

### MURDERERS OF BROWN ARE STILL AT LARGE

Bloodhounds Lose Trail of Dynamiters Near the Jail Stockade

### REWARD INCREASED

Assassins Try to Intimidate Authorities by Making Threats

Special by Leased Wire to The Call  
BAKER CITY, Ore., Oct. 3.—Remarkable audacity was shown here last night by the two men who in all probability placed the bomb that killed Sheriff Brown. One of the men climbed the stockade surrounding the county jail and tried to force one of the prisoners, a doctor, to kill Harry Draper's bloodhounds, which are being used to run down the dynamiters. An offer of \$500 was made to Fuller if he would do the job, but he refused.  
On Fuller's refusing to cut the throats of the brutes or give them poison with which the men had come prepared, they threatened that they would blow up the jail and send both Fuller and the dogs to "hell."  
Bloodhounds were placed on the tracks of the criminals at the base of the stockade at daylight this morning and they trailed the men a distance of 50 feet to Fourth street, where they had entered a buggy. The tracks of the buggy, which had been drawn close to the curb, showed plainly and the footprints of the men were also left in one spot near the stockade where the earth was soft and barren of grass.  
This performance of the murderers of Brown proves they are still in the city, and that they are criminals who will stop at nothing to intimidate the authorities. If further proof of the presence of the assassins was wanted it was furnished yesterday by the performance of the bloodhounds, which plainly indicated that their hoped for quarry was in the nearby crowd.  
"At least one of the murderers of Brown has been in the crowd following me and watching the bloodhounds," said Draper. "These dogs don't lie, and they are not easily fooled. The murderer has thought that on account of the size of the crowd and by keeping behind the dogs he would stand no chance of detection. He probably became nervous when he saw their intelligence and clambered into the buggy with his confederates in crime at the mill."  
A message was received today from Governor George E. Chamberlain that he had offered in behalf of the state of Oregon \$2,000 reward for the apprehension and conviction of the murderers. Portland friends of Mr. Brown have offered \$1,000 more. These amounts, with the reward offered by Baker county, total \$11,000.  
The funeral of the victim occurred this afternoon, and hundreds of persons were unable to gain admittance to the church. The funeral cortege reached from the church doors to Mount Hope cemetery, a distance of a mile and a half.

### COMBINE TO FIGHT THE CARTWRIGHT LAW

Los Angeles Corporations to Aid Prosecuted Ice Trust

### FORTY IN COTERIE

Every Section of New Measure Attacked by Shrewd Attorneys

Special by Leased Wire to The Call  
LOS ANGELES, Oct. 3.—California's antitrust measure, the Cartwright law is scheduled to undergo the severest test ever put to a similar law in the United States. Its first enforcement was in Los Angeles when District Attorney Fredericks and his trust prosecuting deputy, F. W. Blair, caused the corporations and individual members in the so called ice trust to be arrested and haled into the police court.  
Now that the case has been carefully defined by Prosecutor Blair, it is believed by him that every one of the corporations and individuals interested in the 40 trusts that were forced out of existence by the district attorney's preliminary investigations conducted prior to the Cartwright law becoming operative have combined and contributed to a general fund to back up the alleged ice trust in the attack on the new law.  
Many signs point to the correctness of Blair's belief in this regard, and today, when it was reported that the butter and milk men had formed a new combination, he was satisfied that his belief was right. He proposes to finish with the ice men's cases before probing the alleged butter and milk trust, as any step he might take in investigating or arresting the men in the new trust might be nullified by court rulings in the ice cases. He believes he knows the identity of the coterie of men involved in the butter and milk trust, and any move they make toward advancing the price of either will be closely investigated.  
When the ice men were arrested they appeared in the police court with an imposing array of the best legal talent obtainable in Los Angeles. They elected to submit written briefs in support of their demurrers that the Cartwright law was unconstitutional, and the trust prosecutor consented. Shortly before the time for the filing of the briefs expired, the ice men's attorneys sought and obtained an extension of time. They have completed their briefs and have submitted them to Blair to enable him to reply. They have attacked every section of the Cartwright law.  
Look after your own interests and watch the dealer who is constantly trying to sell you something just as good as the article you ask for. Never take a substitute.  
**SANTA FE INCREASES WAGES**  
TOPEKA, Kan., Oct. 3.—The Atchison, Topeka and Santa Fe railway company at the general offices here today announced an increase to its 5,000 boiler makers and machinists over the entire system of 2 cents an hour, and an increase to helpers of 1 1/2 cents an hour, effective October 1.

### San Francisco's First Opportunity to See Olga Nethersole

Olga Nethersole, who will star at the Van Ness theater for two weeks.

Olga Nethersole, the eminent English actress, has been touring America for the last 12 years, but has never been enabled to appear in San Francisco.  
Nine years ago, shortly after she had started her tour toward the Pacific coast, she fell ill and returned to her home in England, and during her first tour to the Pacific coast last winter she was prevented from playing in San Francisco on account of local conditions. Now that she is to play at the Van Ness theater for two weeks, beginning next Monday evening, she has decided to present a series of the most brilliant plays from her extensive repertoire, and her selections cannot fail to please San Francisco theatergoers.  
Since her visit to the Pacific coast last winter Miss Nethersole achieved the most distinguished success of her professional career, when, last June, she played an engagement of two weeks in English at the Theatre Sarah Bernhardt, Paris. The press and public of the French capital were virtually at her feet and no artist of foreign birth, with the possible exception of

### FIRE RAGES IN SIERRAS ENDANGERING 200 MEN

Forests Go Up in Flames Which Destroy Camp in Tuolumne

### PROPERTY LOSS HIGH

Meager Reports Indicate Men Had to Fight Way to Safety

Special by Leased Wire to The Call  
STOCKTON, Oct. 3.—Word reached Stockton today that a disastrous forest fire destroyed Camp Relief of the Union construction company early this morning, throwing 200 men out of employment, some of whom may have perished, and entailing a loss running into hundreds of thousands of dollars.  
The company was engaged on the plant and reservoir of the Stanislaus electric company, which is running a line through San Joaquin county. The project was so great that it necessitated building a sawmill and the erection of a veritable camp city. The loss will delay the work indefinitely.  
Reports here are to the effect that the fire traveled with such speed that it practically surrounded the entire camp before the employees had time to vacate. If such was the case, the fatalities were many. Camp Relief is 64 miles from Sonora, Tuolumne county, at an altitude of 7,300 feet.  
**FIND INDIAN SKULLS AND CURIOUS TRINKETS**  
Workmen Excavating for Sewer Uncover the Original Site of Mission Santa Clara  
Special by Leased Wire to The Call  
SAN JOSE, Oct. 3.—Workmen excavating a sewer in Santa Clara have uncovered the original site of Mission Santa Clara and the ruins of the old adobe walls and churchyard. Indian bones and skulls and hundreds of curious trinkets have been unearthed and turned over to the Santa Clara historical society. The discovery has occasioned wide interest, and the work of further excavations probably will be carried on with a wider scope. Two years after the founding of the first Santa Clara mission a flood inundated the whole region where it was situated, near Agnew, and as a result the padres sought higher ground, selecting a site about 250 yards to the southwest of the present location of the Southern Pacific depot at Santa Clara. In 1781 the foundations were laid for new buildings, and the old ones when deserted became a prey to earthquakes and soon crumbled into oblivion. The heads, bones and skulls found yesterday are regarded as highly prized relics and will be added to the prized collection of the Santa Clara county historical society.  
Madame Duse, ever won the heart of the French so effectually.  
Miss Nethersole will be supported at the Van Ness theater by her own London company, including Frank Mills, which is identically the same as supported her in Paris.

### FALLS FROM BRIDGE INTO SCALDING WATER

Carpenter Seriously Burned by Plunge to Hot Springs Canyon

Special by Leased Wire to The Call  
SAN BERNARDINO, Oct. 3.—A plunge of 35 feet through the air to land on rough stones and in scalding water probably caused fatal injuries to Robert Rains, a carpenter. Rains was at work on the trestle of the new bridge which the Arrowhead hot springs company is building across the famous hot water canyon, through which flows scalding water from the many natural springs at the head of the canyon. While climbing the trestle Rains stepped on a weakened timber, and before he could seize a support he fell to the bottom of the canyon. He landed in the stream a short distance from the hot springs. His body was badly scalded before workmen rescued him.  
**ROOM IS ROBBED**—Oakland, Oct. 3.—A suit of clothes, two razors and a razor strap were stolen last night from a room at 620 Fourteenth street occupied by C. G. Sorenson.

## On the Hills Above Berkeley

# CRAGMONT

## A Remarkable Sale Drawing to a Close

CRAGMONT is on the northern hill slopes of Berkeley, the fastest growing city in California.

These northern hill slopes have been the scene of Berkeley's greatest growth. Property there has quadrupled in value within the past 3 years.

Property on adjacent hill slopes is selling for \$50 to \$150 a foot. CRAGMONT is selling on an average of \$15 per front foot, 10 per cent down, 1 per cent a month, 3 1/2 years without interest.

CRAGMONT is the most picturesque home site on the Berkeley hills.

It is only a matter of a few years and prices will be the same as other high class residential districts similarly situated.

But this opportunity is passing. You owe it to yourself to at least see CRAGMONT before every lot is sold.

Visit our office today.

We will be pleased to take you over to the tract in one of our automobiles.

**The Future of Cragmont.**  
The growth of Berkeley means the growth of CRAGMONT. The improvements in Berkeley, either under way or projected, are: The Hotel Claremont, the new Hotel Berkeley, the new City Hall, the municipal wharf, the electrification of the Southern Pacific and the extension of the Key Route.

Two car lines will pass through CRAGMONT—the Euclid avenue and the Rose street line. A right of way for these car lines through the property has been reserved and it is understood that they will be built as soon as conditions warrant.

**Favorable Prices—Liberal Terms**  
Lots range from \$500 upward, according to location. Terms are more favorable than ever known before on high class suburban property. Payments are 10 per cent cash, balance in monthly installments of 1 per cent of the purchase price of the lot. No interest or taxes for three and a half years. As little as \$50 down and \$5 per month procures a 50 foot lot. The prices include sewers, water mains, macadamized streets, and on the boulevards, curbs and cement sidewalks free to the purchaser. Lots range in from 50 feet upward; in depth from 100 to 200 feet. Lower than any hillside property of its kind in the state.

Over \$300,000 worth of property has been sold in CRAGMONT during the past three weeks.

Never before in the West has any subdivision sold so rapidly, for never before has the opportunity to secure a picturesque homesite and a safe and profitable investment been combined as in CRAGMONT.

Berkeley has grown right up to the doors of Cragmont; the inevitable trend of Berkeley's growth is northward. CRAGMONT, therefore, will profit most by the future growth of Berkeley.

CRAGMONT is selling for one-third the price of less desirable property elsewhere in Berkeley. Circumstances are more favorable for its growth than for any other section of Berkeley. In other parts of Berkeley lots have doubled and tripled in value in a few years. All indications point to a surer and greater profit for investors in CRAGMONT.

And the remarkably favorable terms of payment place this opportunity within the reach of all: Five dollars per month secures you a lot at Cragmont.

**The Advantages of Cragmont.**  
ITS UNEQUALED VIEW—From CRAGMONT you have the most sweeping and extended view that can be had on the bay shore.  
ARTISTIC TERRACES accentuate the natural beauty of CRAGMONT. A 70 foot automobile and carriage boulevard now winds up the slopes of CRAGMONT; intersected by other streets, all describing graceful curves. Thousands of dollars have been spent on these improvements.  
EASY ACCESS TO THE CITY—The Key Route and Southern Pacific ferry systems are about ten minutes distant from CRAGMONT. The Rose street car line is about four blocks distant from the property. CRAGMONT is forty minutes from San Francisco NOW.
