

RUMORS OF A PLOT TO MASSACRE JEWS DISTURB ST. PETERSBURG.

MOSCOW, Nov. 10.—Alarming reports are in circulation that anti-Jewish outbreaks will occur simultaneously here and at St. Petersburg Sunday next. Foreigners and Jews have received threatening letters and have asked the authorities for protection, but thus far no step has been taken toward granting the request.

Attack Is Planned to Occur on Sunday.

Police Instructed to Crush Any Sign of Disorder.

ST. PETERSBURG, Nov. 11, 2:06 a. m.—Excepting the kingdom of Poland, where the rapidly growing Nationalist movement and the state of tension among the proletariat will soon bring about the declaration of a state of war, Russia seems for the time being at least to be generally tranquil. Telegrams from interior points report the restoration of order in nearly all cities and towns, but in many cities, notably St. Petersburg and Moscow, the better classes of the population are greatly disturbed owing to the rumors of approaching attacks by the "Black Hundred," composed of the most ignorant types of the populace, which, according to these rumors, are scheduled to take place in St. Petersburg tonight and in Moscow tomorrow.

The apprehension in St. Petersburg has become so great that the prefect of police, who succeeded General Treppoff in command of the city police, has instructed his subordinates to take the fullest measures to crush any disorder in its incipency so as to disabuse the minds of the "loyalists" of the idea that the police would remain inactive. In such an emergency the strong hand of General Treppoff is being missed, even by the factions which most exonerated him.

Count Witte's Cabinet may now be regarded as constituted as Count Lamsdorff, Minister of Foreign Affairs, and M. Manukhin, Minister of Justice, will retain their positions, leaving only the posts of Ministers of the Interior and Minister of Education to be filled. Shipoff of Moscow, who was president of the first Zemstvo Congress, has definitely declined to accept any position in the Cabinet.

GOVERNMENT IS ACTIVE.
A long official programme published this morning declares that in any part of the country have been fomented by the Government and promises a most careful inquiry into the outrages against life and property and the adoption of measures to prevent their recurrence. It says that where the accusations against the Government confirmed they would not form a pretext for the recent terrible occurrences. The Government recognizes that it is its duty to remain quite impartial and to give its protection to all persons requiring it.

The Government will strive to fulfill the Emperor's will regarding the freedom of citizenship, the communication says: "The hostile relations of different parties and the non-participation of the Moderates may result in a situation unsuitable for the introduction of reforms, but the Government cannot think that any considerable part of the Russian people prefer disorder to order and internal strife to peaceful development. The Council of the Ministers is therefore ready to execute the imperial command to the utmost."

MINISTERS ARE BUREAUCRATS.
Count de Witte's Ministry as thus far announced is a practical agreement that he has abandoned hope of securing the active co-operation of the Constitutional Democrats or other parties of the Center. The only Minister who is not a bureaucrat is M. Nemchinskoff, who succeeds Prince Kihnikoff as Minister of Communications. The Constitutional Democrats consider that they have won a great victory in preventing any leaders of the Constitutional group from accepting office, saying that Count de Witte's Ministry is stamped as purely temporary, and must give way, immediately upon the convening of the National Assembly, to a Cabinet in full sympathy with the Parliamentary majority. The Count is greatly disappointed at the refusal of the Constitutionalists to support him, since it forces him to fight on two fronts, with the Reactionaries on his right and the Social Democrats and Revolutionaries clamoring for a republic on his left.

Count de Witte has invited Count John Tolstol, who resigned the position of head of the Academy of Fine Arts, owing to General Treppoff's repressive policy, to take the portfolio of education. Count John is no relation to Count Leo Tolstol, Professor Kevevsky has joined Michael Stakovich in the organization of a Christian Democracy.

MUTINEERS SUBMIT TO THE TROOPS

Leaders in the Recent Outbreak at Kronstadt Are Taken Into Custody and Deported From the Island

FURTHER TROUBLE IS NOW IMPOSSIBLE

Rowdies Gut the Tartar and Jew Markets, Destroy Ten Business Blocks and Pillage the Smaller Stores

LONDON, Nov. 11.—The correspondent of the Daily Mail at Bucharest says that the sailors of the Russian steamship Lunel, bound out from Odessa, November 8, with refugees, mutilated at sea and threatened the passengers with death unless they gave them money and jewelry. Those unable to do so were thrown overboard.

KRONSTADT, Nov. 10.—All is quiet at Kronstadt to-day. The mutinous sailors have all submitted and the leaders to the number of seven hundred have been deported from the island. The others are thoroughly repentant. Troops are pouring into the city from all directions by water. Besides machine guns, other street artillery and a battery of quick-firing field guns arrived here on scows from St. Petersburg and were debarked at the steamboat landing.

Any further disorder at present is utterly out of the question. The mutineers and rowdies gutted the Tartar and Jew markets, and on Friday destroyed the barracks of the "Seventh Fort Equipped," to which the mutinous belonging, destroyed ten modern business blocks and a number of smaller stores. The fires burned themselves out during the night, and to-day the buildings are only heaps of smoking ruins. The fires burned almost a whole day. There was little attempt to check them, as the firemen shared in the general demoralization, and many of them became intoxicated. The influx of troops at Kronstadt has exceeded the barrack capacity of the war port, and the soldiers are everywhere bivouacking in the streets, huddling about the remnants of last night's watchfires, and bargaining with merchants for fresh bread and other additions to their rations.

The business streets sacked by the rioters present a lively picture. There are crowds of spectators on the sidewalks watching the unfortunate owners of burned buildings, who are salvaging their property from the heaps thrown into the streets, and from the wrecked interiors of stores. Patrols mingling with all the crowds prevent further robbery. The influx of troops at Kronstadt has exceeded the barrack capacity of the war port, and the soldiers are everywhere bivouacking in the streets, huddling about the remnants of last night's watchfires, and bargaining with merchants for fresh bread and other additions to their rations.

APPEAL FOR AID FOR RUSSIAN JEWS

Congregations Call for Contributions to Be Sent to Persecuted Brethren.

OAKLAND, Nov. 10.—The following appeal was made to the people of Oakland to-night by a committee appointed at a meeting of the rabbi, president and directors of the First Hebrew Congregation of this city, called in response to an appeal from the national committee in New York for immediate relief for the Jews who are suffering by reason of the Russian massacre.
"The horrifying outrages perpetrated upon thousands and tens of thousands of men, women and children by Russian mobs have shocked with terror and stirred to pity the whole civilized world. There is no time for mass meetings—there is no need of speech making. The cry of distress and desolation resulting from wholesale massacres and ruthless slaughter and plunder tells its own woes and pleads its own cause. This is the time for action. In this extremity let every one whose heart is moved to sympathy by human suffering offer speedy help. Contributions, large or small, may be deposited in the Oakland Bank of Savings, acting as treasurer.

KOREA'S FATEFUL HOUR AT HAND

Marquis Ito Arrives From Japan, to Establish the Protectorate Over Country

END OF INDEPENDENCE

Hermit Kingdom Appeals to Europe and America, Hoping to Secure Intervention

SEOUL, Nov. 10.—The arrival of Marquis Ito to-night marks one of the most portentous events in the history of Korea. During his visit the Hermit Kingdom, once an independent state, will probably pass under a Japanese protectorate. Marquis Ito, after investigating conditions here and formulating his policy, will present the programme of Japan. It is said that Marquis Ito hopes that the confidence displayed in him by the Emperor of Japan will have its effect on the Emperor of Korea and induce a grateful submission to the inevitable loss of Korea's independence. The plans of Japan will be backed by army occupation and the presence of two cruisers at Chemulpo.

The Korean officials and people are anxiously awaiting developments. Several secret agents have been dispatched to secure American and European intervention, the Emperor of Korea fearing, it is said, to appeal directly to Marquis Ito.

Upon his arrival here Marquis Ito was received with imperial honors. In the Emperor's state coach he was driven through troop lined streets, surrounded by Japanese and Korean cavalry, and banners followed with chairs and rickshaws, carrying his distinguished suite. He was lodged at the imperial palace as a guest.

NEW REGULATIONS IN CONSULAR SERVICE

President and Secretary of State Root Alter the System.

WASHINGTON, Nov. 10.—With the double purpose of offering a permanent career in the diplomatic and consular service to competent young men, and of improving those branches of the Government service so as to make them more valuable than now to the business interests of the country, the President at the instance of Secretary Root to-day announced two new rules. The first of these has not yet taken concrete form, but its substance, as made public, was that hereafter any applicant for appointment as secretary of embassy or legation must possess a knowledge of at least one of the two languages, English, and must be otherwise examined as to his competency.

This rule is closely in line with the English practice, and its development will involve the promotion of the bright young men to the diplomatic service in the degree that they justify it by hard study, fitting them for new posts.

The other order amends the existing rule which such consular offices as are limited in compensation to the maximum of \$200 per annum and a minimum of \$1000. This rule is amended and extended to include consulates, commercial agencies and other consular agencies, the annual compensation of which is not less than \$1000.

MINERS TO ASK BIG INCREASE

Will Seek to Secure an Advance of Twelve Per Cent in Wages Early in Year

PITTSBURG, Nov. 10.—When the miners of the bituminous field meet the operators in January to arrange the wage scale for the coming year a demand will be made for a 12 per cent increase. This was the official announcement given out to-day by William Dods, secretary-treasurer of District No. 5, United Mine Workers of America. President John Mitchell will reach Pittsburg tomorrow and will meet the representatives of the different districts who will come to Pittsburg to attend the annual convention of the American Federation of Labor, which is set for next week. This is the first announcement concerning the demands to be made by the miners, and created a great deal of surprise among coal operators of Pittsburg and vicinity.

"To-day the local officials of the Miners' Union began preparations for a number of mass meetings to be addressed by President John Mitchell and Vice President Lewis while in this district. They will devote the next several weeks to hard work in the entire Western Pennsylvania field, and the miners will be urged to demand the stated increase, which, if granted, will place the wages of the miners higher than they have been in the past several years. The 12 per cent advance to be asked by the miners represents the restoration of the 5 per cent reduction accepted by them two years ago, and 7 per cent additional.
