POULTRY LOVERS
CROWD TO EXHIBIT

Many Awards Are Made to Blue Blooded Birds in Banner Show

OAKLAND, Nov. 24.—Thanksgiving day very appropriately brought the banner crowd of the week to the seventh annual exhibition of the Alameda County poultry association, C. D. Postel, president, and E. K. Healy, secretary, now being held in Piedmont pavilion.

All day long the people came trooping in to view the many prize birds on show. Never in the history of the association have there been so many prize winners and many ribbons have been awarded to the chickens, turkeys, geese, ducks and other birds.

A feature of the exhibit which is attracting a great deal of attention is the exhibit of tame quail, the property of J. Dirks of Alameda. About four years ago Dirks found a number of young quail on his doorstep. He raised them and since then they have been laying eggs for him and hatching.

H. R. Noack also has a fine display of three varieties of game pigeons, the Chinese, the ring-necked and the silver. These birds seem to be content to remain in captivity and breed their young in their pens.

All the birds have been judged now, with the exception of the white and barred plymouth rocks. The special prizes for the best bird in the show will be made tomorrow. Additional prize winners as announced today are as follows:

CLUBWOMEN PLAN
MANY ACTIVITIES

Oakland Organization Purposes Extension of Work With Proceeds of Recital

OAKLAND, Nov. 24.—The members of the Oakland club will present Ellen Terry in "Heroina Triumphant of Shakespeare" with illustrative acting, Friday, December 2, and the proceeds will be devoted to the extension of the clubwomen's work and influence.

While the Sunday assemblies have never been inaugurated on this side of the bay, the success of affairs arranged by the California club of San Francisco has determined the directors of the Oakland club to follow the precedent and early in January to begin the winter series of entertainments. The lectures, musicals and book reviews will be planned primarily for women who are engaged during the week and have no time to devote to this phase of social life.

In addition to the assembly the club is desirous of opening a reading room for boys and girls in lower Broadway in connection with the detention home.

Society, philanthropic and club circles, students of literature and art will unite in welcoming Miss Terry. The women who are supporting the Oakland club in presenting her are:

- Mrs. Thomas Crallin, Mrs. Benjamin Ide Wheeler, Mrs. George Greenwood, Mrs. Mark Regua, Mrs. William B. Sharon, Mrs. Frank Havens, Mrs. John Adams, Mrs. W. W. The Doctor's Answers On
Health and Beauty Questions
By DR. THEODORE BECK

The questions answered below are general in character; the symptoms or diseases are given and the answers will apply to any case of similar nature.

Those wishing further advice, free, may address Dr. Theodore Beck, College Edge, College Elwood road, Dayton, Ohio, enclosing self-addressed, stamped envelope for reply. Full name and address must be given. Fictional names will not be used in my answers. The prescriptions can be filled at any well-stocked drug store. Any druggist can order of wholesale.

Mack—Your request for a simple but efficient cough and lung remedy has already been answered in these columns, but I will re-peat this formula, which is superior to anything I know of to cure chronic bronchitis, hoarseness, whooping cough, sore throat, etc.

Obtain from any well stocked druggist 24-grain package of essence of Meath-Laxene and mix it with a home made syrup according to directions accompanying it; this makes a full pint of the laxative, curative and tonic cough syrup, superior to patent or labeled goods and about 8 times cheaper. It makes the most effective cough remedy that I have ever prescribed.

Nervous—I receive many letters from both men and women who class themselves as "nervous wrecks." Some attribute their condition to dissipated lives, some to society and its functions, some to indigestion of youth, and others have no explanation.

This condition begets much misery, melancholia, and is accompanied with such symptoms as timidity, downcast eyes, lack of confidence, lost memory and vigor, cold extremities, dizziness, heart palpitation, trembling limbs, shortness of breath, sleeplessness, discontent, irritability and a general inability to act naturally at all times. Scientifically concentrated drugs, free from opium, cocaine and the like, will overcome such conditions. Obtain these ingredients separately, avoid any embarrassment, and mix at home as follows: Get three ounces of compound syrup of sarsaparilla in a six-ounce bottle.

Get one ounce each of compound fluid balsam of capivi, compound fluid extract of sassafras, compound fluid extract of cascara, compound fluid extract of codonopsis, compound fluid extract of gentian, compound fluid extract of guaiacum, compound fluid extract of licorice, compound fluid extract of nuxvomica, compound fluid extract of sassafras, compound fluid extract of sarsaparilla, shake well and take a teaspoonful after each meal and one when retiring. The mucous membrane of the throat and the lining of the stomach will be soothed and the bowels will be regulated. This makes an excellent healing balsam when applied to the nostrils daily. Use the remainder of the powder as a nostril wash, a half teaspoonful to a pint of warm water, strain from the bowl of the hand well up into the nostrils until all mucus is removed. Do this twice daily and in a few days the nasal passages will be clear. Keep up the treatment as a preventive.

Margaret—My pimples and blackheads, with either dry or oily skin, can be readily removed by massaging the face and neck with myrror. Miss Frances—Those people who are too thin, who are weak and puny in body, with scrawny arms, shoulders and bust, can readily increase their weight, improve the quality of their blood, by taking regularly for several months the following: "Nutrient codonopsis compound one ounce, compound sarsaparilla compound five ounces, mix and take from 1/2 to one teaspoonful before meals and the same after meals. Use take 2-grain hypo-phosphate tablets as per directions accompanying sealed package. As much as two to six pounds a week should form a goal on the abnormality.

John Henry K.—Chronic constipation is another of mankind's afflictions, which has always been troublesome to remedy until the following prescription was originated in one of our large hospitals. This not only relieves pleasantly and promptly, but it really cures the most chronic cases ever brought to my attention: Compound essence cascara one ounce, aromatic cascara one ounce and syrup of rhubarb 2 ounces. Mix and take from 1/2 to 1 teaspoonful after each meal and one when retiring. Children less according to age. If given to children it prevents much sickness and contagion.

Retall—For sores, swollen, itching, aching, calloused feet I can recommend nothing better than the following: Obtain two ounces of salicylic powder, to a gallon of steaming hot water add a teaspoonful of the powder and immerse the feet, soaking them from top to twenty minutes every night. This draws out the poisons and soreness, removes corns, bunions, callouses, etc., and enables any one to go on their feet many hours daily.

Fairy—If your hair is "greasy," oily and dead in luster, you can quickly restore its luster and eliminate the oily appearance and at the same time cure the worst case of dandruff and itching scalp. Obtain a four-ounce jar of plain yellow myrror and use as per directions accompanying same. Beautiful, lustrous, dirty hair will be your early reward.

J. K. L.—The most effective local treatment for rheumatic swelling and pain in the arms and limbs is a poultice made as follows: Sulphur 1 pound, 700-grain tablets 20 grams, pure vinegar sufficient to make a thick ointment or paste. Mix into a paste and apply one-fourth inch thick over affected parts, renew with several layers of cotton bandage and leave on 24 hours. Two or three applications will eliminate the pain and swelling. Be careful in diet, and use 3-grain sulphur tablets to keep the bowels active.

Miss Frances—Those people who are too thin, who are weak and puny in body, with scrawny arms, shoulders and bust, can readily increase their weight, improve the quality of their blood, by taking regularly for several months the following: "Nutrient codonopsis compound one ounce, compound sarsaparilla compound five ounces, mix and take from 1/2 to one teaspoonful before meals and the same after meals. Use take 2-grain hypo-phosphate tablets as per directions accompanying sealed package. As much as two to six pounds a week should form a goal on the abnormality.

Advertisement for Pioneer Automobile Company featuring an image of a vintage car. Text includes: 'What the Doctor Said', 'Outdoor folks are happy folks. They are happy because they are healthy. Healthy, happy folks are the kind who seem to get along well in this world, too. The grouch is a condition of liver, not of mind. Fresh air is the great tonic. Sunshine the great vivifier. The other day a doctor said to one of our men, "Some of the doctors will be cutting your automobile fenders off their calling lists." "How's that, doctor?" "Because you cut them out of so much work. As soon as you sell a man a car you put him in the fresh air, and keep him there. He doesn't have much need for our services after that." "But just the same," he continued, "I like my car and couldn't get along without it. I can do twice as much work, and do it easier, than before I got this willing worker to help me. Automobiles mean that good doctors will do more and more of the doctoring, poor ones, less. That's no small service for the automobile to render the public. Anything that will double a man's time and efficiency is a pretty fair investment. Furthermore, the car keeps me feeling keen all the time." "And still better, it gives me time with my family. I take them out to the country every day or so where the children can get on friendly terms with birds and trees and pigs and chickens and ducks and green fields and flowers and a thousand and one other things that edify and entertain children. Incidentally, the fresh air keeps the roses blooming in their mother's face. We certainly have great times together—the family and the car and I." The doctor's experience is typical of thousands. Once used, the motor becomes a necessity. When you think of all a car will do for you, the cost seems very small indeed. The value of a thing depends upon the service it will render you—not upon the price you pay. The price of any good car does not nearly represent its value in service. The most progressive people make use of the motor car just as they make use of other wonderful time-saving, health-conserving things in this modern, busy age. You need a car, and if you can possibly afford it, you ought to give your family and yourself the pleasure of having one. Pioneer Automobile Company, SAN FRANCISCO, CAL.
