

Government Is Making Preparations to Establish a Great Chain of Coaling and Naval Stations All Along the Pacific Coast

Squadron Can Be Easily Accommodated

Fleet Will Make Bay of San Francisco Its Headquarters

Big Drydock at Hunters Point Is Now Under Way

Since the official confirmation of the report that the greatest fleet of American warships ever gathered is about to be sent to the Pacific coast the question has been raised among interested powers of the world how the United States will be able to accommodate such a squadron on these shores...

MANY AVAILABLE STATIONS

The most northerly point now used by the navy is the coaling station on the Aleutian islands. This is the most westerly extremity of the continental territory of the United States...

At Mare Island there is another large yard where the repairs of the Pacific fleet may be repaired and refitted. San Diego is destined to have a navy yard under construction in a short time and has for years been a coaling station and a naval rendezvous...

ANNAPOLIS MEN ARRIVE

Four recent graduates of the Annapolis academy arrived at the St. Francis yesterday. They are Midshipmen F. C. Cox, J. H. Couduet and S. Clement, who have been assigned to the South Dakota, and C. F. Pauland, assigned to the California. They report for duty at Mare Island.

KOREAN PEACE ENVOYS FAIL TO GAIN HEARING

Find the American Delegates to The Hague Otherwise Occupied

THE HAGUE, July 7.—The Korean delegation, which is seeking recognition in the peace conference called here on Joseph Deland's and General Horace Porter today, but was not received, the representatives of the United States being engaged in work on an arbitration proposition...

There will be no sitting of the conference until Tuesday, the delegates meanwhile showing some uneasiness regarding the practical results of the deliberations.

Henry G. W. Dinkelspiel and Bert Schiesinger, attorneys at law, are now associated together as Dinkelspiel & Schiesinger, with offices in Claus Sorekels bldg. Tel. Temporary 4173.

Japan to Insist on Admission of Coolies

If Contrary Clause Is Inserted the Treaty Is at an End

Hayashi Gives Out His Views on Controversy

WASHINGTON, July 7.—That the Japanese government will not consent to the renewal of the present treaty with the United States if this government reserves the right to insert a clause in the compact excluding Japanese coolie labor from continental United States is considered by semi-official advisers...

HOPE FOR SETTLEMENT

TOKYO, July 7.—The Tokyo newspapers deprecate the evidence of excitement in the United States and expect that the two countries will soon be removed, inasmuch as the government at Washington, they think, is not less desirous of doing justice than the Japanese government.

NO AMERICAN WARSHIP OF DREADNAUGHT CLASS

Craft Soon to Be Built Will Not Be Like British Vessel

WASHINGTON, July 7.—There is no such thing as an American dreadnaught, nor is any projected. Dreadnaught, nor is any projected. Dreadnaught, nor is any projected.

Yosemite Valley

Is now reached by the Yosemite Valley railroad. No wearisome and dusty stage. Spend your vacation among the cliffs, crags and lovely waterfalls, now that the road is open to the heart of the valley.

KNOWS NOTHING OF KIDNAPING

MEXICO CITY, July 7.—At the foreign office here nothing is known of the reported kidnaping of Manuel Sarava from a fall in Douglas, Ariz., recently. The man, it is said, was one of the St. Louis men who published a paper advocating a revolution in Mexico.

WISCONSIN RAILROAD COMMISSION

MADISON, Wis., July 7.—The Wisconsin railroad commission issued an order requiring the Great Northern and the Eastern Railway companies of Minnesota and the Chicago, St. Paul, Minneapolis and Omaha railroad company to open their big grain elevators at Superior to the use of the general public.

There are numerous changes in the interior arrangements of the ship to bear upon an opponent on either side, while 25 per cent of the British fire would be masked under like circumstances.

German Scents Conflict With Japanese

Believes United States Will Ultimately Fight the Mikado

Predicts Struggle for Mastery of the Pacific

BERLIN, July 7.—The conviction of an ultimate conflict between Japan and the United States appears to be widespread in Germany. It is one of the subjects certain to be referred to wherever diplomatic and military and naval officials and others accustomed to follow international politics meet.

JAPAN IS A HARD NUT

THE HAGUE, July 7.—The sentiment of the delegates to the peace conference regarding the question that has arisen between the United States and Japan is that the situation is unfortunate for both countries.

JAPANESE ADMIRAL SAYS AMERICANS ARE COMMERCIAL AND WON'T FIGHT

TOKYO, July 8.—The Hochi prints this morning an interview with Admiral Sakamoto, in which the admiral is quoted as follows: "Should hostilities break out between Japan and America the result would be indecisive, owing to a want of proper bases of operations."

BROWN EGOTISTS BELIEVE UNITED STATES IS MAKING A MISTAKE

TOKYO, July 7.—Confirmation of the report that a powerful battleship squadron would be sent to the Pacific has been received generally with calmness, though there is some surprise in certain quarters well versed in diplomatic niceties.

BIG GRAIN ELEVATORS ARE ORDERED OPEN TO PUBLIC

WISCONSIN RAILROAD COMMISSION Commands Traffic Concerns to Make Room for Independents

MADISON, Wis., July 7.—The Wisconsin railroad commission issued an order requiring the Great Northern and the Eastern Railway companies of Minnesota and the Chicago, St. Paul, Minneapolis and Omaha railroad company to open their big grain elevators at Superior to the use of the general public.

KNOWS NOTHING OF KIDNAPING

MEXICO CITY, July 7.—At the foreign office here nothing is known of the reported kidnaping of Manuel Sarava from a fall in Douglas, Ariz., recently. The man, it is said, was one of the St. Louis men who published a paper advocating a revolution in Mexico.

NAVY TO DEMONSTRATE ITS GREAT EFFICIENCY

Continued from Page 1, Column 5.

States is acquiring the enemy of Japan as one of her national assets which may prove a handicap in the event of trouble with any other power.

Great Britain finds herself in an embarrassing position also, because she is obliged to stand between her colonies and the matter of anti-Japanese laws. Transvaal has just put into operation laws regarding the entry of Asiatics, which apply to Indian subjects as well as to Japanese and Chinese and which compels them to submit to an examination and registry with thumb prints, like criminals, which exceedingly irritating to them.

JAPAN THE AGGRESSOR

French Press Believes Island Empire Is Trying to Force an Issue

PARIS, July 7.—President Roosevelt's decision to dispatch a fleet of warships to the Pacific has led the more sensational newspapers in France to jump to the conclusion that existing or future differences between the United States and Japan will be adjusted amicably.

SO THE SPANIARDS THOUGHT

JAPANESE ADMIRAL SAYS AMERICANS ARE COMMERCIAL AND WON'T FIGHT

TOKYO, July 8.—The Hochi prints this morning an interview with Admiral Sakamoto, in which the admiral is quoted as follows: "Should hostilities break out between Japan and America the result would be indecisive, owing to a want of proper bases of operations."

CALIFORNIANS "FOREIGNERS"

NEW YORK CLERGYMAN THUS CLASSIFIES US IN LAUDING THE JAPANESE

NEW YORK, July 7.—"I can scarcely contain my indignation when I think of the Republic of Mexico," said the Japanese—a lot of foreigners who do not even know the requisite of American citizenship, attacking the Japanese, who are their superiors in intellect, in character and citizenship.

BOMB THROWN AT TRAIN

GRODNO, Russia, July 7.—A number of bombs were thrown today at a train carrying the life guard regiment of Tsakoe-Selo. The bombs exploded with terrific force, but the train kept the rails and nobody was injured.

McADEE DENIES REPORT

WASHINGTON, July 7.—Acting Secretary of State McAdoo tonight denied that the United States government had made any overtures or contemplates any negotiations for the purchase from the Republic of Mexico of a naval site on Magdalena bay, Lower California.

BRAKEMAN LOSES LIFE

SACRAMENTO, July 7.—Harry W. Nulty, a brakeman employed on the Southern Pacific railroad, was caught between two freight cars this afternoon at Elves, three miles east of Sacramento, and was killed. McNulty is said to have had relatives in San Francisco.

Try them for lunch and you will have them for dinner.

BIG TOPOGRAPHIC MAP TO BE COMPLETED SOON

Every State and Territory Is Included in Complete Survey

FEATURE CALIFORNIA

Experts at Work on the Diagrams From the Pacific Coast

SPECIAL DISPATCH TO THE CALL. WASHINGTON, July 7.—The great topographic map of the United States, which has been part of the work of the federal survey since its beginning, will be advanced this season by work in 31 states and 4 territories.

This great map is published in sheets whose printed outlines measure about 14x17 inches, the areas represented being called quadrangles. Each quadrangle is limited by lines of longitude and latitude—meridians and parallels—and is named from some natural or cultural feature with it. The scale of these sheets varies according to the nature of the region mapped. It may be four miles, two miles or one mile to the inch, and a few special maps are published on larger scales.

These maps, or atlas sheets, are printed in three colors—black for the cultural features, such as boundary lines, roads, element of elevation, represented by contours showing heights above sea level; and blue for the water—the rivers, lakes and the sea, with its bays and inlets.

The topographic work planned for the coming season is briefly outlined in the following paragraphs. All the parties are now in the field and the work is being vigorously pushed. Co-operative work between the national survey and the state of California is being carried on in the Sacramento valley, where primary leveling and detailed topographic surveys are being made on the Woodbridge, Lockford, Galt and Hatchville quadrangles and primary triangulation is being carried on in the vicinity of Stockton. R. A. Jenkins has charge of the leveling, C. L. Nelson of the triangulation and W. R. McKean and E. R. Bartlett of the detailed surveys.

A topographic survey of an area about eight miles wide along the foothills of the Trinity and Kinman quadrangles in the north and the Sunset oil fields on the south, is being made by E. P. Davis. The Big Bar quadrangle, in the Trinity reserve, is being surveyed by John P. Harrison, and the Mount Goddard quadrangle, in the Sierra forest reserve, by George R. Davis. Primary triangulation is being extended over four 30 minute quadrangles in the Kinman and Trinity reserves in northwestern California, by C. F. Urquhart and primary levels are being run over the same area by L. F. Bigger.

An area in Oregon including the Bull Run forest reserve and that portion of the Cascade forest reserve surrounding Mount Hood is now being surveyed by E. P. Davis. This area covers the principal water supply.

In co-operation with the state engineer, the survey is making a topographic map of the Umatilla quadrangle along Columbia river for use in connection with the study of irrigation problems. This work is in charge of C. H. Birdseye of the federal survey.

The Mount Baker quadrangle, bordering the Canadian boundary in the Washington forest reserve, is being mapped by Robert Muldrow.

A survey of the Meadows quadrangle in the Wiscor forest reserve is being made by J. C. Hefty, and primary triangulation is being extended from Oregon across Snake river into Idaho, controlling the Cambridge and Meadows quadrangle, by George S. Hawkins. Later in the season triangulation will be extended by Hawkins over the Montpelier quadrangle in the southeastern part of the state.

McADEE DENIES REPORT

WASHINGTON, July 7.—Acting Secretary of State McAdoo tonight denied that the United States government had made any overtures or contemplates any negotiations for the purchase from the Republic of Mexico of a naval site on Magdalena bay, Lower California.

BRAKEMAN LOSES LIFE

SACRAMENTO, July 7.—Harry W. Nulty, a brakeman employed on the Southern Pacific railroad, was caught between two freight cars this afternoon at Elves, three miles east of Sacramento, and was killed. McNulty is said to have had relatives in San Francisco.

REJECTED SUITOR MAY FACE CHARGE OF ARSON

Suspected of Having Set Fire to Fire to Lodging House in Stanley Place

WOMAN HIS ACCUSER

Says He Threatened Her When She Spurned His Love Making

Suspected of having set fire to a lodging house at 53 Stanley place early yesterday morning to "smoke out" a woman guest with whom he is said to be infatuated, Chester Campbell, a refugee living in the South Park camp, is being held at the southern police station while the police are seeking more evidence against him.

Fifteen lodgers, more than half of them women, were thrown into a panic shortly after midnight by dense volleys of smoke rolling through the halls of the rooming house. Among them was May Roland, a tall, handsome young woman. Without waiting to garb herself against the cold night wind, she rushed into the street and stood in her nightgown.

Excitedly she told two policemen a story which set them searching for the incendiary.

"He said he was going to smoke me out," Miss Roland declared as she stood shivering in the street. After the fire had been extinguished several auger holes were found in the building directly under the young woman's room. Oil and paper had been packed in the holes and set on fire. It was then that the girl directed suspicion toward Chester Campbell, who is a carpenter and a widower with two sons, one 9 years old and the other 14, both of whom live with the father in a South Park shack.

"Chester has been in love with me for some time," she told Policemen Cullinan and Nolan. "He is madly infatuated and jealous to an unbearable degree. We always were having quarrels. Yesterday we almost had a fight, and I told him to go away as I never wanted to see him again. He called at my room several times during the day, but I had my door locked and wouldn't open it."

Early yesterday evening he called again, and when I told him to go away or I'd call for assistance he went, but told me before he left that he'd come back and smoke me out."

Campbell was found in bed in his shack by the police. He denied that he had been around the Stanley place house. Several bottles were found, however, that had contained oil.

Campbell's wife died some time ago. He had been paying ardent court to Miss Roland ever since he met her shortly after entering the refugee camp.

WELL GUSHES SODA WATER

SANTA ROSA, July 7.—Herbert Wright has returned from Mendocino county, where he completed a well for the Stearns lumber company, which gushes fine soda water 40 feet into the air. The water is being used to float logs in a pond for almost a year.

The well is 268 feet deep, through solid granite for 110 feet. There was only a slight flow of water until 54 sticks of dynamite had been exploded in the well to "shoot" it. Since then the water has gushed forth in a great stream. This is the only known instance where soda water is used for commercial purposes. The water has valuable mineral properties, as well as being strongly charged with soda.

Philosophy finds talkativeness a disease very difficult and hard to cure. For its remedy, conversation, requires pluck, for they are ever prating.—Plutarch.

For Your Baby's Sake

Read This

Dr. Robert N. Tooker, author of "Diseases of Children" and Professor of the same subject in a Chicago medical college, a successful, world-wide authority, says in his valuable book, "All About the Baby,"

"After human milk, what is the best food for an infant?"

"Cow's milk so modified as to make it resemble as nearly as possible human milk."

SOCIETY WOMEN WORRIED BY THE POOLROOM WAR

Continued from Page 1, Column 7

San-Rafael Ladies' improvement club, working in the name of decency and because they object to riding on the ferry boat with the class of persons who daily cross the bay to visit the poolrooms, met recently and commended the action of the anti-poolroom league. The Ross Veady improvement and art club composed solely of women, has followed their example and has held public meetings to condemn the poolrooms.

WOMEN HELP CRUSADE

Mrs. William Babcock, president of the San Rafael organization, yesterday said: "The women have as much interest in ridding our country of these eyesores as the men, and we want to give our help, be it ever such a little bit. We can assure the opponents of the poolrooms of our moral support in the task which they have taken upon themselves to perform."

Mrs. H. S. Bridge, president of the Ross Valley club, voiced the sentiments of Mrs. Babcock. "The poolrooms have simply got to go," she said. "All in my opinion, is a strong front on the part of the opposition, and we women want to help up that front."

Other members of both clubs, as well as women not identified with either organization, spoke in similar strain in the task which they have taken upon themselves to perform.

GOVERNMENT MAY RUN STEAMERS TO PANAMA

Continued From Page 1, Column 1

With this situation confronting him, Secretary Taft is inclined to stand firmly behind his subordinates on the isthmus and if it should appear after all the evidence is considered, that the public interest requires better steamship service on the Pacific coast he will establish it. The profits derived from the government steamship line would go into the treasury for the benefit of the canal fund.

The Panama railroad force on the isthmus and the steamship connections in New York are compelling data for Secretary Taft's showing that the Pacific Mail is preventing the Panama route from being an actual competitor of the overland route.

CHURCH REUNION AND EXCURSION POSTPONED

Event Planned by St. Paul's Parish for July 11 Deferred to a Later Date

The excursion and reunion of the members of St. Paul's church, Twenty-ninth and Church streets, which was set for July 11 at New Sunset park, near San Jose, has been postponed. The cause of the postponement is that the Southern Pacific is not in a position at present to furnish the required number of cars, and the committee is reluctant to take the risk of overcrowding.

However, the railroad company expects a large number of cars to arrive soon from the east, and then arrangements will be made for the excursion. Due notice will be given of the date.

anything you can get anywhere. It digests easily without disturbing baby's delicate stomach. The formula is on every can and our valuable booklet, "Baby's First Days," tells just how to give the milk to properly nourish infants of different ages from the first day up to twelve months—and tells many other valuable things mothers should know. Your baby's greatness of mind and body depend on your getting acquainted with Sanipure Milk.

Do it Today—it is Nature's Way.
