes on the first ballot, not to speak of prestige of the backing of such leaders as Guffey, Murphy and Hearst.

# BELIEVE COOK IS MURDERER

Authorities at Bakersfield Are Searching for Alex Pontan of Los Angeles

DROPS OUT OF SIGHT

Suspect Is Wanted in Connection With Killing of Mining Expert Valentine

LOS ANGELES, June 9.—The authorities at Bakersfield are searching for Alexander Pontan, recently a cook here, who is believed to be the murderer of J. A. Valentine, a mining expert, whose body was found in a cabin near Caliente.

A letter from E. B. Kersey, post-mistress at Plute, was received to-day by H. Yarnell, a local mining man. In this letter the writer states that Pontan and another man hired a livery rig at Mojave last week and were seen to stop at the Sixteen-mile House.

A year ago Alexander Pontan and Ike Bryson, son of Millionaire John Bryson of Los Angeles, made a trip to the same mining claim visited with fatal results by Valentine. On that trip, according to Bryson, Pontan played the part of a maniac, compelling Bryson at the point of a revolver to make a wild drive of several hours through the rugged mountain region. Finally the horses ran away, the rig was smashed and in the general mix-up Bryson escaped.

Valentine was regarded as well to do, owning mines in this State, Arizona and New Mexico. He also owned an interest in the Arizona properties of S. D. Crinshaw Brothers of New York. The mother and a sister of the deceased are said to reside in Prior, Kans.

J. Carpenter, friend and business associate of Valentine, left for Caliente, the scene of the murder, this afternoon, accompanied by a detective of the local police force.
