

general. They are all against the work- ingmen. I went to the communion rail because I could get a better shot. I did not care whether he was a German priest or any other kind of a priest. They are all in the same class.

I left Italy three months ago; went first to Central America, and then came to the United States and to Denver. I am an anarchist and proud of it. I shot him, and my only regret is that I could not have shot the whole bunch of priests in the church. I am a shoe maker, but have not worked since coming to Denver.

**VICTIM WELL KNOWN**  
Father Leo Heinrichs was born at Keolin, Germany, August 15, 1867. He entered the Franciscan order December 4, 1885, and was ordained July 26, 1891. He came to Denver last September from Paterson, N. J., where he distinguished himself by rebuilding St. Bonaventure's church and monastery that had been destroyed by fire in 1902. For three years prior to that he had been rector at Croghan, N. Y.

He was planning to sail to Germany in June to visit relatives whom he had not seen for 16 years. Although no actual demonstration against the murderer of Father Leo has been made, there was considerable talk around town throughout the day of the justice of lynching him. To avoid an attack on the city jail Guarnaccio was taken to the county jail, a more easily defended building, where he remained several hours. Some groups of men began to congregate near the county jail and after a consultation the authorities decided to remove Guarnaccio out of town, and accordingly he was hustled into an automobile and a fast run was made to Littleton, 14 miles from Denver, where he was boarded for Colorado Springs.

**WILL DENOUNCE SOCIALISTS**  
Father Eusebius, senior assistant pastor to Father Leo, received a telegram tonight from the provincial at Paterson, N. J., requesting that the body of the murdered priest be sent to the city for interment. This will be done and in order that the body may arrive there no later than Sunday, funeral services will be held here Wednesday morning.

An examination of letters taken from Guarnaccio showed that the only definite address he appeared to have was 19 Wallace place, Wakefield, Mass. Guarnaccio told Police Chief Delaney, Sheriff Nisbet and several detectives who questioned him that he started out this morning with the intention of killing four priests. Had he succeeded in eluding capture, he says, he would have gone from one church to another until his way had been barred out.

**FIND REGICIDE LIST**  
Among the papers taken from the assassin was a list of assassins from the murder of Czar Paul of Russia in 1891 to the killing of the king of Spain in the last month. A miniature Italian flag pasted at the head of the list, he declared, had no significance whatever.

No notes or comment of any kind were inscribed or attached to the list. The prisoner was closely questioned concerning his residence at Paterson, N. J., but nothing important was learned. He declared that he knew nothing of Father Leo when the latter lived at Paterson, and, in fact, had never seen or heard of him before today. Guarnaccio admitted that he has been in Chicago, St. Louis and other eastern cities, but disclaimed any knowledge or connection with anarchists in any of these cities.

**GRIEF IN PATERSON**  
Former Parishioners of Father Leo Weep at Vespers

PATERSON, N. J., Feb. 23.—The assassination at Denver of Father Leo Heinrichs, or Father Leo as he was better known here, created a sensation in this city, a large section of which is in the parish of St. Bonaventure's church and the chief monastery of the American branch of the Franciscan order of which Father Leo was a prominent member. At vespers in St. Bonaventure's church tonight the congregation wept throughout the service. At the monastery no public expression was made by the priests.

**MRS. J. B. F. REYNOLDS, HUMANITARIAN, DIES**

**Hundreds of Coloradans, Helped by Woman Philanthropist, Mourn Demise**  
DENVER, Feb. 23.—In the death of Mrs. J. B. F. Reynolds from valvular heart trouble last night at her residence in this city, Colorado lost one of its most active philanthropists. Needy and unfortunate persons who have been assisted by Mrs. Reynolds number hundreds. She was greatly interested in the work of the juvenile court established by Judge Henry A. Leidy and had herself adopted 15 or 20 wards, caring for them in her own home until she could find permanent homes for them. Her most notable achievement was the securing of a pardon for Antoine Woodie, who when a boy murdered a hunter who had stopped at his father's cabin and who in prison developed unusual talent as an artist and musician. Mrs. Reynolds was well known in literary circles throughout the country and had made a name for herself as a writer of both prose and poetry.

**BURSTED WATER PIPE MAKES LAKE OF STREET**

**Principal Avenue of Paris Flooded and Downtown Buildings Inundated**  
PARIS, Feb. 23.—The main water pipe of Paris, under Tuilleries street, burst this evening and converted the avenue into a torrent. Eventually the Tuilleries avenue became a vast lake. The water flooded cellars in various side streets, extinguishing fires and stopping the dynamos in at least one large hotel and putting the building in darkness. The fire department was engaged for hours in pumping out the water. The broken main was patched and the flow stopped for a short time, but another break occurred late tonight, necessitating the calling out of more engines. The whole center of town has been cut off from a water supply.

### PLAN MORE FUN FOR FLEET'S MEN

**American Consular Officials in Peru Will Give Dinners and Reception**

**Prime Minister of Australia Invites Battleships to Pay Visit to Melbourne**

LIMA, Peru, Feb. 23.—This was a day of sight seeing for the Americans of the battleship fleet now lying in the harbor of Callao. More than 3,000 sailors came ashore during the day, the majority of whom spent the time in Lima, amusing themselves in visiting places of amusement and buying souvenirs in the shops kept open for their benefit.

Others took short excursions on the railroads to nearby points of interest, while many stayed close around the bay of Callao. The conduct of the thousands of bluejackets and marines was admirable. They all were bent on getting as much pleasure as possible from their shore leave. Samuel M. Taylor, consul general, and Mrs. Taylor will give a banquet Tuesday evening at the Hotel Maurey at which the admirals of the various divisions and 32 other officers of the fleet, as well as Minister Leslie Combs and the staff of the American legation, will be among the guests.

**AUSTRALIA INVITES FLEET**

MELBOURNE, Feb. 23.—Australia wants the American fleet of battleships now on its way to San Francisco to come to this country. The government already has given the matter consideration, and a letter has been sent to President Roosevelt, inviting the fleet to visit the chief Australian ports in the hope that "such a visit would mark a new era in the history of this part of the world."

No reply to this letter has been received here, but today the prime minister, Alfred Deakin, issued the following statement: "The federal government, realizing the significance of the visit of the American fleet to the Pacific and the importance of future developments of the appearance of such a great body of warships, decided, last December, to send a cordial invitation to the president of the United States, inviting the presence of the fleet at the principal Australian seaports. If the invitation is accepted the reception given the fleet at Rio Janeiro, Valparaiso and Callao will be eclipsed by Australia. The visit would make a new era in the history of this part of the world."

**GILLET IN WASHINGTON**  
WASHINGTON, Feb. 23.—Governor James N. Gillett of California arrived here today for a week or 10 days' stay. Gillett will confer with Secretary Metcalf regarding the reception which California purposes to give to the battleship fleet.

"The people of California are looking forward with the greatest interest to the visit of the fleet," said Gillett. "Already several coast cities, particularly San Francisco and Los Angeles, are making extensive preparations. The fleet soon will arrive at Magdalena bay, and it is my desire to acquaint Secretary Metcalf with the plans our people are making to receive it." While here Governor Gillett will pay his respects to President Roosevelt.

### DROPS DEAD FROM JOYFUL EXCITEMENT

**Pioneer Succumbs When About to See Brother After 50 Years' Separation**

**Thomas J. Moffitt Travels 2000 Miles and Dies as He Nears Relative's Doorway**

OAKLAND, Feb. 23.—Almost at the doorway of his brother William, whom he had traveled 2,000 miles to see after an absence of 50 years, Thomas J. Moffitt, a pioneer of the west, fell dead of heart failure in Winchester, Ind., last Friday, and the brother as now on what may be his deathbed as the result of the shock. Moffitt, before his trip to the east, had been visiting with his daughter, Mrs. W. L. Rees of 1374 Fifth avenue. His wife, Mrs. Sarah H. Moffitt, is there at present, and the remains of the pioneer will be shipped to this city for interment.

Moffitt left Indiana in 1852, when his brother William became a union soldier in the civil war. Thomas settled in Oregon, and there amassed a considerable fortune in ranching and stock raising. Of late he had come to Oakland to make his home. He started for Winchester last Monday in good health, although at times he had been troubled with his heart. Approaching the home of his brother last Friday his heart gave way under the excitement of soon seeing his last remaining family relative and he dropped dead.

The news was communicated too hastily to the waiting brother, William, who is an invalid because of wounds received in the civil war. The last advice from Indiana are that William Moffitt may not survive the shock of his brother's death after expecting to meet him again. Moffitt leaves five daughters, Mrs. W. L. Rees, Mrs. Visalia Rees, Mrs. Hugh McIntyre of Athens, Ore.; Mrs. Nerius Moffitt of Clackamas, Ore., and Mrs. C. J. Herrin of Sunnyside, Ore.

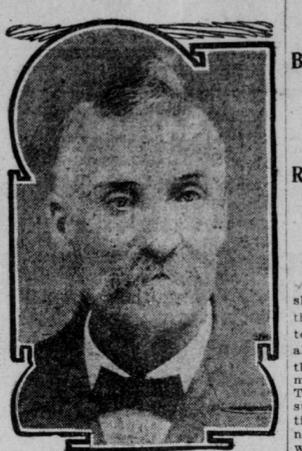

**COUNT SZECHENYI AND BRIDE IN ENGLAND**

**Party Annoyed on Boat by Passengers' Snapshot Proclivities**

PLYMOUTH, Feb. 23.—Count and Countess Szechenyi, accompanied by William K. Vanderbilt, landed from the steamship Kaiserin Auguste Victoria today and at once proceeded to London, where they will remain several days. The names of the bridal couple did not appear on the passenger list, but their identity was early known to their fellow travelers. During the voyage the count and countess associated only with the members of their own party. Frequently other passengers took snapshots at them, much to the annoyance of the count.

LONDON, Feb. 23.—The duchess of Marlborough met Count Szechenyi and his bride here. The countess looked the picture of health. After greetings they drove to Claridge's hotel. The count and countess dined this evening at Sunderland house with the duchess. They intend to proceed to Paris in a few days and from there will go to Hungary.

Thomas J. Moffitt, who dropped dead as he neared home of brother in Indiana town.

### GREAT NORTHERN TO ADOPT ELECTRICITY

**First Transcontinental Road to Use Such Power on Mountain Divisions**

**SPECIAL DISPATCH TO THE CALL**

TACOMA, Feb. 23.—By orders of James J. Hill, the Great Northern railway will be the first of the transcontinental railroads to operate its mountain divisions by electricity. By August 1 it is intended to operate all trains by electricity across the Cascade mountains from Leavenworth, which is situated a little west of the Columbia river, to Skykomish on the western slope of the mountains. Danger of suffocating engine and train crews in the Cascade tunnel will thereby be avoided. A water power plant to generate 12,000 horsepower is being installed by the Great Northern in Tumwater canyon on the eastern side of the Cascades. A contract to furnish nearly two miles of stave pipe 3 feet 6 inches in diameter has been awarded to the Pacific coast pipe company. Water will be taken from Wenatchee river at a point six miles above Leavenworth, giving a head of 168 feet at the end of the pipe line.

A million and a half feet of lumber and nearly 2,000,000 pounds of steel bands will be used in constructing the pipe. A railroad has been built up Wenatchee river canyon for delivery of the material. The water will be carried across the river in a steel pipe on a steel trestle. Fifteen years ago Henry Villard took up the question of electrifying the mountain division of the Northern Pacific, but the financial panic of 1893 prevented the improvement. If the present plan justifies expectations on the Great Northern it will be duplicated on the Northern Pacific, which has already secured water rights in the Cascades.

**KATY SHOPS CLOSED**  
SEDALIA, Mo., Feb. 23.—The Missouri, Kansas and Texas railroad shops here, employing 600 men, have been closed until March 2. The shops of the whole system are to be kept idle as much as possible to reduce expenses.

### TERRORIST FOES PRAISED BY CZAR

**Betrayers of Plot to Assassinate Grand Duke Receive Imperial Felicitation**

**Russian Police Spend Large Sums for Aid of Foreign Detective Agencies**

ST. PETERSBURG, Feb. 23.—The skillful performance of the police in the roundup of the great band of plotters has won the praise of the czar and all the government officials, who see in the exploit new proof of the thorough methods evolved for fighting terrorists. The secret police are spending large sums in bringing the terrorists to justice and have drafted agents of international experience, who are familiar with the byways of western anarchists. The police department has opened negotiations with detective agencies abroad, and has organized an extensive service in all the centers where Russian emigrants congregate, particularly in New York, Paris and Switzerland. These agencies will penetrate the innermost councils of the social democratic and social revolutionist organizations abroad.

In connection with the latest plot the members of the secret service were absolutely trusted by comrades of the revolutionists who attended the meetings held in Finland, where the final plan for the assassination of Grand Duke Nicholas Nicholasolevitch and J. G. Chicheglovitch, minister of justice, was elaborated. Two hundred plain clothes men were called in by the heads of the police department and given precise instructions as to what action should be taken and apparently they arrested without error the persons involved.

Thus far the police have failed to extract a confession from any of those arrested, but several undoubtedly are members of aristocratic houses. It is certain that numbers of conspirators have managed to evade arrest, and a careful watch is being kept for these. The congress of delegates, representing the provincial branches of the league of Russian people, opened today. The metropolitan of St. Petersburg, Antonius and other prelates were present.

**BELIEVE VESSEL LOST**  
DORCHESTER, N. E., Feb. 23.—Relatives of Captain William Palmer, a ship owner of this town, and who was an officer on the British ship Alacrita, have abandoned hope that the vessel will be heard from again. The Alacrita sailed from Delagoa bay, South Africa, August 5, 1907, for Hongkong and Baltimore, and, according to advices received here, has not been reported.

**RUSSIA YIELDS TO PRESSURE**  
COPENHAGEN, Feb. 23.—It is understood in diplomatic circles that as a result of pressure from other powers Russia has abandoned her plan of fortifying the Aland islands, and that an entente will soon be arranged.

"The Beer You Like"

# Hughes or Taft?

The other day Secretary Taft told his campaign managers to keep their hands off New York State. Rather than anger his enemies and split the State he chose to take his chances and let Governor Hughes go to the convention with New York's seventy-two votes. Of course Taft is well known all over the country, but

# How About Hughes?

Every one wants to know the tall governor from the Empire state. Curiosity about him has become epidemic. Westerners and Easterners going to New York eagerly inquire. So we present in the March number of the American Magazine a great character sketch of Hughes by

## IDA M. TARBELL

who is famous for her "Story of the Standard Oil" and lives of "Lincoln" and "Napoleon." Your questions will be answered if you read this article. You will know this big lawyer through and through. You will see how, before he came into the public eye in 1905, he was preparing himself. You will come in contact with a mind that will captivate your imagination—a mind that can take a new piece of work and go through it as a steel drill goes through rock. You will see how, in New York at least, Taft had to make way for Hughes.

You will also be interested in these other great features of the March American Magazine: "Mr. Dooley on Philosophers," by F. P. Dunne; cartoons by McCutcheon; "The Negro in the North," by R. S. Baker; many illustrations; "U-Ren—Oregon's Law Giver," by Lincoln Steffens, an inspiring story; "The Metropolis," by Upton Sinclair, an exposure of New York society; short stories by Marion Hill, John G. Neihardt, David Grayson and others.
