### Gather to Discuss Many Matters of Moment

### Sheriffs Assemble in Annual Convention.

**SPECIAL DISPATCH TO THE CALL.**  
SAN JOSE, April 16.—The twelfth annual convention of the Supervisors of the State of California was called to order this morning at 11 o'clock in the courtroom of Department 1 of the Superior Court with Chairman A. L. Hubbard of the Santa Clara County board in the chair and Henry A. Pfister acting as clerk.

The room in which the convention is being held is gaily decorated for the occasion with flowers and ferns from the hills and gardens of Santa Clara County. The souvenir badges distributed to the delegates are of orange ribbon with a picture of Mount Hamilton and the words "Annual Convention of Supervisors of the State of California, San Jose, April 16, 17, 18, 1906," printed thereon.

Many of the delegates in attendance have met several times in such conventions and the calling of the meeting to order was much delayed by the fact that the different members desired to meet and greet each other before the business began.

The first order of business was the calling of the roll of members of the boards of Supervisors of the State. This occupied some little time. Organization was proceeded with by the election of A. L. Hubbard of Santa Clara County chairman of the convention, on nomination of J. A. Linscott of Santa Cruz. H. A. Pfister was elected secretary of the convention. Owing to the unavoidable absence of Mayor Worcester from the city J. O. Hayes made a brief but cordial address of welcome to the city and county. The programme tomorrow will be as follows:

Business session—Construction and maintenance of roads in California. Papers by J. A. Linscott of Santa Cruz, Daniel Minahan of Solano, D. E. Roberts of Calaveras, V. J. B. Cheda of Marin.

"Taxation of Municipalities for Road Purposes." L. C. Pistolet of Marin.

General discussion, 12 m.; excursion, via San Jose-Los Gatos Interurban Railway. Barbecue at Congress Springs. Return to San Jose, via Los Gatos. Comprehensive valley and foothill trip.

8 p. m.—Business session: "The Indigent Problem," papers by William

**DR. PIERCE'S REMEDIES.**

**Eminent Doctors Praise Its Ingredients.**

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (*Hololius Divion*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator... makes for normal activity of the entire reproductive system. He continues: 'In Helonias we have a medication which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent.' Dr. Fyfe further says: 'The following are among the leading indications for Helonias Unicorn root: Painful itching in the back, with leucorrhoea; atonic (weak) conditions of the reproductive organs of women, accompanied by chronic diseases of the reproductive organs of women, constant sensation of heat in the region of the uterus; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhoea (suppressed or absent monthly periods), arising from accompanying abnormal condition of the digestive organs and anæmic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen.'"

"If more or less of the above symptoms are present, no infirm woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root or Helonias, and the medicinal properties of which it most fully represents."

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb, in all catarrhal conditions, and in general debility, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic useful in all debilitated states."

Prof. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhoea (flooding) and congestive dysmenorrhoea (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.
