WOMEN ARTISTS SHINE AS MINIATURE PAINTERS

Wonderful Revival Marks This Style of Brush Work
There is no more delightful work for feminine fingers than the painting of miniatures, a branch of art which has seen a wonderful revival in these latter years. The women miniaturists of today are in a very sensible majority, and yet it can scarcely be alleged that they carry off the highest honors any more than they did in Georgian days. If a reason for that fact be sought it is probably in the lack of seriousness with which miniature painting is regarded. An impression prevails that the art of miniature painting may be learned in a dozen lessons. No more erroneous impression could get abroad. Good drawing is essential to portraiture, and even slight errors make sad havoc when a picture is on a small scale. More than accuracy is necessary, moreover. There must be a true appreciation of the minutiae of things as well as minute attention to details. It is the casual nature of most of the feminine miniature work which is responsible for the low estimation in which the modern output is held. Even in the past the number of notable feminine miniaturists is comparatively small. Maria Cosway enjoyed a reputation that threatened the supremacy of her husband at times, but the modern verdict upon her portraits places them very distinctly lower than did her contemporaries. Mrs. Mee stands highest in repute, and she is well represented in the collection of English castles, which is by much the finest in the country.—Philadelphia Record.

San Francisco Motor Club Officials to Make a Test Case

Intend to Carry the Marin County Controversy to the Higher Courts

By R. R. L'HOMMEDIEU
The board of directors of the San Francisco motor club held an interesting meeting yesterday. The principal work was the consideration of the arrest of several of the members for driving over a bridge in Marin county faster than four miles an hour on the club run a week ago, when the road race was held in the City of Roses. H. M. Owens, a director of the club and a local attorney, set forth the injustice of the case, and it was decided by the board to bring it to an issue and carry it to the highest courts. It was decided also to hold a conference with the officers of the San Francisco motorcycle club officials concerning the proposed consolidation of the two clubs. H. R. Green was appointed chairman of the committee. He will have charge of the work of increasing the membership. At the next quarterly meeting, which takes place June 8, the regular business of the club will be followed by an informal jinks.

Big Climb of Rambler

L. H. Bill, manager of the local house of Thomas B. Recently J. E. Winkle of Eugene reached the summit in a Rambler 34 horsepower roadster. The car took the steep grade with the greatest ease, and in a short turn meeting with difficulty, this being occasioned by the tires slipping on the grass on the mountain side. The car carried three passengers, including the driver, and made the descent without incident.

GRAT SUCCESS ATTENDS VISITOR
Cooper Converting San Franciscans to His Theories and Medicines

Trained Nurse Says She Has Never Seen Results Equaled by His Preparation

The sale of L. T. Cooper's preparations, now going on at The Owl Drug Company's store in the Phelan building, is surpassing anything of the kind ever before seen in San Francisco. When Cooper came to this city a few weeks ago reports of the remarkable success of his medicines in the east had preceded him. These reports are now duplicated by his success in San Francisco, as the young man is receiving calls from an immense number of people each day. The most conspicuous feature of the interest Cooper is arousing here is what local people have to say who are using the much discussed medicines. The following statement is among those obtained recently: "Mrs. W. R. Harris, living at 2023 Fillmore street, on Thursday afternoon said: 'Two years ago, while I was living in New Orleans, Mr. Cooper spent some time in that city introducing his medicines, as he is now doing in San Francisco. At the time I speak of I had suffered with stomach trouble for 15 years and had become a chronic dyspeptic. I am a trained nurse by profession and had been taught to make medicine only when prescribed by a physician after a diagnosis. However, I had received treatment from many prominent physicians without obtaining relief and I had lost faith in anything helping my case. 'A lady whom I had nursed through a serious illness called me up one day and told me this Cooper medicine had entirely relieved her of a chronic case of gastritis and suggested that I try it. She even said she would pay for the medicine if I would take it. On her recommendation I secured the treatment and was entirely well six weeks later. I have never had any trouble with my stomach since. 'My husband has had rheumatism and stomach trouble for some time and I have tried to buy the same medicine for him here in San Francisco, but could never find it until Mr. Cooper arrived a month ago. I bought the treatment at once when he came. My husband has taken it regularly and has now no sign of either rheumatism or stomach troubles. In all my experience as a nurse I have never seen such results accomplished by any medicine, when prescribed by a physician or otherwise. I believe it to be a genuine specific for most forms of stomach trouble.'"

EAGLES' HONORS GO TO VALLEJO AERIE

State Meeting at Santa Cruz Concluded With Excursion and Dance at Beach
[Special Dispatch to The Call] SANTA CRUZ, May 20.—The Eagles' state meeting is at an end after four days of business and pleasure. Today was given over entirely to pleasure excursions. Large crowds visited the big trees on a special excursion, and the occasion was made especially interesting because a large redwood was dedicated to the Fraternal Order of Eagles. The ceremony was carried out in a formal manner, the tree having been informally set apart by Grand President Theodore A. Bell and his assistant, J. S. Parry, a year ago. It has long been a custom to dedicate a big tree to every state gathering which comes to Santa Cruz. In the Casino ballroom, appropriately decorated, the merry Eagles and their women friends are dancing tonight to the music of the beach band. Enoch Alzina of the local aerie is floor manager.
