REPUBLICAN COMMITTEE SELECTS THAT CITY

Delegates Will Gather at the Seaside Resort on September 5 to Nominate a State Ticket.

Santa Cruz wins the Republican State Convention. The delegates will assemble at the beautiful city by the sea on Wednesday, September 5, at 2 p. m.

Before General Stone, the chairman, had time to announce the vote, Robert T. Devlin, United States District Attorney and former State Senator from Sacramento, moved that Santa Cruz be declared the unanimous choice of the committee and the motion prevailed.

There was inspiring oratory in support of each contending city, in which Robert T. Devlin, J. W. Linscott, L. A. Wright, San Diego; Alden Anderson, president of the Sacramento Chamber of Commerce; Thomas W. Kelly, of the Santa Cruz Board of Trade, George C. Ross of San Mateo and Mr. Kron of Santa Cruz joined.

Santa Cruz was described as a place in which there was never a dull moment. A desire of the executive committee was to make a remark that no man, woman or child in Santa Cruz would resort to extortion.

The attractions and accommodations of Sacramento were eloquently outlined by the representatives of that city. The committee announced that free carriages would be provided for the reporters and artists of the press.

Partisan vote proxies. W. S. Wood of San Francisco voted a big bunch of Los Angeles proxies for Santa Cruz. Lieutenant Governor Anderson and Robert T. Devlin were equipped with mountain proxies to aid Sacramento.

The fact that the engagement for the Republican League convention to meet at Santa Cruz in May had been postponed when the State is in a disaster in California inclined many of the members to support the city on Monterey Bay.

The session of the committee was attended by 200 well known Republicans of the State. Among them were A. B. Lemmon, Santa Rosa; Secretary of State C. F. Curry, former State Senator Tyrrell of Nevada, Thomas Flint, San Benito; George A. Royce, San Mateo; George A. Knight, Mendocino; Alden Anderson, Sacramento; Dr. W. B. Charles, Kings County; United States Marshal C. T. Elliott, J. Steppacher, Justice N. P. Chipman, Tehama; Justice A. J. Buckles, Solano; Jacob Shaban, Contra Costa; Santa Cruz, George Hatton, E. F. Woodward, Surveyor of Customs; Judge Stanley A. Wright, Sierra; General George Stone, Senator H. W. Lynch, Alameda; Dr. Hennessy, Napa; E. J. Moore, E. I. Wolfe, W. S. Wood, Arthur Flek, W. H. Davis, John A. Hoey, Charles Sonntag, H. C. Dibble and Jack McGlynn of San Francisco; Walter Parker, Los Angeles; Charles H. Spear, Alameda; Dr. Hennessy, Napa; E. J. Moore, Fresno; Harry Russell, San Joaquin; A. Hochheimer, Glenn; James Gillis, Sacramento; S. F. Kelly, San Bernardino; L. A. Wright, San Diego; E. B. Martinelli, Marin; Hart North, Alameda, and many others.

Local trade will be stimulated by the local manufacturers, that inexhaustible supplies of fuel oil in several counties of the State have been ordered and will require a large number of skilled men in this city to handle the grain for export goes through the port of San Francisco, together with the milled products. The grain and its future overlie when factors of local importance are mentioned. The present hastens the growth of the future, and the certainty of great future population and greatly increased industrial enterprises furnishes a stimulus to the present. The immediate investment when works connected with production are planned.

The immediate reconstruction in San Francisco must be great. The country that is tributary must still be served just as before the fire. Hundreds of millions of dollars must be expended in reconstruction in the burned areas on both private and public properties. There will be work enough for every man to keep busy for a long period. Money will be easy and abundant. While San Francisco is reconstructing on lines more modern and magnificent than those that were the result of slow growth rather than selection. The impetus will be given to carry it far beyond its present perceivable needs, and its commerce, industry and population will be greatly increased. The wealth of San Francisco in the future is sure to greatly exceed that of the past.

Leutenant Governor Anderson presented resolutions in respect to the memory of J. S. Slosson of Los Angeles and Thomas D. Richardson of San Francisco. The resolutions were adopted.

DELEGATE APPOINTMENT. The regular call for the committee, an outline of which was published in The Call yesterday morning, was read at length by Secretary E. F. Woodward. The statement was made by General Stone in reply to urging by Mr. Tyrrell of Nevada County that proxies could not be recognized in the State convention, as the law denied such recognition. There was no discussion on the topic.

WEALTH OF CITY WILL BE GREATER THAN IT WAS IN PAST.

Conditions of Prosperity Are Many and Also Permanent.

Frank J. Symmes, president of the Merchants' Association, has written an address that will be circulated through the publicity department of the Southern Pacific Company in all parts of the world. Mr. Symmes predicts that the wealth of San Francisco in the future will be greater than it has ever been in the past and gives numerous reasons why this must be so.

There is no great city that can exist by local support alone. A great population may constitute the city but it is not a city until it has a great commerce. San Francisco has one of the most unique locations on the globe and can survive almost any disaster. With no harbor to equal it on the entire Pacific Coast and none to attempt competition within eight hundred miles, a great coast and oriental commerce is forever assured. Located midway of the coast line, with the great Sierras flowing through the most productive of valleys, the lines of trade follow with the least resistance to the entire State.

Large numbers of interested persons are arriving from points in Oregon where Creffield and his "Holy Roller" sect were well known.

Duffey Examines Hall of Justice. According to Supervisor Duffey, a member of the building committee, there is no reason why the Hall of Justice cannot be put into shape for use. "I have made a careful examination of the building," he said yesterday, "and it would be a shame to tear it down. It cost the city \$300,000, and if \$150,000 it could be put in as good shape as ever."
