HEMPHILL WILL CONTEST

Continued From Page 1, Column 7.

29, 1905. The will which has caused the discussion was made in 1877. Dr. Hemphill, one of the best known residents of this city and has property of large value in his own right.

Mrs. Daniell was formerly Mrs. Robert P. Hastings of this city. Her first husband died in 1882, and in 1884 she married Daniell. She had two children by Hastings, Elizabeth P., aged 22 years, and Harry, aged 18, residing in London, where Harry is attending the university.

Mrs. Daniell came to San Francisco in 1892, and it was thought at the time that her purpose was to get a divorce from her husband. Daniell followed her, staying at the Grand, while his wife took apartments at the Palace, but there was soon a reconciliation. They then returned to England, but Mrs. Hemphill carried her disfigure for Daniell to the end.

Report Gains Circulation of Another Bomb Attack to Be Made on the Governor

NEW GOVERNOR OF THE PANAMA CANAL ZONE WHO HAS JUST ASSUMED OFFICE.

WARSAW, May 26.—After nearly forty-eight hours of mob law the authorities this afternoon interfered, patrols of infantry and Cossacks engaged in dispersing the rioters, who were engaged in the demolition of disorderly houses. In two instances the troops fired on the crowd, wounding three persons. Fifty arrests were made, after which order was restored.

Nineteen persons were injured in today's disturbances, and at the hospitals three persons who received injuries in the rioting of Wednesday night died. Six thousand troops came to Warsaw to-day for their summer encampment. Martial law was proclaimed late to-night.

RACE CLASH IMMINENT.

Jews and Christians of Zhitomir Said to Be Arming.

ST. PETERSBURG, May 26.—The council of the empire has increased the appropriation for public education by \$625,000.

Private reports from Zhitomir, province of Volhynia, say that the tension between the Jews and Christians is increasing and that both sides are arming.

The Ignatieff commission, for the revision of laws designed for the separation of public order, has pronounced against a continuance of the minor state of siege which is annually declared in many Russian cities.

The commission finds that it leads to great abuses and extravagance and furnished a pretext for domiciliary visits and summary arrests. The commission recommends the entire abolition of the so-called minor state of siege and the substitution at times of great public disorder of a normal condition, with the civil authorities in full sway, or entirely under the control of the military.

WAR SECRETARY TAFT SPEAKS AT BANQUET

Discusses Question of Buying Material for the Panama Canal.

CINCINNATI, Ohio, May 26.—The celebration of the twenty-fifth anniversary of the Cincinnati Commercial Club closed to-night with a banquet at which the speakers discussed the questions of the day.

Secretary of War Taft made the principal speech, on "Policy and Practice," saying in part: "If the material used on the canal could pay duty or be bought in the United States, but as the construction of the canal is a number of days' journey from the tariff wall of the United States it presents exactly the same case as is presented in the case of the Philippine Islands. Now, if Congress wants to pay more than Franco was willing to pay, then they are at liberty to do so, but in the absence of a rule we must carry out the rule that applies. The law requires that, prices and quality being the same, we must buy American goods. In the absence of a rule we feel bound by our treaty with at least as possible. We submitted the question to Congress on this line, asking Congress to lay down a rule. If there is no rule we must build as a business man would build. Now, there is no question of protection or free trade; it is merely a rule-out duty under the law as it stands. If the rule or law is changed, we must change."

AFTER CAR LINES.

Proceedings Begun Against Chicago Street Railway Companies.

CHICAGO, May 26.—What is regarded as an aggressive move in the efforts of Chicago's municipal wardens to obtain a legal decision on the holdings of the street car companies was made to-day when quo warranto proceedings seeking to learn by what authority the City Railway and the Union Traction Company continue in the use of the streets were begun in the Superior Court in the name of the State's Attorney. The petition for judicial inquiry alleged that the companies have exceeded their franchise rights by a substitution of electricity for horsepower as originally granted, and have thereby forfeited their claim to the use of the streets.

BORDER WATERWAYS CAUSE FRICTION WITH CANADA

Settlement Delayed Pending an Inquiry Into the Power of the International Commission.

WASHINGTON, May 26.—Pending the answer of the Washington Government to the Canadian Government's contention that the law establishing the International Waterways Commission provided that all international waterways between this country and Canada be included in the scope of the commission, no further meetings will be held. The next meeting will take place at Toronto, after the decision of Secretary Taft regarding the law.

STOCKTON, MAY 26.—The latest developments in the affairs of the Okadale Bank, the major stockholder of the International Marine Company, is lying at the point of death, show that the bank has totally collapsed.

The stockholders are at work upon the books of the concern to-day. A report will probably not be forthcoming for a day or two, but those who have been conversant with the affairs of the bank or have had occasion to make themselves so since the shooting express the opinion that matters will be found in a much worse condition than was at first reported.

Whether the stockholders will lose heavily depends upon what assets Kahn may be able to dispose of. It is feared that they will be very small. It was thought at first that his string of nearly thirty warehouses, extending from Stanislaus through Merced County, would cover the loss, but it has developed that the First National Bank of this city, a small stockholder of the Okadale Bank, has a mortgage of \$30,000 on the warehouses.

Kahn is worse to-day. While he may live through the day, there is little hope for his recovery. He has lapsed into a state of semi-consciousness.

CONFIDENCE IN THE FUTURE
IS THE PREVAILING SENTIMENT AMONG THE DEALERS

RAIN RETARDS ACTIVITY

MONEY IS ABUNDANT AND EASY

Commercial Payments Are Generally Very Prompt

NEW YORK, May 26.—R. G. Dun & Co.'s Weekly Review will say to-morrow: Improvement is reported in retail trade although weather conditions are still far from ideal, and excessive rains retard agricultural progress sufficiently to cause concern among dealers, yet confidence in the future is the prevailing sentiment. Building operations make favorable comparisons with recent years, and there is little controversy regarding wages or hours of labor. Foreign commerce at this port for the last week shows little change in comparison with the same period a year ago, exports decreasing \$217,750, while imports gained \$255,000.

Western country hides are relatively firmer than other divisions of the market. Failures this week number 211 in the United States, against 226 last year and 19 in Canada compared with 17 a year ago. Bradstreet's to-morrow will say: Wholesale trade is reasonably quiet, pending a clearer view of the crop outlook, which, owing to irregular or unsettled weather in wide areas, still lacks definite form. Cool weather is still a bar to fullest activity at retail. Manufacturing activity is still in large volume on orders previously booked. Speculative markets for wheat reflected the technical conditions and short supplies in primary markets more clearly than they do the slight deterioration in quantity and quality indicated as resulting from recent backward weather. Collections received little more than seasonal slowness, and money is easy and in abundance. Rather more friction in labor matters is noted at Chicago, the expected ending of the teamsters' strike being retarded by a host of fellow-townsmen are noted in other cities. Despite efforts to accentuate less favorable happenings for stock speculative purposes, there is still abundant evidence that the country's requirements are on a large scale, heavily exceeding a year ago at this time, and the movement can be materially quickened by more seasonable weather, allowing of belated retail buying materializing in ordinary crop developments occurring. Railway earnings for the first half of the month of May exceed a year ago by 65 per cent.

Business failures in the United States for the week ending May 25 number 19, against 181 last week, 194 in the like week in 1904, 181 in 1903, 163 in 1902 and 144 in 1901.

In Canada failures for the week number 17, against 17 last week and 14 in this week a year ago.

Wheat (including flour) exports for the week ending May 25 are 1,221,209 bushels, against 1,125,550 last week and 1,132,157 this week last year. From July 1 to May 25, 1905, exports are 57,221,207 bushels, against 125,009,221 last year and 154,360,709 in 1903.

The meeting opened to-day with an address by Dr. Collier Jr., of St. Paul, who told of the rapid improvement of that city.

DEALERS IN REALTY HOLD BUSY SESSION

Adopt Name for Their Organization and Make Plans for the Future.

LOS ANGELES, May 26.—"California State Realty Federation" is the name decided upon by the real estate men of the State, who have been meeting in convention here yesterday and to-day, for the permanent organization which it was decided at this morning's session to form.

Byron Erkenbecker was elected president, Robert E. Baird secretary and F. W. Crannell of Oakland chairman of a committee of which will act as an advisory board of directors. Fifteen members, the others to be appointed by the different board which compose the main organization.

SHIPPING TRUST HAS NEW HOME

Big Combine Moves Into the Building Erected for It in the British Metropolis

MANY LINES TOGETHER

Statue of King George III by Accident Occupies a Spot Directly in Front

Special Dispatch to The Call.

LONDON, May 26.—There are reminders of American trade conquests in several prominent places in London, and the number has just been increased by the opening of the new offices of the International Marine Company, better known as the Morgan shipping trust, in Cockspur street, close to Charing Cross. Soon after the formation of the combine it was decided to consolidate the London offices of the various lines comprising it under one roof, with which object a handsome building was specially constructed.

Hereafter Americans who come to London will find themselves able to deal at the same counter with any one of the seven lines now under the International Marine Company's control—the White Star, the American, the Red Star, the Dominion, the Holland American, the Atlantic Transport and the Leyland line of steamships.

The steamship headquarters, which are handsomely fitted up, are on the ground floor. The three upper floors of the building have been turned into suites of offices, which, on account of the location, will be among the most desirable in London.

By an odd chance the American combine's London headquarters has been built directly behind an equestrian statue of King George III, which has stood for years at the junction of Cockspur street and Pall Mall.

Withdrawal Aid From Strikers.

CHICAGO, May 26.—It was decided at the meeting of the Building Trades Council to withdraw all the financial and moral support that the building trades unions have been giving the teamsters thus far in the strike. This means a loss to the teamsters of \$3000 a week.

A committee was appointed to convey to President Shea of the teamsters news of the action voted by the building trades. The news visibly affected him and he replied: "I can't believe that this is true. The building trades workers are too loyal to unionism to take this position."

LEAGUE OF CROSS COMPANIES
MEET IN ANNUAL CONTEST OF DRILLING FOR MEDAL

FIRST RESULT A TIE

GEN. FUNSTON, OTHER ARMY OFFICERS AND NATIONAL GUARD MEN INTERESTED SPECTATORS

The annual competitive drill and military concert of the First Regiment, League of the Cross Cadets, Colonel James E. Power commanding, at the Mechanics' Pavilion last night, proved a brilliant success. In the reviewing stand were his Grace the Most Reverend Archbishop Montgomery, Brigadier General Frederick Funston, commanding the Department of California, attended by his aids, Lieutenant E. C. Long and Lieutenant B. J. Mitchell; Adjutant General J. B. Lauck, N. G. C.; Colonel B. Wlencke and Colonel S. J. Hendy, aids to the Governor, and many priests of San Francisco and bay cities, including the Rev. Father Philip O'Ryan, spiritual director of the League of the Cross. The judges of the competitive drill were Captain Arthur Kerwin, Thirteenth Infantry; Lieutenant Frederick Coleman and Lieutenant H. A. Hanigan, Thirteenth Infantry.

The programme opened with a concert by the band under direction of Lieutenant E. G. Williams, and at the close the first, second and third battalions marched into the spacious hall with a dash and precision that won instant and hearty approval, each with 28 1-3 points out of a possible 300.

The judges announced that the two rival companies must go through three movements of ten points each, and this result in Company D's scoring twenty-nine points and Company L, 28.

Then Sacred Heart Parish cheered for its men, the victors, and the Rev. Father Philip Ryan hastened forward and congratulated the victors. Captain Burke, Archibishop Montgomery planned the contest, and the captain's breast, Father McQuaide was elated because, for the second time, Company D had proved victors in the bloodless contest.

There was a strong contrast afforded by the fancy squad drill of Company G, Captain Thomas O'Day commanding. The young men were attired in green blouses and executed a silent drill with splendid effect; the only word being a short, snappy "Hep," and left about or right about, halt, attention, march, all followed the command, "Hep," which with all the seriousness and excellence of the drill, evoked hearty laughter.

WIND AND RAIN ARE DAMAGING

Cool, Dry Weather Needed for Few Days to Prevent Greater Injury to Crops

STOCKTON, May 26.—Rain has been falling in this vicinity since early this morning, and there is much fear that great damage will be done to hay, most of which is cut. The high wind of yesterday knocked much green fruit from the trees. It will require cool weather with light winds for a few days to prevent great damage to crops.

SAN JOSE, May 26.—Thirty-five hundredths of an inch of rain fell here this morning, and it is still showery. Rippe berries will be damaged and possibly the hay.

SACRAMENTO, May 26.—A steady rain has been falling here to-day. It was not heavy, but it will damage hay, cherries and strawberries.

GILROY, May 26.—A heavy shower of rain to-day did much damage to hay and injured the cherries, small fruits and berries. It also did some damage to standing grain. The shower benefited the beet fields and seed farms.

SANTA ROSA, May 26.—A heavy rain to-day did much damage to hay and injured the cherries, small fruits and berries. It also did some damage to standing grain. The shower benefited the beet fields and seed farms.
