

FUNSTON SENDS SECRET REPORT TO WASHINGTON

Continued from Page 1, Column 1. I have no authority to take the situation out of the hands of the local authorities. Only the governor of Nevada or the president of the United States has such authority.

GOVERNOR IS IN CHARGE

Governor Sparks said when asked whether or not he would declare martial law if the need arose replied that he had not thought of the question when it arose. He said that it would be a most radical act on the part of the federal government to lead him to take such action.

ONE MINE WORKING

The Combination mine and mill started up this morning with 56 miners, but all other properties were practically idle. There was no trouble, and after they were adjusted to the work the strike breakers entered the city singly or in small groups and mingled with the crowds in the streets. None was molested.

Surrounding the mines were about 100 union pickets, and that the new employees of the company and asked them to desert their posts. The leaders of the union say that the men who went to work today are not really miners, but they are detectives and know nothing about the sort of work they are supposed to be doing.

MAY ARREST WINGFIELD

It is said that mine operators will be arrested tomorrow and that the law will be tested. There is another state law relating to the present strike situation, providing that upon the request of either party to a labor dispute the governor shall appoint a board of arbitration or constitute himself an arbitrator to adjust the dispute.

JUSTICE COURT SENTENCE ON HOLIDAY HELD LEGAL

Judge Gesford Rules on Important Point in Criminal Case at Napa

NAPA, Dec. 12.—Judge Gesford rendered a decision in the superior court here today that a trial held and a sentence pronounced in a criminal case in a justice's court on a legal holiday are constitutional and valid. The decision came on the application of William Sutherland for release on habeas corpus on the ground that he had been tried and sentenced on November 5, a legal holiday. The supreme court has not rendered a decision on the point involved in the Napa county case, and the matter decided with great attention in Northern California counties.

CLAMS OF RIVAL CITIES

Charles W. Franklin of Denver was the first speaker to be heard in advocacy of the claims of any of the cities as a place for holding the convention. He spoke of the ample accommodations both in the matter of hotels and auditorium, which, he said, was built by the city at a cost of \$550,000 and was capable of holding 14,000 persons.

How To Avoid It and Escape a Surgical Operation, Told By One Who Knows

It has only been a few years since it was discovered that a surgical operation would cure appendicitis. In fact, it has been but a short time since the disease was discovered and named. Whenever there is an inflamed condition of the appendix, caused by impacted feces in the small cavity opening into the intestine, you then have appendicitis.

MOST ROMANTIC CHIEF OF BULGARIANS KILLED

Revolutionist, Instigator of Miss Stone's Abduction, Shot to Death

FAMOUS TURK HATER

Turkish Government Sets a Price of \$20,000 on His Head

SOFIA, Bulgaria, Dec. 12.—Boris Sarafoff, the most famous of all the leaders of the Bulgarian band in Macedonia, was shot dead at the threshold of his house today by a Macedonian who at the same time shot and killed another revolutionary chief named Garvanoff, while the latter was in the act of bidding Sarafoff farewell.

Boris Sarafoff was appointed commander of the Macedonian revolutionary forces that made so much trouble in the summer of 1903. His name was prominent in all the uprisings in Macedonia against the Turks and he has been described as the most romantic hero in the Balkans. He was popularly believed and trusted to be the real instigator of the abduction of Miss Ellen M. Stone, the American missionary, from the vilayet of Salonica in September, 1901, in order to procure through her ransom money to enable the Macedonian revolutionary committee to organize the insurrection.

His hatred for Turks was acquired at an early age through seeing his father and mother tortured and dragged off in chains to a dungeon and then exiled for 15 years. The Turkish government had set a price of \$20,000 on his head. He was about 37 years old.

The murderer is believed to be a man named Panitza, a nephew of the notorious Panitza, who was executed in 1890 for conspiring to assassinate Prince Ferdinand and cabinet members.

STEVENS ON WAY HOME

TOKYO, Dec. 12.—W. D. Stevens, the American diplomat who has just been appointed adviser to the Japanese ambassador at Washington, has arrived here en route to America.

Riding over SEVEN MILLIONS IS NOW POSSIBLE. The Bay Shore Cutoff is completed—Harriman has done his share—The profits will now be made on the Peninsula. Seven million dollars spent by him will mean Seventy million dollars profits from Real Estate. You don't have to wait for it—it's here and 95 per cent of the people of San Francisco don't know it. Ride over the Bay Shore Cutoff—over the Seven Million Dollar Road next Sunday with us. Ride down to DUMBARTON OAKS in 36 minutes—down to the land of sunshine, WHERE more money will be made in the next five years than in any part of California. The Bay Shore Cutoff will do for the Peninsula what the subways did for New York, where \$500,000,000 were made in one year by Mr. First Buyer and his associates. Think of it! Seven Million Dollars to save 20 minutes. That Seven Million Dollars will cost Harriman \$420,000 a year in interest alone, to say nothing of the upkeep—this is \$1,150 a day, and he's got to carry 25,000 commuters, which means a population of 125,000, in order to break even—he's got to carry 50,000 commuters to make a profit—that means a population of 250,000 on the Peninsula. You can't get away from the profits on the Peninsula, no matter where you buy. Every \$200 lot will be worth five times its present value. It's up to the Southern Pacific to bring the population, and they are going to spend millions more to do it. They're going to electrify the road from San Francisco southward—run trains every 15 minutes if necessary—make it possible for you and me to enjoy outdoor country life and still be able to go back and forth to our work. San Francisco has up to the present been a city of flats and apartment houses—it hasn't had a chance to expand—the Southern Pacific has opened a new gateway—opened new possibilities, new opportunities—You should know about them. Since the Cutoff was opened last Sunday, December 8, dozens of people living between Palo Alto and San Francisco have publicly stated that they consider their investments worth double—they, even, had not realized what the Cutoff would do. FREE TO YOU—a ticket over the Bay Shore Cutoff next Sunday—join us—see the possibilities—see DUMBARTON OAKS, the pick of the Peninsula. When the multitude moves to this chosen land—when they realize that it is possible for them to live there and have the land they live on double, treble and quadruple in value they'll do it—but get in first. It's Mr. First Buyer who always makes the profit. Come with us next Sunday, December 15—see the Peninsula for yourselves—get all the facts before you and then act. Everybody that sees DUMBARTON OAKS buys—if you have no intention of buying don't come, because the possibilities of the Peninsula and the beauties of DUMBARTON OAKS will swerve you from your resolution. Today we are offering lots in DUMBARTON OAKS for \$200 and upward upon easy payments—\$20 down and \$5.00 a month—modern improvements—cement sidewalks—curbs—water—oiled streets—no interest and no taxes. The Peninsula holds more profits than any section of California, and DUMBARTON OAKS is the pick of the Peninsula. Join us next Sunday. Office open Friday and Saturday nights until 9 o'clock.
