

JAPAN GOES TO LIMIT IN EXCLUDING CHINESE

Contract Laborers Are Discharged From Work on Railroad

PROTEST IS FILED Celestials Receive 50 Per Cent Lower Wages Than Japanese

Special by Leased Wire to The Call

TOKYO, Sept. 1.—By going to the extreme limit in excluding alien laborers, Japan adds a new and highly important chapter to the labor controversy. The Chinese minister filed Saturday with the foreign office a complaint against the action of the officials of Kagoshima province in forcing the contractors on the government railway construction to discharge several Chinese coolies imported under contract. The contractors had arranged for 300 men of whom 100 had already arrived. The contractors had obtained official sanction for the importation.

In accordance with the requirements of a law enacted on the demand of the officials the contractors were forced to order the discharge of the Chinese coolies, citing special regulations promulgated when Count Okuma was foreign minister under which aliens, even after their admission had been officially authorized, might be expelled by the local authorities. The law was enacted at the time of the negotiation of the American treaty, in practical application of the treaty provision, according to the government full control over foreign laborers.

The fact that Chinese are working for 50 to 60 per cent lower wages than Japanese has created much agitation on the part of labor. It is significant that the foreign office is taking no steps to impose upon their subjects wishing to enter America.

The commissioners have been much interested in the working of the English alien act. Their view, moreover, is that in its present form it is of little use in any sense, but they strongly approve of the power of deportation of criminals given to judges and magistrates and will insist that it be recommended its adoption in America.

CHINESE CLASH WITH JAPANESE IN KANTAO

Invite Official to Leave Disputed Territory, but He Refuses

TOKYO, Sept. 1.—Reports from Seoul state that Chinese officers in Kantao in northern Korea have demanded that Major Saito, who was sent there recently at the request of the Korean government to extend the necessary protection to the Koreans, withdraw. Major Saito has refused to comply with the request.

Kantao is the name of an extensive strip of land lying on the upper Yalu river, bordering on Tuman. The territorial right to it has been a bone of contention between China and Korea for hundreds of years. There are no reliable figures of the population of the territory, but it is estimated at 800,000 Chinese and 400,000 Koreans. Its soil is very fertile.

JAPANESE WAGE WAR AGAINST THE KOREANS

Troops Slaughter Natives in Battles to Punish Them for Attacks

Special by Cable and Leased Wire to The Call

SEOUL, Sept. 1.—Official reports reveal the employment of the most extreme methods against the natives. Whole villages in the Yangkyun district have been destroyed by the torch. Koreans suspected of inciting the people have been shot ruthlessly.

The official explanation given is that an object lesson of the severest character is necessary to stop outrages upon the Japanese. Many of these are reported from all sections. Police, post office and telegraph officials and civilians, even women, seeking safety have been shot down by Koreans.

SCHOOL TEACHER OUSTED AFTER A LONG FIGHT

Miss Brogan of the Sacramento High School Charged With Incompetency

Special by Leased Wire to The Call

SACRAMENTO, Sept. 1.—After a struggle of several months' duration, in which the entire teaching force of the Sacramento public schools was involved, Miss Eva Brogan, teacher of commercial law in the Sacramento high school for the last two years, is today without a position. Miss Amy Phelan of the state library has been chosen to fill the vacancy. It was claimed that Miss Brogan held no certificate for the several legal courses which she taught, and, furthermore, that her administration was very unsatisfactory.

INVESTIGATES SOURCES OF IMMIGRANT FLOOD

Commission to Recommend Deportation Powers Be Given Judges

GERMANY IS ACTIVE Some Powers Will Welcome Further Restrictions by United States

Special by Cable and Leased Wire to The Call

LONDON, Sept. 1.—The immigration commission appointed by the American government to inquire into the whole question of immigration from Europe to the United States has finished its labors in London and left for home. Senator Dillingham, chairman, said that he was unwilling to anticipate the commission's report, but from his remarks several important changes are likely to be the outcome of the visit. It is safe to say that the report will indicate to congress that further restrictions, which may be imposed upon immigrants, will meet with little or no opposition from Europe.

Germany and Austria-Hungary, at any rate, have set their faces against the continual drain on the best of their people and will welcome almost any restrictions toward its discontinuance. The Italian government regards immigration, but bears in mind that a large portion of the working capital in the country is money which Italians have brought back from other countries.

The average peasant going to America seldom stays more than six months at a stretch and in that time makes more money than he could in two years at home. Some countries, like Russia, Turkey and Greece, are indifferent to the matter and probably would take no steps should severe conditions be imposed upon their subjects wishing to enter America.

The commissioners have been much interested in the working of the English alien act. Their view, moreover, is that in its present form it is of little use in any sense, but they strongly approve of the power of deportation of criminals given to judges and magistrates and will insist that it be recommended its adoption in America.

SHIPMENTS OF ORANGES TO OLD WORLD DIRECT

English Syndicate to Handle Output of Southern California Groves

Special by Leased Wire to The Call

LOS ANGELES, Sept. 1.—Whole cargoes of oranges from the orchards of southern California will be shipped direct to the markets of Europe the coming winter if the plans which an English syndicate is making be successful.

A representative of a London syndicate which sees profit in the sale of California oranges in Europe has been in this part of the state for several weeks investigating the supply and the means employed in shipping fruit. He has gone to Galveston to make arrangements, to engage wharf facilities for the first steamer the syndicate will send to that port.

MANSFIELD'S FUNERAL WILL BE HELD TODAY

Honorary Pall Bearers to Include Men of Prominence

Special by Cable and Leased Wire to The Call

NEW LONDON, Conn., Sept. 1.—All day Sunday the body of Richard Mansfield lay in a coffin in the room in which the actor died. Tomorrow the funeral services will be held at 12 o'clock. Rev. Alfred Poole Grant of St. James Episcopal church will conduct the service. By request there will be no address. The choir of St. James church will sing the hymn, "Lead, Kindly Light." Following a brief period during which the features of the dead actor will be viewed a funeral procession will be formed for the burial place in Gardner cemetery, which is across the street from the Mansfield home. The honorary pall bearers will be Commander John Parker, U. S. N.; Webster Jewett, Robert Appleton, B. D. Stevens, Paul Wilschach, Colonel A. C. Ryler, Roland P. Measby and William P. Appleton.

PLATT CALLS HUGHES SELF-SEEKING TYRANT

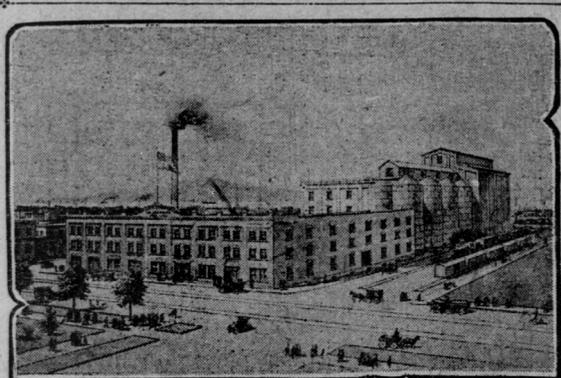

Senator Says New Yorker Will Fail and Fairbanks Will Be Candidate

Special by Leased Wire to The Call

NEW YORK, Sept. 1.—Governor Hughes cannot control the New York delegation to the republican national convention, chiefly because he is a ruthless, self-seeking, political tyrant. "Roosevelt will not stand for a third term. He is sincerely for Taft just now. Whether he will stick to him, I don't know.

"Fairbanks would be an ideal candidate for the presidency. "There will be no tariff revision until after the next presidential election, if then. "Only physical disability will prevent my attending the national convention, as usual. "These are the views of Senator Thomas C. Platt, uttered on his return from the seashore today. The senator, who has spent the summer at Manhattan beach, appeared mentally as keen and pugnacious as when he was the undisputed chief of the republican state machine.

World's Largest Pneumatic Malting Plant Is Being Constructed Here

PLANT BEING CONSTRUCTED FOR THE BAUER-SCHWEITZER HOP AND MAIT COMPANY IN CHESTNUT STREET, WHICH WILL BE THE LARGEST OF ITS KIND IN THE WORLD.

What is destined to be the largest pneumatic malting plant west of Chicago is being constructed for the Bauer-Schweitzer hop and malt company in Chestnut street near Powell. It will cost \$500,000 and will replace the one destroyed by fire, which will be double in size. Offices and business headquarters will be established on the former site, 658 to 664 Sacramento street, in a reinforced concrete building. The plant in Chestnut street represents the confidence of its builders in the future of the city, for as soon as the former one had been destroyed plans for a larger and greater plant were made. The structure being erected will have a frontage of 150 feet in Chestnut street and a depth of 310 feet, and will be one of the most complete in the world, with two rows of the latest improved malting steel drums, with a capacity of 600 bushels each. In connection with these drums will be large malt kilns, equipped with patent automatic gravity dumping kiln floors and turning machinery. With these improvements the annual output will be increased to 900,000 bushels of malt. The entire building will be of steel and concrete, not a stick of wood entering into its construction.

NEW ELECTRIC RAILWAY UP SACRAMENTO VALLEY

Will Touch at Woodland, Colusa, Willows, Arbutuckle and Winters

Special by Leased Wire to The Call

SACRAMENTO, Sept. 1.—Announcement was made Saturday that the Northern electric railway company, which will open Sacramento to its 150 miles of electric interurban lines in the Sacramento valley tomorrow, will build a line to Woodland and up along the towns of the west side of the Sacramento valley. The company will ask the board of trustees of Woodland next Tuesday for a franchise over certain streets in the Yolo county seat. It is understood that Colusa, Willows, Arbutuckle and Winters will be touched by the new line.

The company has obtained permission from the war department to build a bridge across the Sacramento river at M street in this city in connection with the Vallejo and Northern railway company. The Vallejo and Northern, which will run a line from this city to Vallejo, has procured a franchise to run a line up Second street in this city and also has a franchise in Winters. Whether the two lines are working together or in competition is now the interesting question.

ENGINEER DISFIGURED BY UNEXPECTED FLAMES

John McGowen Investigates Defective Oil Burners and Is Scorched

While investigating a defect in the oil feeder of the Crocker building furnace at 2:30 o'clock yesterday afternoon John McGowen, engineer of the building, was severely burned on the left side of his face and on the right hand. The fire in the furnace had become extinguished through some unknown cause and while McGowen's face was over the igniting point it suddenly started again. McGowen was removed to his home, 155 Belvedere street. His face will be disfigured permanently it is feared, but the sight of his left eye is not believed to be imperiled.

POLICEMAN STRUCK BY AUTO

Philip McManus, a patrolman from the central district, stationed in Church street, was struck by a car knocked down and badly injured yesterday at Fifteenth and Church streets. The machine was owned and driven by James Cullinan, a contractor. Cullinan assisted McManus in getting medical treatment and escaped arrest, the patrolman taking the blame for the accident upon himself. McManus' injuries consisted of severe bruises of the body and a contused hip.

BUILDINGS ONLY DAMAGED

LOUISVILLE, Ky., Sept. 1.—The Courier-Journal and the Times are housed again tonight in their old quarters and the editions are being published as before the fire of last week. The first estimate of loss sent out was exaggerated.

SHINGLE HITS DYNAMITE IN POCKET, BOY MAY DIE

Mother Loses Two Fingers as Result of Spanking Hidden Explosive

SHEBOYGAN, Wis., Sept. 1.—Mrs. Fred Williams, living at Bear Point, on Crooked lake, near this city, was severely injured and her young son was fatally hurt when a dynamite cap in the boy's hip pocket exploded while the mother was spanking him. The boy had been watching his father using dynamite in blowing stumps and had slipped one of the caps in his pocket. Mrs. Williams used a shingle. The first blow exploded the cap and tore a large hole in the boy's side. The mother lost two fingers and sustained other wounds.

HOP PICKER LEAVES ESTATE

MARYSVILLE, Sept. 1.—Thomas Jones, an old hop picker who died suddenly this morning, had three bank books among his effects, showing deposits in the Hibernia savings bank and the California safe deposit and trust company of San Francisco and the Fort Sutter national bank of Sacramento of nearly \$1,000. The old man formerly resided in Oakland and Sacramento.

FOUR HURT WHEN AUTO IS HURLED INTO POST

Car Being Towed Struck by Thomas Flyer and Is Demolished

WRECKER SPEEDS ON One of Injured Is Hurt Internally and May Die of Wounds

INJURED

Miss Alice McNamara, 627 Fulton street; leg broken, internal injuries. Miss Clara Grace, 627 Fulton street; injury to eye, bruises about body. Joseph Griffin, 407 Hayes street; contusions of head and body. Walter Bryant, Planters hotel, Second and Polson streets; bruises and abrasions of head and body.

Four persons were seriously injured last evening at 11 o'clock when an automobile was run down by a heavy Thomas touring car, thrown into an iron trolley wire pole, overturned and completely demolished in Haight street between Scott and Devisadero. John Metzger, 601 Baker st. and drives a car in the rent service, was speeding toward the park in Haight street with Walter Bryant and Misses Alice McNamara and Clara Grace. Griffin's car was being trailed by a heavier machine. Midway up the grade between Scott and Devisadero streets in Haight street, a tire on Griffin's machine exploded, rendering the car unmanageable. It swung out of its course and into the path of another car believed to be a Thomas. The heavy machine struck the lighter automobile and hurled it into an iron trolley wire pole with terrific force. The crash was heard for several blocks. The car was overturned and completely destroyed and the occupants were thrown into the street. They were all painfully bruised. Miss McNamara was taken into the house at 808 Haight street, where her broken leg was set by Dr. R. E. Hartley. Later she was removed to the central emergency hospital, where her companions were treated, and then to her home.

REV. DE RONDEN-POS ATTACKS ORTHODOXY

Pastor of New Church in O'Farrell Preaches on Creeds

Rev. de Ronden-Pos attacked orthodoxy vigorously yesterday in the New Church temple in O'Farrell street. "Orthodoxy," he declared, "is ready for the undertaker."

Taking as his text the words, "The Lord one did lead," the speaker launched at once into a denunciation of "creed religion," which, with orthodoxy, he declared, was responsible for much of the infidelity that threatens Christianity and had caused thousands of church members to be inactive Christians, subscribing to tenets in which they did not believe.

The claim of some orthodox churches that they are the only ones whose portals open into heaven was ridiculed by the speaker. On this point he said: "God governs every man on earth and instills in him at the time of birth the principles of heaven. It is because God is the father of all that he provides for his children no matter to what class or race they belong. He provides for our material needs and as our physical wants are measured, so does he provide for our spiritual needs. People of one grade of civilization demand that they be given a religion which they can understand and appreciate; another people more highly developed needs a different one. But in all you will find that God is worshiped, though under many different names and by hundreds of different ways. The divine spark is in all religions, each of which is capable of making men believe in the divine. God is just. It is not reasonable to think that he would give to one quarter of the world the saving belief and damn the remainder of his children because they did not follow teachings of which they had never heard. The divine spark is in them all; in all religions are found the fundamental principles of the kingdom of heaven. No man, no matter what his belief, is lost if he is just to his fellow man, loves mercy and walks humbly."

What has orthodoxy done for the world's advancement? Nothing. All the advancement in church government, the right to believe in the religion that you think is best, the free press, the right to express opinions without fear of burning at the stake, have been due to the so-called heretic. To him all honor. The heterodox worshiper of today stands relatively in the same position, and although he might not believe in the Christian religion as it is preached to him from orthodox pulpits I know if he lives a clean moral life and does justice to his fellow men he will reach the kingdom of heaven much quicker than those who believe in the religion, but do not follow the spirit of the divine law."

BARBER FATALLY STABBED

In a fight among drunken men at Pacific and Montgomery streets early yesterday morning, Joseph Gonzalez, a barber, was fatally stabbed by Claudio Rico, a waiter on the steamer Claudio Rico, after the brawl, but was arrested later by Officers Cameron and Evan and booked at the city prison on a charge of assault to murder. Gonzalez was taken to the emergency hospital. The physicians say he will not recover.

TEXAS WASHOUTS STOP TRAFFIC

EL PASO, Sept. 1.—Traffic on the Galveston, Harrisburg and San Antonio railroad (Southern Pacific) is tied up tonight by washouts on the El Paso division. Two freight trains and a wrecking train are in the ditch. The derailment of the wrecking train caused the injury of four men, one being fatally hurt.

MISSION REBEKAHS ENTERTAIN

Mission Rebekah lodge of the Independent Order of Odd Fellows gave an entertainment in Excelsior hall Saturday night to its members and their friends. The hall was crowded, and the program included pleasing songs, recitations, monologues and specialties, which were contributed by Mrs. Pracy, Miss Winderethal, Miss McGuire, E. Head, J. McKenny, Miss Alice Carrington and M. McIntosh. Then followed dancing and the serving of ice-cream.

BURGULARS RANSACK HOUSE

BERKELEY, Sept. 1.—Burglars entered the home of R. Clarke, 2241 Blake street, late tonight and ransacked the house. They took \$7 in coin and a gold watch valued at \$150. Every room in the house was searched, the contents of bureau drawers being scattered in the greatest confusion, bed clothing torn from the beds and the house left in a condition of chaos. No arrests have been made.

Jack's Rotisserie

Will reopen at old location tomorrow, Sept. 3, Uptown place, 1025 Golden Gate av., running as usual.

Are You Feeding Baby Wisely—or Blindly?

ARE you certain, mother, that the food you are using is best for your baby?

We want you to prove for yourself just as far as you can that what we say is true when we assert that next to mother's milk Sanipure Milk is the ideal baby food.

Take the best authorities—compare the analysis of mother's milk with that of Sanipure Milk, or any other infant's food—and you will find that Sanipure Milk is very near to healthy mother's milk in what it contains and, in proportions, more nearly like mother's milk than any other substitute.

Sanipure Milk

is Nature's own substitute for mother's milk. It is the balanced diet for baby—the purest of cow's milk with the indigestible casein modified in quality and quantity. Sanipure Milk acts in baby's stomach the way mother's milk acts. It breaks into tender digestible flakes—does not clot into a hard curd like plain cow's milk and other unbalanced foods, and fulfills every requirement, according to best authorities, as to what infant's food should be.
