HAZEL IN HIDING HERE OR IN RENO

Boyd and Taylor Spend Day
Looking for Fugitive in
This City
Believe That If Captured He
Would Corroborate Ab-
bott's Confession

Efforts to trace the whereabouts of Frank Hazel, the fugitive defendant in the Sausalito fake poolroom cases, occupied the attention of District Attorney Boyd and Sheriff Taylor of Marin county yesterday to the exclusion of practically all other matters.

Hazel is wanted, not so much because of the indictment for grand larceny that is pending against him, as because both Boyd and Taylor feel sure that if captured and induced to make a confession he would prove to be even a more valuable witness than Joe Abbott, whose admissions drew Harry P. Flannery into the net.

Boyd and Taylor spent almost the entire day in San Francisco yesterday and followed up several clues that might lead to a discovery of Hazel's whereabouts. Boyd returned to San Rafael early in the evening, but Taylor did not leave San Francisco until nearly midnight.

Each of them said that the day had resulted in several important discoveries, but neither would discuss the nature of the information which they had received.

Boyd said last night, after his return to Sausalito, that he was confident that Hazel had not skipped the country, as was at first rumored, but that he was in hiding either in San Francisco or in Reno. He admitted that he had got in touch with some of Hazel's former intimates in this city and that he had learned several facts which might put him upon the right trail.

"I think that the chance of capturing Hazel is at least a good one," said Boyd last night, "but, of course, I am not at all sure that we will land him. I think there is no doubt that he is either in San Francisco or Reno, and there is no question in my mind but that some of his friends in San Francisco know just where we could lay our hands on him."

"Hazel knows more about the details of this poolroom proposition and more about the arrangements that were made in San Francisco and Sausalito for the protection of the unknown than Abbott does and would be our most valuable witness. I have information at hand which shows that if Hazel could be found and forced to come through we would not only have a much stronger case against Flannery, but would also connect up Supervisor Pistolesi with the 'protection' arrangements made in Sausalito."

"Hazel's testimony would not only corroborate Abbott but I have reason to believe that he was intimate with Flannery before he came to San Francisco with Abbott on this last trip. He also knew Pistolesi before, when he worked in one of the old poolrooms here in Sausalito."

Abbott, who returned to the Mark West springs Tuesday night, remained there yesterday and is not expected to return until this evening. Flannery will be taken up in Judge Lennon's court.

GAYNOR LOSES AID IN HEARST FIGHT

Controller Charges Mayor's Administration With Completing Cohalan Warrant

[Special Dispatch to The Call]
NEW YORK, May 4.—The Gaynor-Hearst row over the payment of \$38,000 to Daniel F. Cohalan took a turn today that threatens to cause a serious split and bitterly antagonize Mayor Gaynor and Controller Prendergast, whose relations heretofore have been harmonious.

Controller Prendergast cut loose from the mayor, and in a statement charged that the Cohalan warrant for \$48,000 was completed in the present administration and by City Chamberlain Harry H. Hyde, the appointee of Mayor Gaynor.

**FRANCIS J. HENEY MAY
CONFER WITH ROOSEVELT**

Belief That Attorney Has Sailed for Europe

[Special Dispatch to The Call]
NEW YORK, May 4.—It is believed here that Francis J. Heney has gone to Europe in response to a summons from former President Roosevelt. Heney came across the country in the same car with Mose Gunst about three weeks ago. Gunst does not know where Heney is, but another San Francisco man is positive that he has gone to Europe.

At the Waldorf-Astoria it is stated that Heney left there April 21 without leaving his address and asked that his mail be held there until his return.

His name does not appear on the passenger list of any steamship that sailed the twenty-first.

Just what former President Roosevelt wants to talk with Heney about is problematical, but it is probably concerning the Ballinger-Pinchot controversy.

Anyway, spinsters and old bachelors always agree as to how children should be brought up.

THERE MUST BE NO MORE DELAY ABOUT FENDERS

Supervisors Refuse to Grant the
United Railroads Further
Extension of Time

Streetcars Are to Be Equipped
With Proper Safety Device
at Once

**Police Chief Directed
To Enforce Ordinance**
Resolved, that the chief of police be and he is hereby instructed to use the police power of this city and county to enforce the provisions of bill No. 1245, ordinance No. 1109, new series, requiring cars operated over street railway tracks to be equipped with fenders. He is further instructed to arrest any person or persons violating the provisions of said ordinance. The co-operation of the district attorney in enforcing the above ordinance is also respectfully urged.—Resolution adopted by the board of supervisors.

By the foregoing resolution unanimously adopted yesterday afternoon the public utilities committee of the board of supervisors refused the plea of the United Railroads for a further extension of time in which to equip its cars with regulation fenders and recommended to the board as a whole the adoption of Supervisor Walsh's resolution instructing the chief of police to enforce immediately the fender ordinance.

The fender matter came up in committee through the submission of Walsh's resolution, a protest from the South of Army street improvement association against any further extension of time to the United Railroads to install fenders and through a letter from the United Railroads stating that it was absolutely impossible to comply with the ordinance within the specified time. The two latter matters were passed over without comment, no representative of the United Railroads being present.

The ordinance referred to originally called for the installation of fenders by March 15, but one extension was granted until April 30 and another until August 1 has been applied for. Black has stated that the first shipment of fenders is due in the city within a few days and that some of the company's cars will be equipped by the middle of this month.

The public utilities committee recommended to the board of supervisors the advertisement for the sale of a franchise for a street railroad extension from the affiliated colleges along Parnassus avenue, J street and Ninth avenue in the Sunset district. A protest of the building trades council against the carriage of freight by the United Railroads on its cars was put over for further consideration, with a request to the United Railroads to send a representative to the hearing.

A petition of the Poulson wireless telegraph and telephone company for permission to erect two wooden towers for a wireless station in the block bounded by Forty-seventh and Forty-eighth avenues, Noriega and Ortega street in the Sunset district was referred to the board of public works with a favorable recommendation.

Street Will Be Paved
Cheerful news for a large section of Richmond came yesterday from the board of works in the announcement of the commission that it would on May 25 receive bids for putting in pavement over the United Railroad's portion of California street between Sixth and Twenty-third avenues.

FERULLO TO GIVE OPERA PROGRAM

Steindorff-Le Brun Combination
to Be Next Attraction at
Idora Park

Ferullo's band at Idora park, Oakland, is playing its farewell week of concerts to crowds of enthusiastic music lovers every afternoon and evening. The many special programs the Italian director has arranged for this week are charming thousands every evening. His final popular program was played last night.

Grand opera night, one of the favorite programs, will be played tonight. The farewell Wagner program will be Friday's bill. Saturday will be music of all nations, and Sunday night Ferullo will give his last concert in the Idora band shell this season.

RAILWAYS NEED MORE FREEDOM, DECLARES TAFT

Aldrich Rallies Republican Sen-
ators and Calls for War on
Insurgents

Administration Program Will
Fail Unless We Get To-
gether at Once, He Cries

ST. LOUIS, May 4.—President Taft, as the guest of the Traffic club of St. Louis, tonight referred in a general way to the railroad legislation pending at Washington, but said he was not sufficiently informed of the situation to discuss it in detail. While he was federal judge of the sixth circuit from 1893 to 1906, he said, it fell to his lot to appoint receivers for nearly all the railroads in the circuit. He found at that time what, he said, a great many people seem blissfully ignorant of, that it takes "a whole lot of money to run a railroad."

He continued in part as follows:
"But I understand all the railroads are on a good basis now, and I hope they will continue so. Railroads are very much like every other business. If the receipts do not come up to expenditures, the red balance grows larger and larger until there is nothing before you but a receivership. I sincerely trust we will never experience again with respect to railroads or other business what we had to go through from 1893 to 1906."

CONDITIONS CHANGED
These days the railroads were not run entirely according to the law and a judge had difficulty even

SHIPPERS PROTEST FREIGHT INCREASE

Meeting Called by the Illinois
Manufacturers' Association
to Plan for Fight

[Special Dispatch to The Call]
CHICAGO, May 4.—Shippers and representatives of commercial organizations from all parts of the country will be called by the Illinois Manufacturers' association to meet and protest against the freight rate advances announced by the western railroads and proposed by the eastern companies. Plans for the conference, which probably will be held at the Congress hotel about May 20, will be considered at a meeting of the association's board of directors Friday.

The principal protest is directed against the advances in commodity rates between Chicago and the Missouri river and the increase of 8 to 12 cents a ton in coal charges to Chicago. The latter is to take effect next month.

The Illinois railroad and warehouse commission has ordered a hearing on the coal rates for tomorrow afternoon, at which railroad representatives and shippers will present their arguments.

"We are not going to stand still and let the railroads put over this advance without a protest," said Secretary John M. Glenn of the Manufacturers' association today. "Our course is still in-

definite, but we are going to fight the advance in coal rates at the hearing tomorrow as hard as we can. The railroads are making barrels of money, and the advances in wages to employees are not sufficient excuse for freight boosts.

"All last year, and in fact since September, 1908, the net earnings for all the roads in the country as compared with the corresponding month for the year before ran from \$3,000,000 to \$9,000,000 ahead. In November, 1909, the increase over November, 1908, was \$18,935,000. For the year ended June 30, 1909, 86 per cent of the railroad stock paid dividends aggregating \$38,000,000, or 7.9 per cent for the stock which paid dividends. That is better than any other line of industry. Railroading is the most prosperous business in the world. You can't show any other in which dividends are so general."

"The railroads' proposal to increase the charge for hauling coal 10 cents per ton would place a burden of \$4,355,805 on the people of Illinois."

Officials, Faculty and Students
of One Mind at Great Mass
Meeting

RESOLUTIONS ADOPTED
ASKING FOR RELIEF

The Call Is Thanked for Efforts
in Campaign for Better
Physical Training

LESSON OF DEFEAT
CITED BY ATHLETES

Mass Meeting Extends
Thanks to The Call

At a mass meeting last night of those interested in affording the pupils of the San Francisco schools better facilities for physical training the following resolution was adopted:

Whereas, The San Francisco Call has at all times consistently advocated greater playground facilities in the city; and

Whereas, The San Francisco Call has been directly instrumental in calling together this mass meeting with the object of benefiting the public school population of San Francisco; therefore

Be it resolved, that the thanks of this meeting are extended to the said San Francisco Call.

WHEREAS, there are enrolled in the public schools of San Francisco over 41,000 children who spend the greater part of the day in the confinement of school rooms or school yards, with practically no facilities for physical recreation or athletic endeavor; and

Whereas, in recent athletic meets held by schools about the bay counties the teams of the San Francisco schools have been overwhelmingly defeated because of the systematic training afforded their opponents; and

Whereas at the present time there is a great opportunity to encourage student athletics by affording the proper facilities, instructors and quarters, now therefore be it

Resolved that it is the sense of this meeting that the proper city authorities should do all in their power to afford the greater recreation grounds and the proper instructors to direct the athletic energies and physical training of the students of the schools of San Francisco.

And it is further resolved that a copy of this resolution be forwarded by committee to the board of supervisors, board of education, playground commission and park commission, expressing the sense of this mass meeting.

That the race is not always to the swift and that victory can be wrought out of the bitterness of defeat was evidenced in the mass meeting held last night at the Mission high school auditorium by the representatives of the vanquished San Francisco track teams who lost the laurels of the Stanford interscholastic meet two weeks ago.

The real struggle of the local athletic enthusiasts, which has been made in silence for years, broke forth with a roar last night and the bonds of ancient prejudice which have so long retarded the progress of physical training in the school department of San Francisco were rent asunder.

NO PROFESSIONAL COACH
The death knell of the present professional coach was sounded by every speaker who addressed the gathering. Unanimous opposition to the old theory that a highly specialized track team coach is a necessity for the best efforts of amateur athletics was voiced by the entire meeting and much of the inefficiency of the school teams in the last few years credited to this evil. Characterizing present conditions which surround the physical training of the school children of the city as deplorable, President Thomas R. Bannerman of the board of education, sounded the keynote of the occasion, and his earnest plea for greater playground facilities in connection with the schools was loudly applauded.

Interest in the objects of the meeting displayed itself in an enthusiastic attendance from every high school, athletic league and body in the city. When Chairman Joseph Hickey wielded the gavel and started the program, the platform behind him was filled with principals of the high schools, instructors, members of the board of education and playground commission, officers of the San Francisco school athletic league.
