Double Handicap for American Athletes
Sappho Leads the Speedy Yachts
Hampered at Olympic Games by Peculiar Drawing and Bad Weather

LONDON, July 19.—The United Kingdom, which before the opening of the Olympic games at the stadium had a big lead over all other nations in the number of wins in the contest for supremacy in all sports, most of which, however, were scored in competition in which no other nation took part, almost doubled that lead during the last week, and, furthermore, overtook the American team in the count for track and field events. But this has not resulted in a disheartening competition for the American athletes and those of their countrymen who accompanied them to England. James E. Sullivan, the commissioner representing the United States, said this evening: "We are here to win the championship in all sports, and we are going to do it, despite the handicap from which we are suffering. This handicap has been twofold. In the first place we have had a peculiar drawing of the worst possible nature for those unused to it, and this affected them very seriously, more seriously than those not engaged in the games have any idea of. It is not only that the men cannot get into the conditions, but the weather conditions make them low spirited. They hope to get a little sunshine at Brighton, but it has been as bad there as in London. The other handicap against us with which we have had to contend is the manner in which the boat drawings have been made. The drawings have gone against us in the 1,500 meter race, when our best man, Sheppard and Halsewood, were pitted against each other and the same thing occurred in the 500 meter event, the heats of which will be run off tomorrow. Sheppard and Halsewood were drawn against each other for a second time. Bromberg and Ramer also have been put into a boat together in this event, while in two other heats of the 500 meters not a single American has been drawn. It is either extraordinary luck or the manner in which the drawings have been made that has resulted in such unfavorable conditions for the Americans. We have tried to get the drawings altered, but have not been able to get anything from the Amateur athletic association of Great Britain. The result of the drawings has been made in the usual way."

Sullivan concluded by saying: "The United Kingdom had its innings in the distance events last week; the American team will have their turn this week in the sprints, hurdles and jumps."

The figures up to Sunday night, counting by the American method in the field and track events, are: United Kingdom, 14; America, 10. The American team will remain to be contested, exclusive of the Marathon race, in all of which the American team will add to their score. These events are: Standing broad jump, running broad jump, high jump, pole vault, 100, 200, 400 and 800 meter flat races; 400 meter hurdle races and the relay race.

Following is the program of events for Monday in the order in which they will occur:
