### DOUBT CAST UPON HYDE STOCK SALE

### Lawyer Says Policy-Holders Have Been Thrown From Frying Pan to Fire.

NEW YORK, June 16.—To-day's session of the executive committee of the Equitable Life Assurance Society was devoted to routine business. At the conclusion Chairman Morton said that until the Hendricks report is given out the action of the committee will be conservative. It is now expected that the report will not be made public before next Monday or Tuesday.

The committee of policy-holders, of which John D. Crimmins is chairman and which was organized to secure the nullification of the Equitable Society, to-day adopted a resolution declaring it to be the opinion of that committee that the "voting trust" will assure an honest administration of the society's affairs. The resolution was signed by John D. Crimmins, John B. Stanchfield, E. W. Bloomfield, E. H. Oterbridge, Charles Bulkeley Hubbell, Edwin Warfield, Henry Morgenstern and E. J. Esselstyn, the last named as secretary.

Alexander H. Bacon, counsel for Roland W. Dufort and other policy-holders, to-day made an attack on the recent transfer by James H. Hyde to Thomas F. Ryan. "I am not sure that there has been any bona fide sale of the Hyde stock," said Bacon. "The fact of the price that is said to have been paid has been published in no prima facie evidence of such sale. I believe that it is under his wife's deathly find that they have been thrown from the frying pan into the fire. If this is really a sale dummy trustees would be obliged to vote for dummy directors. The twenty-eight directors to represent the policy-holders will be really selected by the management or their agents, who will cease to be agents very quickly, if they do not influence the policy-holders to select the right directors."

# GERMANY'S DISCOMFORT

### Issue a Warning Against Giving Information.

### Assert Advantage Is Taken of It by Competitors.

### Request That Factories Be Shut to Foreigners and Strangers.

Special Dispatch to The Call.

WASHINGTON, June 16.—Under the heading "German Fear of Publicity," the Department of Commerce and Labor publishes a report under date of May 20 from Richard Guenther, American Consul General at Frankfurt, Germany. It says: "The Chamber of Commerce of Sohra, Prussia, recently addressed a communication to manufacturers and selling agents of that district in which it warns them against giving information of the condition of the markets and of manufacturing interests in their reports to the press, etc."

"The reports in our technical and trade papers are most assiduously studied abroad and by agents of our foreign competitors residing in Germany, especially by the Consuls of the United States. "The articles published in our journals and trade papers should not state the selling prices of our manufactured articles, how their cost compares with that of similar goods produced in the competing country, of what ingredients the articles are composed, what the tariff rates are, etc. Such detailed descriptions, which often expose even the secrets of manufacturing, form an excellent weapon in the hands of our competitors and serve to injure German business interests. All public reports should refrain from giving details. The chamber is careful not to mention such in its special reports. No complaints about had business should be published, as this is hurtful to our export trade. "We therefore beg of you to promote our business interests by spreading this warning; abstaining from giving publicity to any details of our business, and communicating to the proper authorities, urging this on your employees who may have intercourse with newspapers and keeping your factories shut to foreigners and strangers."

### TWO COLORADANS HANGED FOR MURDER OF WOMAN

Men Who Killed Mrs. Amanda Youngblood Two Years Ago Die on the Gallows.

CANYON CITY, Colo., June 16.—Frederick Arnold, aged 20, and Newton Andrews, aged 21, were hanged at the State penitentiary to-day for the murder of Mrs. Amanda Youngblood in Denver two years ago.

Andrews made a statement in which he admitted firing a shot during the struggle at the Youngblood home, but denied that the shot went into the ceiling without injuring any one. He said he was very drunk at the time and did not realize what was being done. Arnold had nothing to say.

DENVER, June 16.—The crime for which Frederick Arnold and Newton Andrews were executed at Canyon City to-day was the murder of Mrs. Amanda Youngblood on New Year's eve two years ago. # CZAR AWAITING PEACE TERMS OF RUSSIA

### Feeling Exists in Diplomatic Circles at St. Petersburg That Agreement Will Be Reached.

### WITTE IS IN A BITTER MOOD

Continued From Page 1, Column 1.

According to the writer, Emperor William in an autograph letter advised Emperor Nicholas to consider the question of a quick peace apart from the willingness of the soldiers to die for him, were able to guarantee him victory. If this were not the case, then Emperor Nicholas would perhaps take into consideration whether the internal problems of Russia warranted a continuance of the war and a further heavy sacrifice of life.

Far from wishing to force advice upon his friendly neighbor, Russia, which would be possible only for a man having full information regarding the country's political and internal affairs, Emperor William offered his friendly services in case Emperor Nicholas considered that the moment had arrived for availing himself thereof.

The writer in Die Grenzboten then turns to a discussion of the probabilities of peace. Evidently giving the German official view, he says the negotiations can only be crowned with success in the prospect that Japan's demands approach the maximum, rather than the minimum. He commends to Japan Germany's moderation in 1821 in delivering the fortress of Belfort to France.

### TEXT OF JAPAN'S REPLY.

Imperial Government Agreeable to the Suggestions of Roosevelt.

WASHINGTON, June 16.—The following is the text of the Japanese reply to President Roosevelt's identical note to Japan and Russia on the subject of negotiations for peace:

"The Imperial Government has given to the suggestions of the President of the United States embodied in the note handed to the Minister for Foreign Affairs by the United States Minister on the 9th inst. very serious consideration, to which, because of its source and its import, it is justly entitled. Desiring, in the interest of the world, as well as the interest of Japan, the re-establishment of peace with Russia on terms and conditions that will fully guarantee its stability, the Imperial Government will, in response to the suggestions of the President, appoint plenipotentiaries of Japan to meet the plenipotentiaries of Russia at such time and place as may be found to be mutually agreeable and convenient for the purpose of negotiating and concluding terms of peace directly and exclusively between the two belligerent powers."

### PRaise FOR ROOSEVELT.

London Press Compliments Him on His Diplomatic Success.

LONDON, June 16.—The acceptance of Washington as the place for the conduct of peace negotiations has been commended by the London newspapers as a great compliment to President Roosevelt's diplomacy and as a further proof of the growing influence of the United States in international affairs. Moreover, it is felt that Japan would have not proceeded thus far unless convinced there was a reasonable prospect of the negotiations bearing fruit. It is therefore concluded that Japan has resolved to propose moderate and reasonable terms. Altogether the situation is regarded as much more hopeful than it was twenty-four hours ago, and as the Daily News remarks in commenting on "one of the most momentous diplomatic actions of modern times," the Japanese government "waits for the treaty of Washington."

### PARIS PRESS SKEPTICAL.

Comments Indicate a Doubt as to Success of Peace Conference.

PARIS, June 16.—Owing to the fact that the selection of Paris as the place for the peace conference has been regarded as a step toward the Moroccan difficulty, the selection of Washington as the seat of the preliminary Russo-Japanese peace conference is not commented on by the press to any large extent. Most of the papers, however, agree in considering the United States as best suited for a meeting of the plenipotentiaries, though an undercurrent of skepticism regarding the results is noticeable. The Petit Journal says: "The movement for peace inaugurated by President Roosevelt has made an important step forward."

The Petit Parisienne says: "The selection of the political capital of the United States causes no surprise. Everything seems to indicate that Baron Rosen will be one of the plenipotentiaries."

The Figaro says: "A new and most important step has been taken, in a pacific sense."

The Echo de Paris says: "The choice of Washington seems to indicate that Russia and Japan intend to deal quickly with the affair."

The Siecle says: "It was our duty during the hostilities to observe neutrality. Similarly it is our duty pending negotiations to refrain from interference."

Doubt Sincerity of Russia.

PARIS, June 16.—The Journal's Tokio correspondent says that the Japanese do not believe in the sincerity of Russia's expressions of a desire for peace. He quotes Kokumin, a semi-official journal, as saying: "The only thing for us to do is to continue the war without hesitation."

### Linevitch Not Opposed to Peace.

ST. PETERSBURG, June 17.—An official denial has been issued of reports that Lieutenant General Linevitch and other generals have sent an appeal to the Emperor against concluding peace.

### Resignation of Grand Duke Alexis Causes a Great Sensation.

ST. PETERSBURG, June 16.—The announcement that Emperor Nicholas has accepted the resignation of his uncle, Grand Duke Alexis, as high admiral created a great sensation when it became known to-day, but the announcement came too late for comment in the morning papers.

Commenting on the selection of Washington as the place of meeting for the peace plenipotentiaries, the Novoe Vremya calls upon Russian diplomacy to prepare to struggle seriously and not repeat the drifting policy which the Russian diplomats followed before the war, to decide what Russia wants and to act accordingly.

The Russ dwells on the necessity for selecting the ablest men available to represent Russia at the Washington meeting, "since they may have to conclude a peace which will determine for many years Russia's position in the Far East."
