

WINS FORTUNES BY DEFRAUDING

Continued from Page 1, Column 4

fortune. The two clever confidence men even went so far as to have published in a Denver paper notice of an excursion of C. J. Burns, William D. Hale, Harry Burns, F. M. Stehr and J. W. Maxwell, all rich mine owners, on a tour of the east. These men were mythical.

WELL ALSO UNDER ARREST

Well is now under arrest in Chicago. Whether the plan was ever worked the police do not know, for Deffelbacher refuses to talk about it.

Here is part of Deffelbacher's story as he told it last night:

"I am 43 years old. I was originally a telegraph operator. For 20 years I have been in this wire tapping business, but I have never done anything that I am ashamed of. They cannot punish me. Fleecing a poolroom is no crime. They fleece poor men, and I never robbed a poor man in my life. Since the Western Union refused to take gambling information over its wires, seven years ago, it has been no crime to cut in on the cipher messages of the racetrack men.

"I am the king of the wire tappers and only two men were ever better than I am, and both are dead. One was Montague, the other was Gladstone.

Theodore C. Deffelbacher, the wire tapper, and the instruments with which he operates.

MRS. TEVIS HURT IN AUTO CRASH

Continued from Page 1, Column 7

and insurance broker of this city, and containing his wife and two children and Mrs. M. Chappell, mother of Mrs. Snyder, pitched over a steep bank on the Tunnel road near Berkeley this afternoon, struck a tree midway in its fall and hurled the occupants to the bottom of the embankment. Passersby rushed to their aid and a carriage was procured to convey the motorists to the Snyder home at the corner of Oakland and Mariposa avenues in Piedmont. The shock and suddenness of the fall proved too much for Mrs. Snyder and the children, who were temporarily prostrated when they reached home, but a physician who was called in found that none of them was badly hurt.

The accident was due to a faulty brake, which refused to act when Snyder attempted to turn his machine around. The road at the point where the accident happened is built high above the adjoining fields and the real estate man had backed up to the edge of the embankment before he discovered that he was unable to bring the car to a stop. Then he shouted to the others to jump out, but it was too late. The heavy machine plunged over the bank and crashed into the tree a few feet below with a jar that threw all five people high into the air.

A. J. Snyder is the president of the Snyder real estate company at 906 Broadway and is one of the best known businessmen in this city.

Mrs. Chappell said tonight that all the occupants of the car had recovered from their dangerous experience. "If it had not been for the tree that stopped us, I believe we would all have been killed," she declared. "But no bones were broken and everybody is all right."

The auto was left on the bank, as it was found impossible to move it today. Tomorrow an effort will be made to haul it up on the roadway and ascertain the extent of the damages it suffered.

GOMPERS SCORES SUPREME COURT

NEW YORK, April 19.—The most important perhaps of the several labor mass meetings held throughout the United States today was that addressed by President Samuel Gompers of the American Federation of Labor at the Grand Central palace tonight. In common with the meetings in other cities the local gathering was for the purpose of publicly demanding remedial legislation in the interests of organized labor.

Gompers in his address declared that the judges of the supreme court of the United States had shown themselves by training, environment and tendency to be behind the times and urged the necessity of an immediate demand upon congress to enact legislation at this session amending the Sherman anti-trust law, which the supreme court declared forbids trades unions the right to boycott and to strike.

Resolutions were adopted declaring that it was the conviction of the meeting that it lies within the duty of congress to so amend the Sherman law to remove any possibility of such future action, and to enable the Pere bill to define the injunction and restrain its abuses.

The resolutions further called upon congress to enact a general employers' liability bill, an eight hour bill for government employes and to hold members of congress responsible for their record on the labor measures during the pending session.

INSURANCE AGENT DIES AFTER BRIEF ILLNESS

Wife Hastens for Physician but Death Beats Him to Bedside

OAKLAND, April 19.—Falling ill suddenly late last night, John Charles Cracknell, an insurance agent and traveling man, well known in Portland and this city, died within a few minutes at his home, 1113 Fourteenth street, before medical aid could be summoned. An inquest will be held to solve the mystery of his death.

Cracknell had returned to his home late and had been in his room only a few minutes when he was stricken. His wife started to get a doctor, but death came before the physician. She was at a loss to account for the sudden illness.

Cracknell traveled for a large eastern manufacturing concern and was the San Francisco special agent for the Northern Life Insurance company. The funeral will occur Tuesday under the auspices of the local lodge of Elks No. 171. He is survived by a widow, a son, John Cracknell, and a daughter, Mrs. Conroy of San Francisco. He was 59 years old and a native of England.

BRYAN SPEAKS ON CHRIST

UTICA, N. Y., April 19.—William J. Bryan addressed two large gatherings for men here this afternoon, the second and most important address on "The Prince of Peace" being delivered at the First Presbyterian church. Bryan spoke under the auspices of the Y. M. C. A. Later Bryan left for Rome, where he spoke tonight.

MADMAN KILLS TWO AND IS SLAIN

City Marshal and Watchman Are Shot and a Third Officer Wounded

WARRENSBURG, Mo., April 19.—Three men are dead and another probably fatally wounded as the result of the attempt of the local officers to arrest F. O. Hawes here tonight. The dead:

JAMES RYAN, city marshal. NIGHT WATCHMAN BABASHAN, F. O. HAWES. The wounded: Night Watchman R. H. Pollock.

Hawes, who was 22 years old, the son of a Johnson county farmer, was returning to his home on a Missouri Pacific train this evening from a trip to a neighboring town, when, it is believed, he suddenly lost his mind. His actions were noticed by the other passengers and the officers here were notified. When the train arrived at 8:30 City Marshal Ryan and the two night watchmen were at the station. Hawes got off the train and as he did so the officers attempted to make the arrest.

Hawes drew a revolver and began shooting. At the first shot Marshal Ryan fell dead, shot through the head. Other shots followed and Night Watchman Babashan fell dead, shot through the lungs. Night Watchman Pollock was the last one shot and he received what is believed to be a mortal wound in the abdomen.

Hawes started to run from the scene, but was shot and killed by the negro porter of a local hotel.

PRINCE OF WALES REVISITS CANADA

LONDON, April 19.—Arrangements have been completed for the visit which the prince of Wales is to make to Quebec in July to attend the tercentary celebration and inaugurate the monument on the plains of Abraham to Wolfe and Montcalm and the men who fought under them for possession of what is now the dominion of Canada. This will be the prince's second visit to Canada. This time, however, he will visit only Quebec and his stay will not be extended over a fortnight.

The Atlantic will be crossed on a fast cruiser, probably the Minotaur, accompanied by another fast cruiser as an escort, the two leaving Portsmouth on July 16 and reaching Quebec July 23.

The British Atlantic fleet will go over in advance of the Minotaur and her escort to take part in the celebration and give a fitting welcome to the heir to the throne upon his arrival in Canadian waters. His royal highness, too, will be accompanied by a brilliant staff, so that none of the pomp and ceremony of the British court will be missing.

French and American squadrons will also be at Quebec, and invitations have been sent to France and all the colonies to send delegations to take part in the celebration. Australia has accepted and will be represented by Lord Dudley, the new governor general of the commonwealth.

The prince, on landing, will be received by the governor general and presented with an address by the dominion parliament. On July 23 the scene of landing of Champlain will be reconstructed and the old navigator shown arriving with his ship. The fete will then be formally opened by the prince.

The program follows: July 23—Review of the fleets. July 26—Thanksgiving day, services in the Roman Catholic church and English cathedrals. July 27—Naval display ashore by 10,000 sailors. Representation of the bombardment of Quebec by the British fleet and army under Saunders and Wolfe.

July 29—Prince of Wales leaves Quebec.

POWERS SUPPORT ITALY IN DEMAND ON TURKEY

Eight Destroyers to Join Squadron for Demonstration Over Postoffices

ROME, April 19.—Great satisfaction is felt here over the statement that all the powers have approved Italy's decision to take recourse to force if necessary to protect her interests in Asia Minor.

It was learned tonight that eight destroyers will join the squadron which is to make a demonstration in Turkish waters, bringing the number of men in the fleet up to nearly 7,000, with about 500 big guns. It is expected that the demonstration will begin on Thursday.

In issuing orders for the demonstration Italy desired clearly to show that she did not wish to take advantage of the situation for the postoffice by occupying any territory.

ST. PETERSBURG, April 19.—The Italian naval demonstration against Turkey, which was announced here late last night, came as a complete surprise to the Russian government officials.

The opinion is expressed here that Italy's bold example in dealing with Turkey will lead to more vigorous intervention on the part of Great Britain and Russia in behalf of Macedonia.

LONDON, April 20.—Some of the London newspapers, commenting on the attitude of Italy toward Turkey, regard the affair as rather trivial and better suited for arbitration than for threat of force. The Times says: "The sultan may derive one consolation from the fact that while the powers are seeking to vindicate their individual rights they are not likely to have much energy to spare for vigorous prosecution of the reform policy in Macedonia."

LEG BROKEN BY FALL—Oakland, April 19, George F. Paine, an electrician of Sausalito, fell from a ladder while repairing wires at the old Dewey theater in Twelfth street today and his left leg was broken.

The auto was left on the bank, as it was found impossible to move it today. Tomorrow an effort will be made to haul it up on the roadway and ascertain the extent of the damages it suffered.

EXPLOSION CAUSES FIRE IN A PAINT FACTORY

Damage Is Not Heavy, but Burning Paraffin Produces Clouds of Smoke

BERKELEY, April 19.—The explosion of a still of paraffin in the factory of the natural liquid paint company at the foot of Channing way on the bay shore resulted in a fire at noon today which did damage to the extent of \$600. The dense clouds of smoke from the burning paint on the beach caused considerable speculation as to their cause among the residents of this city, as the clouds arose high in the air. The factory, of which C. L. Argues is manager, with main offices at 115 California street, San Francisco, was put in operation but three days ago, after being shut down for a year.

ORDERS TROOPS HOME

PENSACOLA, Fla., April 19.—Governor Broward tonight ordered all the state troops sent here to preserve order during the strike of the motormen and conductors in the local street railway company to return to their homes at once. Cars were run today without molestation under the protection of troops, but very few persons took advantage of the opportunity to ride.

THE STURDIEST peoples of the earth drink beer—drink it from childhood to age. And those are the peoples who suffer least from nervousness and from dyspepsia.

When one needs more vitality, the Doctor says "drink beer." The barley is food; the hops are a tonic. The trifle of alcohol is an aid to digestion.

The proper drinking of beer—but not the abuse of it—is good for the weak and the well. And not the least of the good comes through flushing the system; in getting rid of the waste.

But a beer to be healthful needs to be pure. And it must be well aged, else the after-result is biliousness.

That is why we are so careful with Schlitz. We double the necessary cost of our brewing to insure absolute purity. And we age the beer for months before marketing. It gives you the good without the harm.

Ask for the Brewery Bottling. Common beer is sometimes substituted for Schlitz. To avoid being imposed upon, see that the cork or crown is branded Schlitz.
