THE BIGGEST FURNITURE HOUSE ON THE PACIFIC COAST

NEW ZEALAND IS ENJOYING GREATEST OF PROSPERITY W. ATACK TELLS OF IT

Head of News Association Visits San Francisco.
Many Newspapers Are Printed in Colony, He Says.

Among the recent arrivals at the Palace Hotel from New Zealand is W. H. Atack, manager of the United Press Association of New Zealand, who is touring the world on pleasure bent. After thirty years spent continuously in the newspaper harness Mr. Atack has taken the opportunity of an eight months' vacation to girdle the world. He expects to stay in California two weeks and during that time will visit the southern part of the State, Catalina Island and the Yosemite Valley as the guest of the Southern Pacific Railroad.

The news organization that Mr. Atack manages corresponds with the Associated Press here. In New Zealand there are seventy papers. Many of them are dailies, while in almost every town in the bush country there are weeklies or tri-weeklies. While handling the island news through the United Press Association, the papers depend for their foreign dispatches on the Australian Cable Association. Mr. Atack entered newspaper work at Christchurch, Australia, thirty years ago. He served his apprenticeship in every department for ten years and then assumed the management of the New Zealand news service, which he has held ever since. The headquarters of the service is in Wellington, and from the similarity of the rules with those of the Associated Press it is apparent that the work of handling telegraphic dispatches is the same throughout the world. Mr. Atack says that New Zealand is experiencing unprecedented prosperity. Last year's surplus was over three-quarters of a million pounds. He is also proud of the fact that women of New Zealand vote and that this goes away with rowdism at the polls. The plan of pensioning the inhabitants at the age of 65 years and over by allowing them \$5 a year, under certain requirements, has been several years in operation and is a complete success. From California Mr. Atack will go East and thence across the Atlantic to the Old World.

CHURCH PRESENTED WITH A NEW ALTAR Bishop Nichols Officiates at Consecration of the Gift.

The already pretty little church of Holy Innocents' Parish (Episcopal) on Franklin street, San Francisco, was further beautified by the installation of a new altar, presented as a thank offering for escape from injury in an accident. The new altar is of oak and of pleasing design. The church has also received from a friend of the rector as memorials two handsome candlesticks for the altar, as well as new chancel rails, which are the gift of Mr. and Mrs. Coffield. On Monday evening last Right Rev. William Ford Nichols, Bishop of the diocese of California, visited Holy Innocents' for the consecration of these gifts and to administer the rite of confirmation to a class of seventeen persons, who had been instructed for that rite by the rector, Rev. Henry B. Collier. Bishop Nichols preached the sermon. Other clergy present and who assisted in the services were Rev. Mardon B. Wilson, secretary of the diocese; Rev. S. J. Lee, rector of St. James' Parish; and Rev. J. F. Trivett, rector of the Church of the Advent, East Oakland. The Bishop expressed his appreciation of the many indications of progress he noted in the growing parish, and of the gifts received from the rector's friends. There has also been added to the furnishings of the church as an Easter gift a new brass lectern.

Settlement Association Meets.
The San Francisco Settlement Association held its thirteenth annual meeting in the clubhouse, 38 South Park, yesterday. A short history of the past year's business was read by Mrs. Mary Roberts Smith, acting head worker of the association. The needs and plans of the coming year were also outlined and provisions made to carry them out. The treasurer's report showed an expenditure of \$2456.42 and a balance of \$772.05 in the bank and \$3459.93 in the James Finlayson fund.

ASKS HEAVY DAMAGES.
OAKLAND, April 14.—Claiming that a reckless driver in the employ of the Oakland Carriage and Implement Company knocked her down on Broadway, near Fourteenth street, and inflicted severe injuries, Melissa I. Nevins, a nurse, has brought suit for damages in the amount of \$25,320 against the company. She states that her skull was fractured and that she has lost the sense of smell and taste through injury to the nerve centers. The driver, she asserts, violated the ordinance against fast driving over crossings.

POOR HEALTH

Soon makes you irritable, nervous and despondent, but there is no need to remain in such a condition. We offer you a true medicine that will only restore your health, but will keep you so, and that is

EXCLUSION LEAGUE ADOPTS CONSTITUTION AND BY-LAWS

Executive Committee Loses Much Power Hitherto Invested in It to Decide Important Questions.
The executive committee of the Japanese and Korean Exclusion League met in the office of the secretary in the Emma Spreckels building last evening and drafted a constitution and by-laws, which will be adopted by the league at its next regular meeting on May 8, the first anniversary of the league. The league has been governed in the past by the executive board, which has had full power to act on all questions, both political and financial. The constitution takes some of the power from the board and gives the league the right to consider many questions that have been hitherto denied it. The laws provide that only American citizens shall be allowed membership in the league.

PILES QUICKLY CURED AT HOME

Instant Relief, Permanent Cure. Trial Package Mailed Free to All in Plain Wrapper.
Piles is a fearful disease, but easy to cure if you go at it right. An operation with the knife is dangerous, cruel and rarely a permanent success. There is just one other sure way to be cured—painless, safe and in the privacy of your own home—it is Pyramid Pile Cure. We mail a trial package free to all who write. It will give you instant relief, show you the harmless, painless nature of this great remedy and start you well on the way toward a perfect cure. Then you can get a full-sized box from any druggist for 50 cents and often one box cures. If the druggist tries to sell you something just as good, it is because he makes more money on the substitute. Insist on having what you call for. The cure begins at once and continues rapidly until it is complete and permanent. You can go right ahead with your work and be easy and comfortable all the time. It is well worth trying. Just send your name and address to Pyramid Drug Co., 2485 Pyramid Building, Market Street, San Francisco. Free by return mail the trial package in a plain wrapper. Thousands have been cured in this easy, painless and inexpensive way, in the privacy of the home. No knife and its torture. No doctor and his bills. All druggists, 50 cents. Write today for a free package.

ACCIDENT OCCURS ON WARSHIP WHILE IN CUBAN WATERS

Continued from Page 31, Column 6.
Cox, Appleton City, Mo.
The following message of condolence was telegraphed to the commander in chief of the fleet, Admiral Evans, by Acting Secretary Newberry:
"The department is deeply grieved by the unfortunate accident on board the Kearsarge which occasioned the death and injury in the performance of their duty of brave officers and men, and the navy expresses its heartfelt sympathy to the injured and wishes for a speedy recovery from their wounds. Spare no effort to ease the sufferings of the injured in every possible manner, and show every honor to the dead."
PRESIDENT INFORMED.
Immediately on receiving the cablegram from Admiral Evans, Acting Secretary Newberry carried it to the President at the White House and was authorized to send the foregoing expressions of sympathy. He also communicated the sad news to Secretary Bonaparte at his home in Baltimore over the long-distance telephone.
Meanwhile, by direction of Admiral Converse, chief of the navigation bureau, Captain Potter and Commander Wilson were busily engaged in looking up the addresses of the relatives of the victims and sending telegrams acquainting them with the news. Nothing more could be done in Washington until further details were received from Admiral Evans.

Married Women

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.
Mother's Friend
The Bradford Regulator Co., Atlanta, Ga.

time the cablegram was sent, did not belong to the company of the Kearsarge. He was attached to the Maryland and was aboard the Kearsarge in the capacity of an umpire to check off and record the performance of the gunners, a necessary function in view of the keen spirit of rivalry obtaining between the crews of the big battleships in the matter of efficiency at target practice. Naval regulations prescribe exactly what is to be done in a case of this kind. The admiral in command orders immediately a court of inquiry to ascertain the cause of the accident and place the responsibility therefor, and a court-martial will follow if any one is found at fault. The Kearsarge, while not one of the latest, is regarded as one of the best battleships in the American fleet. She is commanded by Captain Winslow, is of 11,500 tons displacement, is 375 feet in length, 72 feet in breadth and 23 1/2 feet in draught, with a speed record of 16.82 knots and a battery of twenty-two guns four inches and more in caliber and twenty-four guns below that size. She was launched in 1888 and commissioned in 1890.

YOUNG OFFICERS' VICTIMS.

Lieutenant John M. Hudgins, the only officer who lost his life by the explosion on the Kearsarge, was a native of Virginia and was appointed to the Naval Academy from that State on September 6, 1898. He was assigned to the engineering school at Annapolis in 1894 because of his particular aptitude for engineering and his mechanical skill. He took an especial interest in the subject of wireless telegraphy and became expert in that line. He was personally identified with the development of the wireless system as now in use by the navy, having been attached to the bureau of equipment during the experiments and inauguration of the system. After a short service in 1895 he was sent to London for a special course of instruction, and while in that city was attached to the American embassy. Since then he had served respectively on the New Orleans, Glacier Manilla and in October, 1902, began his service on the Kearsarge. He reached the grade of lieutenant in September, 1901. Lieutenant

Hudgins' widow resides at her parents' home in this city. Lieutenant Graeme was appointed to the Naval Academy from Pennsylvania on September 6, 1898. He served at the Washington navy yard from November 20, 1892, until April 17, 1895, when he was assigned to the cruiser Maryland. He is a son of Thomas Graeme of Wilkes-Barre, Pa. He is married and his wife, according to the department's information, is with his father. Following is a copy of the telegraphic message sent to next of kin of each of the victims of the disaster: "The department regrets to inform you that your son died from results of injuries caused by an explosion of powder on the United States steamship Kearsarge on the afternoon of April 12. His body has been buried at Guantanamo. You have the sincere sympathy of the department."

ATLANTIC FLEET'S COAST SQUADRON TO BE ABOLISHED

Rear Admiral Dickens to Be Detached From Command and Given Waiting Orders.
WASHINGTON, April 14.—The coast squadron of the Atlantic fleet will be abolished on April 21. This action was decided upon in order that the battleship Texas may be placed in reserve, so her officers and men may be available for the commission of new ships below that size. She was personally identified with the development of the wireless system as now in use by the navy, having been attached to the bureau of equipment during the experiments and inauguration of the system. After a short service in 1895 he was sent to London for a special course of instruction, and while in that city was attached to the American embassy. Since then he had served respectively on the New Orleans, Glacier Manilla and in October, 1902, began his service on the Kearsarge. He reached the grade of lieutenant in September, 1901. Lieutenant
