Disappointment Is Keen at
White House Over Out-
come of Inquiries

CANNOT BE JAILED
Combination With the Clark
Road Offers Only Ave-
nue for Attack

SPECIAL DISPATCH TO THE CALL
WASHINGTON, June 8.—After going
through the conduct of the Harriman
railroads with a fine tooth comb, the
interstate commerce commission and
all the legal talent of the administration
have been reluctantly forced to
acknowledge that criminal prosecution
of Harriman cannot be attempted with
any promise of success. It is not volun-
tary testimony before the commission
has proved an immunity bath for the
Napoleon of railroad finance.

Although the impossibility of putting
Harriman behind the bars as an object
lesson to other daring operators is
great, disappointment, the president
encountered a still greater setback in
the commission's failure to find much
ground for civil procedure against
the Harriman railroads. Southern
present time there is in sight not more
than one good case among all the com-
binations, contracts and other mutual
ownership devices resorted to by Har-
riman in his campaign of railroad ac-
quisition. This is the case of a civil
suit will follow.

The conference at the White House
last night represented all shades
of opinion. Secretary Root was
doubtful if any prosecution could
ever could be successfully under-
taken. Secretary Taft held to
practically the same opinion. Sec-
retary Cortelyou believed that the pre-
carious condition of the country through-
out the country required the utmost
consideration of any prosecution before
it was undertaken.

Chairman Knapp of the interstate
commerce commission took the position
not a single case had been found
against Harriman or his railroads in
the course of the commission's long in-
quiry. Commissioner Lane believed that
certain of the combinations offered by
Harriman's unique genius should be
dissolved.

FAMINE IN CRUDE OIL
MENACES RAISIN CITY
Trouble Over Contract May
Prevent Sprinkling of
Fresno's Streets

SPECIAL DISPATCH TO THE CALL
FRESNO, June 8.—The Fresno city
government faces an oil famine, and it
is feared that the city cannot be
sprinkled before the summer is over.
The reason for this condition is sup-
posed to be the fact that the contract
for oil was given to the Sunset com-
pany, instead of the Standard Oil com-
pany. The Sunset company is the local
antagonist of the Standard, which is
represented by the Associated oil com-
pany.

Superintendent of Streets Spenger
wants the oil hauler over the Southern
Pacific road in order to avoid the ex-
pense of transporting it from the Santa
Fe line which is more distant from the
district to be oiled. The officials of
the Southern Pacific railroad have re-
fused to supply cars for hauling the oil
on the plea of a car shortage. The
fact that the railroad will not supply
the cars may cause the contract, which
has not yet been signed, to be given
to the Associated company.

cuted criminally for the assault.

from the state democratic primaries
held in Oklahoma and Indian Territory
today indicate the nomination of Lee
Cruce of Ardmore, I. T., for governor
over C. N. Haskell of Muskogee, and
Thomas Doyle of Perry. Cruce is
coming in slowly. In the senatorial
race Roy Hoffman of Chandler and T. P.
Gore of Lawton appear to be in the
lead on the Oklahoma side, while in
Indian Territory the contest between
Haskell and Doyle is showing a clean pair of heels to
his opponents.

rero street, but the morgue officials
were unable to find any such number.

ber of the Pacific coast lumber survey-
ors' association.

board of prison directors met today
and considered bids for supplies and
materials for the ensuing year. All of
the members of the board were present
with the exception of Tracy L. Ford.

FRENCH EXPORTERS PLEASED

PARIS, June 8.—The proposal of
the American government to place the
French chambers of commerce on an
equal footing with Germany in the

impression among French exporters,
who also welcome the modifications in
the administrative regulations granted
to Germany, by which France and other
countries benefited.

REPUBLICAN HELP TAFT IN
FIXING POLITICAL FENCES

Republican Leaders of the
Buckeye State Confer
With Secretary

REPORTS CHEER THEM
Arthur I. Vorys of Ohio Is
to Be National Manager
of Taft's Canvass

WASHINGTON, June 8.—Secretary
Taft spent the hours preceding his de-
parture tonight on an inspection tour
of the northwest in reviewing his
political prospects as a presidential
candidate, his advisers being Theodore
Button and Arthur I. Vorys, both of
Ohio. No formal announcement fol-
lowed the conference, but no conceal-
ment was attempted as to the rosate
reports which were made. Ohio is re-
garded as safely for the secretary.
Six delegates are to be elected to the
next national convention and all
but two to come from Senator For-
aker's home district are regarded as
certain to be Taft men.

The political friends of Taft outside
of Ohio are numerous and the outlook
was reported to be most encouraging,
although the situation was not as yet
capable of detailed analysis. In this
connection it was announced that
Vorys would be Taft's national man-
ager. He is now on his way to New
York, and will take advantage of the
occasion and do some political investi-
gating.

The friends of Taft are divided as
to the advisability of holding the Ohio
convention this year. Besides making
the nominations, if held, it would adopt
strong resolutions of indorsement of
the secretary. It is believed that the
weight of sentiment is against holding
the convention this year. The plan to
hold the state and district conventions
at an early date next year is regarded
with much favor. Vorys and Burton
will be in Ohio before the end of next
week, and everything necessary will
be done to retain the political support
which they feel the Taft forces now
have.

Taft ate luncheon with President
Roosevelt today.

JAPAN WILL PRESERVE
THE FORESTS OF KOREA

Adopts Methods Similar to
Those Followed in the
United States

BIG NATIONAL PARKS
Nine Will Be Established in
the Vicinity of the
Larger Towns

SPECIAL DISPATCH TO THE CALL
WASHINGTON, June 8.—Luko E.
Wright, United States ambassador to
Japan, has forwarded to the state de-
partment details of the co-operative
agreement between the Japanese and
Korean governments, outlining a plan
for the use of the forests in the Yalu
and Tumen valleys. The plan is
similar in many ways to the methods
of the United States in developing the
national forests of this country under
the administration of the forest
service.

The decision of the Japanese gov-
ernment to apply methods of forestry
to the use of the forests of Korea is
given especial attention because it is
said that the matter of a large timber
concession by Russia to a corporation
was one of the ulterior causes of the
declaration of war between the two
countries. Before Korea came under
the rule of Japan its timber resources
were being rapidly depleted by unre-
fined lumbering and the country had
fair to become as badly deforested in
the course of time as China and Tur-
key.

Japan's plan for the management of
the timber lands of Korea is to estab-
lish about ten or six years' model
forests in the neighborhood of the
cities of Seoul, Pingyang and Taiku.
The capital for this enterprise is about
\$600,000, half of which is to be pro-
vided by the Korean government. The
state enterprise for the development of
forest areas will be encouraged and a
Korean school of agriculture and fore-
stry, to supply the necessary trained
experts for the management of these
national forests, has been established.
The practice of forestry is a new
thing in Korea, and it is said that its
introduction will bring many benefits
to the people. The country has excel-
lent forests, but the excessive lumber-
ing during the last few years, if car-
ried on, would soon lay bare vast
areas of land.

The forests of Japan have been man-
aged by the imperial government for
many years. The national forests of
this country are now valued at about
\$30,000,000, or slightly more than
one-half of the total forest area. The
management of the forests by the Ja-
panese government has proved very suc-
cessful. In 1901 the total receipts were
\$1,450,000 and the net income \$750,000.
In the decade ending 1901 Japan's lum-
ber exports amounted to \$25,000,000.

The first school of forestry in Japan
was established in 1855, 15 years pre-
vious to the time a school of forestry
was established in this country. Simi-
larly, the national forest service in
this country now has 63 institutions,
in which the science and practice of
forestry are taught. The government
foresters are under the supervision of
a bureau of forestry, which is a part of
the department of agriculture, similar
to the plan of organization in this
country.

SOUTHERN DRATORS WIN
HIGH SCHOOL DEBATE

Oakland and Los Angeles
Students Speak on
Philippines

OAKLAND, June 8.—Southern Cali-
fornia was victorious in a forensic con-
test between the Oakland and Los An-
geles high schools, which was held to-
day in the common school assembly hall
at the Chabot observatory. Choosing
the affirmative side of the question,
"Resolved, that the United States
should continue its policy of indefinitely
retaining possession of the Philippine
islands," the boys from the south
convinced the judges of the soundness
of their arguments and defeated the local
team.

The representatives of the Los An-
geles high school were Cecil Phillips and
Jesse Sands, while the Oakland high
school team was represented by William
Davenport and Eric Scudden. The
judges were B. Green and Lewis Un-
derhill. Irving Kahn, president of the
Oakland high school debating club, was
chairman of the evening and Ralph
Morton and Drury Reynolds, members
of the local committee, acted as tellers.
The debate between the two schools is
to be made an annual event in inter-
scholastic activities, the next debate be-
ing scheduled for Los Angeles.

LUMBER RECORDS BROKEN

VANCOUVER, June 8.—All records
for lumber hauling on the British Col-
umbia river were broken in May. The

water, and rather more than this was
cut by the mills during the month's
operations. This is by several million
feet the largest cut ever made in British
Columbia.

CITY ATTORNEY SIMPSON
READY TO SUPPORT WIFE

Says Woman Did Not Make
Demand on Him for
Financial Aid

WILLING TO HELP HER
Asserts That He Has Been
Paying Each Month for
Care of Child

ALAMEDA, June 8.—City Attorney
M. W. Simpson, whose wife, Isabelle
Davis Simpson, complained to the dis-
trict attorney that her husband had
failed to provide for her and asked that
a warrant be issued for his arrest, is
opposed to the action of the woman.
He has never lived with her since their
marriage on October 25 last terminated
the trial of a felony charge that had
been preferred against him by the
woman. Simpson says that his wife
made no demand on him for support,
it having been tacitly understood between
them that she would not do so when
he agreed to pay for the support of her
child. Simpson said:

"I have never refused to provide for
the support of my wife, because she
has never asked me to provide for her.
I am willing to do so, however, and
have all along been paying from \$15 to
\$17.50 each month for the support of
the child. It was a surprise to me
when I learned from the district attor-
ney that Mrs. Simpson had made com-
plaint to him that I had not supported
her, when she had never even intimat-
ed to me that she expected I would
provide for her. In fact, it was tacitly
understood when I agreed to provide
for the care of the child that she would
not expect me to provide for her also.
A few weeks ago Attorney M. Stuart
Taylor came to my office. He said that
he thought I should pay more than \$15
a month toward the support of the
child. Mrs. Simpson wanted me to pro-
vide for her also. I agreed to pay
\$17.50 toward the support of the child
and am willing now to provide \$35 a
month toward the support of the moth-
er and child. I want to do the right
thing in the matter, and all that I ask
is that I be given a fair opportunity to
do so."

MIDDLEMISS TO SERVE
FIVE YEARS FOR FRAUD

Judge Waste Sentences the
Man Who Got \$850 on
False Pretenses

OAKLAND, June 8.—Five years in
San Quentin was the sentence imposed
by Judge Waste today upon Thomas
Middlemiss, who was convicted of ob-
taining \$850 from A. F. Derrick upon
false pretenses. Middlemiss misrep-
resented to Derrick that he was the
owner of a half interest in a garage
and an automobile and sold the same
to him.

When asked by Judge Waste today
if he had anything to say the defendant
declared that he had been convicted
upon perjured testimony. The motion
of his attorney for a new trial was
denied, as was also his application for
probation. District Attorney Brown ad-
vised the court and said that he
thought the case not one for the exer-
cise of leniency, in view of the facts
that had been brought out at the trial.

Middlemiss has a wife living in Den-
ver, Col., from whom he has been at-
tempted in vain to secure a divorce.
One of the grounds upon which he
asked a new trial was based upon the
alleged misconduct of Juror J. E.
Straus and Miss Lola Nichols, a friend
of the defendant. Judge Waste said
that he thought that Straus could be
punished for contempt of court.

HASN'T MADE GOOD

Bowling Says Calhoun Has Failed to
Fulfill Announcement

James H. Bowling, secretary-treasur-
er of the streetcar men's union, gave
out the following statement last night:
"The end of the fifth week of the
strike finds that the declarations of
Patrick Calhoun, president of the
United Railroads, that he had reduced
the wage of the platform men to 25
cents an hour, to be unfounded. The
reduction has not yet been made ef-
fective by the United Railroads, and
will not be accepted by the members
of the carmen's union because it is
just as firm now at the end of the fifth
week as when it started the strike."
The packets are reporting from day
to day the names and addresses of per-
sons seen riding on the cars. This in-
formation is being compiled for future
reference and after the strike is over
will be published in pamphlet form and
circulated broadcast throughout the city.

NOUNCED. (SCHARZ PHOTO.)

OAKLAND, June 8.—Announcement
was made today of the engagement of
Miss Estelle Peters of Mill Valley and
Clarence M. Reed of this city. No lit-
tle interest attaches to the prospective
marriage of the young people, owing
to the wide circle of friends both Miss
Peters and her fiance enjoy and the
prominence of the two families in Oak-
land, as well as on the other side of
the
