

# POLICE CHARGE "SCOTT'S" BIG WOMEN MEETING

## Great Demonstration of Union Men in Philadelphia Is Broken Up

## Sympathetic Walkout Draws 500 More Men From Baldwin Works

PHILADELPHIA, March 10.—Police with clubs today blocked the plan of the striking carmen to make the center of the city the scene of a big demonstration.

The police used "high handed methods" and "brutal, unwarranted force," the strike leaders claim in statements issued tonight. "With no more force than was necessary to check in its incipiently what might have been serious disturbance of the peace," the authorities assert.

"Much of this city hall" is a slogan that has been heard before in disturbances here. Suspecting that the crowd of 10,000 or more who had been prevented from holding an open air meeting in the National league ball park would take up the demonstration of march today, the authorities took measures to prevent the invasion of the city's central districts by what it was feared might prove a turbulent mob.

### POLICE CHECK MARCHERS

Lines of police, with active clubs, partially checked the marchers on their way down Broad street more than two miles from the objective point. A mile farther down they broke up the parade altogether. Half a dozen persons were injured in the onslaught and a suspension of arrests were made.

Crowds of unwonted proportions thronged the spaces about the city hall until nightfall, but there was no organized demonstration.

Tonight at meetings of workmen in various parts of the city and in statements by the strike leaders incidents of the afternoon were used as arguments to convince men who are still sticking to their jobs that the time had come for all workmen to stand together.

### CARS ARE STONED

There were a few scattered points where disturbances of minor character broke out today.

Several stores broke windows in a number of cars. More cars were operated than on any other day since the strike began—1,140 the company reported—or 36 in excess of yesterday's high record.

At Broad street and Columbia avenue a car was assaulted with bricks and other missiles. The policeman on the car drew his revolver and a moment later was struck with a brick. He was sent to a hospital.

Five newspaper reporters who came down Broad street in an automobile at the head of the crowd were placed under arrest. They have been traveling with Pratt since the strike, and the assistant chief of police took away their identification and detained them in prison in the city hall pending a disposition of their cases.

Spread of the general strike over the whole state is still considered a distinct possibility. Tomorrow the business men of the city will make a new attempt to bring about a settlement.

The strikers gained today through recessions from the Baldwin works of upward of 500 men. On the other hand, various manufacturers reported the return to work of many hands who had worked out an obvious defection from the strikers' ranks was that of 100 taxicab chauffeurs. Scores of cars were actively in service today and tonight.

### CROWDS GOOD TEMPERED

In the business section tonight the good temper of the crowds was favorably commented upon. "The general nature of the sympathetic strikers," said a businessman, "have no grievances of their own and are evidently not disposed to push things to extremes."

The commission of ten estimates the number who gathered for the meeting at the ball park at 60,000 and declares that the police rode into these crowds and inflicted injury upon peaceable citizens without cause.

Of the general situation the commission in a formal statement said: "The general strike of labor in Philadelphia has just begun. We are receiving hourly assurances from hundreds and thousands of men and women that they will throw down their tools and join in the strike."

For the first time since the strike was declared the process of injunction was invoked tonight. Curiously enough, the injunction was not an outgrowth of the present strike.

It was obtained originally by J. R. Keim & Co., worsted manufacturers, during the labor troubles a year ago. The formal writ of injunction, however, was not served at the time of the trouble having subsided. Today the firm, complaining that its satisfied hands were being interfered with by pickets and agents of the cloth weavers' union, obtained copies of the old injunction for immediate service upon all concerned with the present troubles at its mill.

The stock of the Philadelphia rapid transit company which was selling at 25 on February 26, the day the strike of its carmen began, broke nearly \$1 a share today. The stock is par \$50 with that amount paid in and today's price is the lowest in years.

### Miners on Strike

GREENSBURG, Pa., March 10.—Three thousand miners in eight mines of the Irwin fields of Westmoreland county struck today, and the union leaders say that 15,000 will be out tomorrow.

The strike followed the organizing of the miners in this section, which has heretofore been nonunion, and is for recognition of the union.

Upon request of local miners organizers of the united mine workers of America came to the scene to aid and encourage the men, who now refuse to work with nonunion men. The discharge of 75 men, officials of the new local, precipitated the walkout.

At the Keystone coal company's mines at Carbon today John Strasser, a non-union miner, was shot in a quarrel between union and nonunion men.

### Arbitration Is Urged

NEWCASTLE, Pa., March 10.—The committee of nine appointed yesterday to devise means of carrying into effect the resolution for a state and possibly a country wide strike in the event arbitration fails in the labor situation at Philadelphia, reported to the convention of the Pennsylvania federation of labor here today.

President Greenawald of the state organization was authorized to call upon President Taft, Senator Penrose, Senator Oliver and Governor Swisher to use their best efforts to compel an arbitration of the carmen's strike within 10 days.

# VEHICLE SERGEANT RESTORED TO DUTY

## "Scotty" Campbell Is Again on Police Force After a Long Period of Illness

Two reinstatements to membership in the police department were made at the meeting of the police commission yesterday afternoon. Sergeant "Scotty" Campbell, one of the best known and most popular veterans of the force, was restored to duty at his own request after a long period on pension caused by ill health.

Robert Ingham, a policeman who took leave of absence after the fire, was the other member reinstated. In his application for reinstatement Ingham pointed out that within a few months after making leave he was ordered to report to duty and that as to have done so would have caused him great financial loss he was forced to resign. His case came up several weeks ago and a thorough investigation was made before a decision was taken.

Complaints that Chinatown guides soliciting in the vicinity of the Cliff house had become a nuisance to the public led to the questioning of several of these guides yesterday and resulted in an order that they must keep out of the highway.

Mrs. Louisa M. Mulrhead, proprietor of the Seal Rock house at the beach, was again before the commission yesterday. She was warned that she must discontinue with all music at her place under penalty of having her liquor licenses revoked.

Frank Mizner, the holder of a saloon license at Mission and Valencia streets, was tried on a charge that he was not the actual owner of the saloon, but simply gave the use of his name as a shield for an alien proprietor. The evidence was contradictory, but Mizner was warned that he would not be granted a renewal when the present license expired May 15 unless there should be a change in the management of the place.

The answer, which was received at the postoffice, was written by Harris, by Walsh. In it Mrs. Harris said that she would be the happiest woman in all the world if she could be with Walsh all the time, but she added that she could not leave him so long as she was living with her husband.

# CHINESE OPENLY VIOLATE FISH LAW

## Tons of Fresh Sea Denizens Destroyed Daily by Shrimp Fishermen

That tons of fresh fish taken from the bay by Chinese shrimp fishermen are being destroyed daily was established yesterday by the state senate committee investigating the high cost of living. In a trip around the bay the committee found large sacks of dried shrimps ready for shipment to China in violation of the law.

The committee issued a statement to the effect that two companies controlled the catch of sanddabs and soles, and that independent dealers were refused fish by these two companies. Remedial legislation will be proposed to the next session.

Attorney General Webb and District Attorney Fickert decided at a conference to submit the case against the fish trust to the grand jury.

Evidence of the wanton destruction of fish in the waters of the bay was established yesterday by the state senate committee which is investigating the high cost of living. A cruise to McNeers point, in Marin county, on San Pablo bay, took the committee to one of the three or four Chinese shrimp fisheries in the vicinity. The senators were astounded by the discoveries and were not slow in demanding to know why the state fish commission had not been enforcing the law.

On the shore of the bay the committee found half a ton of fresh fish which had just been thrown out of the set nets used by the Chinese to catch shrimps. In the mass of dead fish, which would soon be carried off by the tide, were tom cod, smelt, silver smelt, English sole, plain sole, sanddabs, eel, herring, skate and small crab. Most of the fish were very small. Cats, tame ducks and gulls were feasting on the dead fish. Back of the Chinese shacks were found tubs of fresh fish which had just been called. These were the most delectable which had just been hauled in by the shrimp fishers. Large quantities of shrimps were found spread out on boards to dry. There were also sacks of dried shrimps ready for shipment to China in violation of the law.

The approach of the investigation party spread alarm among the Chinese. Considerable quantities of oil which had been used to grease the boats, and the Alaska Pacific for Seattle, in a modest way, your exposition on a larger scale. I am highly honored by your invitation to join with men who have performed such wonders in San Francisco during the last year, and I believe that your committee can achieve success in any undertaking to which they may lend themselves. Believe me, sir, your very truly,

THEODORE B. WILCOX.

James K. Dais, a Kappa Sigma fraternity man of the University of Pennsylvania, who pleaded guilty of defrauding Colvert Cable, real estate dealer, of \$100 by means of a bad check, was admitted to probation by Judge Cabanis yesterday.

Davis then made the assertion that his wife's extravagance had impelled him to forge the check. It was shown that Davis had introduced himself to Caldwell as a fellow fraternity man, and on that account had induced him to cash the check.

He was arrested while trying to play the same trick on another Kappa Sigma man, whom he had referred to Caldwell for credentials.

# NEW ORLEANS IS AFTER EXPOSITION PERJURY CHARGES

## California Must Present United Front to Secure Congressional Appropriation

That frantic efforts are being made by New Orleans to wrest from San Francisco and California the honor of holding the exposition of 1915, in commemoration of the opening of the Panama canal, is the gist of a telegram received at the office of the acting secretary of the Panama-Pacific International exposition from Congressman Kahn. The telegram states that a delegation consisting of 25 representative businessmen of the Crescent City, headed by their mayor, is at the capital to intercede with the congressional committee on expositions in an effort to secure an appropriation of \$5,000,000 to be used to advance their exposition plans.

Kahn in his telegram urges the necessity of concerted action, holding that the dissension in the state of California at the present time may have a damaging influence with congress when the matter of an appropriation is broached.

In a letter from Congressman Kahn, received yesterday, he says that it is absolutely imperative that the entire state, and as a matter of fact the entire Pacific coast get into the "boost band wagon" and get there at once, all "pulling" for San Francisco, which is the logical position for the exposition. The letter states that every effort is being put forth by the Dixie-land aspirants to secure for their city the necessary support of the powers that be in Washington, adding that the matter has now become a state issue in California, and should have the indorsement of the entire state.

Following his telegram of acceptance of his appointment as honorary representative for the Panama-Pacific International exposition in the state of Oregon, and which she was in a store the two men disappeared with her money.

The following standing committees of the grand jury were named yesterday to act during the ensuing year:

# Grand Jury Takes Up the Con- sideration of Conboy Trial Accusations

Having completed its permanent organization the grand jury yesterday took up the preliminary consideration of the charges of perjury directed against certain witnesses in the trial of former Police Captain Michael Joseph Conboy and also investigated at length the swindling of Mrs. Marguerita Pantina out of \$4,500.

J. H. Shaw, proprietor of the Congress hotel in Ellis street, T. W. G. Lyons, who was a guest at the hostelry on the night Conboy shot Bernard Lagan, and T. F. Judd, formerly manager of the Merritt hotel in Geary street, appeared as witnesses. The shooting took place directly in front of the Congress house and the inquisitorial body sought enlightenment as to the persons who might have witnessed the affray.

Lyons was able to shed but little light on the matter and Shaw's testimony was mainly directed to the identification of handwriting in the register of the hotel.

Subsequent to the adjournment of the body Assistant District Attorney A. R. Cotton, who has the case in charge, said that yesterday's inquiry had merely been preliminary.

In the case of Louis Testa and Rafael Pasquini, who are alleged to have swindled Mrs. Pantina out of \$4,500 on December 13 of last year, the grand jury considered the evidence against Pasquini, who has so far eluded the police. His partner is now in the county jail awaiting trial.

Mrs. Pantina was defrauded by the two men by whom she had been persuaded to draw her money from the bank to prove that she was financially able to look after the interests of a child which was to be entrusted to her care. She was persuaded to place the money in a tin box and while she was in a store the two men disappeared with her money.

The following standing committees of the grand jury were named yesterday to act during the ensuing year:

Board of public works—streets, sidewalks, sewers and street railroads—J. Turpin (chairman), George D. Clark, Louis Gassner, Treasurer and auditor—Lawrence Arnstein (chairman), George D. Clark, E. L. # DREAMS OF FALL AND DROPS FOUR STORIES

## Youth Sees Realization of Un- canny Vision

Edwin Rottenberg, who dreamed of a fall night before last, fell four stories yesterday afternoon and now lies in the German hospital, completely scalped, the victim of a unique injury and the realization of an uncanny vision.

Rottenberg is 19 years old and is a student at the Wilmerding school of industrial arts. He has been working with a score of companions on the new school building at the corner of Sixteenth and Utah streets for some time. Yesterday he attended school in the morning with the strange dream running through his head. In the afternoon he climbed to the fourth floor of the nearly completed structure and mounted the brick layers' scaffold. He worked briskly on the outer wall of the building, forgetting his dream. Then came a slip, a cry and the dream came true.

Rottenberg was picked up in the street, bleeding profusely, his scalp completely torn off. He was hurried to the Mission emergency hospital, where he was treated by Doctor Callion. Later he was taken to the German hospital. He lives at 1126 Clay street.
