News of the Labor Organizations

Following is the result of the referendum vote taken last week by the membership of typographical union No. 21 on several propositions submitted by the International body: Proposition as to news writers, 291 for, 61 against; as to secretary's bond, 425 for, 46 against; as to president's salary, 257 for, 215 against; as to secretary's salary, 270 for, 202 against; as to increase of burial benefits, 489 for, 55 against, and as to the old age pensions, 359 for to 112 against.

Following are the propositions for amendments to the constitution on which the referendum vote as above was taken:

Amendment to relinquish jurisdiction over editors and reporters and newspaper writers and to abandon the formation of unions of that branch of the business; to increase the bond of the secretary treasurer from \$20,000 to \$50,000; to increase the president's salary from \$1,800 to \$2,000, and the secretary treasurer's in the same amount; to increase the burial benefit from \$70 to \$75, and to so alter the law as to permit of a weekly pension of \$4 to members attaining the age of 60 who have had 20 years of continuous membership.

Thomas E. Cossens, a well known member of this union, left for England recently, called there by the serious illness of his mother.

The union has been advised of the illness of Secretary Treasurer J. W. Bramwood of the International union. His illness is of such a nature that First Vice President John W. Haron of Philadelphia was summoned to the head office to assume Bramwood's duties.

The recent outing of the "Owls" to Pastore's, in Marin county, was a pleasant affair that was greatly enjoyed by members of this club of musicians' union, local No. 6 of this city. During the reunion "Teddy" Eisfeldt, one of the veterans of the local, was elected an honorary member of the club. The "Owls" will have another outing in a short time.

The members of the local have been invited to attend the meetings of the San Francisco sociological society, to be advised as to the best methods for

the betterment of social conditions in this city.

This local has had reported to it the illness of two of its well known members, Joseph Zinnen and S. Samuel. F. E. Baker of Goldfield and H. Wallace of St. Louis were admitted to membership on transfer cards; H. C. Holland, late of Milwaukee, who recently joined the local, took a withdrawal card, while three applications for membership were referred to the committee on investigation. Seven members, suspended for nonpayment of dues, were reinstated.

Woman's auxiliary No. 18 to the typographical union has appointed Mrs. O'Donnell, Bickell, Rutherford, Wixon and Payne a committee to arrange for an entertainment and dance. There will be a meeting of the members at the residence of Mrs. George Barron, 3331 Sacramento street, tomorrow afternoon to receive the report of the committee as to time and locality where the entertainment is to take place.

At a meeting of the building trades council of Santa Clara county the representatives of delegates from the several unions showed fair working conditions. Regarding the conditions in that county a local paper says that one of the labor leaders of San Jose stated this week: "Labor in Santa Clara county at the present time is overstocked with skilled and unskilled mechanics, who are traveling here and there, seeking work. The labor market in the county is overstocked, that is, overcrowded. This is due mainly to false statements sent out broadcast throughout the east by persons who are desirous of having mechanics come to California in the hope of reducing wages. At this time all there is in prospect are new schoolhouses and the work that will be done under the recent bond issue. That alone is not sufficient to employ all of our mechanics who were here before the disaster of 1906. There is plenty of room in the county for men of small means who are willing to go into agricultural pursuits or raise fruit, but there is none for the mechanic who has nothing but his trade and tools."

Thomas Cook, president of the waiters' and waitresses' local No. 17, of Los Angeles reports that organization in a better condition, financially, than it has been for several years, and that it is increasing numerically. He says that he is endeavoring to bring about harmony between the southern California waiters' association and No. 17, which have been at loggerheads for several years, and that already a better feeling is manifesting itself. He hopes in a few months to bring the two unions together.

Work on the Labor temple in Los Angeles is being delayed by the tieup of the material for its construction. The opinion is expressed that it will be ready for occupancy by the first week in January.

Wages of sheet metal workers in Toronto have been increased to \$8 a day.

The rate for some laborers at Halifax, N. S., has been increased from 16 to 17 cents per hour.

Barbers in London, Ont., have received an increase of \$1 per week in wages.

Gossip in Railway Circles

Alan d'Hur, resident engineer of the San Joaquin division of the Southern Pacific, is a sentimentalist besides being an engineer. However, this side of his nature is known only to few persons.

When he first took charge of the division he made a careful inspection of all the tracks under his control, and was horrified to discover that no patriotic citizen had erected a monument at Camulos over the grave of Ramona.

"This must be rectified," he said, and gave instructions to build a huge cross over a fresh grave on the company's right of way and added to it a touching and poetical inscription.

The news spread like wild fire among the winter colonists in the southern part of the state that Ramona's grave had been discovered, and crowds went out to visit the place of burial. They were not content with looking at the cross, but carried away little mementoes in the shape of silvers. Soon the cross was whittled away completely.

When d'Huer was informed of this he said: "Well, we'll have to move Ramona up the mountain and see what the tourists will do then."

It looks as if Ramona will have to be shifted again, judging by the appearance of her new monument.

The present rains have brought to a close one of the most prosperous seasons ever enjoyed by Californian deciduous fruit growers, and now comes the farmer who has been fortunate enough to raise barley, and whose bumper crops are the cause of trouble to the railroadman. From as far east as Chicago and north to Duluth inquiries and orders are arriving in this city from brewers, who find it impossible in the present state of the grain market to get enough of this commodity in their own vicinity.

The shortage of cars in California is the only factor which will have any effect in curtailing the movement, as the demand is general among the brewers for our barley, but, unfortunately, there are no cars to move the grain in the quantities wanted by the eastern beer makers.

W. B. Beamer, who was for many years with the Santa Fe, has, after his visit to the state of Oregon to the growing of the eucalyptus trees in Tulare county, and will, in all probability, make contracts with various roads to supply the timber for the finishing of cars. The company in which he is interested will have 2,500,000 trees planted by this winter, and has secured that kind of eucalyptus tree which yields a fine hard wood and capable of taking a polish similar to mahogany. Beamer was in town yesterday and wishes that he had left railroading years ago and taken to tree growing.

W. J. Shotwell, one of the directors of the Western Pacific, reports that all the material has been assembled at the north fork of the Feather river for the bridge there, and that it soon will be in position.

William Roseman, who was for many years with the Rock Island lines in Los Angeles, has joined the Salt Lake forces as traveling passenger agent.

Samuel C. Shearer has been appointed traveling passenger agent of the Denver and Rio Grande, with headquarters in Denver.

T. M. Schumacher, traffic manager of the El Paso Southwestern, has left for home.

H. P. Thrall, superintendent of mail service for the Harriman lines, is in the city.

L. B. Valla, agent of the Southern Pacific at San Bernardino, is on a visit to the city.

RECEIVERS FOR LOCAL WESTINGHOUSE BRANCH

Upon the petition of W. H. Westinghouse and the Acha steel castings company of New Jersey, United States Circuit Judge Morrow yesterday appointed T. H. Given, H. S. A. Stewart and E. M. Herr as receivers for all the property and assets in the northern district of California of the Westinghouse electric and manufacturing company of Pennsylvania, that corporation having been put into receivers' hands by the United States circuit court of Pennsylvania, which appointed the same receivers for the property of the bankrupt in that state.

The petition alleges that the company has upwards of \$500,000 invested in this district and that unless it shall be permitted to carry out contracts its assets will depreciate and become valueless. Judge Morrow also made an order enjoining the creditors from inter-

fering in any manner with the property of the company in this district.

FORESTERS' LADIES' NIGHT
Companion Court Southern Heights No. 373, assisted by subordinate court No. 1150 of the Independent Order of Foresters, will give a social entertainment in Polito hall on the night of October 30. It will be for the members and guests and will be known as ladies' night. The committee has decided that it will be an evening of entertainment, without speeches.

Best wigs, toupees and hair work done at S. Strozynski Co., 1250 Sutter st.

CALIFORNIA'S SILVER SERVICE
Emma Gruber Foley, grand president of the Native Daughters of the Golden West, having been appointed by Governor Gillett a member of the committee to secure funds for the purpose of purchasing a silver service to be presented to the cruiser California, has sent a circular letter to the parlors in the state, asking each to contribute to the fund.

POPULATION OF STATE INCREASED BY 35,000

The number of colonists that have come into the state since the rate was put into effect to last Friday was 35,000, and judging from the advices received by the Southern Pacific passenger department it will be about 7,000 a day for the next nine days, when the rate goes out. Some idea of the travel can be obtained when it is known that last Friday 1,036 people came into California. Out of this there passed through the Ogden gateway, 738; El Paso, 353; Los Angeles, 19, and Portland, 34. Thirty-five thousand people came into the state while the spring colonist rate was on, and what with the present travel it means that about 80,000 immigrants arrived in the state during the year.

AT THE GOLDEN GATE

NEW SUITS NOW POURING IN

More \$15.00 Regent Suits
A second shipment just arrived in time to replace those that went so quickly last week. They're very trim and becoming styles. In point of material, fit and service, equal to the best \$20 suits. At \$15.00 these will fly just as quickly as the first lot.

Big Shipment \$20.00 Suits
We have never before offered such stunning models in \$20.00 suits as those which have just arrived. The style, material and coloring are the season's very latest. The drawing pictures one of them. The coat is 36 inches long, collars and cuffs inlaid with velvet, trimmed with braid of contrasting colors with two folds of same material over back and down front in plaids and stripes, at \$20.00. They're wonderful value.

Semi-Military Styles \$25.00
One of the season's most pronounced successes just arrived and on sale tomorrow. They will appeal to the woman who seeks a style that is effective and becoming, yet entirely out of the ordinary.

Novelty Suits \$35.00 to \$65.00
Not a great many of one kind, but a host of styles to select from. They are the very latest things from the Eastern style centers.
