Art Section of California Club Will Hang Works of Local Men

Daughters of Pioneers Plan to Collect and Preserve Historical Objects of State

The plans for the exhibition of paintings and the informal reception which will be given to the artists on the 27th of this month formed the chief topic for discussion yesterday at the meeting of the art section of the California club. This exhibition, which will include only the works of California artists, will be the first thing of the kind held at this club. It will continue for six days and will be concluded by a reception given on the 1st of November. Among those who have promised their paintings for the exhibition are Charles Dickman, William Keith, Xavier Martinez, G. Cadenasso, Eugene Nelhaus, Arthur Matthews, G. F. P. Piazioni, Maurice Del Mue, R. Partington, Sophie Brannan, Julie Heineemann, Olga Ackerhmann, E. Withrow and several others.

The proposed trip of the club members to the Piedmont gallery was also spoken of and will take place Saturday.

DAUGHTERS OF PIONEERS MEET

The Daughters of California Pioneers met yesterday to decide on the work for the year. It will include:

1. The collection and preservation of all historical objects, facts, scientific and literary records pertaining to the history of California.
2. The study of the landmarks in and about San Francisco.
3. Spanish words and their significance as applied to objects and places in California.
4. The influence of Mexican and Spanish cooking upon the diet of the present generation.
5. The habits of the early pioneers; Spanish and other forms of architecture and their influence on that of the present day.
6. The means of transportation from the early days of California to the present time.

It was resolved to appeal to all the papers to have them use the correct name, "Yerba Buena," instead of the name "Great Island." The members also passed an approval of the plan of Supervisor Charles Murdock to rename all the avenues in the Richmond and Sunset districts and to substitute Spanish names for their present ones. Mrs. Sidney S. Palmer was elected the delegate to attend the convention at Watsonville. The daughters of the California Pioneers have also planned to establish a historical collection at the museum in the park.

At a very interesting meeting of the "Women's Press" association yesterday Mrs. J. W. Kelly addressed the members and their guests on the subject of "Dreamers and Myths of Literature." Mrs. Kelly's talk was followed by one of her own poems, read by Mrs. Florence Richmond. The organization was also entertained by Mrs. V. Walsh, who were also much enjoyed. On Monday, October 26, there will be a talk on the Boston biennial by Mrs. Amelia Truesdell and an original story by Mrs. Mabel Richmond. The organization will also be represented at the Watsonville convention which is being held today, those who will represent the club being Mrs. Florence Richmond, Miss Leonore Croudeau, Mrs. Amelia Truesdell and Mrs. J. P. Martin.

EXHIBIT OF BOOKPLATES

Odd and beautiful bookplates of every description will form the very interesting exhibition that will be given in the California Bookplate society in Century hall this week. The display, which opens this evening with a lecture from the society's president, Rev. W. A. Brewer of Burlingame, will be held in the members of the society in Century club tomorrow and will be open to the public on Thursday and Friday afternoons, October 15 and 16. This affair, which is the initial appearance of the society, will be the first thing of its kind to be held in the western states. The organization was formed some months ago with a view to increase the interest of local artists in the art of designing bookplates and has grown far more rapidly than its founders anticipated. A splendid collection of plates has been offered them to draw upon for this exhibition, and their display will include not only engraved, etched and printed bookplates of all sorts, but also specimens of copperplate, zincography and linocut. Among the artists who are members of this society are Miss Mary Curran, Miss Eleanor Plaw, George Gibson and Ernest Cross.

RECITAL TO BE OF GREAT INTEREST TO MUSICIANS

Eiler's Music Company Will Give Splendid Concert in New Market Street Hall

An enterprise of much interest to musicians, music students and lovers of the tone art generally is announced by the Eilers music company in the forthcoming recital to be given in the firm's new and beautiful concert hall, 275 Market street, tomorrow afternoon at 3 o'clock.

Louis Albert Larsen, the well known baritone, will be the soloist and will sing, among other things, Damrosch's wonderful setting of Kipling's poem, "Danny Deever." Larsen will be accompanied by George S. Beechwood, who is an artistic pianist and an expert at the auto piano. The latter instrument will be used in the presentation of a classic program drawn from the works of such composers as Chopin, Mendelssohn, Moskowski and Bendel.

The Eilers company will issue complimentary cards of admission to the number of seats in the commodious hall. These tickets may be had on application at the Eilers stores in Fillmore and in Market streets. It is planned by the company to make the affair notable for its serious musical appeal, though there will be some lighter numbers interspersed throughout the program in order that all music lovers may be pleased.

The following is the program in full:

- 1—(a) Scherzo in B flat minor. Chopin
- (b) Etude, op. 10, No. 5. Chopin
- (c) Berceuse. Chopin
- (d) Prologue, "Pagliacci" Leoncavallo
- (e) "Rondo Capriccioso" Mendelssohn
- (f) "Dornroschen" Bendel
- (g) "Amourette" Berger
- (h) "Danny Deever" Damrosch
- (i) Mr. Larsen.
- (j) "Liederwald" op. 12, No. 5. Moszkowski
- (k) "Al Fresco, "Intermezzo" Herbert

POLICEMEN ARE HEROES IN STOPPING RUNAWAY

Patrolmen Galloway and Bruce Prevent Loss of Life by Quick Action

Patrolmen John Galloway and James Bruce distinguished themselves by stopping a team of runaway horses in Market street near Second yesterday morning. Two women, the act of crossing Market street at New Montgomery, would have been run down had it not been for the prompt action of Policeman Galloway in pulling them back to the sidewalk.

The team, which was being driven by C. E. Chauncey, is owned by C. M. Hule, a contractor. The animals became frightened by the noise of a hoisting engine. The driver was with his team and the animals dashed across the street and were finally stopped at the corner of Second and Market by Policeman Bruce.

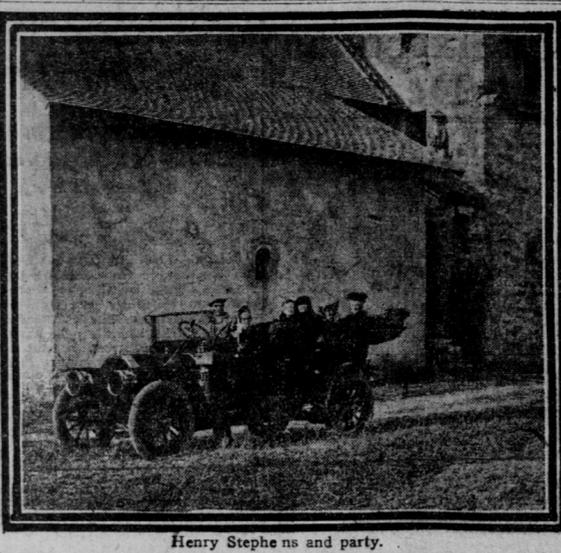

CHILDREN'S AGENCY WILL HOLD ANNUAL MEETING

Subject of Overcrowding Juvenile Institutions Will Be Discussed

The annual meeting of the Children's agency, a home finding institution affiliated with the local orphanages and the children's aid societies, will be held October 22, at 2:30 p. m., at the office of the Associated Charities, 1500 Jackson street. Many questions of interest to those who are working on behalf of dependent children will be discussed, but the leading subject will be that of the overcrowding of juvenile institutions. M. J. White, secretary of the California Society for the Prevention of Cruelty to Children, who recently drew attention in the Call to the condition of these institutions, will participate in the discussion of this important subject.

MARKET SECURITIES CASE GOES OVER

Judge Van Fleet Continues Application for Receiver Until Monday

The motion for the appointment of a receiver by Henry J. Kennedy of Chicago against the Market street securities company came up yesterday in the United States district court before Judge Van Fleet and was ordered continued until next Monday. Affidavits were filed in the interests of the complainant to support some of the contentions of the bill yesterday by J. H. Bartlett, Attorney Percy L. Shuman and Chalmers Munday.

Bartlett, who said he was the agent of Kennedy, made an affidavit in which he asserted that the Market street securities company had refused to give him bank books in return for the securities company's bonds purchased by Kennedy. Bartlett stated in his affidavit that E. M. Meigs, president of the company, and Arthur Crane, the secretary, had refused to exchange bank books for bonds.

Attorney Shuman stated in his affidavit that the securities company did not pay any more or give anything of value for the stock and bonds transferred to it by the Market street bank and that this was in direct violation of the civil code of the state of California. Shuman stated that the 500,000 shares of stock and the \$225,000 in bonds of the Sierra Nevada water and power company, which were purported to be worth \$1,225,000, were, in fact, absolutely valueless and the transfer was a "colorable" one.

Chalmers Munday, an assistant to the receiver of the Market street bank, asserted that the officers of the securities company refused to pay him the semi-annual interest of \$2 bonds of the Sierra Nevada water and power company. He further stated in his affidavit that he had visited Judge Kinley in the metropolitan building, who told him that the company had been reorganized and that as yet no officers had been elected and consequently there was no one who could pay the interest.

Argument on the motion of Kennedy to have a receiver appointed will be made next Monday.

PERSONAL MENTION

Mack S. Cohan of Chicago is at the Dolchester.

C. R. Warren of Portland is staying at the Grand.

J. H. Wilkinson of New York is at the Baltimore.

C. M. Wheeler of Eureka is staying at the Stewart.

Frank Golden of Reno is staying at the St. Francis.

Mr. and Mrs. E. W. Hihn are staying at the Fairmont.

M. H. Flint of Los Angeles is staying at the St. Francis.

R. A. Bailey of New York is a guest at the St. Francis.

C. E. Reinhardt of St. Louis is a guest of the Stewart.

Mr. and Mrs. B. R. George of Chicago are guests at the Grand.

Mr. and Mrs. P. E. Barry of Chicago are guests at the Fairmont.

Mr. and Mrs. J. E. Curtis of Sonora have apartments at the Fairmont.

A. L. Rowe of Watsonville and R. C. Wells of Fresno are at the Imperial.

J. W. Rodgers of Seattle and N. G. Loungrain of Ohio are at the Majestic.

Charles A. Fairwell and Mrs. Fairwell have taken apartments at the Grand.

S. M. Vanclain, accompanied by his daughter, arrived from Philadelphia and registered at the St. Francis.

C. W. Oliver of Los Angeles and A. C. Thompson of Pennsylvania are at the Hamlin.

W. Neary and wife of Santa Cruz and Mrs. George Tanner of Salt Lake are at the Bayview.

W. S. Bauer of Spokane, Miss E. Hackett and Miss E. Anderson of Ohio are at the Holland.

D. M. Hawker of Indiana and R. E. Kirkpatrick and wife of Brooklyn, N. Y., are at the Jefferson.

Late arrivals at the Golden West are John Sturt and wife of San Diego and Edward Rich of Redding.

Recent arrivals at the Manx are N. H. Bell of Los Angeles and W. N. Aianville and wife of Cincinnati.

Culinary Notes

More About Sauces—When a sauce is desired clear, smooth and velvety, the sauceman must be placed on a part of the stove where the sauce will bubble at only one side. The sauceman must not be covered. In two hours' time the sauce will be "clear," as it is termed, that is, while it is still frothy, the butter which has been separated from the other ingredients and will float on top, the flour and other ingredients will have combined and the sauce will have a semitransparent appearance. All fine sauces, such as Spanish supreme, mushroom, etc., must be cleared in this manner.

When cooking butter and flour together for a roux, the flour should be added when the butter is hot before the roux is added. When the flour is added be sure to stir constantly until the liquid is added. If the sauce is to be white the liquid must be added to the butter and flour before the mixture begins to thicken—that is, while it is still frothy. When the sauce is to be brown the flour and butter must be cooked together until as dark as a chestnut. These preparations of butter and flour are termed brown and white roux, although as roux really means "russet," it can hardly be applied with propriety to a white thickening.

One of the mistakes of the inexperienced cook in making a sauce with a thickening is that the liquid is added to the thickening before the temperature has been lowered. The roux should be drawn back to a cool part of the range, and the mixture should be added gradually the liquid, which should be cold, or nearly so, whenever possible.

Hair Ribbons for the Small Girl

For school, and all practical wear, the plain weaves in dark colors are preferred, but for house and formal use these ribbon ornaments can not be too gay. Then, too, the ribbons employed are so wide—never less than five inches, more often seven inches—and as two or perhaps three bows are required for a decoration the result often gives the appearance of more ribbon than hair around the face.

Two or three bows, as considered

BIG ROAD RACE BE RUN IN SOUTH

Automobilists Will Hold Contest From Los Angeles to Phoenix, Arizona

Large Side Wager Has Been Made by Some of the Contestants

By R. R. l'Homme due

The record run for automobiles between Los Angeles and Phoenix, having for its prize a \$100 trophy cup, offered by an Arizona enthusiast to the winner, has been changed to a race. It is to be a perpetual event, contested for each year, winner to hold the cup until earned by some other car. The change was made at the suggestion of the White steamer representative of Los Angeles.

Three entries are announced already—T. C. Fenner, with the White which won the Mount Baldy race; Leon T. Shettler and E. J. Smith of the Elmore company. These gentlemen will each put up a purse of \$1,000, winner to take all, and the race is open to all who care to enter and abide by the terms.

The race will start from the Hollenbeck hotel, Los Angeles, probably November 5, and end in front of the office of an Arizona paper in Phoenix, probably November 8, if all goes well. The territorial fair begins November 9, and it is planned to have the contestants there at the opening.

WANTS AIRSHIPS

Already the airship is becoming a competitor of the automobile. C. R. Parmenter of the Pioneer automobile company, states that his customer, after inquiring the question of a prospective motorist on the question of motor cars or airships, Parmenter, who visited the offices of the customer, after inquiring the question of a prospective motorist would take a demonstration in a Chalmers-Detroit car, was surprised by being told the man had decided he would buy an airship rather than an automobile. "I tried to explain the advantages of traveling by motor on land rather than by motor in the air, but he would not be convinced," said the Pioneer representative. "At last, after I had found that my arguments were having the desired effect, I said to myself, 'Well, anyway, they won't be airships on the market for 25 years.' Well, I had thought of that, too," said the prospect, and I figure by that time I will be financially able to buy one." Parmenter reported the prospect as N. S.

PRIZES FOR VANDERBILT DRIVERS

C. E. Mathewson, Pacific coast sales manager for the Diamond rubber company, states that each prize offered drivers in the Vanderbilt race by the Diamond rubber company are \$500, \$250, \$150 and \$100, to the first, second, third and fourth in the race, providing, of course, that Diamond equipment is used. Six of the nine American cars will use Diamond product. The company will tempt its usual tire routine about the course for the convenience of these racers. Diamond demountable rims carrying inflated tires will be used by most of the American cars. Complete tire changes have been made with these rims during different races this season by using the Diamond wrapped tread and the Diamond improved anti-skid tires will be used.

PIERCE ARROW NEW GEAR

W. F. Cuberson, head of the Mobile carriage company, which handles the Pierce Arrow cars, states that the greater change and really appears at first glance is contained in the change of transmission on all the new model Pierce Arrow cars. Heford's cars of this make have been equipped with a three speed progressive transmission. The gear shifting lever will be used by most of the American cars. Several reasons have been responsible for the retention of the former type of transmission in the Pierce Arrow cars. Heford's company had been proven a success. Among the more potent of these was the fact that it has been the subject of the George N. Pierce company that the progressive system with the lever under the steering wheel is the simplest and most convenient to use. Both regular wrapped tread and motoring. In other words, the Pierce company

A Few Words With the Lady of the House

See the "Page for the Modern House Keeper," which appears regularly in the magazine of The Sunday Call. Cash prizes are given each week for best household ideas and kitchen recipes. Send in your choicest ones to "Modern House Keeper Page," The San Francisco Sunday Call.

becoming, are needed with the favored mode of hair dressing, the center parting and the braided hair from the temples to the nape of the neck, where the loose hair from these braids helps to swell the single one in the back.

A small miss with slender face will be improved by ribbons that tie both ends of the hair into a round plump faced little girl will look more coquettish if the bow on the right side is omitted.

Another bow in the nape of the neck is imperative in any case.

When the hair is taken back softly to the crown of the head a very large bow should be used, and its twin sister makes its appearance at the nape of the neck when the hair is worn in a pigtail, or half way down when the hair is loose and it is desired to hold the tresses in place. The hair below the bow usually ends in a soft curl.

Quite small girls look very quaint with a ribbon bow placed at the top of each ear to confine strands of hair that fall down at the back of the ears. A pretty fashion for girls a little older is to roll the hair back from the face, tied in the nape of the neck with a broad ribbon, a second bow to appear at the center of the braid.

For school girls' party wear wire filets, twisted with soft ribbons in delicate shades and trimmed with small ribbon flowers, are exceedingly effective.

Green ribbons, decorated with daisies, make a pretty ornament for a fair head, and blue ribbons with blue forget me nots will be equally becoming to locks of rich, deep, golden brown.

held that in former years the general motoring public had not advanced in its knowledge of motor car conditions to a point where the selective type of gearing would prove more successful than the progressive.

THOMAS WRITES ON AUTO TRADE

Edwin Ross Thomas, president of the E. R. Thomas motor company, has written to E. R. Bringer of the Pioneer auto company, regarding the business and prosperity, to the effect that he believes the automobile industry is as good a barometer as to the state of affairs as any other industry, and to some extent better, for it clearly reflects the prosperity of the individual rather than of the merchant or manufacturer at large. Bankers and other well posted authorities have said on numerous occasions that by comparison the automobile business was surprisingly good and really better, for it clearly reflects the prosperity of the individual rather than of the merchant or manufacturer at large. Bankers and other well posted authorities have said on numerous occasions that by comparison the automobile business was surprisingly good and really better, for it clearly reflects the prosperity of the individual rather than of the merchant or manufacturer at large. Bankers and other well posted authorities have said on numerous occasions that by comparison the automobile business was surprisingly good and really better, for it clearly reflects the prosperity of the individual rather than of the merchant or manufacturer at large.

BUICK SALES

Charles S. Howard, head of the Howard automobile company, reports the sale and delivery of two Buick "White Streaks" to a local illuminating concern. The cars were purchased for the use of W. R. Morgan and George Worthington. Mr. Morgan recently attracted considerable attention in the local automobile world by winning the cup for the best decorated machine in the Olympic club automobile parade.

AUTO NOTES

Harry L. Owens, head of the local branch of the Winton motor carriage company, states

One of the Essentials

of the happy homes of to-day is a vast fund of information as to the best methods of promoting health and happiness and right living and knowledge of the world's best products.

Products of actual excellence and reasonable claims truthfully presented and which have attained to world-wide acceptance through the approval of the Well-Informed of the World; not of individuals only, but of the many who have the happy faculty of selecting and obtaining the best of the world affords.

One of the products of that class, of known component parts, an Ethical remedy, approved by physicians and commended by the Well-Informed of the World as a valuable and wholesome family laxative is the well-known Syrup of Figs and Elixir of Senna. To get its beneficial effects always buy the genuine, manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.
