

BERKELEY DECIDES
FOR SCHOOL BONDS

Second Election Results in Safe Margin Over Necessary Two-thirds Majority

BERKELEY, May 19.—After meeting ignominious defeat three weeks ago, the school bonds were carried today by a safe margin over the two-thirds majority necessary, though West Berkeley again voted three to one against the bonds.

The total vote cast was nearly 3,000, as compared with less than 2,000 at the former election. Through the efforts of all the political organizations and the chamber of commerce, a real contest was stimulated in today's balloting.

The community generally felt that the previous defeat was a blot upon Berkeley which could only be wiped out by a certainty of carrying the bonds. This was accomplished through a strongly organized campaign.

The second ward, which centers around the university, redeemed itself by giving a virtually unanimous, as well as a heavy vote, for the bonds today.

Both projects carried, the totals being as follows: Grammar schools—For, 2,082; against, 845. High schools—For, 2,082; against, 851. The bond issue is for \$250,000, running in 40 years at 4 1/2 per cent. This gives \$50,000 for completion of the polytechnic high school and \$200,000 for various grammar school additions, including two manual training rooms with equipment.

The vote above the necessary two-thirds majority was as follows: Grammar schools, 131; high school, 122.

Army and Navy Orders

WASHINGTON, May 19.—The following army and navy orders were issued today:

Army orders—First Lieutenant Charles T. Smart, First field artillery recruiting officer, San Francisco, will upon his next official trip to Sacramento, proceed to Mina, Nev., for the purpose of procuring information necessary to complete field of an order.

Navy orders—Commander A. P. Niblack, detached from command of the Hartford to the command of the Severn, Lieutenant D. M. Wood, to duty as aid to commandant of the navy yard, Norfolk.

Lieutenant R. L. Curtis, to the Alabama, as navigator.

Assistant Surgeon P. T. Deane, is detached from duty at the navy recruiting station at Kansas City, to Chicago.

Assistant Paymaster E. T. M. Lathrop is detached from duty in the navy yard at Mare Island, California, and will continue duty as commanding officer on the Independence.

Postmaster W. H. Morin is detached from the naval academy at Annapolis to the Severn.

Boatswain E. G. Plender is detached from duty on the Hartford to the Severn.

Commander E. F. Wright is detached from duty to command of the Rainbow to command of the Chattanooga.

Lieutenant C. M. Toner is detached from duty to the Rainbow to command of the investigation, Insular government, Manila.

PRIEST SAYS RAILROAD MENACES PARISHIONERS

Archbishop's Side in Controversy With Western Pacific Is Heard

OAKLAND, May 19.—Attorneys representing the Roman Catholic archbishop of San Francisco finished their case in the condemnation suit of the Western Pacific railway to acquire a right of way across church property in Elmhurst before a jury in Judge Ellisworth's court today.

Damages to the amount of \$37,000 were asked by the church, as it was alleged the railway would render the parish unfit for religious purposes and would imperil the lives of parishioners. The fact that the Southern Pacific skirts the site on the south was cited as showing that another railway on the north would imperil the property value for church purposes.

Father Patrick Power testified that many women and children attended the school and church and he feared for their lives, he said. The corporation introduced testimony to show that the damage would be nominal, as only a small corner would be taken for its right of way.

RAILROAD AGENT GIVEN DIVORCE FOR DESERTION

One Wife Is Accused and Adjudged Guilty, While Others File Charges

OAKLAND, May 19.—Byron P. Miller was granted an interlocutory decree of divorce from Cora L. Miller today for desertion. He testified that she refused to live with him while he was station agent at Charlotte, for the Santa Fe, and subsequently in San Francisco, that she left him for all time. They were married in 1878.

Charles Shaw was granted a similar decree from Charles Shaw and an interlocutory decree of divorce was also awarded to Molly G. Bonacina from Athilio Bonacina. Mrs. Bonacina testified that her husband didn't care to live with her, was going to leave her and that she was unable to stop him.

Mrs. Irene Parke has filed suit for divorce against James H. Parke for extreme cruelty. She testified that he made her life miserable by nagging.

ODIOUS COMPARISON IS START OF DISTURBANCE

"Cigarette Smoker and Hog Are One," Says Doctor and Gets Shocking Reply

OAKLAND, May 19.—Dr. Percy P. Cox of 599 Merrimac street was arrested for disturbing the peace and W. R. Francis, whose cigarette case was obvious to the physician, for vulgar language as the outcome of an altercation on a streetcar. Dr. Cox was riding home when Francis got on the car with a cigarette. The physician objected and Francis replied in kind.

"Do you know the difference," said the irate doctor, "between a man who smokes cigarettes and a hog?" Francis said he did not, and the doctor answered: "Well, there is none."

Then the quarrel began, and both were arrested. They gave bail.

GOVERNOR SPARKS MAY NEVER RISE FROM BED

Nevada's Executive Suffering From Fatal Malady and Doctors Lose Hope

SPECIAL DISPATCH TO THE CALL
RENO, Nev., May 19.—"Honest" John Sparks, who has served Nevada as governor for so many years, lies at his home on the Alamogordo farm with general paralysis, from which disease it is believed he will never recover. Although he rallies at times, relapses follow, and his condition is gradually becoming worse. He is confined to his bed altogether now, and the physicians and nurses in constant attendance do not think he will ever rise from his bed. His illness is such that it may last for several months and may take him off in 24 hours.

Rev. John Howland Lathrop (Maurer photo), honorary president of the Channing club of Berkeley.

Rev. John Howland Lathrop Elected Honorary President for Ensuing Year

BERKELEY, May 19.—Officers of the Channing club, one of the many "culture" organizations of this city, have elected officers for the ensuing year. The Channing club numbers 30 members and the aim of the organization is the cultivation of the higher life and the best things in music, art, science, literature, religion and allied subjects.

The last meeting of the club was held at the home of Miss Webber Saturday night, when the work of the year was finished and the date of the opening meeting for the summer was fixed for August 16. The newly elected officers of the Channing club are: Honorary president, Rev. John Howland Lathrop; president, B. B. Blake; secretary, Miss Ella Robinson; treasurer, S. N. Wyckoff Jr.

FRENCH SOCIETY AIMS TO END SWEAT SHOPS

Request Facilitates Establishment of Workshop Apartment Building With Low Rent

PARIS, May 19.—The abolishment of the "sweatshop" conditions which surround the employment of many French working people is the object of a serious experiment which has just been essayed in Paris in the form of the establishment of a workshop apartment building where workmen may both labor and live under the most modern and hygienic conditions at a minimum cost.

The experiment is the undertaking of the Societe Philanthropique and was made possible by the bequest of Mile. Marie Souvestre, after whom the building is named. It contains 48 workshops and apartments and the price per year for trade "combinations" ranges from \$100 to \$148.

In the basement are baths and on the seventh floor arrangements for washing and drying the family linen. Electric power is supplied at a minimum cost from a central plant.

THIEF HIDES GEM IN HIS MOUTH

Prisoner Shows Opening in Flesh Where He Concealed Diamond Stud

OAKLAND, May 19.—George Morse, arrested for the alleged theft of a diamond stud from L. D. Stephens, an aged man of Woodland, at the corner of Fourteenth street and Broadway on May 9, was held to answer for grand larceny in the police court this morning, and then confessed to Captain of Detectives Petersen that the gem, valued at more than \$100, was hidden in his cell. He had carried it into the city jail through the close scrutiny of the detectives by concealing it in his mouth, he said, and the stud was found by Petersen hidden in the iron grating of the cell.

Morse pleaded, after being held, that his mother needed money and said he was impelled by his dire circumstances to steal the stud from Stephens' bosom. He was observed in the act by William J. Layman, a real estate dealer, and by Miss Fannie Dam of 2712 Regent street, Berkeley, both of whom identified him as the thief. His arrest was accomplished after a chase in which two shots were fired by Detective Richard McSorley.

On being taken to the city jail Morse was put through the most careful search. He was held by Captain Petersen in trying to recover the jewel examined the prisoner's mouth. Today Morse showed an opening inside his mouth, which he said was left from an abscess and in which he said he had hidden the diamond. When Petersen examined his mouth for the stone it was not seen, and Morse asserts that it was then hidden in the opening.

This leads the belief that he is a professional thief who has undergone an operation to provide a hiding place for gems.

HOLD GEMS ONCE WORN BY MARIE ANTOINETTE

Customs Men Dispute Value of Diamonds Now Owned by Princess Montglyn

SPECIAL DISPATCH TO THE CALL
NEW YORK, May 19.—Locked in the safe of Collector of the Port Fowler are two diamonds weighing 42 carats each, which, in the eighteenth century, ornamented the crown of Marie Antoinette, queen of France. Officials of the custom house are in dispute as to the value of the gems, some placing it at \$20,000 and others declaring that the Princess de Montglyn is right in her declaration that their value exceeds this sum. The princess says she was offered \$50,000 for them.

On Monday, when the diamonds were taken from the custody of G. M. Nelson, attorney for Princess de Montglyn, by the treasury agent, they were in their trail for several weeks. It was the contention of the princess that the customs authorities had no right to exact duty, as the gems had been in this country for several years.

The experiment is the undertaking of the Societe Philanthropique and was made possible by the bequest of Mile. Marie Souvestre, after whom the building is named. It contains 48 workshops and apartments and the price per year for trade "combinations" ranges from \$100 to \$148.
