### SON OF A RICH MAN A SUICIDE

Young Southerner Hangs Himself After Squandering Periodical Allowance SPENDS ALL ON WOMEN

Told by Father to Shift for Himself Until Next Installment Became Due

NEW YORK, Sept. 16.—The body of the suicide who ended his life by hanging last night at Mammoronek, near this city, was positively identified to-day as that of a young man who had represented himself to be William A. King, son of a wealthy cotton mill owner of Augusta, Ga. The identification was made by Mrs. George E. Jardine, at whose house young King stopped for shelter last Monday during the height of a severe storm. The identification was confirmed by Mrs. Jardine's son.

Young King had told Jardine that he was penniless, having spent all of the allowance from his father. He had been warned by the latter that if he overtook his income he would have to shift for himself until the next installment was due. King said he had met a number of women while stopping in New York and had squandered his money on them.

It was at first reported that the suicide was Paul Kelly, motorman of the elevated railroad train which was wrecked recently with a loss of twelve lives.

In an undressed note which King left in his room he named a Baltimore man as the cause of his trouble. The note also said that the writer had had a good time since his arrival in New York. To it was pinned a \$2 bill, the purpose of which, he later said, was to reimburse the hotel people for the inconvenience to which his death might put them.

### ONE MORE VICTIM CLAIMED BY DEATH

Workmen Find Charred Remains at Scene of Connecticut Explosion.

AVON, Conn., Sept. 16.—With the death of Miss Dorothea Legey this afternoon, the number of fatalities following the explosion and fire in the factory of the Cimax Fuse Company had reached eleven.

To-day the ruins of the main building cooled sufficiently to allow workmen to get into the basement, where they found parts of charred bodies. Identification was made possible, however, in all but two instances by some metal articles, such as watches, pins or buttons. The two bodies not identified are thought to be those of Mollie and Robert McCarthy.

No statement of the loss incurred by the destruction of its plant has been made by the company.

Iceland, which is a republic in the little sense of the word, has no prisons and no policemen.

### WORTH TRYING

Hostetter's Stomach Bitters has been so successful during the past 50 years in curing Stomach, Liver and Bowel complaints that it is certainly worthy of a fair trial by every sick man and woman. It has been thoroughly tested and found reliable.

will build up the system, refresh the blood, restore the appetite, and induce restful slumber. Thousands have said so. It also cures Nausea, Cramps, Flatulency, Indigestion, Dyspepsia, Liver Troubles, Constipation or Malaria, Fever and Ague.

Try a bottle at once. Its results are sure.

**Hostetter's Stomach Bitters**

THE PALACE HOTEL

Compressed Air cleaning plant. Room telephones. Steam heat and open fire. Perfect ventilation. Pipe organ and orchestra. Perfect service. Unexcelled cuisine. Every luxury attainable.

### ROLLER SKATING.

A Craze in the East.

That king of all winter sports, roller skating, with the advent of a new patent ball-bearing roller skate, has suddenly sprang into popularity again. Every city and village in the East has a rink. The fact that the very best class of people have taken hold of this sport tends to make it more popular than ever.

There are other reasons, too, why roller skating in the large cities is more popular than ever. One of them is because rinks are being conducted in a much different manner now than they were back in the eighties. For instance, twenty years ago a man could go into the rink business on two hundred dollars, while to-day it costs from four to eight thousand dollars to equip a first-class rink, owing to the price paid for first-class ball-bearing skates. Therefore it has become necessary for the man with this amount of money invested to study the business thoroughly. All up-to-date roller skating rink managers agree that there is but one way to run a rink successfully, and that is by eliminating the use of liquor in any form in the rink and to reserve the right to refuse admittance to any whom the management might deem objectionable in order to have a place of amusement where a brother can take his sister or sweetheart or a father can take his wife and children, knowing that the moral atmosphere of the place is wholesome.

We understand that the main part of the Mechanic's Pavilion has been leased to Eastern parties for a roller skating rink, and that the opening will take place October 2. If run in the proper manner we predict a great success, as people will certainly welcome a change in amusements.

San Francisco Gets Convention.

BOSTON, Sept. 16.—William Haven-straigh of New York was chosen president of the Elevator Constructors' International Union to-day at the closing session of its fourth annual convention. San Francisco was selected as the meeting place in 1907.

\$50.00 per month for rent, and only the receipt to show for it. You can get much in pocket by paying on a home for yourself. See offers in Sunday CALL.

BRIGGS REAPPOINTED.—United States District Judge de Haven yesterday reappointed N. C. Briggs of Hollister, vice Seft, term expired.

### LAST PRICES THE HIGHEST

NEW YORK, Sept. 16.—There was a burst of animation with the closing dealings in stocks to-day, making the last prices the highest of the week and at considerable gains over last week's closing.

To-day's market was very dull until after the appearance of the bank statement, and was similar to its predecessors of the week in being largely professional in its character. The undertone was strong throughout, as confidence was strong that the banks would manage to conserve their showing of a surplus reserve by the shifting of loans to trust companies and other institutions, as was done last week.

The appearance of the bank statement justified this confidence, and was followed by the final outbreak of demand, which made the closing strong. The loan reduction, while very heavy, was only about two-thirds as large as the unparalleled contraction effected last week. The decline in cash reserves was up to the common expectations. Stock market comment shifted to the prospect of further gold imports next week as a demand for gold upon that center from other sources were studied with interest as a bearing upon the chances of securing for New York the large shipments of gold now moving toward London from South Africa and Australia. Of special interest was the report that Paris was competing to secure some part of these expected arrivals.

If London becomes hard pressed to maintain her gold supply it is expected that the demand from New York will be shifted from that center to Paris.

The special strength of Canadian Pacific in the market was due to the report of an offer for the purchase of the company's last holding in Chesapeake and Ohio, which reflected the strong showing of its annual report. Some special demand also continued for the Washbas issues.

Total sales of bonds, par value, \$1,230,000.
