

THE COURT ABOUT THE BAY

WIVES OF SECURITIES TRUSTEES WILL FIGHT FOR SHARE

Thomas O'Donnell Declares Undue Influence Caused Relative to Change Will

Charges C. E. Gartland With Using Illegal Means to Secure a Small Fortune

BERKELEY, Jan. 19.—Seeking a father who had been separated by a strange conspiracy of circumstances from his wife and daughter in the East, anxious to relate to him things that would surely bring him back to the loved ones he had left, Mary G. Nelson last night discovered her missing parent seated on a Key Route ferry-boat, and the search ended for her a search that in all its details reads much like a chapter from one of Laura Jean Libbey's romances.

The girl had hunted for her father, who she was convinced was living in California, from one end of the State almost to the other, and in despair was about to give up the task she had set herself. The father, E. L. Nelson, of Seneca, N. Y., was just about to leave for his work in the northern part of the State when the daughter espied him last night on the ferry-boat. The meeting was a coincidence of the extraordinary sort, and resulted in an affecting scene when daughter and parent clasped arms and cried as they kissed each other, coming together so strangely, so unexpectedly, in a land thousands of miles from their New York home.

The principle object of the meeting was the plan, quickly formed, for the return to New York of both. There a mother awaits the girl, and a wife her husband, a wife whom the husband had believed deserted by him, and who had left her alone without his presence to disturb her. It was to correct this belief of Nelson's that the girl journeyed to California three months ago and began a search for her parent that culminated in this remarkable fashion last night.

Nelson had a happy home until a year ago, when his wife conceived a dislike for him that ended in her expressed wish for a divorce. No cause was alleged, and the woman remained to be the victim of a morbid fancy. Nelson, believing that his absence might work a cure, and sensitive to the slight cast upon him, came to California. The family did not have his address, and Mrs. Nelson came to San Francisco and was informed of the work her fiancé had wrought she was stricken with remorse and the daughter was sent to California to bring back the father and husband.

Mary Nelson secured a position as companion to a wealthy Rochester woman, Mrs. C. F. Mack, who brought her to Pasadena. She believed that her father probably would secure work as a carpenter in the railroad shops at Oakland, and so sought him there, but without success. She was given a home while here by Mrs. B. G. Evans of West Berkeley, a sister of Mrs. Mack's.

Mary Nelson secured a charge of a gang of carpenters working on the snowsheds at Summit, in the north, he came to San Francisco yesterday to see some contractors and on this journey met the daughter, who by the time had made up her mind to go back East, giving up in despair the hunt for her father. Today the reunited, happy pair left for the East, where Mrs. Nelson awaits them with loving welcome.

OAKLAND, Jan. 19.—Thomas O'Donnell, a San Francisco plumber, to-day charged C. E. Gartland, who he said, resided in East Oakland, but whose address is given as 15 Warden street, San Francisco, and his wife, with having conspired to secure the estate of Mrs. Margaret Kelly, who died at Providence Hospital in this city on December 27 last. O'Donnell charges that Gartland by false representations had Mrs. Kelly removed from a San Francisco hospital, where she was being cared for at the expense of O'Donnell, and brought her to this city, where she was first taken to St. John's Hospital, but was later removed to the institution where she died.

O'Donnell, at the office of the Health Department, declared the cause of death assigned in the certificate filed by Dr. B. F. Stetson, who attended Mrs. Kelly at the hospital, which gives the cause of death as inanition and bronchial trouble, was false, and said that Mrs. Kelly died of tuberculosis.

He informed the officials of the Health Department that the deceased, of whom he is a grandson, had been brought to this city to enable Gartland and his wife to induce her to make a new will and leave her estate, amounting to \$6000, to Mrs. Gartland, which she did before her death. O'Donnell says he will contest the will in court.

Dr. Ben F. Stetson, when questioned about the charges of O'Donnell to-day, said:

"I attended Mrs. Kelly at Providence Hospital, where she died, and also witnessed the will made by her in which she left her estate to her niece, Mrs. C. E. Gartland. The O'Donnells were not mentioned in the will, and I know nothing of any trouble between the heirs, but if O'Donnell thinks he can show that Mrs. Kelly's death was due to consumption he is welcome to try."

ALAMEDA COUNTY NEWS

DAYLIGHT BURGLARS AT WORK

OAKLAND, Jan. 19.—Burglars took the residence of W. H. Sawtel, 608 Sixty-third street, and stole a diamond bracelet and several other articles of value.

NOVEL EMPLOYMENT AGENCY

Berkeley, Jan. 19.—Mrs. May L. Cheney, appointed secretary of the university, will conduct an employment agency at its office on the campus where students may be placed in communication with those who desire their services.

PROFESSIONAL BOGGARS WARNED

Oakland, Jan. 19.—When sentencing John O'Brien, a lawyer, to 32 days in the city Prison this morning, Judge Smith took occasion to warn all professional boggars to refrain from the calling of peddlers of the same punishment if they were brought before him.

MISSING WOMAN RETURNS

Berkeley, Jan. 19.—Burglars stole the wife and five children ten days ago, supposedly while unattended mentally, but who said her husband had abused her, and she returned to her home at 2448 Ninth street today. Her husband found that she was in Modesto, and returned as a consequence to her home.

CAR CLEANER DIES SUDDENLY

Oakland, Jan. 19.—Henry Hansen, a car cleaner at 1785 Fifth street, fell in a faint at Seventh and Willow streets this morning and was taken to the Receiving Hospital, where he died at 10 o'clock to-night. An inquest will be held to determine the cause of death, which is believed to have been heart failure.

BELIEVED TO BE INSANE

Oakland, Jan. 19.—Mrs. Annie Barrett, a former inmate of the Receiving Hospital, who is believed to be insane, is detained at the Receiving Hospital and will be examined by the Lunacy Commission, as charged by the California State Board of Health to kill herself and otherwise acting in a peculiar manner. She is subject to fits of hysteria and is believed to be insane.

SEEK PARDON FOR GOLDMAN

Oakland, Jan. 19.—Burglars stole the wife and five children ten days ago, supposedly while unattended mentally, but who said her husband had abused her, and she returned to her home at 2448 Ninth street today. Her husband found that she was in Modesto, and returned as a consequence to her home.

MARRIAGE LICENSES

Oakland, Jan. 19.—The following marriage licenses were issued by the County Clerk to-day: Martin P. Groth, 36, and Elizabeth Hummel, 24, both of Berkeley; Vincent Carrillo, 23, and Apollonia Delgado, 20, both of Berkeley; Joseph G. Mitchell, 36, and Elizabeth Hummel, 24, both of Berkeley; Roscoe A. Warren, 24, and Lillian Mitchell, 22, both of Berkeley; and John W. Berkley, 45, and Eudocia F. Van Zee, both of Oakland.

FITZPATRICK DISCHARGED

Oakland, Jan. 19.—Justice of the Peace J. J. O'Connell dismissed the charge of arson against James Fitzpatrick, who was accused of setting fire to the house of Mrs. Honora Bentley, Berkeley, after he had been ejected. Judge Quinn held that the evidence against him was insufficient.

INDICTS TWO SANTA ROSAS

SAN RAFAEL, Jan. 19.—The Grand Jury brought in an indictment last Wednesday charging John Woods and Terence Pitts, both of Santa Rosa, with an assault with intent to commit robbery, fixing their bail at \$3000 each. To-day Judge Lennon set their arraignment for next Monday. They are accused of "holding up" Mayor Felix Sands, the bridge tender for the California Northwestern Railroad at Green Brae.

FINDS FATHER AFTER A LONG SEARCH.

Daughter Brings Happy Message From Estranged Wife to Return Home.

Mary G. Nelson came from Seneca, N. Y., to search for her father in California and convey to him a message from her mother asking him to return to her, for she had come to realize that she was wrong in demanding to be free of him. The daughter hunted California over, but could find no trace of her parent. But the fates intervened in kindly office. At the last moment, by most remarkable coincidence, daughter and father were allowed to meet, and reunion of husband and wife is to be effected as soon as the fast train can carry him.

MARY G. NELSON

BERKELEY, Jan. 19.—Services in memory of William R. Harper, the late president of the University of Chicago, were held this morning in the First Presbyterian Church, at which President Benjamin Ide Wheeler and Rev. H. J. Vosburgh delivered appropriate addresses. The services were under the auspices of the Assembly of Divinity Schools of Berkeley. All the theological seminaries were represented in the audience, with scores of students from the University of California.

President Wheeler made but a single reference to John D. Rockefeller's gifts to the university, saying: "If there is such a thing as tainted money, I would that more of it could be brought into such use as was made by Mr. Rockefeller's money by President Harper, for assuredly such use would remove any possible taint from the gift, and purify it completely."

The death of President Harper, so the speaker believed, will recall to John D. Rockefeller his promises to the University of Chicago, and may bring about even greater opportunities for accomplishing results there. President Wheeler spoke of his dead friend as a man who, although rated as a spending organizer, was a great teacher and an inspiring leader of the University of Chicago. He believed strongly in the practice of reading the Bible, and ever sought to impress on students with the necessity of a thorough acquaintance with the Bible as a result of constant study of the book.

President Harper was an optimist. Because he was so, his temperamental tendency to accomplish more than the head of the University of Chicago.

Rev. H. J. Vosburgh, pastor of the First Baptist Church of Oakland, spoke of President Harper's great teacher and personality in part as follows:

President Harper's life contained a great lesson for all of us. He received his degree as doctor of philosophy in 1872, and later was called to organize the University of Chicago. As a man, a scholar, a teacher, and an administrator his work was a model for all to follow and will be an inspiration to all who are called to do his things he accomplished.

BRAVE CONDUCTOR SAVES LIVES

OAKLAND, Jan. 19.—The bravery and coolness of D. S. Peterson, a conductor on the San Pablo avenue division, were the means of saving the lives of E. A. Cather of San Leandro and his daughter, Miss Ellen Cather, this afternoon, when their buggy was wrecked by a runaway horse belonging to the foot of extra hand, and entirely destroyed, where the present City Hall stands, with room between the new City Hall and the latter building for the extension of Washington street.

An art gallery and museum should be erected where the present offices of the Health Department are located, and art galleries would do much to advertise Oakland and I am confident that it would receive the patronage of every artistic and wealthy person in Oakland.

MOTHERS ACCOMPANY SONS TO COURTROOM

ALAMEDA, Jan. 19.—Donald M. McKisick and Frank E. Bowen, the young men of prominent families who are accused of having tried to burglarize the Seventh-street station of the Southern Pacific Company and who were captured by the members of the police by Mrs. John Dame, appeared before City Justice R. B. Tappan this afternoon and their preliminary examination on charges of attempt to commit burglary was set for Saturday morning, January 27, at 10 o'clock.

INFANT ABDUCTED BY ANGRY FATHER

OAKLAND, Jan. 19.—The abduction of a six-month-old babe by her enraged father this evening caused excitement in the neighborhood, but Dame and the child were soon lost to sight. Mrs. John Dame, the mother, who feared that some harm might befall her offspring.

The little one is now in the West Oakland Home, and a contest for her possession will be carried to the courts.

According to Mrs. Dame, she left her husband about two weeks ago and came from San Leandro to the home of her mother, Mrs. George Schultz, 1214 Chestnut street. She brought the little girl with her, and to-day Dame called at the house and asked to see the child. The wife had no suspicion of his intention until he suddenly caught up the little one and ran from the house. Mrs. Dame gave pursuit, screaming and arousing the neighborhood, but Dame and the child were soon lost to sight. Mrs. Dame later telephoned to the police and Policeman Cox responded and located the child in the West Oakland Home. No arrests were made.

PERJURY IS CHARGED AGAINST BRADBURY

SAN RAFAEL, Jan. 19.—Millionaire William B. Bradbury was indicted by the Grand Jury last Wednesday on a charge of perjury, and was arrested to-day by Under Sheriff R. G. Lichtenberg. He was released on bonds. The Grand Jury, in its indictment, accuses him of perjury himself in the suit of James S. McCue and his wife against Bradbury and his wife and trustees to compel the defendants to accept moneys on a note, secured by a trust deed on several pieces of real estate in Corte Madera.

HONOR PAID TO HARPER

Life and Achievements of Chicago Savant Described at Services in Berkeley

BERKELEY, Jan. 19.—Services in memory of William R. Harper, the late president of the University of Chicago, were held this morning in the First Presbyterian Church, at which President Benjamin Ide Wheeler and Rev. H. J. Vosburgh delivered appropriate addresses. The services were under the auspices of the Assembly of Divinity Schools of Berkeley. All the theological seminaries were represented in the audience, with scores of students from the University of California.

President Wheeler made but a single reference to John D. Rockefeller's gifts to the university, saying: "If there is such a thing as tainted money, I would that more of it could be brought into such use as was made by Mr. Rockefeller's money by President Harper, for assuredly such use would remove any possible taint from the gift, and purify it completely."

The death of President Harper, so the speaker believed, will recall to John D. Rockefeller his promises to the University of Chicago, and may bring about even greater opportunities for accomplishing results there. President Wheeler spoke of his dead friend as a man who, although rated as a spending organizer, was a great teacher and an inspiring leader of the University of Chicago. He believed strongly in the practice of reading the Bible, and ever sought to impress on students with the necessity of a thorough acquaintance with the Bible as a result of constant study of the book.

President Harper was an optimist. Because he was so, his temperamental tendency to accomplish more than the head of the University of Chicago.

Rev. H. J. Vosburgh, pastor of the First Baptist Church of Oakland, spoke of President Harper's great teacher and personality in part as follows:

President Harper's life contained a great lesson for all of us. He received his degree as doctor of philosophy in 1872, and later was called to organize the University of Chicago. As a man, a scholar, a teacher, and an administrator his work was a model for all to follow and will be an inspiration to all who are called to do his things he accomplished.

GREAT DEMAND FOR RAILROADS

Palo Alto Trustees Are Besieged by Applicants for Permits to Build Railways

PALO ALTO, Jan. 19.—The fight for electric road franchises was resumed last night before the Town Council here and another probable adversary of the Southern Pacific Company entered the field. Harvey W. Fowler, one-time partner of Andrew Carnegie, and a capitalist with headquarters at Pittsburg, appeared and asked for a permit to run electric buses over the streets here. He had the skeptical council see a plan to thwart the already competing roads by a series of franchise-seeking moves.

Trustee David Curry made a motion that everyone presenting an application for a franchise in Palo Alto should accompany it with a bond of \$50,000 as an evidence of good faith. The City Clerk was instructed to file the applications so far received until each applicant had been given a hearing.

Harvey claimed he had the sanction of two Stanford University trustees and could get the others to agree to letting his electric buses run on the campus. He promised a complete service for the town and vicinity.

It is thought by some that the territory between Mountain View and Redwood City, where the peninsula narrows, is now being warred for by the Southern and Western Pacific railroads, with the Santa Fe discreetly moving in secret.

Trade reports are more irregular, weekly because of the vagaries of the weather. Open weather is facilitating outdoor work, building operations are progressing at an unprecedented pace for the season, and the construction news report permits issued in 1905 to a value of \$28,156,412, which is 40 per cent in excess of the preceding year. Official returns of foreign business also tell of a new record established last year, the total for December exports alone being beyond any other month in the nation's history. For the last week at this port exports showed an increase of \$1,022,683 and imports gained \$1,239,057, as compared with the same week last year. More advances in wages are announced and an agreement as to coal mining is more probable, but some friction is noted in the building trades.

Railroad earnings thus far reported for January were 7 per cent larger than a year ago.

Failures for the week number 236 in the United States against 331 last week, and 37 in Canada compared with 24 a year ago.

Bradstreet's to-morrow will say: earlier production and re-sales of iron purchases of copper caused a weakness in that metal, with declines noted also in lead. Mild weather tends to cause declines in the prices of eggs, potatoes and some other lines of country produce.

Business failures in the United States for the week ending January 18 number 274, against 335 in the like week of 1905.

Wheat (including flour) exports for the week ending January 18 are \$488,952 bushels, against \$1,383,518 last week. From July 1 to date the exports are 77,237,645 bushels, against \$3,015,138 bushels last year.

OPERATORS TO OFFER A SMALL INCREASE

INDIANAPOLIS, Jan. 19.—An increase in the wages of the coal miners equivalent to the reduction accepted by the United Mine Workers in the joint wage conference of 1904 is the proposition which the operators are expected to defend in the joint conference which is to convene in Indianapolis next Tuesday upon the subject of the present annual convention of the United Mine Workers.

While none of the operators will talk for publication at this time, it is evident that their position will be that, while they have not enjoyed the prospect of the high wages for ten months, their receipts have been nothing like what the miners believe them to have been, and that an increase of about 7 per cent is the best they can do.

The first witness was John S. Cooper, a lawyer, who accompanied two postoffice inspectors to Dr. Hadley's office on January 6. He said that he had seen an alleged testimonial there from a woman in California, who wrote that she had been cured by the company's preparation "after she had been made ready for the grave." He testified also that Dr. Hadley said to him: "I have diagnosed 300 cases in one day. I had to stay up pretty late at night. The hearing was adjourned until February 5."

REDFLUFF, Jan. 19.—Eight railway surveyors working under Chief Engineer S. Williams began work at Brewery Creek, just north of this city, this afternoon to make a survey for a railway to be called Red Bluff and Redding Railroad. The names of the workers, who were made as well known to the public. The backers are rumored to be San Francisco capitalists. Engineer Williams said to-day that a right of way over the entire route had been secured and options had been taken on a number of large properties between this city and Redding. The road will parallel the Southern Pacific from this point to Cottonwood, about eighteen miles north of here. Williams stated that the final survey and estimates will be made as soon as the preliminary work is finished and the work of building will then be rushed rapidly.

STANFORD UNIVERSITY, Jan. 19.—Raymond F. ("Brick") West, who was drowned Thursday in the El River in the Potter Valley, during the storm, was originally a member of the class of 1900 of the Stanford University, and was one of the most popular of the cardinal athletes. He met his death while serving as a night watchman for the El River Ferry. He had been given employment in order to obtain funds to enable him to complete his university course. West had an extensive football and track career. In his freshman year he played on the '01 team and in 1904 played right end on the varsity throughout the entire game. On the cinder path he was one of the cardinals' speediest sprinters. He also held the university record for the broad jump. West registered in the law department from Seattle, where his parents reside.

PALO ALTO, Jan. 19.—A municipal reform ticket will enter the field here soon. Many leading citizens, including Dr. C. G. Baldwin, pastor of the First Congregational Church, will head the movement.

The election of city officers will take place on April 3.

Dr. Baldwin stated to-day that he would not announce the names of the candidates and denied he would take any nomination. He declares there is no interest in the management of the city government and says that no effort is being made to prevent gambling and liquor selling in several places here.

NEW ORLEANS, Jan. 19.—Bishop John R. Keener of the Southern Methodist Episcopal Church died here to-day of heart failure, aged 87 years. He served as superintendent of chaplains of the Confederate army west of the Mississippi.

SICK HEADACHE

Positively cured by these Little Pills. They also relieve distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Costiveness, Headache, and all the ailments which regulate the Bowels. Purely Vegetable.
