Grace Hamilton, the Captain of College Women's Boat Crews

GIRLS BEGIN WORK FOR RACE ON LAKE University Women Elect Captain and Start Training for Rowing Contests

BERKELEY, Sept. 15.—In preparation for the fall and spring activities of the women's crews at the university, Miss Grace Hamilton, who rowed in the sophomore boat at woman's day last year, has been chosen as varsity captain for the women. She succeeds Miss Hazel Myers, who is lost to the boat club by graduation.

With the appointment of Miss Hamilton, the women have taken renewed interest in boating and plans are being made for many races and practice spins on Lake Merritt and elsewhere this fall.

The interclass races will be held February 22, which is the red letter day for the boat crews, but the women have arranged to pay more attention to the sport than the mere training for these events.

Efforts will be made to secure a boathouse and the use of boats on Lake Merritt, and probably next summer it will be a common sight to see "four" and "eights" of women on the water.

Miss Hamilton will organize the university and class crews at once. A mass meeting of the university women yesterday afternoon in Hearn's hall funds were voted for the purchase of a new rowboat as the old one is beyond repair.

The athletics of the women students this year have attracted more than ordinary attention and 100 women are out for the daily basket ball practice under Manager Ned Hunt. Thirty women have joined the fencing squad and a similar number go swimming.

BERKELEY, Sept. 15.—A requisition for 25 "first aid" boxes for the use of the policemen of this city has been asked from the city council by Chief of Police August Volmer, who has requested that 20 instructional books be purchased to instruct the department in first aid to the injured.

The boxes will be so arranged that the contents can be easily secured by breaking a glass or unlocking the box. The first aid packages will contain dressings, gauze, tourniquet, vaseline, pliers, forceps, wooden splints, absorbent cotton, pins, shears, tweezers, ammonia, paper cups and an instruction book.

Berkeley is the first city in the west to take up the matter of instructing the police in first aid work, and the local Red Cross society has co-operated with the police in making the arrangements.

It is planned to have lectures delivered by a number of the prominent physicians before the police department each Friday on the various details of the work. These lectures probably will begin as soon as the instruction books are received by Chief Volmer.

The lectures will be followed by official examinations sent from the headquarters of the national Red Cross society in Washington.
