HYPNOTISM TO BE TRIED ON WAYWARD YOUTHS.

Judge Lindsey of Denver will adopt hypnotism as a feature of the work in the Juvenile Court. He believes that hypnotic treatment will result in lasting good to many children who are looked upon as incorrigible.

Denver Judge Will Make a Novel Experiment. Expects to Reform Youngsters by Occult Art. Thinks Treatment Will Prove to be Valuable.

Special Dispatch to The Call. DENVER, July 28.—Hypnotism is to be adopted by Judge Lindsey as a distinct feature in the work of the juvenile court, in which work he has won prominence. This fact was announced to-day by the Judge on his return from Portland, Ore., where he has been attending the International Convention of Charities and Corrections. The manifold possibilities which lie in this new method, which is undoubtedly the most sensational ever introduced in any court in any place, were discussed at length by Judge Lindsey. He is under the impression that he will be able to do more good, which will be lasting good, by this mode of treatment than he has ever done heretofore.

FIRE RAGES IN HOLD OF LINER TEUTONIC

Three Men Narrowly Escape Death in the Fumes and Smoke.

NEW YORK, July 28.—While a fire raged for an hour to-night below the water line in the hold of the big White Star steamship Teutonic the officers and crew joined in the rescue of three men who were trapped in the darkness. They had to be carried to the deck. Braving a dense smoke and the fumes, two of the firemen went to the very bottom of the ship and picking up the trapped men, carried them up the ladders a distance of about sixty feet to safety. The fire was in the electrician's room on the port side of the ship on an orlop deck just above the engine-room and adjoining the storeroom, where are paints, oils and other materials which if once ignited probably would have caused the destruction of the ship. To prevent this and save the own life John Burns, chief storekeeper, locked himself in his room by means of an iron door, which at one time was red from the heat and which had to be cooled by the firemen before Burns could be taken out. He then had collapsed. According to Acting Battalion Chief McGuire, who directed the efforts of the men, the fire started with an explosion caused by the burning out of a plug in the switchboard in the electrician's room. The vessel was lying at her pier off West Liverpool street, having arrived from Liverpool on Thursday. All of the crew were accounted for. It is said the vessel will be repaired in time to sail for Liverpool.

GALLANT ATTEMPT TO SWIM CHANNEL

Burgess Gets Within Four and a Half Miles of the French Coast. DOVER, England, July 28.—T. W. Burgess started this morning in a second attempt to swim across the channel, entering the water at the coast guard station at Lydd, in Kent, north-west of this port. Burgess, in 1904, swam the four miles of the French coast in his first attempt to swim the channel. He failed again to-day. He was taken from the water when within four and a half miles from the French coast suffering from a bad leg. Burgess made a great struggle to get on the proper side of the Varne, a shoal, and in his exertion he sprained a tendon in the right leg, but pluckily continued his task for another six hours, when he lost the use of the leg completely. Otherwise he was in good condition when he left the water at 3:55 p. m., nine miles off Cape Grisnez and four and a half miles from the French coast, having kept afloat and drifted twenty-nine miles.

Contests Election of Adams. HONOLULU, T. H., July 28.—A Fernandez, Democratic candidate for Supervisor at large of this county in the recent election, has filed in the Supreme Court a contest of the election of E. R. Adams, who has taken his seat as Supervisor. Fernandez says that a large number of ballots were illegally thrown out by the election officers, and that if the count had been a fair one he would have been elected. Adams is a Republican.

JUDGE BENJAMIN B. LINDSEY. DISTINGUISHED DENVER JURIST WHO WILL INTRODUCE HYPNOTISM INTO THE JUVENILE COURT OVER WHICH HE PRESIDES HOPING BY OCCULT ART TO WORK THE REFORMATION OF WAYWARD CHILDREN.

MORTON'S AX DROPS A HEAD INTO BASKET

General Agent of Equitable Life Is Dismissed for Insubordination.

NEW YORK, July 28.—Paul Morton swung his ax again to-day and another head that has held itself high, too high, it is said, fell into the Equitable basket. In a curt letter Morton dismissed for insubordination Archibald C. Haynes, general agent for the metropolitan district, who has done so large a business for the company that his commissions have brought him an income as large, if not larger, than that of the society's president. Haynes' removal is another victory for Gage E. Tarbell, fourth vice president, with whom he had taken direct issue and over whose head he had practically appealed to the society's president. Haynes had tendered a formal resignation some time ago to take effect at the end of this calendar year, but it is generally believed he did not expect it would be accepted, much less that he would be summarily removed. When Morton some weeks ago issued an order that subordinates should leave him to do the talking for the society he added significantly that no man's services were indispensable. Haynes' fate indicates that Morton meant what he said. The general agent's position has been one of great strength. Feeling keenly the vicissitudes of the 120 or more sub-agents under his direction, due to the slump of Equitable business, he made no secret of his disgust a few days ago when Tarbell refused his request that they be permitted to take commissions from other companies. He called a meeting of the agents in his office and in a speech abused roundly the society's methods and bitterly scored Tarbell.

FRENCH STEAMER TRIGNAC STILL REMAINS ON ROCKS She Is in a Bad Position and Her Cargo of Corn Is Being Jettisoned. GUERNSEY, Channel Islands, July 28.—The steamer which went ashore yesterday on the west coast of this island is the French steamer Trignac, from Rosario June 21, for Rouen. She remains on the rocks in a bad position. Her cargo is of corn and is being jettisoned.

SCOURGES TO SPREAD

Twenty-One More Cases in New Orleans.

Three Patients Die of Yellow Fever During Day.

Quarantine Against Infected City Established at Many Points.

NEW ORLEANS, July 28.—An official report of 21 new cases of yellow fever and 3 deaths occurring during the day was made to the State Health Board to-day, making a total of 227 cases and 42 deaths to date. Of the new cases all except two are Italians. Many leading cities throughout the South to-day put in force quarantine regulations against New Orleans. Despite the fact that the authorities claim to have the situation well in hand, the present epidemic has already assumed alarming proportions. Business in many parts of the State is almost at a standstill. There is great fear that ships recently left here will carry the fever to Northern ports. To-day's official report shows that the entire section above Canal street was free from a single new case, and that fever was spreading only in the poorer habitations of the downtown section, with new cases isolated except in the heart of the French market quarter. The health authorities continue to hold also that the plague remains an Italian infection. Almost without exception since the beginning of the fever those who have fallen victims of the disease have been of the poorer classes, many of them not long residents of the United States and therefore unaccustomed.

WILL VISIT EVERY HOUSE

The first death in the Emergency Hospital occurred to-day. The hospital was opened yesterday with thirteen cases and an equal number was added to-day. In the hospital are being sent the worst cases of indigent unfortunates. It is therefore expected that the mortality in this direction will be unusually high. One case has been reported at Tampa, Fla., of an Italian refugee from New Orleans, who makes his appearance in Louisiana Parishes St. Marys, Ascension and Plaquemine. Holding up notices will be put up on roads surrounding New Orleans to turn back every vehicle that is suspected of carrying the bars have been put up all over the State against that nationality in particular. Two Italians who managed to board a Mississippi Valley train yesterday were locked in a car which was sidetracked at Baton Rouge last night and sent back to New Orleans to-day.

The quarantine put on by the Central and South American countries and the Indies against New Orleans is arousing the population. Each inspector is provided with a large oil can from which he is directed to pour oil on all exposed waters, tubs, cisterns and pools. Mayor Bohman has received a telegraphic offer of funds from President Tyler of the Howard Association of the people of Charleston for their sympathy, but saying that the situation is well in hand here, and that no financial aid is needed from the outside. Other tenders of help have been received.

Rev. Dr. Beverly Warner, who recently returned here from Philadelphia, to-day opened offices in one of the prominent office buildings. He has been made superintendent of cleaning and sanitation. All the wards in the city will report to him. Screening is to be accomplished in a novel way. Buttons have been given out by the board of health. The buttons are plain white, with a life size steamship pictured in the center and surrounded with the words "My Cisterns Are All Right; How Are Yours?"

QUARANTINE ESTABLISHED

VIKSBURG, Miss., July 28.—A quarantine against Memphis was established to-day. The Memphis officials subsequently discovered cases of rifles hidden in the hold of a Turkish steamship now at Kustenji.

PLOT AGAINST LIFE OF SULTAN FOUND

Weapons and Documents Discovered in Houses in Roumania. BUCHAREST, Roumania, July 28.—A plot against the life of the Sultan of Turkey has been discovered by the authorities at Kustenji. A search of houses occupied by Turks disclosed large quantities of revolvers, rifles, cartridges and compromising documents. The Roumanian officials subsequently discovered cases of rifles hidden in the hold of a Turkish steamship now at Kustenji.

QUESTIONS SALLY OF MAUD CONNE

Laborer Intends to Try Case Along That Line.

Says Her Love for Publicity Indicates a Weak Mind.

Asserts That She is Not in a Condition to Care For Her Child.

Special Dispatch to The Call. PARIS, July 28.—Maitre Labori, who defended Dreyfus in his famous case, is counsel for Maud Conne in the suit for divorce brought against the former Boer fighter by Maud Conne. The case is now before the courts. Labori intends to make the main point of his defense Maud Conne's insanity. He will try to prove that Maud Conne's career indicates a disordered mind and an inordinate love of glare and publicity. At the next sitting of the court Labori will produce evidence to show that Maud Conne claimed that she was the reincarnation of the old Irish demagogue while the Major was the reincarnation of an ancient Irish hero. It will be also alleged that she promised that when she became "Queen of Ireland" she would make the well-known Anglophobe Millevoze her "Prime Minister." These arguments are meant to show unsteadiness of brain as regards her charges against her husband, while the facts concerning her life in Paris anterior to her marriage will be adduced to convince the Judge that she is not a person fit to be entrusted with the permanent possession of the child born of the marriage. It is expected that the case will have to end in a compromise.

LIKE A CAT IS THIS LINEMAN OF NEVADA

Electric Shock and Fall of Sixty Feet Fail to Kill Him.

Special Dispatch to The Call. RENO, July 28.—Antone Murphy, a lineman working for the Nevada Power, Light and Water Company, came in contact with a heavily charged wire to-day and was knocked from the top of a sixty-foot electric wire pole. A call was sent to the hospital and a doctor went to the scene of the accident, but before he arrived Murphy regained consciousness and wanted to go to work again. He was badly bruised by the fall and had a deep black scar on his neck where the wire struck him. The doctors say they do not understand how he recovered from the shock.

FAIR ANGLER PULLED INTO RIVER BY FISH

Prize Trout Story Comes From Banks of the Truckee.

Special Dispatch to The Call. RENO, July 28.—Mrs. Mollie Garfield, a well-known woman of Reno, was pulled into the Truckee River by a trout to-day and narrowly escaped drowning. She was fishing on a steep bank with a friend, Mrs. J. H. Smith, when the trout snapped the fly. She became entangled in the tackle and fell over the bank into the rushing water. She floated swiftly down the stream, but managed to grab a willow on the bank before reaching deep water, and, with the assistance of her friend, Mrs. Smith, succeeded in reaching safety once more.

GOVERNMENT QUARANTINE

Surgeon Wasdin Placed in Charge on Gulf. WASHINGTON, July 28.—Surgeon Wasdin of the Public Health and Marine Hospital Service has been placed in charge of all matters pertaining to quarantine on the coast of the Gulf of Mexico, outside of New Orleans, and has taken charge of the coast patrol. The revenue cutter Winona has been placed at his disposal. Dr. Wasdin will assist the State authorities of Mississippi in preventing the landing of infected points, outside of New Orleans, and has taken charge to quarantine at Ship Island for detention and fumigation. The assumption of quarantine authority by the National Government has the sanction of Governor Cardman and other State officials. They were anxious to have the national bureau assume the whole responsibility.

GOULD LINE BEGINS WORK IN OAKLAND

Buildings on Right of Way Being Torn Down.

Many Landmarks Removed in Providing For Terminal.

Board of Trade Hopes to Have General Shops Located on Bay Shore.

The Western Pacific Railway Company has finally begun clearing its rights of way across the bay preparatory to building the new Gould line that will give San Francisco another outlet to the East by way of Sausalito, and materially aid in the future development of California. Yesterday work on the new road's terminus in Oakland was inaugurated and in a manner that plainly indicated that the company has started out in earnest to make way for the most important grading and construction work that is soon to follow. Gangs of men were sent out yesterday to various points on the right of way in Oakland between Thirtieth and Twenty-third avenues, where there has stood for many years buildings that at one time constituted the old town of San Antonio. Most of these structures were built prior to 1870 and many of them as far back as 1852 and have been used in late years as storehouses and mills. One of the first of the buildings to be demolished was the old Sweet Hall on Commerce street. Forty years ago, during the war days, this building furnished shelter to the Brooklyn Guards, commanded by W. H. H. Hamilton, and afterward it was used as a meeting place for the residents of that section of Alameda County. But sentiment does not enter into the business affairs of modern railroad enterprises and the old Sweet building was attacked yesterday by the gang of demolishers with as much reluctance as some of the less historical structures. TO RUSH TERMINAL WORK. It was stated yesterday by the officials in charge of the work across the bay that clearing of the rights of way of the road will be rushed ahead as fast as possible in anticipation of the inauguration of grading operations. The latter work, it is expected, will be started within the next ninety days by the contractors, who are now assembling for a temporary terminal, upon which the company can handle its building machinery and material. Similar provisions are soon to be made at Oroville and other points along the route. The preliminary work will have been completed and the hard task of creating a firm roadbed for what promises to be the finest constructed line in the West will be able to progress without unnecessary interruption. The people of Oakland look forward to the construction of the Western Pacific with the deepest concern, for its completion means much to the commercial interests of that city. Although it is not generally known, the Western Pacific Company has quietly acquired an acreage for terminals in West Oakland that nearly equals that of the Southern Pacific Company, and it is upon this property that the Gould line will be established. Naturally these improvements promise great development to that section of Alameda County, both in the way of commerce and population. Much reclamation work is also being planned along the shore line in order to afford facilities for dockage and wharves. TO ABSORB COAL ROAD. H. H. Griffiths, attorney for the Alameda County and San Joaquin Railroad, which is the corporate name of the coal road running from Stockton to Tesla in Alameda County, announced to the State Board of Equalization that next year his corporation would report as a portion of the Western Pacific Railroad. This taken with the beginning of work in Oakland, means that the only link in the whole chain that is not completed is that between the southern boundary line of Oakland and Livermore. The line from Tesla will tunnel the hills and run to Livermore, but the exact line from that point to Oakland is not yet settled. It is probable, however, that the line will parallel the Southern Pacific through the Niles Canyon and will not come through the Dublin Pass directly into Hayward. The people of Oakland are determined to get the general shops of the Western Pacific Railroad for this city if possible. The railroad committee of the Oakland Board of Trade held a meeting yesterday and adopted the following resolutions: "Whereas, The Western Pacific Railway Company has expended large sums of money in terminal facilities in Oakland, and

HOOCH GIVEN A REPRIEVE BY GOVERNOR

Murderer and Bigamist Escapes Gallows.

Needed Funds Are Furnished Him by Lawyer at Last Minute.

Case Now Will Be Taken on Appeal to Illinois Supreme Court.

CHICAGO, July 28.—Johann Hoch, "Bluebeard" and confessed bigamist, sentenced to be hanged to-day for poisoning one of his wives, was this afternoon granted a reprieve until August 25 by Governor Deneen. The stay of execution followed hours of anxiety on the part of Hoch, who had never given up hope, and was allowed by the Governor only after the latter had been assured that the necessary funds to appeal the case had been raised. The amount, \$500, was given by an attorney and friend of Hoch's counsel. The attorney declared that he was actuated purely by humanitarian motives. An incident at the jail during the preparations for the execution was the appearance of a physician and a woman, who told Jailer (Whitman) that they wanted to help in Hoch's battle for life. They said they wished to raise funds as possible for the execution of Hoch. Jailer Whitman to delay the hanging as long as possible. Hoch's attorney, however, had already been in communication with the authorities regarding a stay of sentence. All arrangements had been made for the execution to-day, and in view of the action of Governor Deneen yesterday in refusing a stay of execution and similar action by the Board of Pardons, Hoch's chance for life was considered slight. REPRIEVE IS GRANTED. About the time set for the execution the woman and attorney appeared for the first time. The attorney, it was said, telephoned Hoch's lawyer that the former had \$500 to give toward aiding to appeal the case. The two lawyers hastened to the jail, told Jailer Whitman of the money secured and arranged with the jailer to postpone as long as possible the execution of Hoch. Meanwhile they sought State's Attorney Healey and had him arrange a conference with Governor Deneen over the long-distance telephone. Hoch's attorney, Healey, said that there was lacking only a small sum of the amount necessary for a review of the case. After discussing the matter with Healey the Governor finally consented to a stay of sentence. Hoch, even several hours before the time set for the hanging, was quite confident of executive clemency, although at times he seemed to despair of getting a reprieve. He had retired early in the night and awoke at 7 o'clock this morning, cordially greeted his death watch of two guards and talked with them for some time. He changed his clothes, and seemed resigned to the fate that awaited him, but he assured his few visitors that there might be a chance for him yet.

HOOCH IN CHEERFUL MOOD

He received his attorney, two ministers, Jailer Whitman and Dr. W. F. McNamara, the jail physician. Hoch discussed with them his prospects for a stay and reiterated his innocence of the charge of murder. He read the time of the Supreme Court decision against me I am willing to die. I ask no mercy and no favor. I believe in the law, but I feel that if the Supreme Court has a chance to review the case it will result favorably to me."

Hoch's attorney announced that he would at once prepare to appeal the case. as the terminal but also for the location of shops of all railroads entering the State, and

Whereas, Newspaper reports state that the Western Pacific Railroad Company is contemplating locating shops elsewhere in the State; therefore be it

Resolved, That the Oakland Board of Trade, through its committee on railroads, most earnestly request the management of the Western Pacific Railroad Company to locate the principal shops of said road in Oakland and the Oakland Board of Trade will do all in its power to aid in such a movement.

"EDWIN MESSER, Chairman. "EDWIN STEARNS, Secretary."

Widow of General Gomez Is Dead. SANTIAGO DE CUBA, July 28.—The widow of General Antonio Gomez died here to-day.
