CREDITORS MUST WAIT AS FUND IS EXHAUSTED Bills Amounting to Nearly \$50,000 Are Held Up by Alameda County Supervisors

OAKLAND, June 4.—The general fund of Alameda county has been exhausted and as a result bills which must be paid from that fund are being held up. Bills amounting to nearly \$50,000 have been ordered held up by the board of supervisors because there is no money with which to meet them.

The statutes provide that certain classes of bills must be met from the general fund and if this fund is used up claimants must wait until the necessary money is raised from the allotment of that year. The delinquent tax list is usually depended upon to make up the deficiencies. At present the delinquent taxes amount to \$50,000, but as their collection is a matter of months there are long delays ahead for holders of unpaid claims against the county general fund. Among the items remaining unpaid is \$40,000 of work on the new county jail. This was at first held up by the grand jury's order until its status could be ascertained and when it was finally approved the money to pay it was gone.

Plea of Invalid Mother Delays Wedding of Impetuous Son

MISS MARIE C. HURLBUT OF PORTLAND, WHOSE ELOPEMENT WITH LEON KUTNER WAS STOPPED BY LATTER'S INVALID MOTHER

Mrs. Caroline Kutner announces the engagement of her son, Leon Alfred Kutner, to Miss Marie C. Hurlbut of Portland, Ore. The marriage will occur at the home of the groom's mother, at the Lafayette apartments in this city on August 4.

Behind the simple announcement of the engagement of a prominent young society girl of Portland and the son of one of the wealthiest families of San Francisco, made on the very day that both the prospective groom and the prospective bride became of age, is one of the prettiest romances that has developed to cause a flutter in the exclusive society circles of this city, Portland and Fresno in many a day.

With a marriage license and a wedding ring already secured and every detail arranged for the performance of the ceremony last evening, the lovers gave up their plan to surprise their friends today with the announcement of their wedding, and at the eleventh hour, after coming together from Los Angeles to have the ceremony performed, gave in to the wishes of Mrs. Caroline Kutner, who is ill at her home, and agreed to postpone the wedding for 60 days.

Leon Kutner, who is the advertising and publicity manager for the Kutner & Goldstein company, has recently made his home in Fresno, where he is engaged in the real estate business. He is the son of a prominent family in San Francisco and is the brother of Miss Hurlbut, the attractive bride-to-be, and daughter of W. D. Hurlbut of Portland, reached Fresno for a visit with friends and the romantic love affair had its beginning. When Miss Hurlbut first met Leon Kutner, she was in Los Angeles to visit relatives there, she carried Kutner's heart with her. A few days ago Kutner himself joined her and Monday the romance reached its culmination.

It was then, late yesterday afternoon, that the plan was changed. Mrs. Kutner, who is ill at her home, bestowed her blessing, but asked that the wedding be postponed for 60 days and the engagement formally announced instead. In deference to her wishes the young couple stifled their disappointment and agreed to the delay, hurrying away from the Lafayette apartments in an automobile to exchange the plain gold band which Kutner had purchased for a handsome diamond solitaire.

Miss Hurlbut will return to her home in Portland today, while Kutner will continue with his work in Fresno until August 4, when the wedding will take place. The future home of the bride and groom will be in Fresno.

EVERY serious Sickness has a small beginning. And, in nine cases out of ten, that beginning is in the Bowels. Constipation is the beginning of most diseases. It paves the way for all others. Lack of exercise, hasty eating, improper food, are its first causes. Laziness, and postponement, permit it to grow into Chronic Constipation, which means life-long Discomfort. It isn't necessary to be sick-bed, you know, in order to be mighty uncomfortable. Even a slight indigestion affects the nerves, dulls the mind, and obscures the merry sunshine of Life.

The time to adjust the Bowels is the very minute you suspect they need adjustment. —If your tongue is slightly coated, —If your breath is under suspicion, —If your head feels a trifle heavy or dull, —If digestion seems even a little slow, —If Heartburn, Belching, Colic or Restlessness begin to show themselves, —That's the time to eat a Cascaret. It acts as pleasantly as it tastes. It is as congenial to your Bowels as it is to your Palate. It stimulates the muscular lining of the Bowels and intestines, so that they mechanically extract nourishment from the food and drive out the waste.

The only way to have Cascarets ready to use precisely when you need them is to carry them constantly in your pocket, as you do a Watch or a Lead pencil. The ten cent box of Cascarets is made thin, flat, round-edged, and small, for this precise purpose. Beware of getting the genuine, made only by the Sterling Remedy Company, and never sold in bulk. Every tablet stamped "COC." All druggists.

POND'S CREDITORS SAY THEY ARE NOT WORRIED

Unlimited Credit Extended Him by Banks Until Disappearance

MEETING IS HELD Effort Will Be Made to Straighten Out His Affairs

Creditors of Edward Pond, the prominent clubman and son of former Mayor Edward B. Pond, whose failure was announced yesterday in The Call and whose disappearance from home has caused considerable speculation as to the possibility of his creditors securing a settlement, met yesterday to discuss methods of assisting him and closing their own accounts satisfactorily.

It is generally understood that the Seaboard bank is more heavily involved than any of the other banks or firms with which Pond transacted business. About four months ago Pond transferred his account from the Crocker national bank to the Seaboard and had of late been in the habit of overdrawing his account, it was alleged.

Exactly to what extent the latter bank was involved its officials refused to state. When seen yesterday afternoon Manager Tyson said that he did not care to discuss the matter, as he felt assured that all liabilities would eventually be paid. Though the assets might not fully meet the liabilities he thought the efficiency would be small and readily met by Pond's relatives.

"In spite of the talk in the streets we have but a small amount of money involved," he said. "We hardly care to let our clients' business be known. It is too small to worry about and his father is financially sound. I really do not think the young man was in very good health. He used to come and see me when he wished to borrow money for one of some large order of machinery for his canneries and other numerous enterprises. He always met his bills on time and we were in the habit of giving him full credit."

At the Crocker bank Cashier Wellington Gregg made practically the same statement in reference to Pond's account prior to its transfer to the Seaboard. "There is still a small amount due us on the old account," he said, "but we do not doubt that everything will be amicably arranged."

Several of Pond's other creditors, including the Illinois Pacific glass company, which furnished a large consignment for his cannery in the northern part of the state, the Oliver salt company, Sheer, Morehouse & Grand, and Libby, McNeill & Libby, who furnished him with fish, and the fishing ships, stated that their accounts were against the ships and that Pond had always been in the habit of discounting his loans.

Officials of these firms said they considered Pond a strictly reliable and trustworthy man and that they were sorry at the time of Pond's disappearance very little heed was given to his absence, but as his stay was prolonged it was surmised that something might be wrong.

The last letter received by Pond's relatives was said to have been in rather a melancholy strain, in which he requested that his brother, Samuel B. Pond, take over his business and try to straighten out matters.

EMPLOYEES ARE UNEASY The employees of the board of works are decidedly uneasy owing to the fact that a deficit of \$30,000 confronts the department and no assurance has yet been received from the supervisory finance committee that the money will be forthcoming to make it up. The employees fear that they will be required to make up the deficit of absence this month or else work for the city at a reduced compensation, as there remains but \$15,000 to pay estimated expenditures during June. The board of works will meet today and some action may be decided upon.
