

MANY MILLIONS FOR HOSPITAL

New York Medical Circles Beginning to Realize Magnitude of Yerkes' Bequest

LAUD DEAD FINANCIER

Institution Established by Will Is to Be Eventually Endowed With \$16,000,000

Special Dispatch to The Call. NEW YORK, Jan. 3.—The bequest made by Charles T. Yerkes for the establishment of a hospital in the Bronx that eventually will receive \$16,000,000 was received with great satisfaction throughout medical circles in this city to-day.

In the will it is stipulated that the aggregate cost of the ground and buildings for the hospital shall not exceed \$800,000, but that the income arising from the remaining portion of the one-half of the estate devised to Yerkes' widow shall be set aside as an endowment fund for the support of the hospital, and that all persons, without regard to race, creed or color, shall be admitted without charge if they are unable to pay for the necessary treatment.

Assuming that the estimate of \$2,000,000 as the total value of the Yerkes estate is correct, this arrangement will enable the hospital to flourish independent of subscriptions or other outside aid, virtually for all time. It was this fact that inspired Dr. George F. Shrady to characterize Yerkes' gift as "magnificent."

EX-CONVICT MAY LOSE HIS FORTUNE

Rehabilitated Banker Sued for \$5,000,000 After Eighteen Years.

Special Dispatch to The Call. NEW YORK, Jan. 3.—Edward L. Harper, once vice president of the Fidelity National Bank of Cincinnati, which he was accused of having wrecked in trying to corner wheat with Eugene Zimmerman and other capitalists, will appear to-morrow before Judge Cox in the United States Circuit Court in a suit of the receiver of the defunct institution to have affirmed a judgment against him of \$5,000,000. There is small room to doubt, it is declared, that the judgment will be affirmed. Whether or not it will ever be satisfied is another story, for it is now eighteen years old.

In this case the Harper, convicted of having caused the bank's failure, served six of his ten years' imprisonment and then rehabilitated himself to the extent of floating a \$5,000,000 combination of iron and steel foundries—The Iron Iron and Steel Company.

"THE LADY FROM THE SEA" DRAWS A CROWDED HOUSE

Henrik Ibsen's Play Is Given Its First Production in America at Los Angeles.

LOS ANGELES, Jan. 3.—Henrik Ibsen's "The Lady From the Sea" was given its first American production by Oliver Morosco at the Burbank this afternoon under the direction of Harry Mestayer. The play, which was witnessed by a crowded house, differs greatly from others of the great Norwegian dramatist in that, while it contains psychological problems characteristic of the author's works, it is more conventional and actable than "Ghosts," "The Doll's House" and other Ibsen plays produced by Messrs. Morosco and Mestayer. "The Lady From the Sea" was a success.

Printers Are Content.

LOS ANGELES, Jan. 3.—There was little change in the printers' strike to-day. At a meeting of the executive committee of the Employing Printers' Association it was given out that the shops affected are gradually getting a force to take the places of the strikers. A few shops are closed, while several others are running short-handed. The unionists declare they are satisfied with the situation and that twenty-seven more men have gone out. It was intimated that the union would relinquish their demand for a "closed shop" if the eight-hour workday was granted.

PRIZES AWARDED.—Mrs. Eugene de Saba will receive the dollhouse and Miss Jane Hotaling the talking machine which were up for competition at the annual fair for the benefit of the Doctor's daughter.

WIFE IN WILL

Dying Man Has Right to Bequeath Estate to His Lawful Helpmeet's Rival

DECISION ON APPEAL

Courts Cannot Pass Upon the Moral Injustice of Testator's Willful Act

Special Dispatch to The Call. NEW YORK, Jan. 3.—That a man, if he is of sound mind, may leave his entire fortune to the woman with whom he has lived prior to his death, to the exclusion of his lawful wife and family, is the gist of a decision of the appellate division of the Supreme Court, handed down to-day, in which it reversed the judgment of the lower court in the suit brought by Elizabeth R. Heyser and others against Mary Anne Heyser and others.

Charles H. Heyser in early life married Elizabeth R. Heyser and seven children were born to them. Then a separation took place and Heyser went to board with Mrs. Morris and her widowed daughter, Mary Anne Morris, known as "Polly." In time "Polly" Morris came to be generally recognized as Mrs. Heyser.

A few days before he died Heyser made a will leaving all of his estate, valued at \$50,000, to "Polly" Heyser. The original Mrs. Heyser brought suit against "Polly" to recover her husband's estate. The case was tried before Justice Gildersleeve and the jury returned a verdict in favor of Mrs. Elizabeth R. Heyser. Justice Clark wrote the opinion in the case and a new trial is directed. After reviewing the testimony Justice Clark says:

The will, while it diverts property from what may be called its natural channel—its lawful family—and bestows it upon a woman with whom for years he had been living with the consent of the law, yet cannot be said to be unreasonable. He had been entirely separated from his wife for many years of age. His daughters he never saw, his sons but seldom. We are not asked upon the will to impose a moral or sanction his mode of life.

The law, which alone we are to expound, is that a man, irrespective of his moral character, being of sound mind, not moved by undue influences and not under the operation of a last will and testament, dispose of his property as he sees fit.

POPULATION GROWS NEARLY A MILLION

Immigrants Landed at New York During Year Total 992,065.

Special Dispatch to The Call. NEW YORK, Jan. 3.—Showing a large increase over last year and an advance of good proportions over the banner year of 1903, the figures of the immigration for 1905 were given out at the Bureau of Statistics at Ellis Island to-day and the grand total is nearly up to the million mark.

Of the total of 992,065 persons who arrived by various lines from foreign ports the largest number was carried by ships of the North German Lloyd from Bremen and from Mediterranean ports. In 125 voyages 177,916 passengers were landed in this port by the steamships of this line and of these 15,974 were first cabin passengers.

ACCUSES THE RAILROADS OF ATTEMPTS TO BRIBE

Sensational Statement Issued in Behalf of a Wisconsin Gubernatorial Aspirant.

MILWAUKEE, Wis., Jan. 3.—A statement giving reasons why Speaker Irving L. Lenroot of West York should receive the Republican nomination for Governor, signed by forty-three members of the Wisconsin Legislature, was issued to-night from Lenroot's headquarters. It is a sensational document.

The charge is again made that Mr. Lenroot had been approached with an offer of a railway attorneys' fee, and the railways are accused of extending "courtesies" to the legislators and providing them with "entertainments." It is charged that members could easily have improved their financial position; that lucrative places were placed at their disposal; that mileage could be had for the asking if they were "right" according to the railway point of view.

NEW YORK, Jan. 3.—Officers of the House-Smiths' and Bridgemen's Union announced today that an effort would be made to extend the strike of the structure iron workers to all big cities throughout the country.

SMALL REVOLT IN HUNGARY

People of Debreczen Take a Firm Stand Against the Authority of the Crown

FORCE OFFICIAL OUT

"Cradle of Liberty" Compels the Representative of the King to Resign His Place

VIENNA, Jan. 3.—The disturbances last night at Debreczen, Hungary, on the arrival of the new Prefect, M. Kovacs, were fully prearranged. The Prefect succeeded in ending the disorders and the continued assaults on himself only by signing his resignation, which was read to the crowd by a committee of citizens. The streets of Debreczen were placarded on Saturday with a long notice, part of which was as follows:

We count upon you, citizens of Debreczen, to show to-day, as in the past, that Debreczen is the cradle of Hungarian liberty. No citizen of Debreczen shall serve this mercenary of a constitution-breaking administration. No coachman shall drive him, no hotelkeeper serve him, no merchant sell to him. His money is the sweat of a just man. None shall give him a bite to eat or a drop to drink, and he shall hunger and thirst like a beast of the desert. No house shall open its door to him. He shall find no place whereon to lay his head. He shall be banished from the society of men. Nobody shall return his greeting or answer his questions. If he lose his way no one shall set him straight. He must be driven out from these holy walls of patriotic liberty and with all those who help him. This is for your information, citizens of Debreczen. Act accordingly.

The unanimity of the people of Debreczen against the Prefect is entirely impersonal and arises solely from the fact that he is an appointee of the crown. While similar occurrences have been more or less prevalent in Hungary in recent months, they have been generally attended by carnival features, but the affair of last night shows that the people of Debreczen entertain a bitterness against the appointees of the crown more extreme than that indicated by the people of other places.

In the revolution of 1848 Debreczen was the center of Hungarian liberty. There, Kossuth proclaimed Hungarian independence in 1849 and the town officially deposed Francis Joseph as King.

There were minor street disturbances at Debreczen to-night, resulting in several arrests.

BUDAPEST, Jan. 3.—The Government has appointed a commissioner with extraordinary powers to proceed to Debreczen and investigate why the authorities did nothing to prevent the outrages on Prefect Kovacs.

A dispatch from Vienna January 2 said: The new Prefect of Debreczen arrived at the county seat at 7 o'clock this evening. He is a man of middle age, with a friendly and pleasant countenance. He was met by a crowd at the station he decided to leave the train. The crowd, however, recognized him and he was hustled from the car and maltreated. He was thrown in a hearse that had been provided by the people to carry him from the station to his office. From the hearse the Prefect was carried to a room fitted up like the cell of one condemned to death and left there.

TWO GRAND JURIES FOR SHASTA COUNTY

Rival Superior Judges May Bring About Legal Complication.

Special Dispatch to The Call. REDDING, Jan. 3.—The appointing of a second superior judge for Shasta County has already caused much trouble and friction in the county and sounded the death knell, politically, of the faction that was behind the scheme. Now there is trouble between the two judges themselves, and, as a result, the taxpayers of the county are facing the proposition of having an additional expense of two grand juries for the present year. Up to the present time a friendly feeling has existed between the judges. Now it is strained. When the question of drawing a grand jury came up it is understood both judges agreed to sign the order and send the jury in Judge Head's department—the original department. Yesterday, however, Judge Bush, without further ceremony, selected a list of names for grand jurors and Judge Head will follow suit and do the same next Monday, the day on which both agreed to do the work, according to Judge Head. The result of the mixup is anxiously awaited.

DEPEW WILL NOT RESIGN.

Intends, However, to Retire From Corporation Directorates.

NEW YORK, Jan. 3.—"I have no intention whatever of resigning from the United States Senate," said Senator Chauncey M. Depew when seen to-day. "Why should I resign? I intend now to do my real work in the Senate. I have you ever taken notice of these rumors which said I intended to resign, and have you ever had any one give any reason why I should resign?"

"I will on April 23 reach my seventy-second birthday. By that time I hope to resign from all companies in which I am a director or in seven-nine companies.

"My position here is an honorary one (with the New York Central Railroad Company) and the only one which I have ever taken up as director. In all I am a director in seven-nine companies. "As soon as I resign from all the companies with which I am connected, I will be able to do my real work in the Senate, as I expect to work harder than ever before. I leave to-morrow for Washington to take part in the opening of the Senate and will remain there permanently during the session. Except, perhaps, to run into New York once a week or so."

VICTORIA, B. C., Jan. 3.—American quarantine officers at Yokohama have notified the steamship companies that no persons who arrive in Yokohama via Osaka or vicinity will be allowed to proceed to America unless they remain in Yokohama a week and their health is certified to. These precautions are made necessary because of the bubonic plague at Osaka.

NEW YORK'S UPPER HOUSE DEBATES A DEMAND FOR DEPEW'S RESIGNATION

LEGISLATOR EXCORIATES THE SENATOR

Declares Him Unfit to Sit in Halls of Congress.

Resolution Argued and Eventually Withdrawn.

ALBANY, N. Y., Jan. 3.—Senator Brackett of Saratoga, soon after the Legislature convened to-day, introduced a resolution demanding of Chauncey M. Depew his resignation as United States Senator from this State. The resolution in full follows:

Resolved, by the Senate, that Chauncey M. Depew be and he is hereby requested to forthwith resign his seat in the United States Senate. The resolution was withdrawn after a long debate in the Senate, in recalling it Senator Brackett specified that he intended to introduce it again at a later date. Senator Raines, who objected to the withdrawal, but upon a roll call the withdrawal was allowed by a vote of 27 to 19. This cannot be regarded as a test vote upon the main question, however.

The resolution was introduced by Senator Raines and he had not been staggered by Senator Depew's acts and failed to see in the resolution anything that called for such action. He expressed his surprise that it was introduced and moved that the resolution be referred to the Committee on Federal Relations.

Senator Maltby made a speech in which he said if Senator Depew had done anything unlawful or that unfit him to hold office, the charges should be framed immediately. He eulogized Depew, who, he said, was a grand character. He denounced the crowd of "alleged reformers" who kicked at every one and made wild charges. He declared that only he would stand up to the crowd and that he would stand up to the crowd and that he would stand up to the crowd and that he would stand up to the crowd.

Senator Brackett said he was willing for it to be put over, but he did not want it to be "kissed out of existence." Senator Coggeshall said that Senator Depew was now ill and it was cruel, uncalled for and brutal for Senator Brackett to "pander to the blarney and noisy public clamor that is now endeavoring to blast honest reputations."

DEPEW WILL NOT RESIGN.

Intends, However, to Retire From Corporation Directorates.

NEW YORK, Jan. 3.—"I have no intention whatever of resigning from the United States Senate," said Senator Chauncey M. Depew when seen to-day. "Why should I resign? I intend now to do my real work in the Senate. I have you ever taken notice of these rumors which said I intended to resign, and have you ever had any one give any reason why I should resign?"

To cause the various cities and towns of this State to acquire and own the street railroads within their boundaries; the reservoirs and systems of water to supply their inhabitants, the gas, electric and other lighting and heating plants; the telephone lines and public utilities that are beyond the jurisdiction of the State and to acquire and own them.

Mercantile Company Buys Raisin Crop.

FRESNO, Jan. 3.—The entire raisin crop in the hands of the California Raisin Growers' Company was to-night sold to the Mercantile Company of San Francisco on a 3-cent basis. By this sale is ended a season of unrest in the raisin business. At the beginning of the season a combine was entered into between the growers' company and several packers. The price was set too high and the result was that the growers in the company were unable to market their raisins.

HIGGINS ASSAYS REVISION OF THE LAW

New York Governor Urges That Policy-Holders Receive Protection.

MCCALL OUT OF THE NEW YORK LIFE

Alexander E. Orr Becomes Head of Company. Salary Is Reduced From \$100,000 to \$50,000.

Special Dispatch to The Call. ALBANY, N. Y., Jan. 3.—In his annual message to the Legislature to-day, Governor Higgins said:

The eyes of the whole world are now turned toward New York, and if this Legislature does not produce an insurance law which will be a radical but sane, in an spirit which shall be courageous but not hysterical, it will fail to meet the expectations of those who have confidence in the ability of our people to solve its own problems as they arise.

Future legislative action by Congress or the Federal Government is not probable, and the people's indignation should not retard for an instant the action of the State.

While life insurance has received almost exclusive attention, it cannot be assumed that other corporations and industries have been neglected. A word of caution may not be amiss regarding insurance companies, co-operative fire insurance companies and the like.

You will be called upon to make a radical revision of the law for the benefit of investors in life insurance and for the regulation and restraint of the companies. The expediency of providing for more thorough regulation by the department of insurance than is now provided for is a matter of public concern.

The resignation of James W. Alexander and Alexander E. Orr was appointed in his place, at a salary of \$50,000 a year. McCall's salary was \$100,000.

Richard A. McCurdy, former president of the Mutual Life Insurance Company, and his son, Robert E. McCurdy, to-day resigned as trustees of the company. The resignations were accepted by the board of trustees. This office was the last one remaining to either the former president or his son in the company.

BREEZE SAVES CROPS IN THE ORANGE BELT

Wind Shifts and Prevents Frost Fears by the Growers.

SAN BERNARDINO, Jan. 3.—The faintest wind arctic yesterday and light breezes from the north carried to the orange growers of this valley the aid needed to ward off a freeze that promised to destroy almost the entire orange crop. The thermometer stood at 29 degrees, and two hours later the mercury had dropped to 23 degrees. A wind arose, and by 1 o'clock the temperature recorded was 30 degrees. Another calm followed that pushed the mercury down to 25 degrees. Just in time the north wind began to blow and the leaves and the danger had passed. The thermometer in the Highland district last night registered from 27 to 28 degrees above zero according to locality. Not a single orange was injured by the frost and there was no smudging.

HOODS ATTACK PUERTO PLATA

Adherents of the Fugitive President of Santo Domingo Invade the Seaport

FIGHTING ON STREETS

Besieging Force Retires From City After Combat Lasting Throughout Day

NEW YORK, Jan. 3.—Senator Pablo Fiallo, Consul General of Santo Domingo in New York, to-night said he had received the following telegram: "Three days' battle at Puerto Plata. Dimittio Rodriguez killed. Many dead and wounded. General Cespedes, hero of the victory."

WASHINGTON, Jan. 3.—The State Department has received a cablegram from Puerto Plata giving an account of the rising there. It says: "Revolution has broken out here late to-day (Tuesday); General Rodriguez fought his way into town and then retired. Not less than twenty-five killed and many wounded by the revolutionists holding the fort; still fighting."

CAPE HATTEN, Hayti, Jan. 3.—Advices received here early this morning from Puerto Plata say that the troops of the fugitive President, Morales, under the command of General Cespedes, attacked Puerto Plata at 10 o'clock.

The fighting was severe and lasted until 5 o'clock in the evening, when the besieging force retired. A number of men were killed or wounded on either side in the engagement, during which bayonets and swords were principally used.

The forces of General Rodriguez, which are massed outside Puerto Plata, were when these advices were forwarded, preparing for another attack on the place.

A portion of the population of Puerto Plata has declared in favor of Morales and street fighting has occurred, the supporters of Morales shooting from the windows of their houses at the troops of General Cespedes, the temporary President of Santo Domingo.
