

AUTO FALLS WOMEN'S SILENT GIRL VICTIM

Mysterious Accident on Bad Stretch of Road Costs Life of Eldest Daughter of Dr. George C. Pardee

With Miss Thomson. The latter, on being freed, put aside her own injuries and ran for aid. She fled to the nearest house, the residence of E. J. Malendin, and, finding him at work in his garden, told him of the accident.

Aid Comes Quickly Malendin immediately responded to her appeal for aid and hurried to the scene, but by the time he arrived there others, who had heard the screams of the women as the machine toppled over the embankment, were there, aiding Sadler and Bryan in lifting the wrecked machine off the prostrate form of Miss Pardee.

Following the accident, her body, accompanied by Sadler and Bryan, was taken to the coroner's office in San Rafael. The other women were left behind at Chappaqua.

Sadler was almost hysterical with horror at the outcome of the drive. "I haven't the least idea of how the accident came about," he said.

It is thought that Doctor Pardee and wife will reach Oakland tomorrow evening, although the conjecture is founded only on the belief that they will take the quickest train west.

NO BONES WERE BROKEN An examination of the body at the coroner's office in San Rafael showed that there were no bones broken, and the only injury to the head was a slight contusion over the brow.

It is thought that Doctor Pardee and wife will reach Oakland tomorrow evening, although the conjecture is founded only on the belief that they will take the quickest train west.

As I said, I have not the least idea what happened. We might have struck a rock and skidded, or a part of the road might have given way.

Our first wish was to free the women. My mother and Miss Thomson were taken out practically uninjured, though both, of course, were shaken up considerably.

There will be a wide range of instruction from establishing field bakeries, field hospital work, and the maintenance of wireless telegraphy, patrol, outpost and reconnaissance duties, company, battalion, regimental and brigade solutions to the more important problems of war.

The maneuvers probably will culminate in a battle between the red and the blue armies, in which one will represent an invading army landing at San Diego or Monterey and marching either on San Francisco or Los Angeles.

FORTS TRADE QUOTE DISMISS NAVY EXPERT

Talk of Universal Disarmament "All Rot," Says Hero of Atlantic Fleet Trip

Would Demonstrate Advantage of Oil as Fuel for Floating Arsenals

Continued From Page 1 selves. An exposition would bring them to this coast.

"We should have an adequate fleet on this coast. There should be no shifting of the fleet from the Atlantic to the Pacific and back again. There is no telling when some fellow will sneak in and drop a stick of dynamite.

As a result of his recent trip through the oil fields of this state, Admiral Evans is particularly enthusiastic about the use of oil as fuel for the navy.

At last night's conference with Admiral Evans were the following: Admiral Robley D. Evans, of the fleet; Brown, James McNabb, Gavin McNabb, S. Fred Hogue and Al Lindley of the exposition committee; Timothy Spellacy of Los Angeles, candidate for lieutenant governor of California.

In connection with the recent passing of resolutions by the extraordinary session of the legislature, which provide for the amendment of the constitution so as to allow the people of the state to tax themselves for \$5,000,000, and the citizens of San Francisco to bond themselves for a like sum.

Following is the governor's statement in full: An amply pleased with the action of the legislature and approved heartily of the careful manner in which a complicated problem was handled.

For the very reason that the west is able to demonstrate its ability to handle the greatest exposition in modern times, this whole section should profit and benefit to an extraordinary degree.

With the co-operation of sister states and foreign countries, to say nothing of private exhibitors and contributors, a great deal will be added to the original plan.

It is a matter of fact that the people of this state are in earnest—it will pay in California, and I sincerely hope that this great impetus to western development may come to San Francisco.

Lieutenant Governor Warren R. Porter, in speaking of the proposed amendments to add the exposition, said: "I consider the Panama-Pacific exposition to be held in San Francisco in 1915 to be a matter of the greatest importance, not only to California but to the entire west."

"I consider the Panama-Pacific exposition to be held in San Francisco in 1915 to be a matter of the greatest importance, not only to California but to the entire west."

EXPOSITION BELONGS HERE, SAYS ADMIRAL "FIGHTING BOB" INDORSES SAN FRANCISCO

By REAR ADMIRAL ROBLEY D. EVANS, U. S. N., Retired.

San Francisco is pre-eminently the city for the Panama-Pacific canal exposition. This exposition should be held west of the canal and not east, for the canal means more to the west than it does to the east.

A great naval pageant is one of the most important features of an exposition celebrating the opening of the Panama canal. San Francisco is ideally fitted for such a naval demonstration.

The great empire west of the Rocky mountains is today the most interesting section of the globe. In the richness and variety of its resources, the daring spirit of its people, the sure promise of its future, it is the most fascinating study anywhere provided by the present day world.

This vast, complex, comprehensive territory deserves a real world's fair. The right time to hold that fair will be in connection with the opening of the Panama canal.

There could be no more dramatic episode than a world's fair which is the guest of a city wiped from the face of the earth less than five years ago, but now rebuilt so that even traces of that catastrophe have to be hunted for.

plained this evening and demonstrated by stereopticon views by Claude N. Bennett, manager of the congressional information bureau of Washington, D. C., at lecture in Dreamland rink, Post and Steiner streets.

It has been ascertained that the burglars who ransacked the home of Leon Sloss, 2610 Pacific avenue, Saturday night secured considerable plunder, but the extent of the loss is not known.

Neither the Japanese servant, who discovered the burglary, nor the police, who made an investigation yesterday afternoon, were able to arrive at an estimate of the loss.

When the Japanese set about his work yesterday morning he found the house thoroughly ransacked. An investigation by the police showed that burglars had forced open the rear door with a jimmy.

They made the rounds of nearly every room in the house, tearing out the contents of bureaus and closets and strewing them over the floor.

The Sloss family will return from San Rafael today and an inventory of the house will be taken to determine just how much loot the burglars obtained.

CHANLER'S FAMILY MAY SAVE FORTUNE

Trustees of "Sheriff Bob" Prepare to Keep Income From Lina Cavallieri

Emotional Insanity, Like Harry Thaw's "Brain Storm," to Be Defense to Suit

[Special Dispatch to The Call] NEW YORK, Sept. 11.—"Sheriff Bob" Chanler is still in hiding. Members of his family, however, know where he is, and continued their conferences today in an endeavor to find a remedy for the situation in which the mad infatuation of the former millionaire for the opera singer has placed him.

When Lina Cavallieri, whose debut was made in a cafe, put her arms about the neck of Chanler and induced him to sign away his income she brought to bear upon him a world of experience whose value she could not have misanderstood.

In 1895 Cavallieri was a milliner—a step upward from the bareheaded girl—in Rome, with vaudeville aspirations. She made her real debut in vaudeville at the Orfeo in Rome.

DUMBARTON BRIDGE FESTIVAL PLANNED

Newark Prepares to Celebrate Opening of Traffic With Oratory and Barbecue

NEWARK, Sept. 11.—Ten thousand persons are expected to attend the festival with which the town of Newark will celebrate the opening of the Dumbarton bridge, September 24.

Railroad and public officials will speak, and besides the coronation of the queen, who is now being chosen by vote, there will be athletic and a barbecue to complete the festivities.

District Attorney W. H. Donahue will be one of the orators, delivering a coronation address. Three aspirants are receiving votes for the honor of wearing the queen's crown.

Ben Artigo, who years ago earned fame in the bay region for his skill as a barbecue chef, will prepare a feast for thousands and several old residents will help him in this feature of the entertainment.

For the athletics, the chief interest will center in a baseball game between the fast Phoenix team of St. Mary's college, Oakland, and a picked nine from the Olympic Athletic club, San Francisco.

Both teams rank among the cleverest diamond amateurs on the coast, and the game will be of sufficient interest to draw a big crowd.

All the races customary at a country carnival will be revived here. There will be contests for the speedy athletes, and prizes will be provided for three-legged races, sack races and "greased pig" races.

To pay the expenses of the day's fiesta, the citizens of Newark are collecting subscriptions and the money raised here already amounts to nearly \$2,000.

Besides this the Alameda county supervisors have given \$250, and several corporations either located here or having local interests will make up the balance.

"We expect that the crowd will come from all parts of Alameda and Santa Clara counties, as well as from San Francisco by the first special train."

said J. W. Hefner of the finance committee. "The queen will be elected several days before the carnival, so that all arrangements for the festival can be completed in time for the entertainment of our visitors."

TRAMP, TRAMP TO CAMP ATASCADERO

Second Big Military Maneuvers in California to Begin Saturday

PASO ROBLES, Sept. 11.—The second big military maneuvers to be held in California and jointly participated in by the United States troops stationed in California, Arizona and New Mexico and the national guard of this state and the two territories, will commence at Camp Atascadero next Wednesday.

Brigadier General Tasker H. Bliss, who took charge of the department of California maneuvers, will be in command of the joint maneuvers. Approximately 100 troops, regulars and militia, will be in camp.

Two years ago the first joint maneuvers between the regulars in the department of California and the militia of California and Arizona were held at Atascadero under the command of Colonel Marion P. Maus, now brigadier general in command of the department of Washington.

The results were so gratifying to the war department that the big maneuvers on the coast, in oak studded hills and pretty valleys, located about eight miles from Paso Robles and midway between San Francisco and Los Angeles, has been made one of the 10 regular biennial camps of instruction for the joint field training of the national guard with the regular troops.

A detachment of engineers from Fort Leavenworth, Kansas, under Captain J. R. Lukesh, has been detailed to the camp this year. Captain Lukesh will be chief engineer. He will have charge of the engineering problems during the maneuvers and, with his detachment, will give instructions in the laying out and construction of field works and entrenchments.

In view of the fact that there is a general impression that if there is another war in the near future it may be on the Pacific ocean coast, it is believed that the study of aerial craft for military purposes should not be confined to the army posts on the Atlantic coast and in the middle west. The plain to the west of the camp, about a mile in length and completely surrounded by a screen of hills, is believed by army officers to be admirably adapted to aeroplane flights. The request for the detachment of the army aerial corps has been granted by the war department, however.

The Atascadero maneuvers are designated as a "camp of instruction" and in reality will be that far more than a "camp of instruction" and in reality will be that far more than a "camp of instruction" and in reality will be that far more than a "camp of instruction."

San Francisco and Richmond—New Suburban Train Service via the Southern Pacific

Commencing Sunday, September 18, the San Francisco and Richmond train service will be extended to Richmond and way stations.

Leave San Francisco 5:40 p. m. and arrive Richmond 6:40 p. m. and 7:20 p. m. Leave Richmond 5:45 a. m. 6:25 a. m. and 7:05 a. m. arriving San Francisco 6:48 a. m. 7:28 a. m. and 8:08 a. m. Take Berkeley trains and transfer at Oakland. Sixteenth street.

See Agents Southern Pacific company. Ticket offices: Market street ferry depot; Market street and Thirteenth streets, Oakland.
