Reports from various cities indicate that the railroads of the country are about to unite to contest the new Federal labor law, on the ground that it is class legislation. A single item in the law, that which provides for a nine-hour day for certain classes of telegraph operators, will cost the railroads, it is stated, at least \$10,000,000 annually in excess of present expenses. The law provides that when a telegraph office is open during the twenty-four hours, no operator shall work more than nine hours. This will necessitate the railroads of the country providing three men in thousands of offices where two now do the work. One Western road has figured the added expense and has found that it will cost the company about \$400,000 annually in excess of the present schedule.

He commended the organization and calls itself the United Teamsters of America. Its president is M. W. Evans of Bloomington, Ill. The split took place before Shea's arrest on the conspiracy charge in Chicago, because of the way he ruled the organization. "We are tired of one-man power," said Vice President Prescott; "we wanted to have a voice in the union we support, and Shea will have a hard task if he thinks he can get any of the seceders back. We have now our own national body."

At the last meeting of the Federated Trades Council of San Jose it was announced that the Barbers' Union had decided to affiliate with the State Federation of Labor. Labor conditions in Santa Clara County were reported good.

MAKES RULING AGAINST RAILWAY TELEGRAPHERS

Chairman Decides That the Southern Pacific May Avoid Schedule

BOARD HAS DISPUTE

Walker and Perham Object to the Procedure as Unjust to Men

The first material disagreement in the arbitration board holding sessions in the United States Circuit Court of Appeals and considering the labor dispute between the Order of Railroad Telegraphers and the Southern Pacific Company, developed yesterday over the interpretation of section D, one of the issues to be arbitrated. It reads as follows:

"Question of elimination from operation of this schedule of certain important agencies where the duties of soliciting traffic are paramount." The object of the railroad company's counsel, A. A. Moore, Stanley Moore and O. D. Richardson, was to show that promotion by seniority from the ranks of the telegraphers to fill vacancies in the position of station agents was impracticable; that incompetent men were often elevated over the heads of competent ones, and that therefore the company should be allowed to go outside of the ranks of the telegraphers in making such appointments, and that such stations where the duty of soliciting traffic was paramount should be started or excluded from the schedule.

Arbitrator Avery Johnson, chairman of the board, ruled as follows: The board regrets that there is honest difference of opinion on the part of the parties in controversy as to the interpretation of the phraseology of section D. It is stated to the board that the real question is what stations shall be started to supersede the schedule of 1902. It will be necessary for the board to advise as to what stations the company wishes to have started on account of the nature of the work performed by the agents. The employe will have an opportunity to state his objections on the starting of all stations suggested by the employe.

H. G. Walker, counsel for the telegraphers, objected to the ruling. He declared that the telegraphers had put in their evidence and that therefore the board has no right to change the issues of the contest. Arbitrator Perham made a dissenting opinion.

JOINT ENCAMPMENTS TO BE HELD THIS SUMMER

WASHINGTON, March 29.—So far as the attendance of State militia at the joint encampments this summer is concerned, General Murray, chief of artillery, is now assured by the responses received from the Governors and adjutant generals of the States that this novel project is sure to be a great success.

The Governor of California has just notified the War Department of the acceptance of the invitation to the joint drills, and has asked that provision be made for the participation of all of the fifty-two militia companies in the State. The War Department has proposed to entertain only thirty-seven companies at the outside, to be disposed of as follows: Six at Fort Rosecrans, six at Fort Riley, eighteen at Fort Winfield Scott and seven at Fort Baker. General Murray wrote to the Governor of California proposing that the fifteen additional companies be encamped by the State at its own expense in the neighborhood of the three posts named. They will be given an opportunity to take part in the joint movements of the regulars and the militia.
