

LOOK OF THE WORLD

EDITED BY O. M. BOYLE

The board of directors of Musicians' Union No. 6 wishes to call the attention of the members to the following provisions of the bylaws of the federation:

No orchestra composed of members of the American Federation of Musicians engaged in performing at theaters by the season shall be permitted to perform with traveling musicians (including leaders) other than grand opera leaders, who are not members in good standing in the American Federation of Musicians; nor shall any traveling members of the American Federation of Musicians be permitted to perform with the orchestras employed at theaters designated as unfair by the federation. A traveling musician or leader before commencing engagement at a theater or place of amusement must exhibit his card and satisfy them the musician playing there and satisfy them the member in good standing in the American Federation of Musicians.

Members are requested to submit to the secretary no later than November 5 any change of address or instrumentation in order that such changes may appear in the annual directory and date book for 1907. Members who wish to have their telephone numbers changed therein, and who have not already notified the secretary of such changes, will please do so at once.

An agreement between the Cleveland Electric Railway Company and its employees whereby the company binds itself to recognize the union has been perfected. President Anderson was made acquainted with the fact that his employees wished to form a union, and they were agreeably surprised when they found that there would be no opposition to the movement. Third Vice President A. L. Behner of the international organization has been in Cleveland for some time and has done much to bring about the organization. President Mahon has also been on the ground, and these two international officers have won a decisive victory. The only restrictions placed upon the union men are that no undue influence be brought to bear on the employees to become members, and it is given out that the president of the company will immediately raise the wages of the men two cents an hour. In reference to hours it has been decided to set by arbitration. The union men throughout the country will be cheered by this good news.

Carpenters' Union No. 1042 has decided to give a celebration at about noon each month. The first one will be held next Friday night at 677 McAllister street. The committee of arrangements is as follows: T. K. Thompson, A. E. Lidstrom, F. E. Maxwell, O. Nelson, J. O. Burkhalter and F. C. Drost.

President Oscar W. Fredericksen of the Los Angeles Central Labor Council has returned to Los Angeles after his labor movement in that city. He says: "Los Angeles is growing by leaps and bounds. A conservative estimate of the membership of organized labor in this city is 12,000. The increase is especially marked on the increase in both the miscellaneous and printing trades. Of the thousands of people who come to Los Angeles annually it is natural that a certain percentage are members of trades unions. In addition to this many non-union mechanics are continually joining the unions. They soon realize that union men receive the best wages and work less hours."

Waitresses' Union No. 48 held its weekly meeting in the headquarters, 818 Octavia street, last Monday with Miss Katie Bischoff in the chair. Six candidates were initiated and eighteen applications are on the secretary's desk awaiting action. Emma McKenzie was elected recording secretary and the place of Bessie Franklin resigned. It was reported that the proprietors generally are living up to the union requirements. The committees having charge of the Thanksgiving Eve ball are determined to make the affair a big success. It will be held in Turn Verein Hall, 382 Turk street.

The charter of the San Rafael Retail Clerks' Union has arrived from the East and the new organization will be known as No. 1119. At the next meeting officers will be installed and a public reception conferred the place of C. T. Peterson, J. V. DuCoin, Daniel F. Tattenham and John Lederer. The barber shop at 6 Clay street has been unionized and the boycott against the great F. Twiford, recording secretary, has been straightened out in the manner in which he straightened out the union down to the proprietors and they readily concurred in his decision.

Painters' Union No. 19 met in Eintracht Hall last Monday night, with A. B. Fleming in the chair. Ten candidates were initiated and eighteen applications are now being considered. Four members were admitted upon traveling cards. The union stated that it was prepared to appoint its quota of men for the police force whenever called on by the constituted authorities.

The regular weekly meeting of Bartenders' League No. 41 was held Monday night at headquarters, 999 McAllister street. President Ferris was in the chair. The hall was taxed to its utmost. Three members were initiated and seven applications received. The local decided to send three delegates to the general convention, which will convene in Toledo, Ohio, on the second Monday in May. President Ferris was instructed to continue along the lines he is pursuing and sign up all saloons not now on the list.

Seven candidates were obligated at a recent meeting of Plasterers' Union No. 86 and fifteen applications for membership received. The following officers were elected: President, E. Liden; vice president, M. Kelly; financial secretary, F. Twiford; recording secretary, H. Reilly; corresponding secretary, A. Falk; sergeant at arms, Thomas West; business agent, W. Kelly. The usual number of delegates

A. L. BEHNER
VICE PRESIDENT OF THE CARPENTERS' INTERNATIONAL ORGANIZATION, WHO HAS BEEN ACTIVELY ENGAGED IN FORMING THE STREET RAILWAY MEN'S UNION IN CLEVELAND.

to the Building Trades Council was elected.

Eighty-seven candidates were initiated at the last meeting of Carpenters' Union No. 22 and sixty-one admitted by traveling cards. The delegates returned from the recent Niagara Falls convention submitted their reports, which were received with pleasure. No. 22 continues to grow by leaps and bounds.

Edward Rosenberg, formerly secretary of the Labor Council, is visiting in San Francisco. At present he is the secretary-treasurer of the United Fishermen's Union of the Pacific and resides in Seattle. He has already met many of his old friends and he will probably be present at Friday night's meeting of the council. His stay in the city will be short.

A new lodge of the Amalgamated Association of Iron, Steel and Tin Workers has been organized in the Toledo plant of the Republic Iron and Steel Company, near Pittsburg, and it will be known as Anchor Lodge No. 57.

Shoe Clerks' Union No. 410 was in regular session at its headquarters, 1422 Steiner street, Monday night. Ten candidates were obligated and fourteen applications are being investigated. Hereafter the initiation fee will be \$2.50. It is already known that the minstrel show will be a financial success, as many tickets have been disposed of. The Knickerbocker Quartet will sing. The hall will be handsomely decorated and the show will be well worth seeing. It will be given in the Y. M. H. A. Hall, Page street near Stanyan. The pickets in front of the crockery and shoe stores are reported to be doing good work with the boycott levied by the Labor Council.

Edwin Markham has incurred the enmity of the glassworkers of the country by his description of the boys in the glass factory in the October Cosmopolitan. He is being flayed right and left by trade papers for his inaccuracies, but his deviation from the truth may properly be laid to poetic license. Here is a mild criticism from the Commoner and Glass Worker of Pittsburg: "Edwin Markham will cause his friends to regret that he did not inform himself more thoroughly before presuming to discuss the conditions which surround the average glass factory boy in his 'The Hoe-man in the Making.' After careful perusal of the article in question, any reader who has even the slightest knowledge of present-day glass factories, glass workers and small help must be forced to arrive at the conclusion that the gifted author does not even possess a superficial knowledge of the actual state of affairs. Had he investigated thoroughly before giving to the world such a mass of sentimental drivel he would doubtless have viewed the matter in an entirely different light. As it is, Mr. Markham has cast a reflection upon the entire glass trade which cannot but be resented. The word pictures he draws are very strong, but every practical glass-man who reads the article will at once say that the majority of his statements lack the saving grace of being true. It is a regrettable fact that a man of Edwin Markham's brilliant qualities would not inform himself thoroughly on a question before committing himself in black and white, because anything from a man of his

GOOD CROPS MAKE BANK DEPOSITS. PUBLIC URGED TO ASSIST BOARD.

Financiers Find Element of Prosperity in Increased Demand for Products MONEY IS PLENTIFUL Health Authorities Desire to Maintain Sanitary Conditions in the City GIVE GOOD ADVICE

"Good prices for crops, a fat pocket-book for the farmer and money for everybody." This is the explanation of the unusually large deposits in local banks, savings and commercial. The deposits in the Wells-Fargo Nevada National Bank amount to \$36,839,000. The Bank of California, American National Bank, Citizens' National Bank, First National Bank, Germania National Bank, National Bank of the Pacific, the United States National Bank, Western National Bank and the Crocker National Bank are increasing their deposits rapidly.

Typoid fever, because of careless use of infected water, failure to comply with health regulations, prevalence of dirt on public streets and non-observance of public ordinances, was the special subject of discussion by the Board of Public Works at a special meeting held by that body yesterday afternoon.

"The general financial conditions are good," said I. W. Hellman, "and business is very active." "Our deposits are twenty-five and a half millions," said Cashier Wellington Granger of the Crocker National Bank. "They are at high water mark. General prosperity is the keynote, but the size of the crops and the prices received for them are a great factor. There has not been such a demand for California products in a long time."

Dr. Ward, president of the board, said that it was necessary for all citizens to co-operate in the work of stamping out the disease. The doctor says there is no need for alarm; all that is necessary is to use ordinary precautions and the usually excellent health of the city will be restored.

"Business is here and you can't stop it," said President Lillenthal of the Anglo-Californian Bank. "Our deposits have increased between \$2,000,000 and \$4,000,000 since the fire. The splendid crops are an element in the situation not to be despised. The whole country is prosperous. Nevada is making millions and Nevada mining men have helped to make San Francisco, and they will do it again. The whole Pacific Coast is on the move in a business way."

The board also forwarded a request to the Supervisors that provision be made for an additional food inspector. The board adopted a resolution instructing Health Officer Yager to make a house to house inspection in localities where typhoid has developed, and that he provide a special inspector to examine into the condition of vegetable gardens and the source of water supply used in irrigation therefrom.

"The deposits in the commercial banks are abnormal. They furnish a great nucleus for the rehabilitation that is to be effected." Vice President Wilson of the American National Bank said: "Deposits are increasing all the time. The city banks have a larger business than at any previous time in their history. The crops are good and the country banks are all doing well. The splendid crops are an element in the situation not to be despised. The whole country is prosperous. Nevada is making millions and Nevada mining men have helped to make San Francisco, and they will do it again. The whole Pacific Coast is on the move in a business way."

The board urged that the public observe the following rules: 1. Boil all water for half an hour before using same as drinking water. 2. Drink no water from springs anywhere throughout the city. Avoid soft drinks of all description unless certain that they are made from distilled or boiled water. 3. Filtered water is a deception, removing only the inorganic products and dirt. The boiling is absolutely necessary for sterilization. 4. Boil all milk before using. 5. All raw vegetables used as salads or otherwise, also raw fruits, should be thoroughly treated by repeated washings and by dipping in boiling water for an instant before using. 6. Avoid all dirt accumulation, as garbage products in the rear of homes are conducive to the propagation of flies. 7. Avoid the accumulation of manure for the same reason. Such must be removed at least twice a week. 8. Avoid all unnecessary contact with those suffering from typhoid fever. Take the precaution concerning the disposal of body and bed linen to place it in carbolic solution 1-100 for twenty-four hours before sending to laundry. 9. The thorough disinfection of all house toilets, with special attention being paid to the house sewerage disposal, is imperative. 10. Strict attention to bodily cleanliness, with special reference to children.

California Commandery No. 1, K. T. Anniversary. The Sir Knights and Ladies of California Commandery No. 1, K. T., will observe the fifty-fourth anniversary of the commandery November 10, 1906, at Del Monte, Monterey. All Sir Knights and Ladies are invited to attend. The above will kindly communicate with the recorder, Wm. R. Jost, Eddy st. Telephone Emergency 397.

A. C. Rulofson Sheet Metal Works. Office, Menckhoff building, Factory, 8th and Brannan sts. Telephone Temporary 1918. Our specialty four styles fireproof metal windows, skylights, cornice metal ceilings, building fronts. Best work. Estimates furnished.

BUILDING FOR POWELL STREET. Applications for building permits were filed yesterday by Savage & Reed for a \$6,000 structure on Powell street, near O'Farrell; by Milton Wheaton, southwest corner of Merchant and Sansome streets, \$12,000; E. P. Weingerter, southeast corner of Fifth avenue and California street, \$14,000; Rosenbaum Estate Company, Commercial street, near Dupont, \$19,000; J. M. O'Connor, Fourteenth street, near Mission, \$18,500, and Paul Bonaparte, corner of Broadway and Rowland place, \$18,000.

HOLY CROSS CHURCH FESTIVAL. For the purpose of raising money for the Imperial Order of Holy Cross Church of the pastor and congregation have arranged for an entertainment which promises to be well worth attending. The programme provides for four nights of enjoyment. On the opening night, Wednesday, November 7, the Holy Cross Minstrels will amuse the audience. The programme for the following evening will consist of a concert. A drama, entitled "Berna Benadette," will be presented on the third evening by the children of the Sunday school. On Saturday, the closing evening, there will be a mixed program. The entertainments will be held in Holy Cross Hall, 1813 Eddy street. Single tickets will be 50 cents; season tickets \$1.

\$30,000 Frogs. We are now open for business at 1347 Golden Gate ave., near Fillmore. Try one of our special French dinners, reasonable and perfect.

SUES UNITED RAILROADS. The broken fetlock of a horse which he used in teaming and the resulting damage to his business from the loss of the animal's services form the basis of a suit to recover \$299.89 from the United Railroads of San Francisco, filed yesterday in Justice's Court by Theodore Erickson. The plaintiff states that on October 18 the horse slipped between a rail of the car tracks and some planks which the company had negligently placed between the rails at the corner of First and Market streets.

YOUNG GIRL MISSING. Idel du Jardin, 14-year-old girl, who has resided with her parents at 458 Fell street, is reported missing from her home since Monday last. As the girl has wandered away from home on previous occasions the police do not attach much importance to her disappearance.

Keith exhibition, Vickery, Atkins & Torrey gallery, 1744 Geary st., now open.

The Most Vivid Picture of Lincoln ever Written

Carl Schurz, almost the only American who had the opportunity of seeing the entire Civil War from the inside, had the ability to write it as it should be written. The second part of his Reminiscences, beginning in

McClure's Magazine for November

deals with the epochal events in American history, culminating in that magnificent description of Lincoln which has not been equaled by any writer, not even John Hay.

Schurz saw Lincoln as he was in his relation to the government, to the war and to his friends. He writes without fear or favor. He saw the Battle of Gettysburg from a point of vantage and has contributed the greatest description of this battle that has yet been written.

This history, which is now being printed in McClure's Magazine, will be read in the school books of future generations. Begin your subscription to McClure's Magazine with this great November number, so as to learn the new light which Carl Schurz throws upon such names as Douglas, Lincoln, Seward, Grant, Stanton, Sherman.

THE CALIFORNIA PROMOTION COMMITTEE

(Organized 1902.) "PROMOTION: The act of promoting; advancement; ENCOURAGEMENT."—Century Dictionary. The California Promotion Committee has for its object the PROMOTING of California as a whole. It has nothing to sell. Its energies are devoted to fostering all things that have the ADVANCEMENT of California as their object. It gives reliable information on every subject connected with the industries of California. It gives ENCOURAGEMENT to the establishment of new industries and invites desirable immigration. It is not an employment agency, although it gives information regarding labor conditions. It presents the opportunities and needs in all fields of business and professional activity. The Committee is supported by popular subscription and makes no charge for any service rendered. Affiliated with the Committee are one hundred and sixty commercial organizations of the State, with a membership of over thirty thousand. Meetings are held semi-annually in different parts of California, where matters of State interest are discussed. Headquarters of the Committee are maintained in San Francisco in California Building, Union Square. CORRESPONDENCE INVITED. Weekly Call, \$1 per Year
