GIRL OF FOURTEEN BELIEVES ENEMIES MARRIES PAINTER BURNED PROPERTY

Miss Fannie Lamphier and Albert E. Burrell Wed in Face of Mother's Objections

ALAMEDA, Oct. 13.—Miss Fannie M. Lamphier of 3270 Encinal avenue, who was married last evening to Albert E. Burrell by a minister in Oakland, is said by her mother to be but 14 years of age.

The couple secured a license last night and the girl gave her age as 17 and said that she had the consent of her father to wed. When the mother learned this morning of the marriage she went to justice of the peace E. E. Johnson and asked to have the union annulled. In relating her story to the magistrate Mrs. Lamphier said: "Fannie is but 14 years old and I was opposed to her marrying. If she swore that she was 17 years of age she falsified. Her father and I had many disputes over her conduct. He encouraged her to go out nights and sympathized with her when I would give her a spanking for not coming home early. My husband has been working for the Taylor lumber company, but I understand that he quit his job last Saturday."

"We have had considerable trouble since my husband recently came into possession of \$400 from his mother's estate, and one of the chief causes of the trouble was the way he spent money in buying fine clothes for Fannie."

Burrell is 24 years old and is employed as a painter by a local firm. He and his girl bride are making their home with the Silva family in Encinal avenue near High street.

FACES TRIAL FOR OLD MAN'S MURDER

L. H. Lund Accused With Employer of Felling and Burning John Woodapple

NAPA, Oct. 13.—The trial of L. H. Lund, an employee of J. L. Shroyer, charged with murdering John Woodapple at the old man's cabin near Monticello by burning him to death in the building, was commenced this morning in the superior court in this city. It was expected that Shroyer would be tried first, but District Attorney F. M. Silva, who is prosecuting the case, decided otherwise. A searchling examination of jurors occupied all the morning, and late this afternoon the following 12 men were secured to try Lund:

I. R. Sittig, A. R. Mangis, M. L. Poston, F. T. Anderson, C. Clark, S. R. Butler, J. J. Walters, H. S. Geer, H. W. Mulhally, N. W. Standford, E. E. Deeming and Theo. Blankenbaker Jr.

Mrs. George A. Babcock of Winters, who was residing with her father, J. L. Shroyer, last February and March, is the principal witness for the prosecution. Five months after the alleged crime she told the grand jury that she saw Lund knock Woodapple senseless with a heavy neck yoke near his cabin and that Lund and Shroyer then picked up Woodapple's body, placed it in the cabin and burned the body and building together. Lund and Shroyer were later arrested near Monticello by Constable Joseph Moore and deputy Bert Little of that place.

GREAT DOCK SYSTEM IS PLANNED FOR RIO JANEIRO

Piers With Frontage of Twelve Miles Will Be Constructed

WASHINGTON, Oct. 13.—The greatest dock system in South America, with a frontage of 12 miles, will be put into operation when the planned extension of the present works of Rio de Janeiro is completed. There will be three great piers at a distance of 1.15 feet from each other.

It is estimated that the addition of piers will add about \$19,500,000 to the cost of the entire work. The average annual tonnage at Rio for the last three years has exceeded 2,000,000. The government has determined to lease the docks to private parties.

STUDENTS FIGHT FIRE ON CAMPUS

Stanford Sorority and Fraternity Houses Endangered by Stubborn Blaze

STANFORD UNIVERSITY, Oct. 13.—The campus community was startled this afternoon when a stubborn blaze broke out in the heart of the group of fraternity and sorority houses. A crowd of several hundred undergraduates quickly assembled and, together with the volunteer department, succeeded in confining the flames to a small building adjoining the Alpha Phi sorority house.

A high wind was blowing at the time, and but for the prompt action of the fire fighters it is probable that great damage would have been done.

Because of a decided increase in the registration of students in the local department of botany who are interested primarily in the study of forestry, a forestry club of undergraduates has been formed. The new organization will be fostered by the members of the faculty, who are enthusiastic over the project, and work will be carried on by the students upon independent studies. While no special forestry courses are given here, Prof. W. R. Dudley is a well known forestry expert and has held important commissions under the government. The students will probably investigate the situation in the national park of the Big basin in Santa Cruz county.

Hugh A. Moran, who attained the distinction of being the first Rhodes scholar from Stanford university, returns to the campus yesterday after completing his work in the University of Oxford. He will soon leave for the orient, where he will accept a position as secretary of the Young Men's Christian association at Hankow, China.

TEACHERS OPPOSE AMENDMENT NO. 24

President Hunt of High School Association Sends Appeal to Voters

PALO ALTO, Oct. 13.—That the amendment to the state constitution providing for the reorganization of the state board of education should be defeated at the polls was the gist of a message sent throughout the state by Rockwell R. Hunt, president of the California high school teachers' association, and J. C. Templeton, the secretary. The proposed amendment, No. 24, is said to be "ill considered, palpably unfair and really perilous to the interests of the school system of our great state, especially to the magnificent body of secondary schools."

The chief fault found with the proposed measure was that it neglected the high school teachers in the reorganization of the state board of education, drawing the members of that body from other branches of the school and college systems of the state, and that it placed the certification of high school teachers in the hands of the county boards of education. That was "extremely objectionable," the communication said. Fault was also found with the fact that Stanford university would be represented on the state board in preference to any other non-state institution, and that the governor was to appoint a "practical business" man to the board. This last was looked upon as an opening for politicians.

It was set forth that the directors of the Kern and Utah crown oil companies were made in agreement in 1907 whereby the Utah company was to transfer 149,500 shares of its capital stock to the Kern company in return for deeds to valuable lands in Kern county. The Kern company, it was asserted, failed to keep its part of the agreement and refused to give up control of the Utah company and was about to sell the valuable lease to the Babcock company.

HANDY RELIEVE STOMACH DISTRESS AND INDIGESTION

As there is often some one in your family who suffers an attack of indigestion or some form of stomach trouble, why don't you keep a case of Diapiesin in the house handy? This harmless blessing will digest anything you can eat without the slightest discomfort, and regulate a sour stomach five minutes later. Tell your pharmacist to let you read the formula plainly printed on these 50-cent cases of Diapiesin, then you will readily see why they cure indigestion, sour stomach, heartburn and prevent at once such miseries as Belching of Gas, Eructations of sour undigested food, Nausea, Headaches, Dizziness, Constipation and other stomach disorders.

Some folks have tried so long to find relief from indigestion with the common every-day cures advertised that they have about made up their minds that they have something else wrong, or believe there is a case of nervousness, Gastritis, Catarrh of the Stomach or Cancer. This is a serious mistake. Your real trouble, is, what you eat does not digest; instead, it ferments and sours, turns to acid, Gas and Stomach poisons, which will putrefy in the entire digestive tract and intestines, and besides, poison the breath with nauseous odors. A hearty appetite, with thorough digestion, and without the slightest discomfort or misery of the Stomach, is waiting for you as soon as you decide to try Diapiesin.

One candy-like Triangule, taken after eating, will promptly digest all your food, the same as a strong, healthy stomach would do it.

McBRIDE ARRESTED ON LIBEL CHARGE

City Recorder of Richmond Files Criminal Complaint Against Attorney

RICHMOND, Oct. 13.—A. G. McBride, an attorney, was arrested here today on a charge of criminal libel preferred by T. D. Johnston, city recorder and republican nominee for the assembly. McBride was taken to Martinez and released on \$5,000 bonds, which were furnished by August C. Lang of this place, democratic nominee for the assembly.

Johnston alleges that McBride libeled him in a signed communication published in a local paper Saturday and another addressed to the city trustees. Johnston accuses McBride of having caused to be published the letter in the local paper, in which it was implied that Johnston was derelict in his duties as city recorder and that he was given to throwing dice for 50 cents a throw instead of attending to the affairs of his court.

Following the publication Saturday of the letter of which Johnston complains, the latter hunted up McBride and a wordy war, that threatened to end in a physical encounter, ensued.

The warrant for McBride's arrest was issued at Martinez and served by a deputy sheriff. When the officer with the warrant went to the attorney's office today McBride refused him admission and the deputy sheriff was forced to break in the door.
