shocked at the anti-American spirit of the mob, which did damage to Mexico's reputation as a lover of peace.

POLICE SAW FLAG INSULTED

The ambassador charges that the police stood by while the stars and stripes were being insulted, but he adds that he does not hold the Mexican government responsible for the outrage.

Wilson made a detailed report to Washington. He states that the Americans in this country were refraining from acts that might embarrass an already difficult situation.

El Pais today makes a suggestion that a boycott be instituted against American goods and stores employing Americans and publishes a call for a mass meeting next Sunday for the purpose of drafting a form of boycott and arranging for its circulation.

The Diario del Hogar prints a cartoon showing the Mexican public clubbing Uncle Sam. While in the background was pictured the burning of Rodriguez at Rock Springs, Tex.

U. S. Delays Action

WASHINGTON, Nov. 10.—Official dispatches, giving details of the anti-American demonstration yesterday in Mexico City, reached the state department today from United States Ambassador Wilson and William Arnold Shanklin, the American consul general. Wilson confirmed the press reports that he had protested to the Mexican department of foreign relations against the insults offered Americans and said the riot grew out of the lynching of a Mexican, Antonio Rodriguez, at Rock Springs, Tex., on November 2, for murdering a woman.

Shanklin's dispatch said the riotous students who paraded the streets cried "Death to Americans," and threatened the consulate general.

FURTHER ADVICE AWAITED

He also told how those students had pulled an American flag from a business house and had trampled it under foot.

The department is awaiting further advices from Wilson before taking any action in the matter.

Secretary Knox, while deploring the situation in Mexico, believes it is not representative of the real attitude of the American and Mexican people.

In a formal statement tonight he says: "The manifestations of resentment toward Americans reported from Mexico are the cause of deep regret to the executive government and equally so, I am sure, to the American people."

"At no time have the governments and people of the two countries sustained toward each other closer and more cordial relations, predicated upon common purposes and sympathies, than now."

"It is most unfortunate that the brutal crime in our country of which a Mexican was the victim should be made the excuse for a demonstration of hostility toward Americans in Mexico. It is a satisfaction to believe that such demonstrations against Americans in Mexico and to punish those engaged in them, as the United States will be prompt to press for punishment of persons guilty of crimes against citizens of Mexico residing in this country."

At a late hour tonight it was announced at the Mexican embassy that no word of the troubles in the Mexican capital had been received from that government.

STRIFE IMPROBABLE  
Ambassador de la Barra called at the state department about noon, but said he had no information from his government regarding the anti-American demonstration in the City of Mexico.

The two governments are in this position: If the state department here finds that Ambassador Wilson's reports are correct, a polite request must be made on Mexico for an expression of regret for the demonstration and also suitable reparation if any damage has been suffered by Americans.

On the other hand, the Mexican gov-

JOHNSON CARRIES CITY BY 1,517 OVER BELL IN FULL RETURNS

Complete unofficial returns for San Francisco show that Hiram W. Johnson carried this city by a plurality of 1,517 votes over Theodore Bell, the total vote polled in San Francisco being 59,704. The socialist vote for J. Stitt Wilson for governor amounted to 9,459. Timothy Spellacy, democratic candidate for lieutenant governor, defeated A. J. Wallace in San Francisco by 8,332 votes.

JUDGE RAKER NOW SEEMS A WINNER

Incomplete Returns Show Democrat Leading Englebright by 480 Votes

That Congressman W. F. Englebright, republican, had been defeated by Judge John E. Raker, democrat, in the first district, was indicated by the incomplete returns yesterday. Figures compiled by the Grass Valley Union late yesterday afternoon gave Raker a lead of 480.

The incomplete returns showed Raker carrying 14 counties, with majorities as follows: Nevada 45, Siskiyou 425, Modoc 289, Shasta 126, Tehama 216, Trinity 30, Lassen 256, Plumas 119, Sierra 150, Placer 94, El Dorado 326, Amador 12, Mariposa 109, Tuolumne 123. Total 9,842.

Englebright is leading in the five counties remaining as follows: Humboldt 2,160, Del Norte 52, Calaveras 30, Alpine 50, Mono 70. Total 2,362.

The incomplete returns of the first day after the election indicated that Englebright had secured a lead of 1,000 at that time giving him a lead of nearly 1,000. When the returns began to pour in from the upper Sierra counties, however, Raker forged ahead, despite the great lead of Englebright in Humboldt county.

Should Raker win out he will be the only democrat in the delegation of eight which will represent the state in the next congress. In the seven other districts the republican candidates have such great leads that their election is absolutely certain.

EDITOR THINKS RIOTING OVER  
NEW YORK, Nov. 10.—Permanent impairment of the friendly relations between the United States and Mexico as the result of the anti-American outbreak is an impossibility, in the opinion of E. T. Simondetti, editor of El Diario, one of the leading newspapers of Mexico, who is visiting New York.

"I feel sure that the present demonstration is purely sporadic and was entirely the outcome of the unfortunate Rodriguez affair in Texas," Simondetti said tonight. "The rioting, I am confident, is confined to the students and that section of the populace whose feelings are easily inflamed by such reports."

"The government of Mexico will certainly take measures to suppress any further rioting. The relations are now friendly and this should not affect them," Ambassador Wilson is generally liked.

"NO WAR COMING," SAYS A MEXICAN SENATOR  
GUTHRIE, Okla., Nov. 10.—Senator M. H. Berzaluce of Coahuila, Mex., who is attending the federal court here, said tonight that the feeling against Americans which has resulted in mob demonstrations in Mexico is not general.

"I do not believe there is any danger of war between the two countries," he said. "Before this time there have never been a lynching in Mexico. Of course, our people did not like the lynching of a Mexican at Rock Springs, Tex., and the mob element was aroused by your yellow papers, which printed sensational stories about it."

Concerning the tearing up of the American flag by a group of students, Senator Berzaluce said: "The American stores keep paper flags for sale, and it was probably one of these that was torn up and not a flag that an American was flying out of loyalty to his country."

FREIGHT WRECK WILL BLOCK WESTERN PACIFIC  
Traffic May Be Stalled Several Days  
[Special Dispatch to The Call]

PORTOLA, Nov. 10.—Traffic on the Western Pacific will be stalled until the wreckage of a freight train is cleared away. The wreck occurred early this morning in the Feather river canyon. No one was injured in the crash, which resulted, it is said, when a heavy freight train attempting to round a curve at high speed. Several of the car trucks left the rails and tore up the roadbed for many yards.

Other cars piled into the wrecked ones and created further havoc. Wrecking crews are at work. The nearest switch is some distance away and it is possible that some delay will ensue before the track is open.

STEEL MAGNATE'S SON IN LAW JAILED

Supposed Nobleman's Name Is Not Found in Almanac de Gotha or Records

Into the room. When attendants prevented him the count is alleged to have threatened them.

The countess de Beaufort's arrival there was accompanied with some mystery and for days both hospital attendants and count de Beaufort denied that she was at the institution. Finally a statement was made that the countess had been seriously injured by a fall down a stairway at their home in Michigan avenue.

The same day count de Beaufort made a statement that he had been attacked by a negro near the Killgallon home and beaten about the face. Killgallon followed this with a statement that the count had hurt his face while shaving. An extended newspaper investigation only deepened the mystery of the countess' stay in the hospital.

Almost the same day a letter to a Chicago newspaper from the publishers of the Almanac de Gotha brought the news that no European list of nobility contained the name of count de Beaufort.

There is a government institution at Innsbruck, Austria, in connection with which there was established a few years ago a course of lectures and general instruction in hotel management which has proved eminently successful. Experience has proved that hotel school graduates secure good positions and are capable.

Der Schweizer hotel verein decided, at its session on October 17, 1910, to open a hotel school under the name of die Fachliche Fortbildungsschule des Schweizer hotel vereins. This institution has an eight months' course, beginning September 15 and ending May 15. From 30 to 33 recitations are held each week upon practical branches relating to the management of first class hotels. Following is a synopsis of the course of study: Languages—French, German, English, Italian; arithmetic; geography; from the tourist's point of view; Swiss history; penmanship, artistic and plain; book keeping; general information; service study, relating to the care of guests; customs and manners; hotelier; hygiene; athletics; dancing.

The school is located upon its own premises at Coe, near Leusanne, in a beautiful park overlooking Lake Geneva, with the Alps in the background. A vacation of 8 or 10 days is granted during the Christmas holidays.

The cost of board, lodging and tuition is, for a native Swiss, 120 francs (\$23.16) per month; for a foreigner, 150 francs (\$28.95) per month. Special reduced rates are quoted to native Swiss who are in straitened circumstances, but not more than four are admitted under these circumstances in any school year. Other expenses the student must bear are laundry bills, textbooks, contributions of 3 francs (58 cents) a month for polishing shoes, brushing clothes, and for special services, and a

SCHOOL FOR HOTEL EMPLOYEES OPENED

Students Taught Languages, History, Customs, Manners and Dancing

The business of conducting a first class hotel has developed into such an international character and requires such wide scope of training and knowledge that in Europe steps are being taken for the establishment of schools to furnish this special training. In Switzerland such a school has been in operation for years.

The prevailing method of training young men for this business in Switzerland is to send them to the large hotels in foreign countries, where foreign languages and customs may be learned first hand, and where lessons are learned that enable the young man to engage in business and put into practice the ideas he has gleaned in different parts of the world.

The French hotel keepers have conceived the plan of establishing a hotel school in Paris. One of the chief objects is to bring some system into the training of a hotel clerk. On account of the complex organization of the modern hotel, with its electric and ice plants, laundries, hot water supply, and various other departments, the manager with only a slight knowledge of book keeping, hotel service or the kitchen is no longer able to fill his place adequately. A knowledge of hygienics, engineering, architecture and especially languages is essential.

The Syndicat General de l'Industrie Hoteliere et des Grands Hotels de Paris, in January, 1910, organized a school to be known as l'Ecole d'Industrie Hoteliere, and an institution for lodging the student boarders. The school opened October 2.

The number of boarding students for the first year has been limited to 30. Two-thirds of this number will be reserved to members of the hotel syndicate of Paris and of the hotel syndicates of the province and of the foreign who wish to enroll. As will be observed, this is mainly a local institution and preference will be given to members of the syndicate. The minimum age of admission is 16. The scholastic year will consist of eight months, beginning in October and ending in June, with two weeks vacation, one week at New Year's and one at Easter time.

Two and a half millions will be spent to develop electric power from the River Sure in Belgium to produce power for the city of Luxembourg.
