SHARES OF ALASKA PACKERS  
ASSOCIATION CHANGE HANDS  
AND MARKET PRICE DECLINES

RUMOR LOWERS VALUES

Shortage of Salmon Catch  
Alarms Some of the  
Holders of the Securities

A flutter of excitement was caused yesterday among brokers and stock dealers by the fall in value of shares of the Alaska Packers' Association. These all edged securities, which reached as high a point as \$138.50 early in the present month, have since declined steadily and on Monday they closed at \$121.50. Yesterday morning the stock opened at \$121.50 and then declined to \$118, but at the close of the day the shares had risen to \$125, much to the satisfaction of hold-

There were many rumors on the street as to the cause of the decline. The generally accepted theory was that a few holders had become timid at the report that the salmon catch of the present season would fall below the average and that the packing association would not pay the handsome dividends expected as a result of the profits of the corporation during the last three years.

Henry F. Fortmann, president of the association, was not at all concerned when asked yesterday as to the cause in the decline of the value of the stock of his corporation.

"As a matter of fact," he said, "we take no notice of the dealings on the Stock and Bond Exchange in our shares. Our corporation has 48,000 shares of stock, mainly held in large blocks. Some of the stock has naturally found its way on the market, but the dealings are very small, ten to twenty shares having been offered for sale at a time."

PRESIDENT EXPLAINS.

President Fortmann was asked as to the reports that the salmon catch of this season would be below the average, and replied:

The general conditions on the Pacific Coast do not apply to our association. Our salmon catch is the same as in previous years. The total salmon catch of the coast has decreased, but the catch of our association is not affected. The salmon catch of the Fraser River and Puget Sound and in the latter part is not operating on account of the small run in the Sacramento River. The run is the smallest on record.

AN AVERAGE PACK.

These conditions are the general ones of the salmon season. Up to date reports received indicate that our pack will be equal to that of last year and if there is any falling off it will be but a slight one. The pack is valued at \$6,000,000 and our profits were more than \$1,000,000. Regarding our indebtedness of nearly \$4,000,000 to the local banks, that matter is well known in commercial circles.

GEBER CHARGED WITH ANOTHER MURDER

Coroner's Jury Holds Foreman Responsible for Death of August Armond, Killed by a Cave.

Another charge of murder has been placed against August Geber by a coroner's jury. This was in the matter of the inquest upon the body of George Hartman of 321 Third street, who was shot on July 10 by Geber while he was working on a building under construction and incompetent labor, and he died from the wound on July 17. His first victim was Charles Hartman, a laborer, who was killed on June 27 by the falling in of a bank of earth at 141 Prospect place, the jury found the following verdict:

TAKES A HERD OF HIGH-BRED COWS TO UNCLE SAM'S ORIENTAL ISLES

Army Transport Dix Sails for Manila Deeply Laden With Hay and Oats, and Carrying in Stalls on Deck Horses and Mules and Pedigreed Cattle of the Jersey and Holstein Families

The army transport Dix, Captain George Ankers, sailed at noon yesterday for Manila with a large cargo of feed and livestock. Stowed away in her holds the army freighter has 7000 tons of hay and 2500 tons of oats. The hay and grain are of the best quality obtainable, and Uncle Sam's stock in the Philippines will live high after the arrival of the Dix.

The transport also carried 230 horses and mules and three score cows and bulls. These are the first cows the Government has shipped to the Philippines, and the experiment will be watched with great interest. The cows are all highly-bred Jerseys and the bulls are of the Holstein family. About a score of the cows are now giving milk, and the officers of the Dix are looking forward to having the kind of coffee mother made all the way across the Pacific.

The loading of the stock was accomplished yesterday morning. Army mule-skinner make short work of persuading four-footed passengers to climb the steepness of gangways, and when the work began yesterday there was an unbroken procession of horses, mules, cows and bulls from the wharf to the deck of the transport. All the stock was aboard and each animal snugly quartered in a comfortable stall when the 12 o'clock whistle blew. Before the noonday signal had ceased to sound the Dix was moving away from the wharf.

Beri Beri on the Fooling Suey. The crew of the American bark Fooling Suey, which arrived Monday at Delaware Breakwater from Kahului, is suffering from beri beri. One man is reported dead and two others are not expected to recover.

WILL DISCUSS GRAIN PROBLEM

Meeting Called to Begin Investigation of Great Scope and Importance

HOME MARKET AT STAKE

Millers, College Professors and Business Men Invited to a Conference Next Week

One week from to-day there will assemble in the rooms of the California State Board of Trade four millers, professors connected with the agricultural department of the University of California, the president and manager of the Board of Trade and Secretary Friedlander of the Merchants' Exchange. They purpose beginning a systematic investigation of great importance to the grain growers of California and to owners of land upon which grain is produced. The meeting is called at the instance of the committee recently appointed by General Chipman of the California State Board of Trade to ascertain what must be done to produce wheat in California possessing a sufficient percentage of gluten to make it acceptable to California flour makers without importing wheat or flour from any other State or country.

The call for the meeting was sent out yesterday. The committee is anxious to begin at once to gather all the information that is available upon a very important matter, and would have come together on Monday last but for the fact that some of the members were unable to attend.

One of the questions for consideration is whether loss would be entailed temporarily by the use of new seed wheat that has not yet become acclimated. There have been instances where the first sowing of a new seed or of old seed planted in a new locality did not bring satisfactory results the first season, but yielded plentifully the second year.

Horace Davis or James Hogg of the Speary Flour Company will give all the information that can be supplied from this point is expected from the professors in the agricultural department of the University of California.

Secretary Arthur R. Briggs has sent out a circular to wheat farmers in all sections of the State asking them to communicate as early as convenient with the State Board of Trade. Much information concerning conditions and the needs of the farmers may be derived from this source.

Professor Hilgard has promised to attend the meeting next Wednesday if Professor Shaw is unable to be present. Possibly other members of the agricultural faculty from Berkeley will supply immediate information.

The State Board of Trade has in a successful determination of the best course to pursue in this State is the home market for milling wheat as against the product of South Dakota and Kansas. These States have been bringing largely into the California field and selling their products in great quantities to the makers of flour, especially for the Oriental and bakers' trade.

Postoffice Appointments. Postmaster Fisk made the following appointments yesterday: A. E. Booth, to the substitute list for the third class carrier, vice James H. Smith, resigned; Ernest F. Jorgenson, letter carrier, vice R. B. Beall, died; Henry F. Dunne, from substitute clerk to carrier, third class, vice Charles A. Jennings, died.

Concert at Seamen's Institute. A concert will be given at the Seamen's Institute this evening by Miss Dietzler. All are invited and no charge will be made for admittance, although the board of lady managers announces that voluntary contributions will be accepted.

To U. S. Navy Yard and Vallejo. Steamer Corcoran, Monticello and Arrow, 9:45 a. m., 12:30, 3:15, 6:30 p. m. (ex. Sun.).
