

# PEACE ENVOYS VISIT HOME

## Reception Details Completed by Naval Men. Luncheon Is to Be Given on the Mayflower.

WASHINGTON, July 27.—Arrangements were completed here today for conveying the peace envoys of Russia and Japan from New York to Oyster Bay, where they will be received by the President and from there to Portsmouth, N. H. The details were arranged at a conference participated in by Acting Secretary of State Pierce, who has been commissioned by the President to arrange for the meeting of the envoys at the residence of the Navy Secretary, Rear Admiral Converse, chief of the bureau of navigation; Rear Admiral Sigbee, commanding the squadron of the North Atlantic fleet, from which vessels have been selected for the conveyance of the plenipotentiaries, and Commander C. McR. Winslow, commander of the Mayflower.

### KOMURA VISITS PRESIDENT.

Thanks Chief Executive for Efforts in Behalf of Peace.

OYSTER BAY, July 27.—President Roosevelt entertained at luncheon today Baron Komura, Minister of Foreign Affairs of Japan, and the plenipotentiaries to the United States, the Japanese envoys to the Washington peace conference. Subsequently he had a long interview with them, at which all phases of the approaching negotiations were considered. Neither the President nor his Japanese visitors cared to discuss for publication the nature of their conference, except in the most general terms.

### DR. PIERCE'S REMEDIES

#### STOMACHS ON STILTS.

The man who puts on stilts does not increase his actual stature. He only feels taller. Stimulants do the same to the stomach. They make a man feel better for the time being, but he feels a great deal worse for them afterward.

The need of the man whose stomach is "weak" is not stimulation, but strength. Dr. Pierce's Golden Medical Discovery perfectly answers that need. It contains no alcohol or whiskey. It cures the weak stomach with its attendant bad smelling breath, coated tongue, bad taste, poor appetite and kindred symptoms.

"In the year 1891 I had an attack of indigestion and got so bad that my home doctor said he could do me no good." writes Mr. G. Trent, of Gordonville, Texas. "I wrote to you and you advised me to use Dr. Pierce's Golden Medical Discovery, so I bought six bottles, and when I commenced using it I was so weak that I could hardly get out of the house. By the time I had used one bottle my stomach and bowels commenced to heal. There were strips of the lining of my stomach or bowels (I don't know which) as large as a man's two fingers passed and I had a good deal of misery in my stomach and bowels, and also in the rectum especially. I could not eat anything without having much distress afterward, but by the time I had taken eight bottles of the Golden Medical Discovery I was sound and well, and could eat anything I pleased without suffering in the least. Could do as much work in a day as I ever could. I have not suffered from the trouble since, and it was four years ago that I was so sick."

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

# ROOSEVELT VISITS PEACE ENVOYS

## to you the nature of the discussion. I could not do that."

President Roosevelt, when interrogated this evening about the conference, replied that it was a subject which he did not feel at liberty to discuss for publication. It is expected that soon after the arrival of M. de Witte, the principal envoy of Russia, he will make a formal call on President Roosevelt in advance of the presentation to the President on August 5 of the two sets of plenipotentiaries and their suites. The President does not conceal his deep interest in the approach of the conference of the envoys, but lets it be understood that his interest will not lead him to interfere, even by indirection, with the work of the conference. He had hoped that an early armistice might be reached between the contending armies in Manchuria, pending the conclusion of the work of the conference. It is not unlikely that the subject of an armistice may be one of the first topics considered after the arrival of the envoys at Portsmouth, but thus far no intimation of their possible action on that subject has been given. The plenipotentiaries have full authority to negotiate a temporary peace protocol, but they are not expected to do so. It will depend largely on the situation at the time they begin their discussion.

### RUSSIAN PRESS CAUSTIC.

#### Criticizes the Visit of Secretary of War Taft to Japan.

ST. PETERSBURG, July 27.—The substance of the interview in New York with M. Sato, spokesman of the Japanese peace envoys on the position of Japan in the peace negotiations was reproduced in the papers here and passed almost without comment, only the Novoye Vremya, indulging in a sarcastic fling, says that "Japan has conducted the war quite economically—only a million a day, but she has not spared the bit, and those who are furnishing the sinews of war and not to the country upon which the war was fought."

### PLANS FOR INDEMNITY.

#### Financiers of Europe Prepare to Raise Money for Russia.

BERLIN, July 27.—In view of the probability of an early peace between Russia and Japan, the terms of which will probably involve the payment of very large indemnities by the Japanese, financiers of Europe have been holding conferences to the end that the indemnity may be paid without seriously disturbing the finances of the world.

### DE WITTE LEAVES FRANCE.

#### Russian Peace Envoy on His Way to the United States.

CHEKBOURG, July 27.—The North German Lloyd steamship Kaiser Wilhelm der Grosse, with M. de Witte and his party on board, sailed for New York here today at 1:30 p. m. At 10:30 a. m. it was announced that the Kaiser Wilhelm der Grosse left the Needles at 5:30 this morning, her departure was delayed owing to the denseness of the fog.

### LINEVITCH TELLS OF LANDING.

ST. PETERSBURG, July 27.—General Linevitch confirms the report that Japanese destroyers landed a battalion of infantry at Kashey on July 24, occupied the lighthouse and hoisted the Japanese flag.

### RUSSIANS RETIRE IN NORTHERN KOREA.

LONDON, July 28.—The correspondent of the Daily Telegraph at Osaka, Japan, sends the following: "Hearing of the advance of the Japanese on the Russians on Monday hastily retreated from Pyongyang and Pukyo, in Northern Korea."

# Japanese Dislodge Russian Forces at Alkova.

## Large Quantity of War Munitions Captured.

TOKIO, July 27.—It is officially reported that a Japanese detachment which was protecting the landing of troops in Sakhalin Island, dislodged the enemy from Alkova and vicinity, occupied the first line of defenses at Polovin and the second at Alkova on July 24.

The Russian strength consisted of one battalion of infantry, recently dispatched to the scene, besides several hundred volunteers, with eight field pieces from Alexandrovsk placed on the line in the direction of Luikoo.

Before this, one detachment of Japanese infantry, dispatched under the protection of torpedo-boats toward the pier at Alexandrovsk, dispersed a body of Russians who were endeavoring to burn the pier, which was captured intact.

A detachment, helped by a torpedo-boat, landed at Mugati, dislodged the Russians and captured 40,000 tons of munitions and light railway material. Another detachment occupied the third line of defenses at Alkova on the same afternoon. Continuing the advance, Alexandrovsk was taken and entered on the same evening after some resistance. The Russians continued their resistance at the redoubts east of the town and on an eminence to the northeast. Stubborn resistance was offered and the fighting did not cease from sundown to dawn, the Russians holding their positions east of Alexandrovsk. The Japanese then attacked, pressing the Russians toward Novomichailovsk and completely occupying that place.

Alexandrovsk being completely destroyed by a conflagration. Two hundred prisoners were taken. Gun carriages, ammunition and provisions were also captured.

The admiral's report, which was received at 7:30 p. m. on July 24, says that the Japanese flag hoisted over the government buildings at Alexandrovsk without any loss on the part of the Japanese force.

### WANT VLADIVOSTOK NEUTRAL.

#### Japanese May Demand It as Part of Peace Arrangement.

WASHINGTON, July 27.—As a clearer idea is gained of Japan's peace terms, the skepticism which Washington received in the European press, and which Japan would demand the neutralization of Vladivostok is lessened. In fact, it is learned that not only is this likely to constitute one of Japan's demands, but it may be accompanied by startlingly concrete proposals. In effect, according to seemingly well-informed sources, Japan will propose in return for the neutralization of this last Russian fortress on the Pacific not to fortify Fort Arthur, but to demilitarize it. The information prove correct, it will change entirely the view which has prevailed in official circles that the question of Vladivostok's neutralization could not reasonably be made a part of Japan's peace proposals.

### GENERAL HARRY AT FRONT.

#### American Received by the Russian Commander in Manchuria.

Fred Hackett of Tiburon and James Berley of this city went their bonds. Anderson, the other youth who went with them on the cruise, has not as yet been arrested.

### RUSSIANS CONTINUE ADVANCE.

# CIVIC EXPERT COMING HERE

## Robert Crawford of Scotland Arranging to Make Tour of the United States. NOTED AS A LECTURER Will Discuss Municipal Socialism and Its Practical Working in Glasgow

Special Dispatch to The Call.

LONDON, July 27.—When Mr. Dalrymple went to Chicago at Mayor Dunne's invitation to show the metropolis of the west how to municipalize its street railways after the Glasgow method it was expected that Robert Crawford, former Town Councillor of Glasgow, would accompany him. This, however, prevented Crawford from doing so. But his visit has only been postponed. He expects to make a tour of America, lecturing on "Municipal Socialism and Its Practical Working in Glasgow."

For many years a wholesale dry goods merchant in Glasgow, no other man has been more prominently identified with the progress of its various municipal enterprises. He has held several civic offices there with signal ability—always he is noted without pay—and has been in the front of the various movements which have culminated in making Glasgow the best example of a city run honestly for the benefit of its people that can be found anywhere. Civic improvement is more than a hobby with him—it is a passion—and he has spoken on in every part of the United Kingdom. Whenever a town undertakes a fight for public benefit as opposed to private profit Crawford can be counted on to lend a hand. And he hopes to be able to help along the same cause in America.
