Boyswomen Hold Thrilling Regatta on Lake Merritt

SENIOR GIRLS WIN AN EXCITING RACE

Annual Regatta of University Women Breaks All Former Records

OAKLAND, Feb. 22.—More than 500 spectators, including a large sprinkling of university students, saw the annual regatta on Lake Merritt this morning, held by the women students of the University of California. Five crews took part in the interclass boat race, one of the features of woman's day, celebrated each year by the women students of the university, and the contest was one of the most exciting ever held on the lake. The fair rowers were dressed in sailor suits with the numerals of their class worked into the backs of their costumes. They made a pretty picture as they lined up for the start. For the entire half mile from the landing of the Kendall boathouse to Adams point the five crews made a dash for the lead, the juniors finished third and the sophomores fourth.

The start was made promptly at 10:30 o'clock. The contestants, who had been training hard for the week, were in the pink of condition and it was apparent after the finish that a number of the young women had barely been winded by the trying pull and were almost as fresh as at the start. The race was commented on by a number of experts who were present. Tom Kendall, the veteran boatman, saying it was the best contest ever held on the lake. Another to praise the efforts of the athletes was Frank Shay, a well known oarsman of the Pacific coast, who said he had never seen a prettier contest.

The members of the winning crew were Cora Wieder, coxswain; Ethel James, stroke; Irene Patchett, bow. The postgraduate crew was composed of Mabel Pierpont, coxswain; Adele Brown, stroke; Claudia May, picket; Ethel James, third in the race; Elizabeth Craven, coxswain; Grace Hamilton, stroke; Italia de Jarnette, bow. The sophomores, who finished fourth, Irma Kendrick, coxswain; Katherine McCabe, stroke; M. Merced, bow. The freshman crew, which came in last, Ella Wall, coxswain; Winifred Bridge, stroke; Ethel Murray, bow.

Campus Quintet, by Victory From Normalites, Claims the State Championship

BERKELEY, Feb. 22.—By a decisive victory over the team from the San Jose normal school on the Hearst hall courts, the University of California women's team established a strong claim to the basket ball supremacy of the state. The normal team was one of the strongest in the state last year. Despite the score of 25 to 9, the game was hard fought throughout. The fast work of the California forwards and the phenomenal goal throwing of Katherine Ashby, the captain, were mainly responsible for the victory. Penalty throws from the foul line gave the normal girls their only scores of the game. Grace Wilson and Ada Thornburg were the stars of the San Jose team.

The seats at the court were filled long before the game was called, and the crowd reached a fever pitch of excitement during the first stages of the game. The teams lined up as follows: California: Goals—Katherine Ashby, captain; Lois Zwick, substitute; Daisy Newby, Guards—Doris Spencer, Madge Spencer, Edith Pualis; substitutes—May Crista, Centers—Zoena Buck, Frances Jackson, Harriet Judd, Florence Cassidy. California held a practice match during the intermissions of the basket ball game. The games were more of an exhibition than anything else and the winners of the different matches were not declared. A number of the contests were exceedingly good, considered from an amateur standpoint, and showed that the sport had developed greatly since it was introduced into the list of university sports a few years ago. The Stanford girls who took part were the Misses G. B. Davis, R. Bennett, E. Burrow, A. Benjamin, H. Bachelor, F. Woodhead, H. Volkmar. The Blues won with 4 1/2 goals to their credit, the Whites, on Lord Innes-Ker and Lord Tweedmouth played, falling to score in the eight periods.

The Whites were awakened today by the fact that Cheever Cowdin, an American player of national fame, who was to play No. 2, was taken suddenly ill and forced to undergo an operation. His place on the team was taken by Harry Gordon Pattee, captain of the Riverside polo club, who is an excellent player, but who had not been in the game this year. Bushers Do Better Than Veterans, but They All Look Alike to Pitcher Mobley

[Special Dispatch to The Call]

By W. H. KILLAM

MODESTO, Feb. 22.—The Seals performed today before the critical eye of Manager Danny Long and, although they were shut out by the famous Modesto Reds by a score of 2 to 0, he was delighted with their showing and is now certain that he has gathered a bunch of pennant winners. A perfect day and more than 1,000 fans added to the pleasure of Manager Long's first appearance on the training grounds.

Long did not work any of the veteran pitchers, leaving the mound work to the youngsters. The pitching prima donna, Henry Browning and Sutor, did the honors at the gates and grabbed the admission pasteboard; Estabey opened the game and pitched five innings, two hits being secured, steady game, but did not attempt much in the line of curves or fancy work. He was followed by Buckingham, the young southpaw from Vacaville, who struck out the first three men to face him and sent two more to the bench by the same route during the three innings he was in the box. The lad had a good delivery and with a little polishing will make good in fast company. Fielder pitched the last inning, but had little opportunity to show what he could do.

ENTRY BLANKS OUT FOR PREP MEETING

Pacific Coast Interscholastic Management Makes Ready for Track Games

BERKELEY, Feb. 22.—At a special meeting of the executive board of the Pacific coast interscholastic meet held this afternoon, entry blanks and registration cards were forwarded to all of the accredited schools of California, Oregon, Washington and Nevada. About 400 invitations have been sent out and during the course of the present week the first replies are expected by the committee in charge.

Chairman Butler read a communication from A. G. Larned, president of the Portland interscholastic league, in regard to the rumored objection of the entry of Hill military academy of Portland by the other schools of the league. Larned stated that the other big secondary schools of Portland, including the Washington high school, would all enter teams in the Pacific coast meet regardless of whether the Hill school would be allowed to compete. It was later received from Seattle high school saying that the school would be unable to send a team south as the board of education of the northern city had decreed that none of the secondary schools of Seattle could compete outside of the state of Washington. However, as the meet is to be held under the auspices of the University of California, it is rumored that there is a possibility of a special dispensation to the men entered.

Final action was taken in regard to the medals which are to be awarded the winning athletes in the Pacific coast meet. A drawing of the beautiful football statue on the campus near the oval, which has long been symbolic of blue and gold athletic superiority, is to be struck on the medals, which are to be the most costly ever awarded at a preparatory school meet. The statue is the center figure of a composite design, characteristic of the University of California. The medals will be made up in gold, silver and bronze for each event.

S. S. S. CURES CATARRH

The diagnosis of disease is the first and really most important step in the successful treatment of any trouble. In other words, first find the source or cause, and then use the remedy most naturally and scientifically suited to the condition.

We do not believe there is any disease in which improper treatment is more often used than in Catarrh. So many persons treat the symptoms without giving thought to the causes which produce these symptoms, and the result is that Catarrh is considered incurable by a great many, simply because local treatment has failed to accomplish the desired result.

Every symptom of Catarrh points to impure blood; we are sure a short analysis of the disease and its symptoms will convince any one that this statement is true. First we have irritated and inflamed mucous membranes of the head, nose, and throat, from which there is a constant and copious discharge of watery matter. This comes from inflammation of these mucous surfaces and is caused by catarrhal matters and impurities in the circulation. Nature intends that these membranes shall all be nourished by the blood, and so long as this vital fluid is pure it satisfactorily performs this necessary work, but waste matters and impurities deposited into these delicate parts sets up inflammation, and the discharge is a natural result. When this secretion begins to dry it assumes thicker proportions and becomes sticky; then it adheres to the throat and upper back portion of the mouth, causing the "hawking" and straining so troublesome to Catarrh sufferers.

Other ordinary symptoms of the disease are headaches, pains above the cheek bones, roaring sounds in the ears, etc. These symptoms too point directly to diseased blood, and are caused by congestion of the circulation. The impurities and catarrhal matters in the blood stream interfere with its easy and natural flow, and it becomes feverish and thus affects the delicate fibres and membranes of the throat and head.

S. S. S. cures Catarrh by cleansing the blood of all impure catarrhal matter, and at the same time building up the system by its unequalled tonic effects. It goes down into the circulation, and removes every trace of impurity or foreign matter. In other words S. S. S. cures Catarrh by purifying the blood so that the mucous surfaces and linings of the body are supplied with healthy blood instead of being constantly irritated and diseased from the saturation of catarrhal impurities. Then the inflamed membranes heal, the discharge is checked, the head noises all cease, the stomach is toned up, the throat is no longer clogged with phlegm, but every annoying symptom of Catarrh is corrected. There is but one way to cure Catarrh—purify the blood, and there is but one absolutely safe and sure blood purifier—S. S. S. We have a special book on Catarrh; we will send this book, and also any medical advice desired free to all who write.
