

Kitchenmen Deal Harshly.

Plan of Relief Work Outlined

Report of the Executive Committee Adopted by Directors.

AT THE meeting yesterday afternoon of the directors of the San Francisco Relief and Red Cross Funds the report of the executive committee setting forth its organization and plan for conducting the work of relief was formally approved, the resignation of Commissioner Pippy accepted and a vote of thanks given Dr. E. T. Devine for his work in this city.

The report specifies that the executive committee will meet each Tuesday and Friday in executive session, but members of the press are to be admitted.

The relief work is divided among five departments. The first of these, of which James D. Phelan is the head, comprises all matters pertaining to the finances of the corporation, the general office, the bureau of history and the information to be given out to the press.

The department of bills and demands, which is under the chairmanship of M. H. de Young, comprises all matters pertaining to bills and demands against the corporation.

Rudolph Spreckels presides over the department of camps and warehouses. This department comprises all matters pertaining to the maintenance of the sanitary matters connected with the camps and outside warehouses.

The department of relief and rehabilitation is in charge of F. W. Dohrmann. It comprises all matters pertaining to the building of a municipal home for the indigent and aged, the erection of temporary buildings for housing the refugees, the granting of bonuses for the building of individual homes, the buying of land and erection of buildings on same to be rented or sold on installments, the collecting of rent or payments for buildings rented or sold and any other appropriate matters.

The report was adopted without discussion. The directors also gave final approval of the executive committee's recommendation of 1696 bills already approved which aggregate \$618,738.25.

Dr. Devine called attention to the fact that his withdrawal from the committee was not intended as a resignation. No action was taken in filling the vacancy, but Chairman Phelan took occasion to warmly endorse Dr. Devine's work here and to express appreciation for the splendid service rendered. Mr. McEnerney moved that a formal resolution of thanks be adopted, which was done unanimously.

Dr. Devine thanked the directors for their action and took occasion to state that he wished to share their appreciation with Mr. Bicknell, who came here with him and who has labored without compensation early and late in the work of relief.

"I want to put on record," said Dr. Devine, "my deep appreciation of his work."

On Mr. McEnerney's motion Dr. Devine was elected to the board of directors of the corporation.

A resolution was adopted requiring that on or before the fifth of each month the executive committee mail to the directors a statement of the amounts paid for labor during the month previous.

WORK FOR REFUGEES.

Tehama County Fruit Growers Would Welcome San Franciscans.

RED BLUFF, July 27.—The fruit-railers of this section are confronted with the problem of securing sufficient help to handle their fruit crop this summer. Nearly every grower would welcome some action which would bring a number of San Franciscans to the area.

At yesterday's meeting of the Fire Commission Chief Shaughnessy submitted a report on the present condition of the street cisterns at various crossings. The report shows the location of thirty-seven cisterns that are either filled in, cracked or pined over, and twenty that are in good condition. The list of cisterns needing repair will be submitted to the Works Board with a request that they be put in order for immediate use in the line of better fire protection.

The Department of Electricity was requested to install another "joker" circuit in each engine-house for greater efficiency in sounding alarms.

Gaston Favors Soup Kitchens

Reports That They Are Necessary, but Can Be Improved.

MAJOR J. H. GASTON, superintendent of camps, has made a report to the relief commission on the condition of the soup kitchens. Major Gaston points out that abnormal conditions exist in this city and that in his opinion the kitchens are now necessary and will continue to be until houses are built and rented at reasonable rates.

Sanitary conditions could be very much improved, and that while the food is uniformly good, a better meal could be secured for the price charged. To improve conditions the major suggests that the kitchens be placed under the immediate supervision of some one bureau.

Regarding the situation Gaston says: "I desire to state that these kitchens should be kept in a much better and more sanitary condition than they now are. We must recognize the facts. The present abnormal conditions will not be remedied until houses are built and rented to laboring people at a reasonable price. As soon as that obtains, strenuous efforts should be made to force all working people out of the camps into such houses, and those who are found unable to work for any reason, and unable to support themselves, will have to be provided for by a poorhouse. It will be found that there are quite a large number in this city who will necessarily be placed in that class, and in order to prepare for this I would earnestly recommend the immediate building of a poorhouse of at least 1000 capacity."

CHINESE GAMBLERS FAIL TO APPEAR BEFORE JUDGE

Their Attorney Pleads Guilty for Them and Fines Are Imposed and Warning Given.

SEVENTEEN Chinese fan tan players who were arrested by Captain Gleason on Thursday afternoon in a building at 1049 Pierce street, owned by Superior Lonerger, failed to appear before Police Judge Shortall yesterday morning. The two keepers, Fong Sa and Ah Chin, were out on \$50 cash bail and the fifteen visitors on \$10 bail.

When the Judge threatened to forfeit the bail and issue bench warrants Attorney Thompson said he represented the defendants, all of whom had gone to Oakland, and he would waive their appearance in court and plead guilty. The Judge imposed a fine of \$20 each on the two keepers and \$5 each on the visitors.

"Making a Chinatown out of the Western Addition," said the Judge, "cannot be tolerated for a moment. White men are not allowed to gamble in respectable neighborhoods, and it is an outrage to have Chinese do it. It is the duty of the police to see that the kind come before me the penalty will be much heavier."

Supervisor Lonerger called on Chief Dinan yesterday morning and said he was the invocator of the case. He had leased the building to an attorney, who had sublet it to the Chinese. Mr. Lonerger disclaimed any responsibility for the Chinese gamblers being there, and said he would pay under the lease to sublet without any restrictions.

DIPLOMAS ARE GIVEN TO BIBLE STUDENTS

Commencement Exercises of Berkeley Seminary Are Held at Garfield Park.

SPECIAL DISPATCH TO THE CALL. SANTA CRUZ, July 28.—The commencement exercises of the Berkeley Bible Seminary were held this evening at the tabernacle in Garfield Park. The exercises opened with a procession of the trustees, the faculty and students. The addresses were delivered by Rev. R. P. Shepherd and Rev. H. J. Loken and the invocation by Rev. A. M. McCoy. Dean Van Kirk presented the diplomas.

ALLEGED MURDERER FREED BY GARDEN CITY JURY

Indictment Against Sanfilippo Dismissed Because Grand Jury Talked Too Much.

SAN JOSE, July 27.—Judge Welch today set aside the indictment against Salvatore Sanfilippo, who is in jail under a charge of having shot his wife to death some weeks ago. It was shown that one of the grand jurors, previous to that body taking up the Sanfilippo case for consideration, had expressed the opinion that he was guilty. The case will be presented to a new Grand Jury.

PORT TOWNSEND TO LOSE CHINESE DETENTION STATION

Headquarters of Immigration Commissioner Sargent to Be Transferred to Seattle.

SEATTLE, July 27.—The Chinese detention station now located at Port Townsend will be moved to Seattle as soon as the Great Northern Steamship Company can erect a new lodging house to accommodate the Chinese travelers. The transfer of the detention station to Seattle means that the headquarters of Immigration Inspector Sargent will be moved to Seattle.

Big Profits in Ticket Trading

Refugees Pay Dearly for All Raw Food They Receive.

SIXTY per cent is the profit soup kitchen proprietors have been making off those who have been trading their meal tickets for raw food. This state of affairs has been brought into the limelight by investigations being conducted by Lieutenant Henry H. Scott, department superintendent of camps.

Lieutenant Scott was given authority on Thursday to stop trading of meal tickets for raw food except on an order from a physician. The arrangement brought a number of protesting soup kitchen proprietors to relief headquarters yesterday. Close questioning brought out the statement of the profits they have been making.

For a 15-cent meal ticket they have been giving three eggs, worth 3 1/2 cents, and a loaf of bread worth 3 1/2 cents, which costs up 8 1/2 cents.

For these tickets received from the refugees a meal ticket which they have turned in at relief headquarters for 15 cents, giving them a clear profit on each transaction of 5 1/2 cents, or about 60 per cent.

"This has got to stop," said Lieutenant Scott yesterday. "So long as the commission lasts no more trading of meal tickets will be done without a physician's order."

CANNOT SELECT A NAME FOR NEW RELIEF SOCIETY

Society Women Are Struggling to Christen Their Social Organization.

"What's in a name?" is the question that seems to be a stumbling block for the emergency organization of women who have gathered at the call of Miss Lucile Eaves to do relief work of every kind. There was a meeting yesterday afternoon at Geary and Gough streets, attended by 100 women prominent in the club life and relief work of San Francisco, and there was endless discussion as to what this body of workers should be called.

The Home Workers of San Francisco was suggested, and after this name had been adopted by the general vote the matter was reconsidered and it was found that none of the names suggested suited at all.

A committee of eleven, consisting of Mrs. A. E. Bradley, Mrs. A. C. Bainbridge and Mrs. B. M. Rice, to select names to be voted upon at the next meeting, was appointed and by-laws were accepted providing that the object of the organization shall be home-making and the method of work co-operative. Every woman who is interested in relief work is eligible for membership and the dues shall not amount to more than 10 cents a month.

Miss Lucile Eaves was selected president and the following were elected vice presidents: Mrs. John F. Merrill, Mrs. J. W. Orr, Mrs. M. C. Sloss, Mrs. M. H. de Young, Mrs. A. E. Graupner and Mrs. I. Lowenberg. Miss Bessie Colby was elected secretary and Miss Belle Neuman treasurer. There was a discussion as to the place to be provided for the social centers that it is anticipated will be established in each of the camps in the city. Miss Eaves said she has promised an extension of the kitchen, to be used by Dr. Gunn and that the members of the school board had promised to let her have a building as large as a school room for \$200, but she thought it would be advisable to ask the finance committee for aid.

Miss Alice Griffith of the Telegraph Hill Association suggested that Rudolph Spreckels be asked to turn over the various eating houses in the camps to the organization when they were no longer in use.

Sells Liquor Without License.

A warrant was obtained by Police Joseph Speck from Police Judge Mogan yesterday for the arrest of "John Doe" Knutz, grocer, on Chesley street, near Eighth, for selling liquor without a license. Speck said Knutz was keeping open house and made no secret of his illegal traffic.

PROFESSOR TELLS HOW TO WIN LOVE OF WOMAN

Man Should Make Himself Indispensable to the Girl Who Likes Him.

BERKELEY, July 27.—The way to win and keep a wife according to Professor John Adams of the University of London, who is lecturing at the University of California, is to make yourself indispensable to her. Professor Adams is a distinguished scholar and an authority on pedagogy and his lectures at the summer school draw crowds to the classrooms.

Women teachers are numerous among his students. These were informed by Professor Adams today that although a husband who wishes to keep his wife or lover who would win a wife must become indispensable to the woman, the exact opposite is to be the formula for a successful teacher.

Woman's Weary Search for Aid

Red Tape Prevents Mrs. O'Brien From Securing Supplies.

BECAUSE her requisition was not typewritten Mrs. A. O'Brien was sent from the relief warehouse at Golden Gate Park down to relief headquarters at Geary and Gough streets to have her order gotten up to suit the technical gentleman at Golden Gate Park who turned her away. This was bad enough, but as the unfortunate woman had four children along with her, one 2 months old and the others 2, 5 and 6 years respectively, the case became particularly hard.

Mrs. O'Brien, who had deserving written all over her, lost everything in the fire which burned her home at Hyde and Vallejo streets. A month later her baby was born. Late in June she received her requisition for supplies. She has been seeking to get them whenever the health of the baby has permitted.

The baby was turned away, she says, because her order was not typewritten. She appeared at headquarters, the alling baby in her arms. The sight of the baby's we, pinched face caused many of the men and women to turn away, for in the baby's countenance was the look of death.

"And," said the poor woman with a sob in her voice, "it was such a fine, healthy baby when Mrs. Roche in June later her baby was born. Late in June she received her requisition for supplies. She has been seeking to get them whenever the health of the baby has permitted."

POLICEMAN A. J. ROCCA ON TRIAL FOR BATTERY

His Wife Testifies as to Severe Beating He Gave Her Last Sunday Night.

The trial of Policeman A. J. Rocca on a charge of battery committed upon his wife Jennie on Sunday night was commenced before Police Judge Mogan yesterday. After the wife's testimony sister had testified the trial was continued till Monday to enable the complainant to bring a disinterested witness.

Rocca testified that she obtained an interlocutory decree of divorce from Rocca last August, and on Sunday night while she was going home, accompanied by four persons, Rocca sneaked up behind her on Turk street, near Stockton, and pulled her around a corner, where he pressed her against a wall, struck her ten times on the face, blackening her eyes and drawing blood from her nose, and then pointed a revolver at her head and threatened to kill her. It was not the first time he had struck and choked her, she swore, and she had to call in a physician. She denied that she was a habitual drinker.

Miss Mary Burns, sister of Mrs. Rocca, corroborated her as to her condition when she returned home, accompanied by Rocca. When the witness re-crossed her testimony, she said she was so weak that she had to get the better of him.

MAYOR SIGNS RESOLUTION FOR REMOVAL OF TRACKS

Ocean Shore Company Begins Work of Taking Up Rails on Howard and Steuart Streets.

Mayor Schmitz yesterday signed the resolution passed by the Board of Supervisors calling on the railroad companies to remove their tracks on Howard, Davis, Battery and other streets within forty-eight hours. The resolution recites that if the notice is not heeded the Chief of Police is to arrest the officials of the companies that fail to comply with the order. It will then be the duty of the Board of Works to tear up the tracks at the expense of the companies.

Shelton yesterday filed a formal notification with the street committee of the board that it will commence to-day to take up its temporary tracks on Howard and Steuart streets.

NAVY ORDERS.

WASHINGTON, July 27.—The following cable was received today from Rear Admiral Train, Asiatic fleet, Cebu:

Surgeon D. N. Carpenter goes to the Raleigh, Surgeon P. K. Kindelberger to the naval station at Olongapo, Ensign I. E. Bass is detached from the Villa Lobos to the Ohio, Midshipman M. F. Draemel is detached from the Wisconsin to the Villa Lobos.

Almost Victims of Gas.

Andre Depiant and Giovanni Mastaglio were found unconscious in their room at 2971 Harrison street early yesterday morning with the gas turned on. Policemen Mullen and Foley took them to the City and County Hospital in the patrol wagon. Mrs. Mooney, Minch and Gundry worked on the two unconscious men for several hours till they were out of danger. When retiring for the night they accidentally turned on the gas.

Scalp Almost Torn Off.

Frank Salvar, an employe of the California Casket Company on Mission street, was caught between the elevator and the wall yesterday, and his scalp was nearly torn off. He was removed to the Central Emergency Hospital, where fifty stitches had to be taken before the wounds were sewed up.

FERRIS HARTMAN ASKS FOR REDUCTION OF ALIMONY TO HIS FIRST HELPMATE

PRAYER GRANTED

Hard times have been knocking at the door of Ferris Hartman, actor, stage manager and liquor dealer. Earthquake and fire struck him a body blow, and in consequence the alimony of \$100 a month that he has been paying his former wife, Mary M., has been cut from \$100 to \$25 a month. No opposition to the motion was made yesterday in the Superior Court and Judge Hebbard signed the paper that calls for the reduction. Ferris was in court and stated the various reasons why he is no longer able to pay the first Mrs. Hartman the alimony she was given in days gone by. He testified that said alimony was awarded partly for the support of his 19-year-old son, Hugh W., but the boy is now able to earn his own living, and that all the money he can make can take and scrape together is required for his second wife and child.

With the Konigs it was the old story of too much family, but after they listened to what Judge Graham had to say, they agreed to try married life another month and see what it will develop. Rose A. Konig wanted a divorce from Charles, and averred in her complaint that he was cruel to her, asking her to marry her sister, an "uneducated nobody." The respondent said that his wife insisted on living at the home of her parents, who were continually interfering with him. Mrs. Konig said the same thing about Mr. Konig and the court suggested that if they would secure apartments and live apart from their respective parents, their troubles might come to an end.

In the same court Antonia Athey was granted a divorce from William E. Athey on the ground of cruelty. Alexander Duff filed complaint against Gertie James, alias Lillie James Duff, asking for her marriage to be set aside on the ground that she was married at the time he took her for his bride.

ATTORNEY HAS PRINTER ARRESTED FOR BATTERY

Trouble Over Roller Press Leads to Charge Being Made Against Grattan D. Phillips.

Grattan D. Phillips, printer, was arrested yesterday on a warrant charging him with battery and assault on a cash bail. The complaining witness against him is Attorney H. A. Krouse. Phillips was a partner in the printing firm of Phillips, Krouse, and O'Brien. A junk firm got the contract to remove the junk from the burned building, but Phillips specially reserved in the contract a roller press which was his own property.

The firm's chief clerk has started in the printing business, and Phillips alleges that when he visited the ruins on Thursday the latter and Krouse were there, and they had the roller press on a truck to cart it away. Phillips showed Attorney Krouse a copy of the contract, but Krouse, it is alleged, paid no attention to it, and Phillips struck him. Phillips testified that he had the chief clerk arrested on a charge of grand larceny. The battery case will be called in Police Judge Mogan's court this morning.

W. H. DEMMING WILL ERECT FINE SEVEN-STORY BUILDING

Structure to Be at Stockton and Post Streets and Intended for Stores and Offices.

W. H. Demming, one of the junior members of the firm of Demming, Palmer, flour manufacturers, will immediately begin the construction of a seven-story brick and stone building on his property at the southeast corner of Post and Stockton streets. It is to be a modern structure, fitted for offices and stores.

Mr. Demming has already received \$18,000 from the insurance companies on his building, which stood on the old site and expects to receive the remaining \$10,000 to-day.

His plans for the new building are completed and he will begin work at once. He and his wife have been touring the southern part of the State for the last three weeks and are staying at the St. Francis until their home on Broadway and Fillmore street has been renovated and refitted.

STEAMER PUEBLA'S CREW REPORTED ABLE SEAMAN

Seattle Inspectors Find That the White and Japanese Sailors Are Competent to Man Boat.

Supervising Inspector Birmingham received yesterday the report of United States Local Inspectors Whitney and Turner at Seattle with reference to Andrew Furuseth's complaint that the steamer City of Puebla had not had a fire and boat drill on her recent trip to the City and County Hospital in the patrol wagon. Mrs. Mooney, Minch and Gundry worked on the two unconscious men for several hours till they were out of danger. When retiring for the night they accidentally turned on the gas.

Mazzamas on the March.

BELLINGHAM, July 27.—The Mazzama mountain climbing party, headed by Mount Baker, started at 11:30 this morning on its twelve-mile tramp from the terminus of the Bellingham Bay and British Columbia Railroad to the site of the permanent camp, which will be reached tonight. The party left Bellingham by train at 7 o'clock this morning.

One Hundred Tons of Hay Burned.

CORNING, July 27.—Shortly after noon today a bunkhouse on the Foster ranch, west of here, caught fire and before the flames could be subdued they spread to a large haystack and destroyed 100 tons of newly cut alfalfa hay. The fire is supposed to have been caused by a pipe which one of the ranch employes was smoking.

One Million Shingles Burned.

BELLINGHAM, July 27.—The dry kiln of the Miller shingle mill—one million shingles were destroyed by fire at Clearbrook, twenty miles north of here, today. The latest report is that the effort to save the mill itself will succeed.

MINT TO PURCHASE MORE SILVER.

Order From Washington Changes Regulations as to Buying Bullion

HELP TO MINERS

An order was received yesterday from the United States Treasury Department by Frank A. Leach, superintendent of the mint in this city, which covers a matter of very great importance, considerable portion of the mining interests of the Pacific Coast.

The order greatly increases the amount of silver allowable in deposits made at the mints. It provides for the acceptance of silver in gold deposits and the payment in coin thereof "whenever the amount of silver in such deposits does not exceed in value the proportion of one part silver to ten parts gold."

This interpreted in more simple form means that bullion containing about three-fourths silver and one-fourth gold will be received at the mints and the silver paid for in coin at the current rate, which is fixed by the director of the mint.

This rule will be appreciated by many miners in the eastern and southern parts of California, as well as in Nevada and Arizona, where it is a very common thing for the silver to predominate in the bullion produced. The mint has had to reject a great many consignments of bullion in the past which can now be admitted under the new rule. This new rule takes effect on August 1.

OBTAINS SEARCH WARRANT TO RECOVER VALUABLE JUNK

James J. Searle Alleges That a Carload Is Being Shipped Out of Court's Jurisdiction.

James J. Searle, representing the Bellott Warehouse Company, 105 Townsend street, obtained a search warrant from Police Judge Mogan yesterday to recover possession of a large quantity of material, including 400 pillow blocks and bearings, 250 hangers, 800 feet of sprocket chain and wheels, 12 sets of gears and pinions, 4 hoists, 3 clutches, 75 pairs couplings, 300 collars, 1000 pounds counter shaft, 8 shafts, 2 mule pulley stands and 600 pulleys, valued at \$3300.

Searle alleged that Bernstein Bros. & Co., junk dealers, loaded the material on a Southern Pacific car at Sixth and King streets with the intention of getting it out of the State and the jurisdiction of the courts, where suit is pending at the instance of Searle against the Bernsteins for conversion of the property which had been stolen from the Bellott Company. The car on which the property was loaded was to form part of a train scheduled to leave yesterday afternoon.

ASKS FOR DAMAGES.—Francis Gordon brought suit yesterday in the Superior Court to recover \$5000 damages from Alexander W. Bond for goods that were taken from the plaintiff's delicatessen store at 120 1/2 Golden Gate avenue on April 25. The goods were valued at \$750 and in addition Gordon wants \$5000 as damages.
