

NEWS OF THE LABOR WORLD

Albert Young, who was sent out here previous to the great fire by the International Brotherhood of Teamsters to straighten out affairs of the affiliated unions in this city, has resigned as general organizer of the parent body and has announced himself a candidate for international president against Cornelius P. Shea.

The District Council of Iron Workers has elected the following officers: President, George Ingley; vice president, George Maguire; secretary-treasurer, E. A. Clancy; sergeant at arms, J. M. Walker. A picnic has been decided upon and a committee of arrangements appointed.

The District Council of Carpenters met Wednesday night at Building Trades Council headquarters, 640 Golden Gate avenue, and elected the following officers: President, Fred Nicholson; vice president, Harry Vanococci; secretary, L. B. Regan; treasurer, John Hood; warden, T. O'Brien.

Stationary Firemen's Union No. 86 has elected the following officers for the ensuing term: President, J. H. Smith; vice president, R. D. Dyer; secretary, Thomas Miller; recording secretary, E. F. Kraut; guide, W. C. Donnelly; guardian, Charles Taylor; clerk, T. Quinn. The local meets regularly every Tuesday evening at Laurel Hall, Kentucky street, between Sixteenth and Seventeenth.

The District Council of Painters met Wednesday night at 120 McAllister street. It was decided to interchange traveling or clearance cards between the counties of Marin, Alameda, San Mateo and San Francisco. These are the only cards that will be accepted by the council.

Employment will be given to more than 1000 people by the California Canning Company at its new plant at Menessee and Eighteenth streets. The payroll will average \$7600 a week and work will begin tomorrow.

One thousand two hundred Brooklyn union plumbers have struck, demanding \$5 a day, which they say was promised to them in an agreement made with the Master Plumbers' Association two years ago. These men will receive \$10 a day and the increase was to have begun on the first of the month.

The striking iron molders of Buffalo have gained a substantial victory, in that they have secured a new agreement with the Buffalo Forge Company, which has acceded to the demands of the men, ending the strikers in their old positions.

The United Mineworkers' local of Collinsville, Ill., has placed a fine of \$10 each on 400 members because the latter refused to abide by their agreement and down the water front to a location near the foot of Georgia street. At this point the company will erect a fine station at which the business of Vallejo and Mare Island and its branches will center. The Board of Trustees will no doubt look with favor upon the company's request for new franchises.

In consultation with the president of the Twenty Thousand Club today Forsythe promised that new factories desiring to locate in Vallejo would be favored by better than the present prevailing freight rates upon application to the San Francisco office of the railroad company. The question of spur tracks, which the "boomers' club" had taken up with the company, was settled satisfactorily. Mr. Forsythe promised that if a new factory desired a spur track it would be granted upon the proper representation being made by the enterprise and the indorsement of the club.

Chicago will have a union plant where union employes may go and receive union wages in case of difficulty with their employers instead of calling a strike and being out of work. Plans of the officials of the Piano, Organ and Musical Workers' International Union are carried out. The question which came up at the next annual convention. The president of the union, in speaking of the project, said:

"We have \$75,000 in the treasury that can be devoted to the plan, and could raise the \$75,000 additional that would be necessary to run such a project in operation. Even if we cannot find the money to pay expenses it would be better than conducting a strike. We can make plans as cheaply as the factories in the employers' combination and our local unions in the various cities could act as our sales agents."

The proposed plant will cost about \$100,000, and on the basis of the present plans will give employment to about 450 men. That the plant will be erected in Chicago if the scheme is carried out is the belief of those who are maturing it, as the great majority of the men to be benefited are employed and have their families in that vicinity.

Secretary Carrie Farmer of Steam Laundry Workers' Union No. 26 reports that there is less call for assistance among the members, and that they are gradually getting back to work. Four laundries will resume business in about a month, which will provide work for a large number of members.

The prospects for the rehabilitation of the printing trades in San Francisco are very gratifying, both to the employer and employe. It is believed that inside of ninety days nearly every San Francisco printer's shop will be re-established, each operating its own plant and with its old force of employes. All the headquarters of the unions connected with the Allied Printing Trades Council are now on this side of the bay.

Bartenders' League No. 41 held their regular weekly meeting Monday afternoon. Business Agent George J. Ferris made a very encouraging report. Many members are being employed and the league is fast taking its former place in the local labor field. It is thought that all members will be working in a short time. Applications for membership are coming in rapidly. Mr. E. E. Horne, first vice president of the international, is still looking after the interests of the needy members and is rendering valuable services. W. N. Battersby was elected a delegate to the local joint executive board. Vice George J. Ferris, resigned. Julius Heiler was chosen alternate delegate.

PORTLAND, July 12.—A special to the Oregonian from Baker City states that Earl Willett, son of a prominent merchant, was caught by a live wire today and fatally burned. Willett was guiding a hay derrick with a wire cable when the derrick swung around striking the power wires, running from Rock Creek to Baker City. One of the boy's arms was burned off and his body was severely burned.

WILL IT TAKE HOME CEMENT.

Board of Trade Anxious to Have Eastern Manufacturers Start Here FIELD RIPE NOW

Because of the enormous demand for Portland cement that will follow the commencement of the larger building operations in this city, the California State Board of Trade has sent out circular letters to Eastern manufacturers directing their attention to the possibilities of large Portland cement plants in Glenn and Butte counties of California. The development of the cement industry in California will greatly help the rebuilding of San Francisco, says the Board of Trade. Most of the cement used on this coast comes from Germany. A little comes from New York. A few California plants are wheeling along without any great output.

B. L. Sweet, a representative of several Eastern cement manufacturers, said last night that the demand for Portland cement in this city will be tremendous during the next few years. He predicts a greater demand than the manufacturers will be able to supply. The Eastern manufacturers are preparing to increase their output, and will send the cement to San Francisco by rail.

"Before I left New York," said Sweet, "I talked with many prominent contractors. They are about to leave for San Francisco. In New York there is every confidence that San Francisco will become a greater city than ever before. The Eastern capitalists look upon this city as the coming spot for investment."

Arthur R. Briggs of the Board of Trade says that the Eastern people are in the belief that San Francisco will soon recover from the effects of the disaster. He has just returned from a trip East. He found the Eastern people have a correct impression of the amount of earthquake damage here.

VALLEJO WAY RAIL UNION DEPOT.

S. P. Road Contemplates Consolidation of Its Three Stations

SPECIAL DISPATCH TO THE CALL. VALLEJO, July 12.—It looks very much as though Vallejo will have the long desired Union depot. The Southern Pacific Railroad Company, it is said, contemplates the consolidation of the three widely separated stations now maintained in this city. G. T. Forsythe, Oakland, assistant traffic manager of the railroad company, was in Vallejo today with an engineer of the company and drove over the proposed new route, which will change the line from its present course near the One-Mile House and swing directly westward to the bay shore, crossing the sites of the three new brick and tile works which are now being built at the foot of Vallejo Heights, past the factory of the Palmer Liquid Coffee Company and down the water front to a location near the foot of Georgia street. At this point the company will erect a fine station at which the business of Vallejo and Mare Island and its branches will center. The Board of Trustees will no doubt look with favor upon the company's request for new franchises.

In consultation with the president of the Twenty Thousand Club today Forsythe promised that new factories desiring to locate in Vallejo would be favored by better than the present prevailing freight rates upon application to the San Francisco office of the railroad company. The question of spur tracks, which the "boomers' club" had taken up with the company, was settled satisfactorily. Mr. Forsythe promised that if a new factory desired a spur track it would be granted upon the proper representation being made by the enterprise and the indorsement of the club.

STUDY THE BIBLE UNDER TREES.

Mount Hermon Scene of Gathering of People of All Denominations

SPECIAL DISPATCH TO THE CALL. MOUNT HERMON, July 12.—The interdenominational Conference for Bible Study and Missionary Instruction is in session here. The attendance is very large, most of the leading denominations being represented. Under the "big trees" of the great gathering study the Bible, with Rev. H. H. McQuilkin of San Jose and Rev. T. C. Horton of Los Angeles, or listening to missionary addresses by Dr. H. M. Money of Oakland, representative of the American Board of Foreign Missions, and by those who have given actual service in mission fields.

The early morning devotional hour is being conducted by Mrs. G. E. Alden of Palo Alto, better known as "Pansy." Her son, Professor R. M. Alden of Leland Stanford Jr. University, conducts daily classes in the study of poetry, while Miss Frances du Brum of Oakland, representative of the American Board of Foreign Missions, and by those who have given actual service in mission fields.

LOS ANGELES, July 12.—Upon the authority of Lyman J. Stewart, president of the Union Oil Company, it was announced today that the Glaciosa Oil Company of San Francisco has been successful in securing a Japanese oil contract amounting to 20,000,000 barrels, for which that company, the Union Oil Company and the Associated Companies of the Alaska Commercial Company are the principal holders in the Glaciosa Oil Company. Their wells are in the Alamosa field, Santa Barbara County.

Noted Singer Appears Again This Evening

CLEVER GRECIAN MUSICIAN WHO MAKES HER DEBUT AT THE ORPHEUM NEXT SUNDAY AFTERNOON.

Linden Beckwith Recovers From Slight Illness and Returns to the Orpheum

Linden Beckwith, "The Singing Portrait," known to many San Franciscans as Mrs. Snider Johnson, has recovered from her recent illness and will appear again at the Orpheum this evening. The noted singer was afflicted with a throat affliction several days ago, and it was feared she would not be able to appear for some time. "The Military Octet and the Girl with the Baton" is a musical novelty that will be put on at the vaudeville house on Sunday afternoon. This act scored a big hit in the East and is expected to charm the local theater-goers. Argyro Kastron, a young Grecian girl who formerly starred with Sousa's band and the Calve Concert Company, will make her debut at the Orpheum on the same day. The young woman is a noted musician, and is reported to have made a success on the European stage before coming to this country.

Levy Wants Rent Rebate. Morris Levy rents \$400 rent debate on Woodward's Pavilion and he says that if the money is not turned over to him he will bring suit against the American Importing Company and J. Charles Green to secure the amount. Levy was the lessee of the pavilion and his rent was \$500 a quarter. On the 1st of April he paid his rent in advance and was burned out by the fire.

ADVERTISEMENTS. "IT SAVED MY LIFE" PRAISE FOR A FAMOUS MEDICINE

Mrs. Willadsen Tells How She Tried Lydia E. Pinkham's Vegetable Compound Just in Time.

Mrs. T. C. Willadsen, of Manning, Iowa, writes to Mrs. Pinkham: Dear Mrs. Pinkham:—

"I can truly say that you have saved my life. I cannot express my gratitude to you in words."

Report That an Expert Condemned the Mine Causes Big Decline

SPECIAL DISPATCH TO THE CALL. GLASGOW, July 12.—There was a big slump in the shares of the Fresno Copper Company on the local Stock Exchange today in consequence of the announcement that Frederick Siebert, the expert appointed to examine the property, had condemned the mine. Five-dollar shares dropped immediately to \$1.12.

FRESNO, July 12.—The Fresno Copper Company, Limited, is an English corporation owning 480 acres of copper-bearing lands near Fresno, Cal. The company acquired 400 acres of these lands in 1903 from the California Corporation Syndicate, Limited. It is issued therefor on consolidation 195,000 shares of capital stock.

Some development work was done on the property before it was taken over, and according to recent reports, smelters were being erected. The capital stock of the company is \$400,000 in \$1 shares. The stock was never listed nor dealt in here.

FRESNO, July 12.—The affairs of the Fresno Copper Company have been known to be in an unsatisfactory condition for some time. The mine is located about three miles from Polasky, and is believed to be a valuable property. During the past two years a large amount of money has been spent in installing expensive machinery, which failed to work when completed. Smelters costing \$250,000 were erected, but were found to be improperly constructed. In the installation of the machinery for operating the air compressors in the mine engineering mistakes were made. It is said, which will require the rebuilding of the plant. As it will cost about \$100,000 to place the smelter in working order it is thought doubtful if it will ever be rebuilt.

EASTERN LEAGUES COME TO COAST.

Appointed to the Faculty of the Normal School in the City of Angels OUST OLD TUTORS

LOS ANGELES, July 12.—A number of very important changes at the faculty of the State Normal School were announced today. Professor Melville Dozier, who has been connected with the school for twenty-two years, the chief among those who will not be with the new faculty. He was recently head of the elementary mathematical department. John B. Cleveland of the University of Chicago has been engaged to teach higher mathematics and the pedagogical course. Miss Ada Laughlin resigned as art teacher after twelve years of service. She is succeeded by Miss Nellie F. Gere, one of the four superintendents of public schools in Chicago.

Miss Sarah Monks, who has been connected with the State Normal even longer than Professor Dozier, has also severed her relations with the school, because of changes in the course of study. She is succeeded by Ernest Babcock, a graduate of the agricultural department of the University of California. Miss Alice M. Osdin, teacher of reading in the Normal School, of Macomb, Ill., succeeds Miss Katherine Gill as a member of the faculty, who resigned to go East. Dr. T. R. Crosswell has withdrawn to engage in business in San Francisco. Everett Shepherson, already connected with the school.

SOUTHERN PACIFIC SEEKS TELEGRAPH LINE PERMIT Has Temporary Franchise on Townsend Street Which It Wants Made Permanent.

Application has been filed by the superintendent of telegraph of the Southern Pacific Company for a permit to construct a telegraph line from Second and Howard streets along the east side of Second street to Brannan, from Fourth and Brannan along the east side of Fourth street to Townsend, from Fifth and Brannan streets along the east side of Fifth street to Townsend. The company has secured a temporary sixty-day permit from the Bureau of Electricity, and wants this made permanent by the Board of Supervisors.

Mrs. Sarah A. Washburn of 2728 Howard street asks the board to pay a claim of \$50 for fences said to have been destroyed by the military authorities. The Globe Grain and Milling Company has filed an application with the Supervisors asking permission to explode blasts on Chestnut street, between Montgomery and Kearny, for the purpose of opening up the thoroughfare.

Twelve property-owners residing at Twenty-second and Bryant streets have filed an objection to a stable erected at that intersection by Lindauer & Co. It is stated that the stable was erected in violation of the ordinance, and on the representation that the building was to be used for stores.

On Trial for Perjury. The second trial of Gustave Holmgren, indicted for falsely swearing in a naturalization case, was begun in the United States District Court yesterday before Judge de Haven and a jury. Holmgren was convicted at the first trial of having falsely sworn that Frank Werta, an applicant for naturalization, had arrived in the United States before he was 31 years of age, and that Holmgren had known him for five years here, but the verdict was set aside because of error. The taking of testimony will be finished today.

Levy Wants Rent Rebate. Morris Levy rents \$400 rent debate on Woodward's Pavilion and he says that if the money is not turned over to him he will bring suit against the American Importing Company and J. Charles Green to secure the amount. Levy was the lessee of the pavilion and his rent was \$500 a quarter. On the 1st of April he paid his rent in advance and was burned out by the fire.
