Includes text: "IN 1898 The London Lancet, after a careful examination of Scott's Emulsion reported that 'the preparation fulfills ALL the requirements and presents ALL the conditions of a very satisfactory emulsion. In appearance and consistency it is not unlike cream and under the microscope the fat globules are seen to be of perfectly regular size and uniformly distributed. So well has the oil been emulsified that even when shaken with water the fat is slow to separate. The taste is decidedly unobjectionable and the Emulsion should prove an excellent food as well as a tonic.'" and "We believe no other preparation of Cod Liver Oil has received such weighty commendation and if the same high authorities were to examine it now they would find it even finer, more digestible, more palatable and more satisfactory in every way; in fact, SCOTT'S EMULSION has so long been the one satisfactory and perfect Emulsion that it is accepted as the standard by medical practitioners all over the world, by the public and by hundreds of imitators, for it is the one and only Emulsion limited." and "The imitations are in name only for no other preparation of Cod Liver Oil is so pure, so perfect and so beneficial." and "SCOTT'S EMULSION has become the world's Standard Body-Builder because of the perfect purity of its ingredients, its absolute freedom from ALCOHOL or any other harmful substance and because the results from it are uniform and far greater than from any other preparation." and "ALL DRUGGISTS".
