White Man and Negro Are Killed in Conflicts at the Chicago Stockyards

TEAMSTERS WILL QUIT

Officers of the International Body Sanction Walkout in Sympathy With Butchers

CHICAGO, July 26.—The sympathetic strike at the stockyards will be completed to-morrow morning. The related sanction to the teamsters joining their brother workmen in the general strike was given to-night by the officers of the International Teamsters' Union, and the drivers employed in the packing industry in Chicago will quit work to-morrow. Nearly 100 of these men struck to-day of their own volition, and one of the latter drew a revolver and fired into the crowd, hitting Stokes. The police were close at hand and succeeded in scattering the rioters after much difficulty.

While an attack was being made on colored strike breakers as they were leaving the stockyards to-night, John Stokes, one of the strikers, was shot and mortally wounded by one of the negroes. Stokes, together with fully 100 companions, it is said, rushed upon the negroes and one of the latter drew a revolver and fired into the crowd, hitting Stokes. The police were close at hand and succeeded in scattering the rioters after much difficulty.

During another riot within a hundred feet of the same place less than an hour after the one in which Stokes was shot, a negro strike breaker was shot and killed. The rioter escaped before the police arrived on the scene and it is not known who is responsible for the shooting.

Little if any advantage was gained by either side in the strike to-day and there was no hope to-night of any immediate settlement. Realizing that they have one of the hardest positions to contend with in the history of the packing industry, the packers are leaving nothing undone to gain the upper hand. All day long workmen from outside points were rushed to Chicago and taken to the places where the strikers were. To-night it was announced by the packers that 7000 new men were now installed in the different plants at the stockyards. With these new men and with the arrivals from other points, the packers expect to get their affairs into such shape that the strikers will be compelled to seek a truce.

Although the receipts of livestock to-day were small compared with receipts on corresponding days under normal conditions, still many cattle, hogs and sheep were left in the pens to-night unsold.

STRIKERS RETURN TO WORK.

Break in Butchers' Union Banks at Kansas City.

KANSAS CITY, July 26.—The Allied Trades remained at work to-day, owing to the non-arrival of the sympathetic strike order from Chicago before closing time, while nearly 100 strikers, tired of waiting for benefits from the Chicago headquarters, returned to work at the Armour and Fowler plants. At least one of the allied crafts may remain at work. J. A. Cable, secretary of the International Coopers' Union, said to-day:

"I do not expect the coopers to go out, regarding which the other allied trades may do."

A new feature was injected into the situation to-day when a telegram was received from a number of Texas cattlemen tendering sympathy to Armour & Co. because of their strike trouble and intimating that they would hold their cattle.

The five leading local plants to-day operated with increased forces.

GREAT STRIKE IS THREATENED.

Men in Wyoming and Lackawanna Districts May Walk Out.

WILKESBARRE, Pa., July 26.—A serious disagreement between representatives of the operators and mine workers of the conciliation board this afternoon resulted in adjournment after a spirited discussion, with no arrangements for another meeting. A strike at all of the collieries in the Wyoming and Lackawanna districts, where the fifth award of the strike commission is not enforced, is now threatened. The executive board has been given power to order it and the men stand ready to obey.

CITIZENS COMPLAINING

People Declare That They Fear the Return of Deported Men to Cripple Creek

DENVER, July 26.—Governor Peabody to-day issued a proclamation calling off military rule in Teller County and placing the Cripple Creek district in charge of the civil authorities. This action was taken by the Governor in face of opposition from many influential citizens of Cripple Creek, who desire to prevent deported union miners from returning to the district. Before issuing his order withdrawing the troops, however, the Governor received assurances from Sheriff Edward Bell that his forces were able to control the situation.

Military rule was proclaimed in Teller County on June 8 in consequence of disorderly acts following the explosion at Independence on June 6, by which many non-union men were killed and injured. Previous to that there had been a large force of soldiers on duty for many months in the Cripple Creek district, but before the explosion occurred these had all been withdrawn. No troops are now in the district, where in Colorado and good order prevails in all the mining camps.

The military expenses of the State during the past eighteen months, due to strikes, are said to aggregate about \$1,000,000.

VICTOR, Colo., July 26.—The recall of the militia to-day marks a new era for the Cripple Creek district. More than 4000 miners are working and nearly every mine is running full blast. The civil authorities are in control and everything is quiet.

BOILERMAKERS OF COAST DIVISION ARE ON STRIKE

International President to Confer With Railroad People and Settlement May Come To-Day.

The union boilermakers of the coast division of the Southern Pacific Company struck yesterday. The trouble was over the employment of two non-union men whom the strikers assert were imported from Chicago. Grand President McNeill of the International Boilermakers' Association is in conference with the railroad people yesterday. As yet there is no ill feeling on either side, and McNeill says that the affair will probably be adjusted amicably to-day.

The strike involves only the boilermakers of the coast division, who number twenty-eight in this city, sixteen in San Luis Obispo, four at Salinas, four at San Jose, two at Newark and two at Alameda Point. The men claim that they were discharged to fill all vacancies in the yards. They assert that the two men over whom the trouble started are from outside the State, and that they want Californians to be given the preference. President McNeill will confer with the company's officials again to-day.

At the last meeting of Carpenters' Union No. 483 the sum of \$100 was voted to the entertainment fund for the reception of the delegates to the American Federation of Labor in this city next November. At the same meeting \$10 was voted to the Stockton strikers.

JURY MAKES A STRANGE ADDITION TO VERDICT

Finds Louis Novinsky Guilty of Burglary, but Recommends Him to Mercy of the Court.

The trial of Louis Novinsky on a charge of burglary took place before Judge Lawlor's court yesterday. The jury, after being out for about three hours, brought in the following unique verdict: "We, the jury, find the defendant, Louis Novinsky, guilty of the crime of felony to wit, burglary of the second degree, and with the greatest respect for your Honor's good judgment and known qualities of mercy, we recommend the defendant to the mercy of the court."

Novinsky was charged with breaking into the basement of G. Blessner, 301 Frederick street, on January 24 and stealing several blankets and other articles. There are two other charges against him yet to be tried, and the police could have made the number about thirty. He and Moses Levy, who is on trial in the same court, drove around the Western Addition in a wagon, pretending they were peddlers. One would ring a door-bell and if there was no answer they would break into the basement and load their plunder on the wagon.

WIDOW FILES A CONTEST AGAINST MCKENTY ESTATE

Alleges That Husband's Last Will Was Made When He Was Unsound in Mind.

Augusta McKenty, widow of Jackson McKenty, who died in Nice, France, leaving an estate worth about \$200,000, yesterday filed a contest to his will of October 13, 1903, on the ground that at the time of making the testament he was ill and of unsound mind because of indulgence in drink, which had incapacitated him from attending to his business affairs for six months previously. Her attorneys are Pillsbury, Madison & Sutro. Mrs. McKenty seeks to validate the will of November 13, 1902, in which he left her half of his estate and appointed herself and her brother-in-law, M. H. Messchert, as executors. Messchert is named in the second will as executor and says that his niece, Mary E. A. M. Grant of Berks County, Pa., is the daughter of his father. The contest upon the granting of letters of administration under the two wills was to have been heard yesterday in Judge Kerrigan's court, but was postponed for two weeks.

FIREMEN ASK MORE PAY.

The captains, lieutenants and engineers of the Fire Department have sent out a petition to the voters of the city asking for an increase in pay. The captains want \$150 per month, in place of \$120 per month, which they are now receiving; the lieutenants ask for an increase from \$100 a month to \$125 a month, and the engineers want a raise from \$112 50 to \$122 50. It will be necessary to make a charter amendment to advance these salaries.

TRIBESMEN ARE ASSEMBLING AT CHERRY CREEK TO DISCUSS BLACK HILLS TREATY

TRIBESMEN ARE ASSEMBLING AT CHERRY CREEK TO DISCUSS BLACK HILLS TREATY

TALK IS THREATENING

Red Men Believe They Were Deceived by the Government in the Pact of 1877

Special Dispatch to The Call. SIOUX FALLS, S. D., July 26.—The fighting spirit of the Sioux Indians is not yet extinct and the warriors of that tribe may again appear in armed opposition to the Government.

More than a thousand tents are pitched near the Cherry Creek sub-agency of the Cheyenne River Indian reservation of South Dakota.

Indian delegations from the entire Sioux nation have been arriving in great numbers to engage in a council relating to the Black Hills treaty of 1877. Many of the men who were present at the councils when the Black Hills treaty was affirmed maintain that the commission appointed by the Government to conclude the treaty with them promised that the United States wanted the Black Hills country only until the gold, silver and other precious metals could all be taken out. Of course, in the light of subsequent developments in the hills, this in itself would be an indefinite lease, but the old generation of Indians believes differently.

The council to be held at Cherry Creek during the next week will be in session in many ways. It is currently rumored that the aggressive element is working to get the majority of delegates present to adopt a resolution of a radical nature. Just what this final conclusion desired by this element is cannot be definitely learned, but sufficient is known to warrant the statement that if all other means fail them in securing the restitution of the Black Hills, they would resort to armed force.

Iron Bull, Short Bull and other chiefs from Pine Ridge, Hollow Horn Bear, Lips, Ruben Quick Bear and other leading men from Rosebud, White Ghost, from the Lower Brule agency, and others are in the city today to press their views in the matter.

SAYS FATHER WAS DECEIVED

Daughter Brings Suit to Recover Property Deeded by Parent to Second Wife

MAKES SERIOUS CHARGE

Alleges That, at the Time of Marriage Woman Had Another Husband Living

Special Dispatch to The Call. MARTINEZ, July 26.—A sensational suit which has occasioned much surprise in this county has been commenced in the Superior Court. Martha E. Mulliken of Lafayette is the plaintiff and Martha M. Crawford, Mrs. M. M. Crawford and Martha Crabtree, is the defendant.

According to the complaint John Taylor, deceased, fell under the influence of Mrs. Crabtree and was by her induced to seek and obtain a divorce from his wife and marry the defendant, he having full belief that the defendant was an unmarried woman. Taylor deeded two tracts of land, comprising about 550 acres and situated near Lafayette, to the defendant, whom he supposed was his lawful wife, during off the treaty with them promised that the United States wanted the Black Hills country only until the gold, silver and other precious metals could all be taken out.

The daughter alleges in her complaint that she did not know the defendant was married before until some time after her father died, when E. B. Crabtree of Alameda County commenced suit against Martha Taylor, alias Crabtree, for a divorce. The prayer of the plaintiff is that the deeds in question be declared fraudulent, that a receiver for the property be appointed and that the estate revert to the true and lawful heirs of John Taylor.

The property in question is considered to be worth about \$15,000.

BANK MANAGER CLAIMS SHARE UNDER ARREST IN THE MUMMY

Taken Into Custody at Los Angeles at Request of Washington Authorities

IS ACCUSED OF FELONY

Charge Is Made That He Accepted Deposits When the Institution Was Insolvent

Special Dispatch to The Call. LOS ANGELES, July 26.—James Kellogg, formerly president and manager of the Kellogg Bank of Ellensburg, Wash., was arrested here to-night at the request of the Washington authorities as a fugitive from justice. He was found living in a comfortable home near here, which he had recently purchased, and to which he had brought his wife and four children. According to the telegraphic information the police have received from Ellensburg, Kellogg is wanted there on a felony charge, consisting of having accepted deposits in his bank when he knew the institution to be insolvent. The State of Washington has a statute for governing county banks similar to the Federal penal statutes for the regulation of national banks, and Kellogg's alleged offense is the violation of this special statute.

Kellogg declares that the effort to have him taken back to Washington a prisoner is only for the purpose of compelling him to pay claims for which he is not responsible. He openly declares that the criminal courts there are being used as a collection agency, and therefore he will resist extradition.

Balde of Tacoma for several years, but scarcely any one knew about it until Mrs. Balde sued for divorce. She now alleges the mummy is worth \$2000 and wants it included among Balde's assets when the property division is made. Balde owns the majority of the slot machines operated in Tacoma and has a large income from them.

Mrs. Balde says her husband paid an Alaska prospector \$2000 for the mummy. Balde says it is not a petrified body of an Indian, but a body prepared as the Egyptians mummified their bodies.
